Ana Policzer

INTRODUCTION

The following inventory has been compiled to assist community groups and organizations in finding appropriate venues for their activities and community events. It contains information on a variety of venues including community centres, neighbourhood houses, recreation centres, ethnocultural community centres, community schools, churches, and other organizations with space for community activities.

The inventory contains detailed information about the spaces available in each venue. It has been arranged by venue type: community centre, community hall, neighbourhood house, etc. Information about each venue includes address, contact person and phone number, equipment available, general booking policy, list of rooms available, capacity, and rental price.

The rental fees listed in the inventory are the current rates for Non-Profit Societies as of March 31, 2003, not including GST. Charges may change without notice; please phone to confirm current rates at time of booking.

Several centres provide spaces free of charge. The inventory provides this information when available. In addition, some organizations may be prepared to provide free space in special cases, though they may not have a general free-space policy. If you need a space free of charge, contact the appropriate person at the venue of your choice, explain the event or activity you are planning, and ask for assistance regarding free space. You may be asked to write a letter describing your proposed event; in some cases, a person may be available on the premises to assist you with your request. You may also request assistance from MOSAIC in finding an appropriate venue and to obtain free space.

At the end of the inventory there is an additional list of venues that may also have space available for the activity or event you are planning.

The City of Vancouver has entered into agreements with various facilities to provide free space for community activities at certain times. A list of these facilities and the available spaces is included on the last page of this inventory.

MOSAIC is also preparing a Web site that includes the information contained in this inventory. The Web site will make it possible to obtain a list of venues by category: capacity, rental price, location, etc. Please contact MOSAIC to find out when this Web site will be available.
