PLACE: Committee Room 2, City Hall

*Please RSVP to Gertjan Hofman ghofman@gmail.com and
David Lewis david.lewis@vancouver.ca 604.871.6437*

1. Georgia Pedestrian Link Project 5:35-5:55

Matthew Bourke

The Georgia Pedestrian Link (Georgia Viaduct to Pacific Blvd) will connect False Creek to the Central Core of Downtown Vancouver. Staff received excellent advice from the BNSC in the summer of 2009 and provided an update on the project to the BAC last fall. The Persons with Disabilities Advisory Committee, the Urban Design Panel, and the broader public have also provided advice. The consultant retained for this project has refined three design concepts and will be producing cost estimates for each design. Staff would like to meet with the BNSC and/or the BAC in the spring of 2010 to present the refined designs and cost estimates and receive feedback. Feedback received will be incorporated into the final refinement of the conceptual designs and recorded in the consultant's final report to be completed in late spring. The design concepts, public feedback, and cost estimates will play an important role in guiding the future planning and redevelopment of the lands on the east side of BC Place Stadium and the larger Northeast False Creek neighbourhood.

2. Grandview Woodlands traffic calming signage 5:55-6:10

Ross Kenny

A traffic calming trial is currently underway in the Grandview-Woodland Community, Ross Kenny to discuss and update the BNSC on the signage that has been used at some intersections in the neighbourhood. This item is for information.

3. Marine Gateway 6:10-6:30

Dave Kim

Engineering and rezoning staff presented in November 2009 the proposed Marine Gateway development and responded to questions regarding bike parking, trip linking and extension of the Canada Line Bridge. Dave Kim will be updating the BNSC on the project's bike facilities as the project moves forward.

4. Kitsilano secondary school 6:30-6:50

Dave Kim

Kitsilano secondary school, bounded by Larch, 10th, Trafalgar and 12th, is proposing some changes such as relocation of auditorium, addition of a soccer field and some other minor changes. Number of student enrolment and number of school employees will not change.

Currently, there is vehicular access from Trafalgar, which is a bike route. The parking is currently at grade. We are requiring them not to increase any vehicle numbers on Trafalgar and provide three times the bike parking as required by the parking bylaw.

5. Downtown separated bike lanes 6:50-7:20

Lacey Hirtle and Krisztina Kassay

Engineering staff to discuss Phase-1 and Phase-II of the Downtown separated bike lane project. Staff to update BNSC on timeframe, public consultation and facility design.

6. Other Business

Next Meeting:

DATE: Tuesday, May 11, 2010
TIME: 5:30 p.m. to 7:30 p.m.

Location: Strathcona Room, Subground, City Hall
