

# Transportation Objectives

## Transportation Objectives

Improve pedestrian transfers between different transit systems:  
*Skytrain, West Coast Express, Bus, Seabus, Helijet.*

Provide a safe, comfortable, attractive interchange and waiting environment for transit passengers.

Enable expansion of existing transit services and introduction of new transit modes.

Provide opportunities to expand marine facilities (passenger ferries, marina etc).

Enable direct pedestrian connections to downtown districts and major facilities.

Extend the downtown waterfront walkway/bikeway from Canada Place to Crab Park.

## Continued...

Improve bus circulation and expand curbside bus stop locations.

Improve drop-off arrangements for tour buses, charter buses and taxis.

Improve cycle connections and provide secure cycle parking and end-of-trip facilities.

Maintain adequate car parking to support existing and new development.

Ensure adequate vehicle access and servicing for existing and new development.

Enable access to potential future Port land development to the east.
