

Transportation Needs

| | TRANSPORTATION MODE | TRANSPORTATION NEEDS |
|----------------------------|--|--|
| PEDESTRIAN | Waterfront walkway | Extension of waterfront walkway through the Hub area. |
| | Sidewalks | Wide sidewalks to accommodate large pedestrian flows and transit shelters. |
| | Pedestrian connections - SeaBus, Expo line, WestCoast | Separation of pedestrian crossings where large masses of people transfer between modes. |
| | Pedestrian connections to stadium (if it proceeds) | Exiting and crowd marshalling from stadium events without closing streets. |
| | Pedestrian connections to convention centre | Examine ways to provide connections to the convention centre. |
| | Pedestrian at-grade crossings | Improve pedestrian connections across Cordova and ensure good crossings along new roadways |
| CYCLING | Cycling | <ul style="list-style-type: none"> - Extension of the walkway/bikeway through Hub area. - Incorporate bikeade for end-of-trip facilities and bicycle storage within the Hub. - Examine ways to improve bicycle connections to/from the Hub. - Bike Sharing facility? |
| BUS | Public transit | Allow for bus stops for minimum of 5 transit buses at one time. Multiple routes share stop locations. |
| | Private charter/tour buses | Allow bus pick-up and drop-off of charters etc. that do not interfere with Hub functions and associated development. |
| MARINE | Seabus | <ul style="list-style-type: none"> - Examine Seabus locations that will maintain or reduce connection time. - Allow for future expansion (likely 3 berths with the potential to share with ferry operators). |
| | Ferries | Look for ways to accommodate passenger ferry services and connect to other modes. |
| | Cruise ship berths | Preserve operation of current cruise ship berths and possibility of expansion. |
| | Shorter link ferries | Examine locations for future ferry docking for services like Aquabus and False Creek Ferries. |
| | Marine activities | Examine potential for future marine activities, examine what uses would be part of this (charters, rentals, etc.) |
| RAIL | Light rail (Rapid Transit) | Examine ways to improve transfers between Expo and Canada lines, examine opportunities for future light rail. |
| | Streetcar | Examine locations to accommodate streetcar station with good link to light rail. |
| | Heavy rail | Allow for addition of another heavy rail platform. Maintain goods movement and examine expansion requirements |
| AIR | Helijet | Examine options for a permanent location within the Hub area with good connections to other transit modes. |
| PARKING/LOADING | Large truck loading/servicing | Ensure adequate loading zones and separation from areas with large pedestrian volumes. |
| | Parking | Determine requirements for on-site parking. |
