

## APPENDIX H: Vancouver Landfill Compost Sales

The City of Vancouver sells compost products which are produced at the Yard and Garden Trimmings Composting Facility at the Vancouver Landfill.

### Product

Screened Compost: most often used by the backyard gardener

- \$10/m<sup>3</sup> with minimum \$5 charge, up to 5m<sup>3</sup>
- \$6/m<sup>3</sup> more than 5m<sup>3</sup>

Small quantities of compost can be picked up from the Landfill. Shovels are available on site, but you will need to bring your own containers. A loader is available to load residential vehicles anytime between 7:30 am and 4:45 pm daily at the Residential Drop Off area. For quantities over 11 m<sup>3</sup>, a loader is available from 7:30 am and 5:00 pm daily at the Composting site.

Large quantities of compost can be delivered. An 11 m<sup>3</sup> dump truck load costs \$231.12 (which includes load, GST and delivery). For customers wanting to share a load, compost can be dumped in two locations for an additional charge provided they are reasonably close to each other.

For quantities of compost less than 6 m<sup>3</sup>, payment is at the weigh scales. For quantities of compost greater than 6 m<sup>3</sup>, please contact the Landfill Administration Office at 604.940.3213.

Requests for compost donations are typically granted for community-based projects, such as community gardens, and for public projects on public lands in Vancouver and Delta. Compost is provided free of charge to groups with non-profit status.

Please call 604.940.3213 for more information or to make arrangements for delivery.
