Small steps. Big change.

You can do a lot in One Day.

Potluck Lunch
Oct 8

Bring your favourite local-grown edible eats to share.

Celebrate the season, cut down on the energy used to transport food (the ingredients in the average meal travel up to 4,000 kilometres to your plate), support our local farmers and have an excuse for a mid-day social gathering with your colleagues.

[Insert Organization Name Here] is part of One Day – a City of Vancouver initiative to make Vancouver the cleanest, greenest, healthiest city in the world. Every week, for ten weeks, [insert organization name here] employees will receive a reminder of the small things we can do at home, at work and on the road to reduce energy consumption.
