ENTRANCES IN RS DISTRICTS

Authority - Director of Planning
Effective November 28, 1990
Amended April 4, 2005

Section 4.17.1, of the RS District Schedules should be consulted to determine what restrictions, if any, exist regarding the number of front and/or side entrances that can be provided.

Where restrictions do apply, the following diagram is a guide to certain types of entrances that could be considered front or side entrances.

- (1) Entrances in locations **a**, **b**, **c** and **d** are considered to be side doors.
- (2) An entrance in location **z** would be considered the front entrance of the building.
- (3) Entrances in locations **x** and **y** would be considered rear entrances.
- (4) Entrances in location **x**, **y** and **z** will be considered side entrances if they exceed a setback of 25% of the building depth measured from the outermost front or rear of the building.
