

Welcome to the Oakridge Centre Policy Planning Program Open House

Why Are We Here?

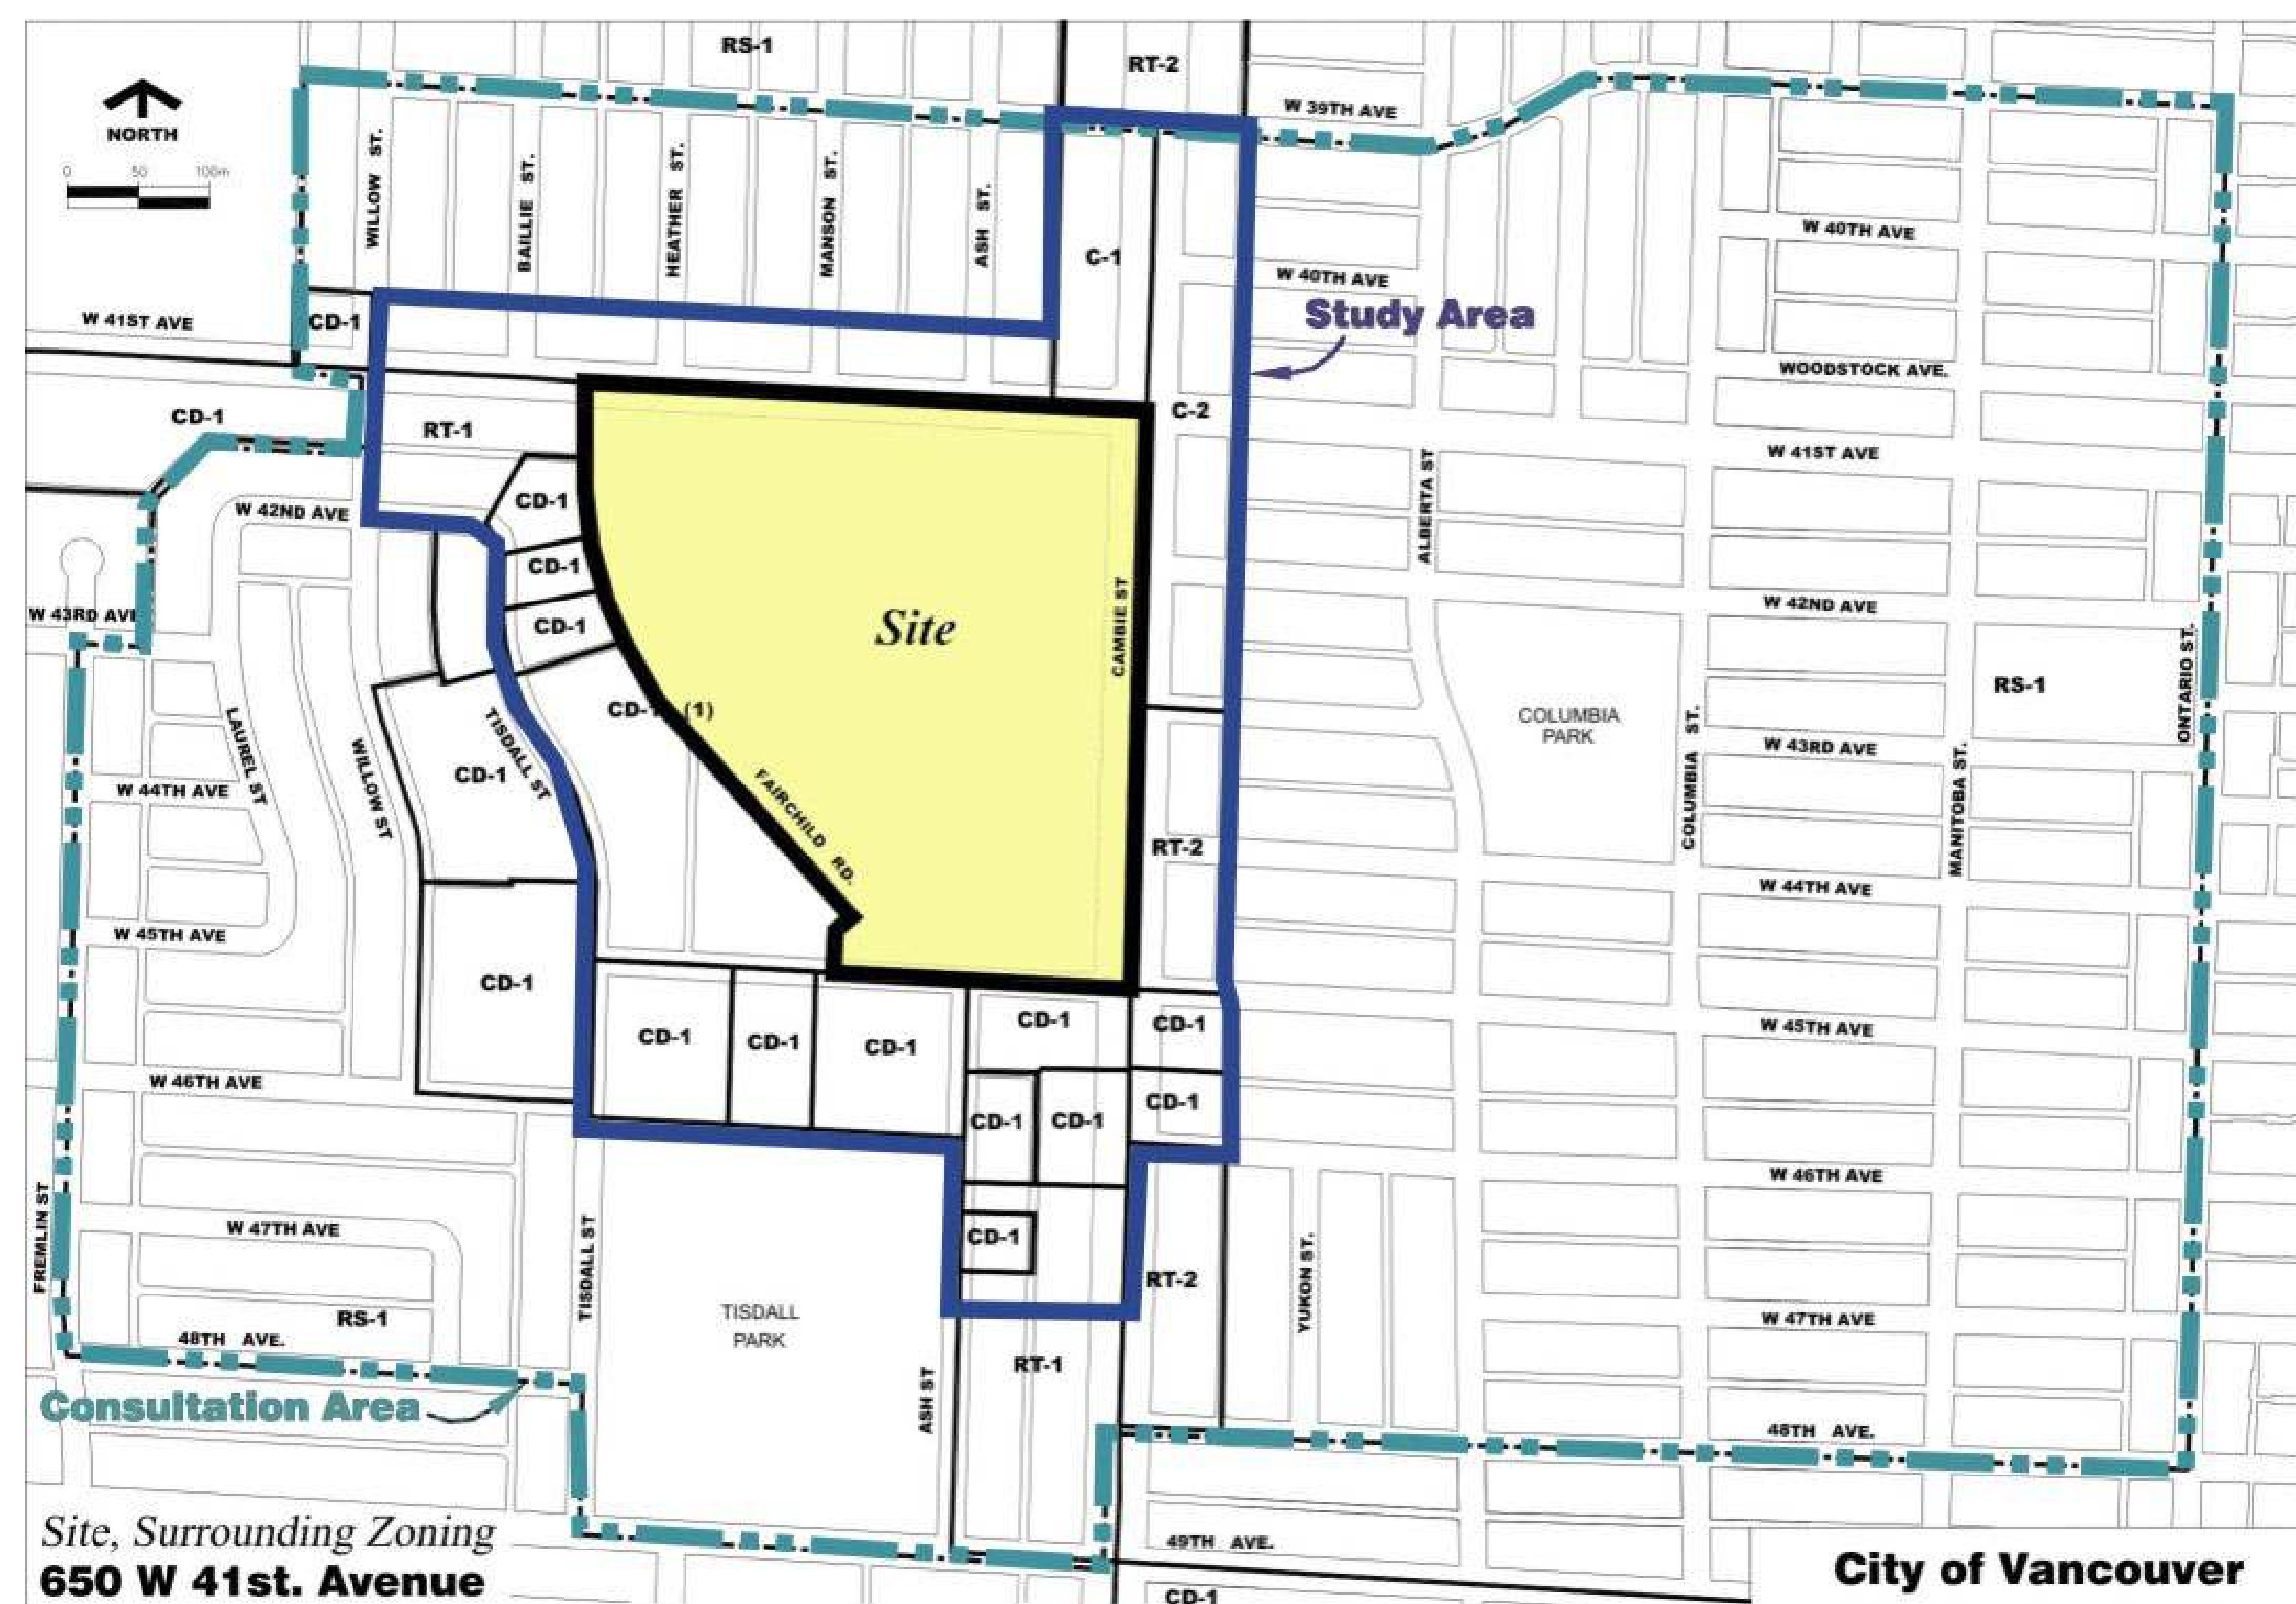

Since it first opened in 1959, Oakridge Centre has changed greatly, and will continue to change over time. This Open House is an opportunity for you to contribute your input and ideas to help guide the redevelopment and evolution of the site over the next 20 years.

City staff are working with Ivanhoe Cambridge (the owners of the site) and their representatives, and with Norm Hotson of Hotson Bakker Boniface Haden Architects (urban design consultant to the City), to explore new planning policy that could enable a more sustainable mixed-use urban neighbourhood at the Oakridge Centre site.

How Can I Participate at this Open House?

- tell us where you live or work by placing a dot on the map
- view the information boards on things that may evolve on the Oakridge Centre site over the next 20 years
- talk to staff and consultants
- fill out a comment sheet
