

# Short Rain Barrel: Limited-time Offer

## COLLECT RAINWATER FOR LAWNS AND GARDENS

The City of Vancouver sells rain barrels to residents, subsidizing the price by 50 per cent. The barrel has both a connection for a soaker hose and a faucet for a watering can to allow flexibility in watering.

When a little is all you need, the short rain barrel is a great option for smaller outdoor spaces.

Ideal for small gardens, the short rain barrel has the same great features and design as the full-size rain barrel but with a smaller footprint.

### SHORT RAIN BARREL FEATURES

- Dimensions = 38 cm x 76 cm base and 86.4 cm high (15" x 30" base and 34" high)
- Water capacity = 170 litres (37 imperial gallons)
- Half barrel design sits flush against side of house
- Two faucets to accommodate hose and watering can
- Allows for safe overflow
- Child-proof opening
- Mosquito screen
- Manufactured from recycled plastic

### COST

Short rain barrels are available to City of Vancouver residents only at the subsidized cost of \$50 plus tax. Proof of residency is required. Limit of two per household. Available while supplies last.

Accepted payments: cash, cheque, debit/credit card.
