

File No. 04-1000-20-2016-209

September 8, 2016

s.22(1)

Dear s.22(1)

Re: Request for Access to Records under the Freedom of Information and Protection of Privacy Act (the "Act")

I am responding to your request of June 16, 2016 for:

Regarding the June 16, 2016 news conference at the SkyTrain operations headquarters (attended by Mayor Gregor Robertson and other city staff and officials) and associated content and communications: The strategic communications and media plan, including the Event Proposal, Visual Messages, Written Messages, Rollout, Media Plan, Strategic Communications, Media Relations, Q&As and Event Information, Speaking Notes and correspondence about the scheduling of the event, creation of quotes contained in any news releases and other content of the releases.

All responsive records are attached. Some information in the records has been severed, (blacked out), under s.13(1), s.15(1)(l), s.16(1)(a) and s.22(1) of the Act. You can read or download these sections here:

http://www.bclaws.ca/EPLibraries/bclaws_new/document/ID/freeside/96165_00

Under section 52 of the Act you may ask the Information & Privacy Commissioner to review any matter related to the City's response to your request. The Act allows you 30 business days from the date you receive this notice to request a review by writing to: Office of the Information & Privacy Commissioner, info@oipc.bc.ca or by phoning 250-387-5629.

If you request a review, please provide the Commissioner's office with: 1) the request number assigned to your request (#04-1000-20-2016-209); 2) a copy of this letter; 3) a copy of your original request for information sent to the City of Vancouver; and 4) detailed reasons or grounds on which you are seeking the review.

Please do not hesitate to contact the Freedom of Information Office at foi@vancouver.ca if you have any questions.

Yours truly,

A handwritten signature in black ink, appearing to read 'B. Van Fraassen', with a long horizontal flourish extending to the right.

Barbara J. Van Fraassen, BA
Director, Access to Information
City Clerk's Department, City of Vancouver

Subject: Broadway Subway Funding

A small note of thanks to the whole City staff team who have worked tirelessly on this file over many years making our case for provincial and federal funding, including one of the longest and toughest referendum campaigns in history!

Thursday's funding announcement was significant, and although there is much more work to be done in the weeks, months and years ahead to keep the project moving forward, we can't forget to recognize these milestones along the route.

Please pass along to any others who have also worked on this project.

Onwards!
Marnie

Subject: Checking In

Hi Bruce-

How are you? Nice to see you a few weeks ago. Do you have time tomorrow morning for a quick chat about the transit file? Mike Buda and I are dividing up some calls in advance of a potential announcement on Thursday.

Thanks, and speak to you soon.

Subject: Mayors' Council - CALENDAR HOLD: Phase 1 funding announcement on Thursday morning with PM

Importance: High

Members of the Mayors' Council,

As I mentioned in my email on Friday evening, the announcement on funding for the first sub-set of priorities in the 10-Year Vision delivered through Phase 1 Public Transit Infrastructure Funds (PTIF) will be made on **Thursday, June 16 at 10:30AM** with the Prime Minister, Premier and the Mayors' Council. The announcement will be made at the **SkyTrain Operations and Maintenance Centre (OMC) adjacent to Edmonds Station** in Burnaby. The news of the is **announcement is still under embargo, so please do not disseminate this information widely.**

The event will likely include a photo op with the PM, and a media conference with the Prime Minister, Premier and representative(s) from the Mayors' Council. All Mayors' Council members are invited to attend the event and to be available for media comment following the media conference. Local MPs and MLAs will likely also be present.

I would **suggest arriving by 10AM**. The event will conclude no later than 11:30AM. More specific details to come once they are confirmed.

Later today or tomorrow morning, I will circulate a briefing package with more background on the announcement, including a detailed list of Phase 1 projects (a summary list was sent to you on Friday evening), and the media messaging that the Chair and Vice-Chair will be using that day.

Subject: Mayors' Council: follow from today's conference call - letter to Min. Fassbender; draft Phase 1 list

Members of the Mayors' Council,

As follow up to today's conference call, please see attached for a letter Mayor Robertson just sent in response to Minister Fassbender's earlier letter, about an announcement next week on Phase 1 transit funding. Also, attached, as discussed today, is the latest draft list of Phase 1 eligible projects from the Vision, for submission to BC and the federal government for next week's announcement.

Early next week, as Mayor Robertson noted today, I will circulate the media messaging he proposes to use at the announcement on Thursday.

Subject: CALL DELAYED UNTIL 12:30pm: Mayors' Council CONFERENCE CALL today
Importance: High

Members of the Mayors' Council,

The Chair would like to **delay our conference call today from 12PM, until 12:30PM**. We are still waiting for a draft agreement from Minister Fassbender to review on this call. The draft has not yet been sent, after a full morning of staff-level negotiations, but we understand its arrival is imminent.

The conference call dial remains **s.15(1)(l)** and the access code is **s.15(1)(l)**

To: Mayors Council
Subject: Mayors' Council CONFERENCE CALL on Friday, June 10 at 12PM
Importance: High

Members of the Mayors' Council,

As was discussed tonight at the Joint Meeting of the TransLink Board and the Mayors' Council, Mayor Robertson would like to schedule a **conference call of the Mayors' Council tomorrow**

(Friday, June 10) from 12PM to 1PM to check in on the status of federal-provincial-regional negotiations on Phase 1 transit funding.

Depending on how discussions proceed overnight and tomorrow morning, there may be a reasonable offer on the table to review. There is some uncertainty as to whether a reasonable deal will be ready, but as was agreed tonight, the direction was to schedule a call so there is a venue available. A follow up face-to-face meeting will be scheduled next week or later as required based on discussions during the conference call.

The conference call dial in is s.15(1)(l), and the access code is s.15(1)(l)

Here is the latest draft of NR. That should help them

TransLink Mayors' Council Welcomes \$616 Million in Federal and Provincial Transit Funding

New dollars a promising first step to action the 10-Year Vision, including Broadway and South of Fraser Rapid Transit planning, SkyTrain station upgrades, new rapid transit cars, and a third SeaBus

June 16, 2016 (Vancouver, BC) – Today, the Mayors' Council welcomed \$616 million in new investment from the Government of Canada and the Province of BC towards 14 capital projects from the first 2-3 years of the *10-Year Vision for Metro Vancouver Transit and Transportation*.

"The Mayors' Council welcomes the federal government as a partner in improving transit and mobility options in Metro Vancouver," says Mayor Gregor Robertson, Chair of the Mayors' Council. "This new investment is a good first step in turning the Mayors' Council's 10-Year Vision into a real projects on the ground that will benefit hundreds of thousands of transit riders and commuters in Metro Vancouver."

TransLink will match federal and provincial contributions with a \$125 million regional capital investment, towards the total \$740 million of projects submitted to the federal government's "Phase 1" Public Transit Infrastructure Fund program that will allow TransLink to begin work on a sub-set of the priorities outlined in the first 2-3 years of the capital projects in the 10-Year Vision, including:

- Investing \$345 million to modernize and expand existing rapid transit lines by adding 28 SkyTrain, 22 Canada Line, 5 West Coast Express cars, and a third SeaBus, as well as overhaul stations along the Expo Line and Canada Line, and bike parkades on Evergreen.

- Allocating \$157 million towards planning and pre-construction work on the Broadway and South of Fraser Rapid Transit projects to keep these projects on track for full funding, procurement and ground-breaking within 18 months.

- Investing \$94 million to modernize and prepare the bus and rail network for subsequent phases of the 10-Year Vision by upgrading key transit exchanges including Lonsdale Quay, Phibbs Exchange, 22nd Avenue Station, Commercial-Broadway, Guildford and Newton.

- Continuing state-of-good-repair work to modernize and improve transit reliability.

"I applaud the Prime Minister's leadership in building better transit.. After years of talking about the need for modernized and new transit service, with this Phase 1 funding, we are finally transitioning into action," said Surrey Mayor Linda Hepner, Vice-Chair of the Mayors' Council. "I am also proud that we are the first jurisdiction in Canada to sign this agreement, which will help us stay at the front of the process to secure Phase 2 funding."

Earlier this year, the Mayors' Council [put forward a comprehensive proposal](#) to the BC government to fund the entire 10-Year Vision. The Mayors' Council will continue to work with the Province of BC to finalize an agreement on a funding strategy to [ensure there are clear commitments to the entire 10-Year Vision](#), including moving immediately on Phase 1 projects and other "Early Roll-out" priority projects in the first two to three years of the 10-Year Vision. A provincial commitment to this funding strategy is a key step in enabling regional funding for Phase 1 and other Early Roll-out plan related projects over the next several months.

CKNW NEWS ALERT

The Federal and Provincial governments, along with Metro Vancouver mayors, have reached a basic agreement on some aspects of the 10 year transit and transportation plan. Prime Minister Trudeau will be in town tomorrow to speak to the issue. How to pay for the region's 17 percent share of funding remains a work in progress.

I realize that most of you already know more about this than I, but I just wanted to share some information that Pieter Agneessens (TransLink) just shared with me that relates to the Prime Minister's plans to be in the lower mainland on Thursday (June 16). Pieter provided me with a list of infrastructure upgrade projects that they would be referencing within Vancouver:

- 1) **Joyce-Collingwood Station Upgrades** – Phase 2 (east bus loop)
- 2) **Burrard Station Upgrades** – Secondary entrance/exit
- 3) **Broadway/Commercial** – 99 B-line bus canopy

No surprises here. Let me know if you have any questions.

Cheers,

Subject: June 16 PM visit

Hi folks,

PMO advance met with Marc Riddel (VP of Comms at TL) this morning to look at possible venues for the presser on Thursday with the PM. Here are the details so far:

- **Likely location:** Skytrain Ops and Maintenance Centre at Edmonds Station (they also want to look at the bus depot but I am going to nix that, mostly because this money isn't for buses, s.13(1))
- **Time:** bilateral mtg with CC at 9am; presser at 10:30am; he needs to leave for downtown for another meeting at 11:15am
- **Scenario:** just after 10, JT, CC, GR, LH and likely a few others will board a new Mark III train to do a loop around the OMC and then roll into the maintenance barn just before 1030; descend and do the presser in front of the train

I am going to check in with Sohi's office now on a few things:

- We need to confirm specific role of GR and LH, as well as other MC members at the event. The advance team was a little vague on that.
- It feels like a bilat with the PM and key MC members before or after his mtg with CC would be helpful in terms of our messaging around the GoC being a partner of cities, etc.
- s.15(1). Altho not a huge deal, this feels like a bit of a wasted opportunity – would be good to prod this a little more.
- Need to start agreeing on some messaging.

I am working on some draft messaging, etc. now. Will send over shortly and then we should probably plan some time tomorrow to discuss.

Mike

Subject: New Transit Investments for Metro Vancouver

UDI Applauds New Transit Investments for Metro Vancouver

The Urban Development Institute (UDI) wants to congratulate the Metro Vancouver mayors and the Provincial and Federal governments on their announcement today of \$616 million in funding for transit projects across Metro Vancouver.

Today's announcement, including an additional \$125 million from TransLink, is a positive step forward for the region and will help advance key infrastructure projects, such as a third sea bus, additional SkyTrain cars, and planning for LRT in Surrey and the Broadway Subway Line in Vancouver.

"UDI believes that these investments will improve transportation flows across the region and enhance our economic competitiveness," said Anne McMullin the CEO of UDI.

UDI has long supported increased transit and transportation investments in Metro Vancouver. Moving forward, UDI will continue to work with all levels of government to expand our transit and transportation systems and to ensure that they are coordinated with sound land use principles.

Metro Vancouver is one of the fastest growing regions in Canada – with over a million people and 600,000 more jobs coming to the area by 2040. Investments such as those announced today are critical to shaping growth, addressing climate change, and improving housing affordability and economic competitiveness for the region.

Subject: NEWS RELEASE: David Suzuki Foundation encouraged by new transit investment in Metro Vancouver

Attachments: DSF Transit Announcement Media Statement.pdf

NEWS RELEASE

FOR IMMEDIATE RELEASE — June 16, 2016

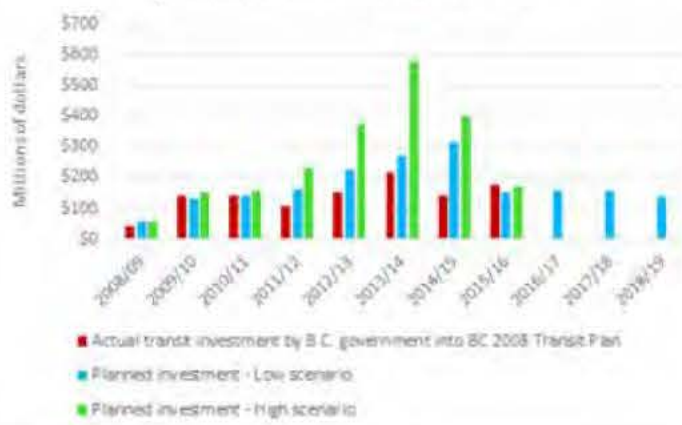

VANCOUVER — Today's transit-funding announcement by the federal and B.C. governments and Metro Vancouver mayors is a positive step on the road to securing long-term investment in transit. Although the Phase 1 funds only ensure funding for the first three years of the 10-year plan developed by the region's mayors, they are enough to guarantee that key infrastructure projects can begin to move forward.

"We are pleased to learn that the province, mayors and federal government have reached an agreement for the first phase of funding for transit in Metro Vancouver," said David Suzuki Foundation science and policy director Ian Bruce. "It's good to see a deal for this first phase of transit investment, but we need a long-term commitment and increased investment."

Recent research by the Foundation shows investment in transit is desperately needed to relieve traffic congestion in Metro Vancouver and to address years of investment deficit and what can be done to fix it", shows the B.C. government identified in 2008 that only 23 per cent of these funds have materialized.

prove and expand Metro Vancouver's transit network with its commitment to 50 per cent funding," required for transit funding in Metro Vancouver, to which we say, 'Hallelujah!'"

NEWS RELEASE

David Suzuki Foundation encouraged by new transit investment in Metro Vancouver

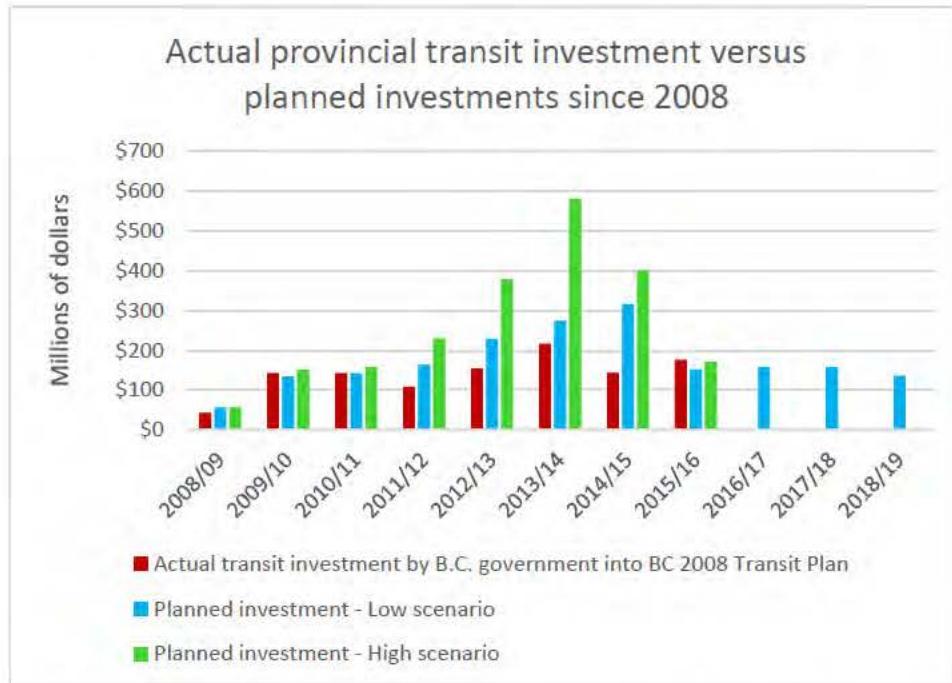

FOR IMMEDIATE RELEASE — June 16, 2016

VANCOUVER — Today's transit-funding announcement by the federal and B.C. governments and Metro Vancouver mayors is a positive step on the road to securing long-term investment in transit. Although the Phase 1 funds only ensure funding for the first three years of the 10-year plan developed by the region's mayors, they are enough to guarantee that key infrastructure projects can begin to move forward.

"We are pleased to learn that the province, mayors and federal government have reached an agreement for the first phase of funding for transit in Metro Vancouver," said David Suzuki Foundation science and policy director Ian Bruce. "It's good to see a deal for this first phase of transit investment, but we need a long-term commitment and increased investment."

Recent research by the Foundation shows investment in transit is desperately needed to relieve traffic congestion in Metro Vancouver and to address years of underfunding. Our recent report, "Breaking gridlock: B.C.'s transit investment deficit and what can be done to fix it", shows the B.C. government identified in 2008 that the province needed to invest \$4.75 billion in transit funding, but only 23 per cent of these funds have materialized.

"We commend the federal government for catalyzing this deal to improve and expand Metro Vancouver's transit network with its commitment to 50 per cent funding," Bruce said. "Presumably this day marks the end of referenda being required for transit funding in Metro Vancouver, to which we say, 'Hallelujah!'"

Subject: Prime Minister to make transit announcement in Metro Vancouver

Hi Kathleen-

We wanted to let you know about the Prime Minister's visit tomorrow.

This is definitely a first step forward, with more work to do to secure the remaining funding for the full plan.

<http://www.pm.gc.ca/eng/news/2016/06/15/itinerary-thursday-june-16-2016>

Draft news release (confidential) is below- please don't circulate but you can use for some of your AMS key messages. The other key coalition group partners have been briefed along with the UBC Administration.

Thanks, and please feel free to call me with any questions.

TransLink Mayors' Council Welcomes \$616 Million in Federal and Provincial Transit Funding

New dollars a promising first step to action the 10-Year Vision, including Broadway and South of Fraser Rapid Transit planning, SkyTrain station upgrades, new rapid transit cars, and a third SeaBus

June 16, 2016 (Vancouver, BC) – Today, the Mayors' Council welcomed \$616 million in new investment from the Government of Canada and the Province of BC towards 14 capital projects from the first 2-3 years of the *10-Year Vision for Metro Vancouver Transit and Transportation*.

"The Mayors' Council welcomes the federal government as a partner in improving transit and mobility options in Metro Vancouver," says Mayor Gregor Robertson, Chair of the Mayors' Council. "This new investment is a good first step in turning the Mayors' Council's 10-Year Vision into a real projects on the ground that will benefit hundreds of thousands of transit riders and commuters in Metro Vancouver."

TransLink will match federal and provincial contributions with a \$125 million regional capital investment, towards the total \$740 million of projects submitted to the federal government's "Phase 1" Public Transit Infrastructure Fund program that will allow TransLink to begin work on a sub-set of the priorities outlined in the first 2-3 years of the capital projects in the 10-Year Vision, including:

Investing \$345 million to modernize and expand existing rapid transit lines by adding 28 SkyTrain, 22 Canada Line, 5 West Coast Express cars, and a third SeaBus, as well as overhaul stations along the Expo Line and Canada Line, and bike parkades on Evergreen.

Allocating \$157 million towards planning and pre-construction work on the Broadway and South of Fraser Rapid Transit projects to keep these projects on track for full funding, procurement and ground-breaking within 18 months.

Investing \$94 million to modernize and prepare the bus and rail network for subsequent phases of the 10-Year Vision by upgrading key transit exchanges including Lonsdale Quay, Phibbs Exchange, 22nd Avenue Station, Commercial-Broadway, Guildford and Newton.

Continuing state-of-good-repair work to modernize and improve transit reliability.

"I applaud the Prime Minister's leadership in building better transit.. After years of talking about the need for modernized and new transit service, with this Phase 1 funding, we are finally transitioning into action," said Surrey Mayor Linda Hepner, Vice-Chair of the Mayors' Council. "I am also proud that we are the first jurisdiction in Canada to sign this agreement, which will help us stay at the front of the process to secure Phase 2 funding."

Earlier this year, the Mayors' Council [put forward a comprehensive proposal](#) to the BC government to fund the entire 10-Year Vision. The Mayors' Council will continue to work with the Province of BC to finalize an agreement on a funding strategy to ensure there are clear [commitments to the entire 10-Year Vision](#), including moving immediately on Phase 1 projects and other "Early Roll-out" priority projects in the first two to three years of the 10-Year Vision. A provincial commitment to this funding strategy is a key step in enabling regional funding for Phase 1 and other Early Roll-out plan related projects over the next several months.

Yes - the majority of the tough discussions are yet to come.

Mike Buda is preparing a draft formal response now to be circulated that will include clarifying that we need regional funding tools for the operating funds approved from the province.

I just filled Jerry in a bit more at this Healthy City meeting- will try to escape for the 2 pm call.

Ok, thanks. Reading the letter it was clear that nothing in the funding strategy is part of phase 1 and that this essentially is a move to get us going. And that the "density bonusing" component will be part of phase 2. That will be a tough negotiation, but at least we will have some time to prepare and positioning ourselves

Thanks

Subject: Re: If you want me to back-fill, let me know. I am good at being quiet

Call still on but the main update is that this would enable a public announcement with the provincial and federal government on the Phase 1 bilateral agreement meeting federal Phase I including:

- fleet expansion Expo/Millennium Line/Canada Line order new cars from Bombardier expansion of existing system including station upgrades/transit exchange & new Seabus
- state of good repair/rehab & maintenance
- Rapid transit projects Broadway & Surrey getting ready for procurement

And to clarify on the line about TransLink's initial fiscal capacity to fund \$124 million/17 per cent includes only the capital costs and doesn't include operating costs which TL doesn't have.

The Mayors are still grabbing with the lack of reference to governance changes.

This would essentially buy us 2 months or so to develop an Investment Plan process to land on the larger full 10 year

funding package & recommended tools that the Mayor's agreed to on April 26.

Subject: RE: Prime Minister to make transit announcement in Metro Vancouver

Quick update Mike.

I have connected either by phone or email with the key groups late yesterday or today:

- Ian DSF
- Bruce R
- Rob MD
- Bill T
- Alice M

They all have the announcement details and the draft NR for some background on key messaging (not for distribution) and direction on staying positive high level and pushing for the Phase 2 funding agreement. I told them to call me or you tonight with any specific questions.

They all have been quite positive and think it will help bring some purpose to the coalition now so we can follow-up with them in a couple of weeks on how to be the most helpful on moving things forward over the next several months.

Hope this is helpful!

See you tomorrow.

Marnie

CKNW NEWS ALERT

The Federal and Provincial governments, along with Metro Vancouver mayors, have reached a basic agreement on some aspects of the 10 year transit and transportation plan. Prime Minister Trudeau will be in town tomorrow to speak to the issue. How to pay for the region's 17 percent share of funding remains a work in progress.

To: Kendall-Craden, Rena; Pickard, Gail; Enfeldt, Magnus
Cc: McCuaig, Amanda
Subject: FW: Prime Minister to make transit announcement in Metro Vancouver

The PM's schedule is now public for tomorrow.

<http://www.pm.gc.ca/eng/news/2016/06/15/itinerary-thursday-june-16-2016>

Also attached is a confidential version of the Mayors' Council briefing package including some key talking points. Mike Buda and I have shared confidentially with UBC and the coalition members (DSF and the business community and labour unions and health partners) so they can write up supportive statements and messages.

Full draft details on the components of the phase 1 Public Transit Infrastructure Fund are also attached for reference.

Key messages for Jerry:

-The federal Phase I Public Transit Infrastructure Fund will deliver the following items for Vancouver:

- \$100M to initiate pre-construction work on the Broadway subway, keeping the project on track to be ready for procurement and ground-breaking within 18 months
- Other key deliverables include:
 - o station upgrades on Expo Line
 - o 50 new Canada Line and Skytrain cars to increase service on existing rapid transit corridors and to ready the system for expansion along Broadway
- The Mayors' Council 10-year plan identified the Millenium Line Broadway Extension Project as one of the region's highest priorities for rapid transit investment.
- We are very happy to see funding dedicated to this critical project to continue with our pre-construction work to keep things moving forward with planning and design to meet the transit needs of the second largest employment centre in the province. Additional project funding is required to fully fund this project, and to move forward to procurement and a public consultation process.
- While there is no denying that there will ultimately be impacts from construction on this project along the Broadway corridor, TransLink and the City will work to minimize disruption during the construction phase.

These last few bullets on the Broadway project itself are very rough based on Amanda's May 14 Issues Management Comms Plan and would need to be fact-checked and run through Lon and team and with TransLink to make sure we are speaking facts about the project itself, and the next steps on the process. Planning still doesn't have an updated message on the timing for a public consultation process on the corridor.

Gail let Magnus or I know if Jerry needs anything else for any media interviews tomorrow.

Thanks

To: McGregor, Marnie; Robb, Katie; Quinlan, Kevin

Subject: RE: The PM is coming to Vancouver!

Thanks for tamping things down. I asked TL to share the technical details behind the Phase 1 list with affected munis so there were no surprises about the specific projects, etc. However, I had asked to see the list before it was sent to be sure the projects were put in the right context. Looks like this didn't happen here. The headline for Vancouver: Phase 1 funding will deliver \$100M to initiate pre-construction work on the Broadway subway, keeping the project on track to be ready for procurement and ground-breaking within 18 months. The other key deliverables: station upgrades on Expo Line, as per below; and 50 new Canada Line and Skytrain cars to increase service on existing rapid transit corridors and to ready the system for expansion along Broadway.

Anyway, I will get this fixed.

Subject: RE: Update on PMO transit event

Thanks- and below is the first draft of the NR that Katie and Mike B are working on...

TransLink Mayors' Council Welcomes \$616 Million in Federal and Provincial Transit Funding

New dollars a promising first step to action 10-Year Transportation Plan, including Broadway Subway and Surrey LRT pre-construction work, Expo Line station upgrades, 55 new Canada Line, Skytrain and West Coast Express Cars, and a third SeaBus

June 16, 2016 (Vancouver, BC) – Today, the Mayor's Council welcomed \$616 million in new investment from the Government of Canada and the Province of BC towards 14 [\[MPB1\]](#) capital projects from the first 2-3 years of the *10-Year Vision for Metro Vancouver Transit and Transportation*. The 10-Year Vision is a long-term, region-wide, integrated, multi-modal transportation plan to fight congestion, reduce greenhouse gases (GHGs), and keep a fast-growing gateway economy of almost 2.5 million residents moving.

"The Mayors' Council welcomes the federal government as a partner in improving transit and mobility options in Metro Vancouver," says Mayor Gregor Robertson, Chair of the Mayors' Council. "This new, significant investment is a good first step in turning the Mayors' Council's 10-Year Vision into a real set of projects that will benefit tens of thousands of transit riders and commuters in Metro Vancouver, boosting transit service while taking more cars off the road and easing congestion."

TransLink will match federal and provincial contributions with a \$125 million regional capital investment, towards the total \$740 million of projects submitted to the federal government's "Phase 1" Public Transit Infrastructure Fund program. The \$740 million will allow TransLink to begin work on a sub-set of the priorities outlined in the first 2-3 years of the capital projects in the 10-Year Vision, including:

- Investing \$340 million to modernize and expand existing rapid transit lines by adding 28 SkyTrain, 22 Canada Line, 5 West Coast cars, and a third SeaBus, as well as overhaul 7 stations along the Expo Line and Canada Line, including the addition of bike parkades at [xxx].
- Allocating \$157 million to pre-construction work on the Broadway subway and South of the Fraser Rapid Transit projects to keep these projects on track for procurement and ground-breaking within 18 months.
- Investing \$96 million to modernize and prepare the bus network for increased capacity delivered in subsequent phases of the 10-Year Vision by upgrading key transit exchanges including Lonsdale Quay, Phibbs Exchange and [???
- Continuing state-of-good-repair work throughout the system.

"This Phase 1 funding is an essential early investment in our 10-Year Vision. After years of talking about the need for modernized and new transit service, we are finally in a position to start building it," said Surrey Mayor Linda Hepner, Vice-Chair of the Mayors' Council. "At the same time, we need to continue working hard with our partners to ensure that the remaining projects in our Vision stay on track."

Earlier this year, the Mayors' Council [put forward a comprehensive proposal](#) to the BC government to fund the entire 10-Year Vision. The Mayors' Council will continue to work urgently with the Province of BC to finalize an agreement on a funding strategy to [fund the entire 10-Year Vision](#), including Phase 1 projects and other "Early Roll-out" priority projects in the first two to three years of the 10-Year Vision.

Quick update from Brittney:

- They are going to stick with just three at the podium: PM, flanked by GR and CC. PM will speak first, then CC, then GR. I will let Linda know.
- She will be sending out a formal invite to the MC members this aft, which will include logistics, scenario, etc. There will be time for a photo op with the PM and MC.
- I suggested they also invite the TL Board, which I am sure will be fine.
- I pushed again for a mtg between the PM and GR/LH. Will see.

I am working on our own collateral, including the project list, etc. that is framed to tell the Phase 1 story, as well as to lead onto the need for continued funding.

Unifor Locals 111 & 2200

NEWS RELEASE

June 16, 2016

Where are the buses needed in Metro Vancouver right now in big transit funding announcement, ask Unifor transit operators, skilled trades, SeaBus and support workers; BC government not providing funding needed to stop pass-ups, overcrowding, lack of service

METRO VANCOUVER – Where are the buses needed right now in Metro Vancouver to stop pass-ups, overcrowding and lack of service to riders?

That's the question posed today by Unifor – the union representing transit operators, skilled trades, SeaBus and support workers – after a major funding announcement by the federal, provincial and municipal governments that provides no new money for buses.

Unifor BC Director Gavin McGarrigle says it's clear that while the federal government and Metro Vancouver mayors are bringing new funding to provide more transit but the provincial government is refusing to commit additional money needed to get up to 500 buses on the road as soon as possible.

"We appreciate the federal and municipal funding but the province is simply not doing its share yet – and that means long suffering bus riders will get no relief from anything announced today," McGarrigle said. "We are still years away from putting new buses on the road, getting new routes in place, improving both rush hour and night bus service – that's not acceptable."

Unifor Local 111 president Nathan Wood, representing 3,700 transit operators, says the funding does not provide the increase in service that the Mayors' Council Plan proposed.

"This is not the Plan that will deal with the 1 million people coming to Metro Vancouver in the next 30 years and it's not even able to provide any additional bus service for years to come," Woods said. "We support more rapid transit in the future but the need for buses is overwhelming and it's right now."

Unifor Local 2200 President Joe Elworthy, representing 1,000 skilled trades, SeaBus and support workers, says a new SeaBus will be helpful to commuters but without more buses on both sides of the water it will have limited usefulness.

"Whether it's SeaBus or SkyTrain or an new LRT, the bus system is the backbone of our transit service and not addressing the bus shortage that exists right now is a significant mistake that must be corrected," Elworthy said.

McGarrigle says Unifor will continue to fight for improved transit that includes more buses as soon as possible.

"Hundreds of thousands of workers depend on our bus system every day to get to their workplaces and home again," said McGarrigle. "It's time the provincial government understood that adequate bus service is a critical part of our economy – not a frill."

For more information: Gavin McGarrigle at cell 778-668-6455 or Nathan Woods office 604-519-1110 ext. 2288 or cell (604) 790-1465 or Joe Elworthy at cell 604-328-8724 or Bill Tieleman, West Star Communications, at cell 778-896-0964 or office 604-844-7827.

His Worship Mayor Gregor Robertson
Chair
Her Worship Mayor Linda Hepner
Vice Chair
Mayors' Council on Regional Transportation
400 – 287 Nelson's Court
New Westminster, BC V3L 0E7

Dear Chair Robertson and Vice Chair Hepner:

Recognizing the intention of the Province to formally conclude a Bilateral Agreement with Canada, which will secure Phase One Public Transit Infrastructure Funding including for the Metro Vancouver Region, I am providing you with a summary of proposed next steps toward establishing the way forward in enabling the investments we all recognize as critical for the region.

As I have previously stated, the Province of British Columbia is firmly committed to investments in transit, and to the creation of affordable, accessible and livable communities. With a mutual commitment to Phase One investments, we take a critical step forward in realizing the Mayors' Vision, and we set the stage to advance discussions respecting Phase Two transit investments and the funding commitments needed by all levels of government to support them.

I look forward to your consideration of these suggested steps, so that in moving forward with the Phase One agreement with Canada, we can clearly signal our mutual, shared priorities for immediate transit investments in the region, and set the stage for discussion regarding Phase Two priorities.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Fassbender".

Mr. Greg Moore, Chair, Metro Vancouver

s.13(1)

June 10, 2016

The Honourable Peter Fassbender
Minister Responsible for TransLink
PO Box 9045 STN PROV GOVT
Victoria, BC V8W 9E2 (E-mail: CSCD.minister@gov.bc.ca)

Minister Fassbender,

Thank you for your email and letter today with a proposal on how to move forward together to conclude an agreement between Canada and British Columbia securing funding from the Phase One Public Transit Infrastructure Fund (PTIF).

The Mayors Council appreciates your proposal and agrees that we need to move forward on securing PTIF funds as a first step to delivering the 10-Year Vision for Metro Vancouver Transit & Transportation. As you know, the Mayors' Council has proposed a comprehensive [Funding Strategy](#) with \$5 billion over 10 years in existing and new regional taxes and fees to pay for the region's share of capital costs and 100% share of operating costs of the 10-year Vision, including the region's share of PTIF and the other "Early Roll-out" projects in the first 2-3 years of the Vision.

Moving ahead with PTIF as you propose will allow TransLink to continue design and procurement-readiness work on the South of Fraser LRT project and the extension of the Millennium Line along Broadway, initiate a modernization and expansion of the Skytrain, Canada Line and West Coast Express fleets, add a 3rd SeaBus vessel, upgrade existing stations, facilities and exchanges, and undertake other associated state of good repair projects.

We welcome your recognition that our collective, essential next step to deliver projects through PTIF and the 10-Year Vision is to reach agreement on a Funding Strategy for implementation of the entire Vision, in particular identifying additional regional funding sources. This work needs to be completed by the end of July so TransLink can develop an Investment Plan to activate the funding required to operate the new services in PTIF, and deliver much needed improvement and expansion of bus service as part of the "Early Roll-out" of the 10-Year Vision that falls outside of PTIF, as well as to set the stage for longer-term commitments to the Vision. This Investment Plan is a key milestone to deliver PTIF as planned.

In addition, as outlined in our Funding Strategy, it is important that we have the appropriate governance mechanisms in place to deliver public accountability for the new revenues and expenditures delivered for PTIF and the entire Vision.

The Mayors' Council is prepared to move forward quickly with the province to make PTIF and Early Roll-out transit investments and service improvements happen, and set the stage for us to work together to initiate discussions immediately with the federal government on securing Phase Two PTIF funding for Metro Vancouver.

Sincerely,

A handwritten signature in black ink, appearing to read "Gregor Robertson".

Mayor Gregor Robertson
Chair

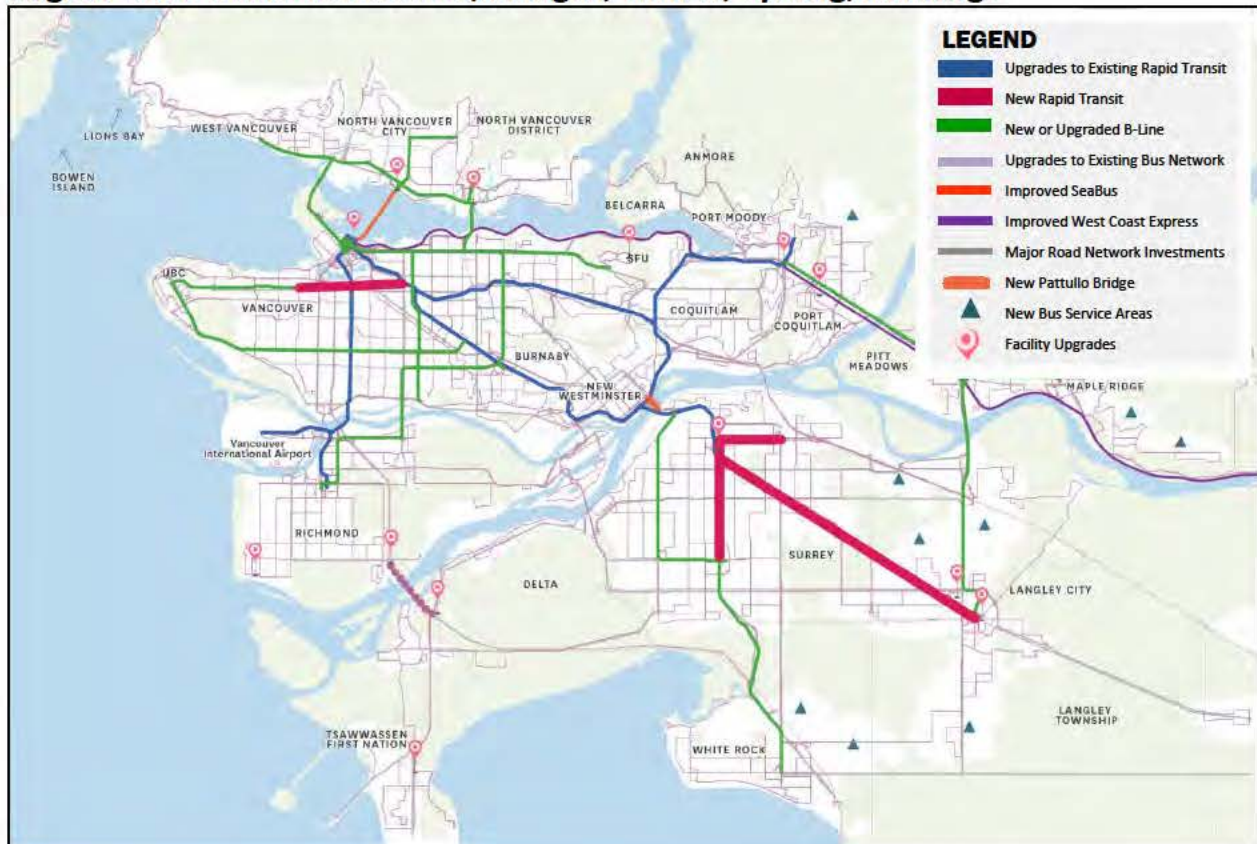

c Members of the TransLink Board of Directors and Mayors' Council

Metro Vancouver's 10-Year Transit & Transportation Plan

In 2014, Metro Vancouver developed a long-term, region-wide, integrated, multi-modal transportation plan – the *Metro Vancouver Transit & Transportation Plan* – to fight congestion, reduce GHGs, and keep a fast-growing gateway economy of almost 2.5 million residents moving. It will create 13,000 immediate jobs as economic stimulus. The “Mayors’ Plan” reflects the consensus of more than 20 municipalities and local governments in Metro Vancouver.

Integrated transport planning in Metro Vancouver is a success story, with transit ridership nearly doubling since 2000. In the next 30 years, however, one million more residents are expected to arrive to the region. Renewed investment in our transportation network is needed to maintain and modernize existing assets, and expand the system to meet growing demands from population growth and a continued shift towards transit, walking and cycling.

Region-wide benefits to roads, bridges, transit, cycling, walking:

Integrated planning, integrated benefits

The Mayors’ Plan coordinates transportation investments with local and regional land use to support vibrant communities, spur economic development, and protect the environment as the population grows. Although there are 34 capital projects in the plan, these projects support one another; for example, increased bus service drives ridership to new rapid transit. Projects cannot be cherry-picked for implementation without comprising the plan’s benefits.

This 10-year plan will:

- ✓ invest \$1.7 billion in new **road and bridges**, including in rehabilitation and seismic upgrading;
- ✓ build new **rapid transit** in Vancouver & Surrey
- ✓ add 400 new, low- or zero-emission **buses** to our fleet so we can expand bus service by 25%.
- ✓ invest over \$200 million in **walking & cycling**, adding 2700km of new bike lanes to our already extensive region-wide network;
- ✓ by 2045, enable 70% of residents to walk to high-quality transit, and **reduce congestion** by 1/3.

Long-term plan; stimulus-ready

Advanced planning is well underway for major capital projects, including a replacement of the Pattullo Bridge, new rapid transit in Surrey and Langley, and an extension of the Millennium Line in Vancouver's Broadway corridor. With required federal and provincial funding secured, the region will work closely with all partners to accelerate investment as quickly as possible in order to maximize economic stimulus at the same time as efficiently and responsibly advancing the plan as a whole.

For more information, please contact Mike Buda, Executive Director, Mayors' Council Secretariat, at (778) 375-7669 or mike.buda@mayorscouncil.ca.

Phase 1 Project List

<i>Fleet Expansion</i>		<i>\$255M</i>
Expo and Millennium Lines Fleet Expansion	28 new rail cars for the Expo and Millennium Lines to increase service and reduce crowding. <ul style="list-style-type: none"> • Increase passenger capacity by 12% 	\$112M
Canada Line Fleet Expansion	22 new Canada Line cars to increase service and reduce crowding <ul style="list-style-type: none"> • Increase passenger capacity by 55% 	\$88M
West Coast Express Fleet Expansion	5 new rail cars to provide increased service during peak periods <ul style="list-style-type: none"> • Increase passenger capacity by 10% 	\$21M
New SeaBus	New SeaBus vessel to increase service to every 10 minutes during the morning and evening rushes	\$34M

<i>Station and Facilities Upgrades</i>		<i>\$131M</i>
Rapid Transit Station Upgrades	Station upgrades at Expo Line and Canada Line stations to support fleet expansion, improve customer circulation, provide additional customer amenities, and improve accessibility	\$86M
Bus Facilities and Exchange Upgrades	Upgrades to key bus passenger facilities, including Lonsdale Bus Exchange and Phibbs Exchange. Upgrades include operational improvements, customer amenities, and safety and accessibility enhancements	\$41M
Secure Bicycle Parking	Construction of secure bike parking at busy transit stations and exchanges, including Evergreen Extension stations, West Coast Express Stations, Canada Line stations, and Carvolth Exchange	\$4M

<i>Rapid Transit Expansion – Planning, Design, and Near-Term Capital Investments</i>			<i>\$157M</i>
South of Fraser Rapid Transit (LRT)	Planning and Design	Planning, design, and related activities required to prepare for procurement for the South of Fraser Rapid Transit (LRT) project	\$20M
	Bus Exchanges	New bus exchanges at Newton and Guildford to provide near-term improvements and prepare for future connections to LRT. Includes passenger waiting areas, bus infrastructure, lighting, pedestrian signals, bicycle parking, paving, and landscaping	\$17M
	Road Works	Improvements to road infrastructure to improve transit operations and prepare for future LRT construction	\$21M
Broadway Subway (M-Line Extension)	Planning and Design	Planning, design, and related activities required to prepare for procurement for the Millennium Line Extension (Broadway Subway) project	\$23M
	SkyTrain System Upgrades	SkyTrain power systems and automatic train control system upgrades, to accommodate expansion of the SkyTrain fleet	\$67M
	SkyTrain Facility Upgrades	Improvements to expand capacity at SkyTrain Edmonds Operations and Maintenance Centre, to accommodate expansion of the SkyTrain fleet	\$9M
<i>System Maintenance and State of Good Repair</i>			<i>\$196M</i>
Transit System Rehabilitation and State of Good Repair	Rehabilitation of the SkyTrain system and bus depots to ensure system reliability and resilience for continued customer service and mitigate system disruptions. Includes improving system safety with upgrades to communications, guideway intrusion, and security monitoring systems, and ensuring bus reliability with upgrades to bus maintenance equipment and facilities.		\$92M
Bus Loop and Station Rehabilitation	Rehabilitation to bus loops/terminuses and transit stations to address state of good repair and replace infrastructure, including re-paving, shelters, lighting, and customer information.		\$53M
Information Technology Infrastructure and Applications	Information technology and systems to improve transit service reliability and assist in management and maintenance of the transit fleet.		\$51M
Total (all PTIF projects)			\$740M

To: Mayors Council

Subject: Mayors' Council - CALENDAR HOLD: Phase 1 funding announcement on Thursday morning with PM

Importance: High

Members of the Mayors' Council,

As I mentioned in my email on Friday evening, the announcement on funding for the first sub-set of priorities in the 10-Year Vision delivered through Phase 1 Public Transit Infrastructure Funds (PTIF) will be made on **Thursday, June 16 at 10:30AM** with the Prime Minister, Premier and the Mayors' Council. The announcement will be made at the **SkyTrain Operations and Maintenance Centre (OMC) adjacent to Edmonds Station** in Burnaby. The news of the is **announcement is still under embargo, so please do not disseminate this information widely.**

The event will likely include a photo op with the PM, and a media conference with the Prime Minister, Premier and representative(s) from the Mayors' Council. All Mayors' Council members are invited to attend the event and to be available for media comment following the media conference. Local MPs and MLAs will likely also be present.

I would **suggest arriving by 10AM**. The event will conclude no later than 11:30AM. More specific details to come once they are confirmed.

Later today or tomorrow morning, I will circulate a briefing package with more background on the announcement, including a detailed list of Phase 1 projects (a summary list was sent to you on Friday evening), and the media messaging that the Chair and Vice-Chair will be using that day.

From: Buda, Mike
Sent: June-09-16 9:04 PM
To: Mayors Council
Subject: Mayors' Council CONFERENCE CALL on Friday, June 10 at 12PM
Importance: High

Members of the Mayors' Council,

As was discussed tonight at the Joint Meeting of the TransLink Board and the Mayors' Council, Mayor Robertson would like to schedule a **conference call of the Mayors' Council tomorrow**

(Friday, June 10) from 12PM to 1PM to check in on the status of federal-provincial-regional negotiations on Phase 1 transit funding.

Depending on how discussions proceed overnight and tomorrow morning, there may be a reasonable offer on the table to review. There is some uncertainty as to whether a reasonable deal will be ready, but as was agreed tonight, the direction was to schedule a call so there is a venue available. A follow up face-to-face meeting will be scheduled next week or later as required based on discussions during the conference call.

The conference call dial in is s.15(1)(l), and the access code is s.15(1)(l)

Subject: Prime Minister to make transit announcement in Metro Vancouver

CKNW NEWS ALERT

The Federal and Provincial governments, along with Metro Vancouver mayors, have reached a basic agreement on some aspects of the 10 year transit and transportation plan. Prime Minister Trudeau will be in town tomorrow to speak to the issue. How to pay for the region's 17 percent share of funding remains a work in progress.

Subject: June 16 PM visit

Hi folks,

PMO advance met with Marc Riddel (VP of Comms at TL) this morning to look at possible venues for the presser on Thursday with the PM. Here are the details so far:

- **Likely location:** Skytrain Ops and Maintenance Centre at Edmonds Station (they also want to look at the bus depot but I am going to nix that, mostly because this money isn't for buses, s.13(1))
- **Time:** bilateral mtg with CC at 9am; presser at 10:30am; he needs to leave for downtown for another meeting at 11:15am
- **Scenario:** just after 10, JT, CC, GR, LH and likely a few others will board a new Mark III train to do a loop around the OMC and then roll into the maintenance barn just before 1030; descend and do the presser in front of the train

I am going to check in with Sohi's office now on a few things:

- We need to confirm specific role of GR and LH, as well as other MC members at the event. The advance team was a little vague on that.
- It feels like a bilat with the PM and key MC members before or after his mtg with CC would be helpful in terms of our messaging around the GoC being a partner of cities, etc.
- s.15(1). Altho not a huge deal, this feels like a bit of a wasted opportunity – would be good to prod this a little more.
- Need to start agreeing on some messaging.

I am working on some draft messaging, etc. now. Will send over shortly and then we should probably plan some time tomorrow to discuss.

Mike

Subject: New Transit Investments for Metro Vancouver

UDI Applauds New Transit Investments for Metro Vancouver

The Urban Development Institute (UDI) wants to congratulate the Metro Vancouver mayors and the Provincial and Federal governments on their announcement today of \$616 million in funding for transit projects across Metro Vancouver.

Today's announcement, including an additional \$125 million from TransLink, is a positive step forward for the region and will help advance key infrastructure projects, such as a third sea bus, additional SkyTrain cars, and planning for LRT in Surrey and the Broadway Subway Line in Vancouver.

"UDI believes that these investments will improve transportation flows across the region and enhance our economic competitiveness," said Anne McMullin the CEO of UDI.

UDI has long supported increased transit and transportation investments in Metro Vancouver. Moving forward, UDI will continue to work with all levels of government to expand our transit and transportation systems and to ensure that they are coordinated with sound land use principles.

Metro Vancouver is one of the fastest growing regions in Canada – with over a million people and 600,000 more jobs coming to the area by 2040. Investments such as those announced today are critical to shaping growth, addressing climate change, and improving housing affordability and economic competitiveness for the region.

NEWS RELEASE

FOR IMMEDIATE RELEASE — June 16, 2016

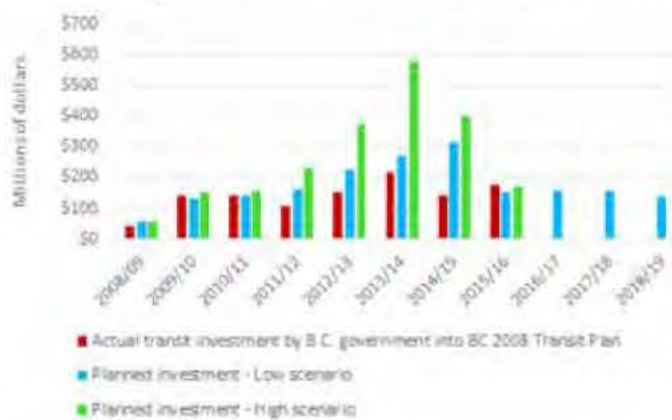

VANCOUVER — Today’s transit-funding announcement by the federal and B.C. governments and Metro Vancouver mayors is a positive step on the road to securing long-term investment in transit. Although the Phase 1 funds only ensure funding for the first three years of the 10-year plan developed by the region’s mayors, they are enough to guarantee that key infrastructure projects can begin to move forward.

“We are pleased to learn that the province, mayors and federal government have reached an agreement for the first phase of funding for transit in Metro Vancouver,” said David Suzuki Foundation science and policy director Ian Bruce. “It’s good to see a deal for this first phase of transit investment, but we need a long-term commitment and increased investment.”

Recent research by the Foundation shows investment in transit is desperately needed to relieve traffic congestion in Metro Vancouver and to address years of investment deficit and what can be done to fix it”, shows the B.C. government identified in 2008 that only 23 per cent of these funds have materialized.

prove and expand Metro Vancouver’s transit network with its commitment to 50 per cent funding,” required for transit funding in Metro Vancouver, to which we say, ‘Hallelujah!’”

Actual provincial transit investment versus planned investments since 2008

NEWS RELEASE

David Suzuki Foundation encouraged by new transit investment in Metro Vancouver

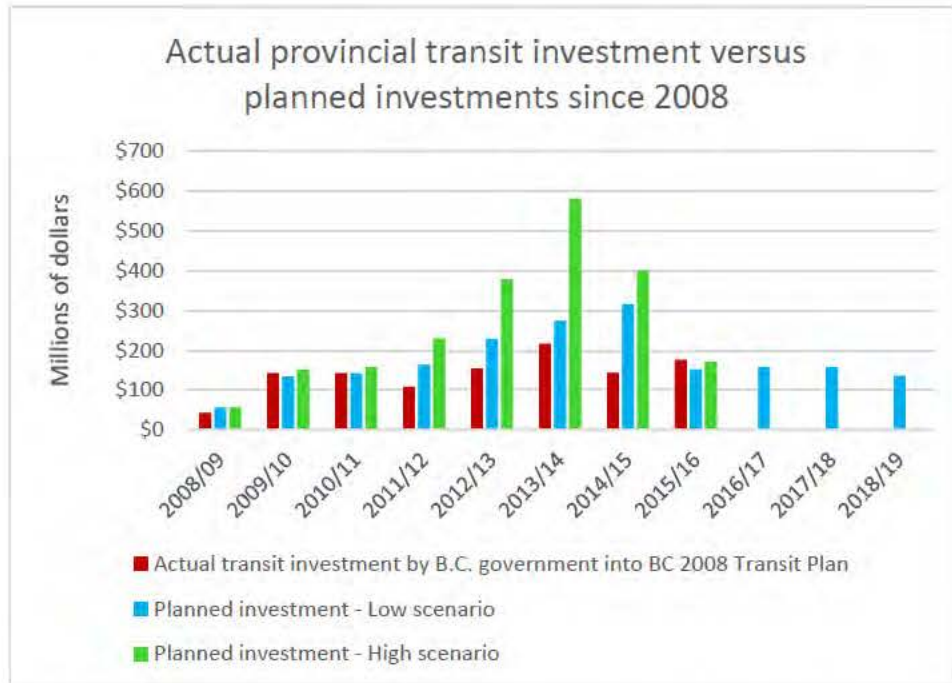

FOR IMMEDIATE RELEASE — June 16, 2016

VANCOUVER — Today's transit-funding announcement by the federal and B.C. governments and Metro Vancouver mayors is a positive step on the road to securing long-term investment in transit. Although the Phase 1 funds only ensure funding for the first three years of the 10-year plan developed by the region's mayors, they are enough to guarantee that key infrastructure projects can begin to move forward.

"We are pleased to learn that the province, mayors and federal government have reached an agreement for the first phase of funding for transit in Metro Vancouver," said David Suzuki Foundation science and policy director Ian Bruce. "It's good to see a deal for this first phase of transit investment, but we need a long-term commitment and increased investment."

Recent research by the Foundation shows investment in transit is desperately needed to relieve traffic congestion in Metro Vancouver and to address years of underfunding. Our recent report, "Breaking gridlock: B.C.'s transit investment deficit and what can be done to fix it", shows the B.C. government identified in 2008 that the province needed to invest \$4.75 billion in transit funding, but only 23 per cent of these funds have materialized.

"We commend the federal government for catalyzing this deal to improve and expand Metro Vancouver's transit network with its commitment to 50 per cent funding," Bruce said. "Presumably this day marks the end of referenda being required for transit funding in Metro Vancouver, to which we say, 'Hallelujah!'"

TransLink Mayors' Council Welcomes \$616 Million in Federal and Provincial Transit Funding

New dollars a promising first step to action the 10-Year Vision, including Broadway and South of Fraser Rapid Transit planning, SkyTrain station upgrades, new rapid transit cars, and a third SeaBus

June 16, 2016 (Vancouver, BC) – Today, the Mayors' Council welcomed \$616 million in new investment from the Government of Canada and the Province of BC towards 14 capital projects from the first 2-3 years of the *10-Year Vision for Metro Vancouver Transit and Transportation*.

"The Mayors' Council welcomes the federal government as a partner in improving transit and mobility options in Metro Vancouver," says Mayor Gregor Robertson, Chair of the Mayors' Council. "This new investment is a good first step in turning the Mayors' Council's 10-Year Vision into a real projects on the ground that will benefit hundreds of thousands of transit riders and commuters in Metro Vancouver."

TransLink will match federal and provincial contributions with a \$125 million regional capital investment, towards the total \$740 million of projects submitted to the federal government's "Phase 1" Public Transit Infrastructure Fund program that will allow TransLink to begin work on a sub-set of the priorities outlined in the first 2-3 years of the capital projects in the 10-Year Vision, including:

Investing \$345 million to modernize and expand existing rapid transit lines by adding 28 SkyTrain, 22 Canada Line, 5 West Coast Express cars, and a third SeaBus, as well as overhaul stations along the Expo Line and Canada Line, and bike parkades on Evergreen.

Allocating \$157 million towards planning and pre-construction work on the Broadway and South of Fraser Rapid Transit projects to keep these projects on track for full funding, procurement and ground-breaking within 18 months.

Investing \$94 million to modernize and prepare the bus and rail network for subsequent phases of the 10-Year Vision by upgrading key transit exchanges including Lonsdale Quay, Phibbs Exchange, 22nd Avenue Station, Commercial-Broadway, Guildford and Newton.

Continuing state-of-good-repair work to modernize and improve transit reliability.

"I applaud the Prime Minister's leadership in building better transit.. After years of talking about the need for modernized and new transit service, with this Phase 1 funding, we are finally transitioning into action," said Surrey Mayor Linda Hepner, Vice-Chair of the Mayors' Council. "I am also proud that we are the first jurisdiction in Canada to sign this agreement, which will help us stay at the front of the process to secure Phase 2 funding."

Earlier this year, the Mayors' Council [put forward a comprehensive proposal](#) to the BC government to fund the entire 10-Year Vision. The Mayors' Council will continue to work with the Province of BC to finalize an agreement on a funding strategy to ensure there are clear [commitments to the entire 10-Year Vision](#), including moving immediately on Phase 1 projects and other "Early Roll-out" priority projects in the first two to three years of the 10-Year Vision. A provincial commitment to this funding strategy is a key step in enabling regional funding for Phase 1 and other Early Roll-out plan related projects over the next several months.

Yes - the majority of the tough discussions are yet to come.

Mike Buda is preparing a draft formal response now to be circulated that will include clarifying that we need regional funding tools for the operating funds approved from the province.

I just filled Jerry in a bit more at this Healthy City meeting- will try to escape for the 2 pm call.

Subject: Re: If you want me to back-fill, let me know. I am good at being quiet

Call still on but the main update is that this would enable a public announcement with the provincial and federal government on the Phase 1 bilateral agreement meeting federal Phase I including:

- fleet expansion Expo/Millennium Line/Canada Line order new cars from Bombardier expansion of existing system including station upgrades/transit exchange & new Seabus
- state of good repair/rehab & maintenance
- Rapid transit projects Broadway & Surrey getting ready for procurement

And to clarify on the line about TransLink's initial fiscal capacity to fund \$124 million/17 per cent includes only the capital costs and doesn't include operating costs which TL doesn't have.

The Mayors are still grabbing with the lack of reference to governance changes.

This would essentially buy us 2 months or so to develop an Investment Plan process to land on the larger full 10 year

funding package & recommended tools that the Mayor's agreed to on April 26.

Importance: High

Members of the Mayors' Council,

As was discussed tonight at the Joint Meeting of the TransLink Board and the Mayors' Council, Mayor Robertson would like to schedule a **conference call of the Mayors' Council tomorrow (Friday, June 10) from 12PM to 1PM** to check in on the status of federal-provincial-regional negotiations on Phase 1 transit funding.

Depending on how discussions proceed overnight and tomorrow morning, there may be a reasonable offer on the table to review. There is some uncertainty as to whether a reasonable deal will be ready, but as was agreed tonight, the direction was to schedule a call so there is a venue available. A follow up face-to-face meeting will be scheduled next week or later as required based on discussions during the conference call.

The conference call dial in is **s.15(1)(l)**, and the access code is **s.15(1)(l)**

Subject: UPDATE - Transit Funding

Broadway SC,

Just as an FYI - we are anticipating an announcement on Thursday with the feds and the province re. Phase One funding from the Public Transit Infrastructure Fund (PTIF) - The provincial (33%) and the regional (17%) share matching the federal \$370M (50% share) previously announced. This would enable a bilateral agreement and release \$740M of funding for the shovel ready projects in the Mayor's plan and set the stage for negotiations with the federal government on funding from PTIF for Phase Two . The regional share for Phase One (\$124M) would be covered by TransLink. The amount allocated for Broadway in this Phase One is approximately \$100M for procurement readiness and supportive capital works (utilities)

The Regional funding share for Phase Two from the PTIF is still to be agreed upon with the basis being the funding strategy submitted by the Mayors' Council to the province in April. As such, the difficult discussions are still to come.

Please let me know if you have any questions

Thanks

Magnus

Further to the "In the news" updates from Magnus and Marnie on tomorrow's proposed announcement, here are some further details that have been shared with both RTAC and RAAC. Please treat this information as confidential until it is released officially. Note that the descriptions in the attachment have been updated (and improved) from the earlier draft that we saw at the Broadway Project Team meeting yesterday.

Subject: Federal Phase 1 Transit Fund Priorities

Importance: High

Hello RTAC members,

Many of you may have seen media stories today about an announcement tomorrow on Phase 1 Federal transit funding (PTIF) by the federal and provincial governments. We have been providing you with a verbal update of the likely candidate regional projects, but we want you to have additional background information in advance of tomorrow. This information was also provided to RAAC members today. The attached document provides details on the list of PTIF Phase 1 projects provided by TransLink to the Federal Government via the Province. . Both lists are attached. THEY HAVE NOT BEEN RELEASED YET.

A critical step. Additional steps include hammering out all the components of a new 10-Year Investment Plan to fund and operate the capital projects on the PTIF list and the other critical investments in the early roll-out. We will have an opportunity for review, questions and feedback at next week's RTAC meeting. In advance of that, here is some additional explanation on how the list was developed.

The approach to developing the draft candidate projects focused on two primary criteria:

1. Inclusion in the Mayors' Vision
2. Ability to deliver the project within the 2-3 year deadline for the Phase 1 federal funds

Projects are in a number of broad categories

- Planning and design for new rapid transit
- Rapid transit "Early works" (such as road works and rail systems upgrades)
- Expansion of the SkyTrain, SeaBus, and West Coast Express fleet
- Stations, facilities and exchanges
- Asset management and state of good repair

New rapid transit includes both procurement readiness and early capital works

- o Procurement readiness activity includes planning, design, and other activities required to issue procurement documents within 18 months
- o Early capital works includes utility upgrades, road works, and required investments such as rail power and system upgrades
- o Commitments from the federal and provincial governments to fund these early stages is indicative of senior governments' overall commitment to these projects in full

If you have detailed questions please contact me or Jesse.

Best regards,

Geoff

Subject: FW: Prime Minister to make transit announcement in Metro Vancouver

The PM's schedule is now public for tomorrow.

<http://www.pm.gc.ca/eng/news/2016/06/15/itinerary-thursday-june-16-2016>

Also attached is a confidential version of the Mayors' Council briefing package including some key talking points. Mike Buda and I have shared confidentially with UBC and the coalition members (DSF and the business community and labour unions and health partners) so they can write up supportive statements and messages.

Full draft details on the components of the phase 1 Public Transit Infrastructure Fund are also attached for reference.

Key messages for Jerry:

-The federal Phase I Public Transit Infrastructure Fund will deliver the following items for Vancouver:

- \$100M to initiate pre-construction work on the Broadway subway, keeping the project on track to be ready for procurement and ground-breaking within 18 months
- Other key deliverables include:
 - o station upgrades on Expo Line
 - o 50 new Canada Line and Skytrain cars to increase service on existing rapid transit corridors and to ready the system for expansion along Broadway
- The Mayors' Council 10-year plan identified the Millenium Line Broadway Extension Project as one of the region's highest priorities for rapid transit investment.
- We are very happy to see funding dedicated to this critical project to continue with our pre-construction work to keep things moving forward with planning and design to meet the transit needs of the second largest employment centre in the province. Additional project funding is required to fully fund this project, and to move forward to procurement and a public consultation process.
- While there is no denying that there will ultimately be impacts from construction on this project along the Broadway corridor, TransLink and the City will work to minimize

disruption during the construction phase.

These last few bullets on the Broadway project itself are very rough based on Amanda's May 14 Issues Management Comms Plan and would need to be fact-checked and run through Lon and team and with TransLink to make sure we are speaking facts about the project itself, and the next steps on the process. Planning still doesn't have an updated message on the timing for a public consultation process on the corridor.

Gail let Magnus or I know if Jerry needs anything else for any media interviews tomorrow.

Thanks
Marnie

Subject: The PM is coming to Vancouver!

I realize that most of you already know more about this than I, but I just wanted to share some information that Pieter Agneessens (TransLink) just shared with me that relates to the Prime Minister's plans to be in the lower mainland on Thursday (June 16). Pieter provided me with a list of infrastructure upgrade projects that they would be referencing within Vancouver:

- 1) **Joyce-Collingwood Station Upgrades** – Phase 2 (east bus loop)
- 2) **Burrard Station Upgrades** – Secondary entrance/exit
- 3) **Broadway/Commercial** – 99 B-line bus canopy

No surprises here. Let me know if you have any questions.

Cheers,

Neal Peacocke, P.Eng.

Subject: Final version of News Release on Phase 1 funding

Attachments: News Release - Mayors Council - Phase 1 funding - June 2016 final draft.docx

See attached. Any final comments please send asap.

We are still waiting for a run of show for the event. We assume GR will have a 3-4 minute statement to deliver after PM and CC. Katie, are you working on that? We will need to really emphasize that Phase 1 projects do NOT include buses - the prov is already telling reporters that Phase1 includes buses – and that within the next 6 weeks, we need to reach a deal with the prov on their commitment to the rest of the vision, to enable us to activate funding for Phase 1, as well as the other, currently unfunded “early roll-out” projects in the Vision, esp. bus service improvements.

Mike

TransLink Mayors' Council Welcomes \$616 Million in Federal and Provincial Transit Funding

New dollars a promising first step to action the 10-Year Vision, including Broadway and South of Fraser Rapid Transit planning, SkyTrain station upgrades, new rapid transit cars, and a third SeaBus

June 16, 2016 (Vancouver, BC) – Today, the Mayors' Council welcomed \$616 million in new investment from the Government of Canada and the Province of BC towards 14 capital projects from the first 2-3 years of the *10-Year Vision for Metro Vancouver Transit and Transportation*.

“The Mayors' Council welcomes the federal government as a partner in improving transit and mobility options in Metro Vancouver,” says Mayor Gregor Robertson, Chair of the Mayors' Council. “This new investment is a good first step in turning the Mayors' Council's 10-Year Vision into real projects on the ground that will benefit hundreds of thousands of transit riders and commuters in Metro Vancouver.”

TransLink will match federal and provincial contributions with a \$125 million regional capital investment, towards the total \$740 million of projects submitted to the federal government's “Phase 1” Public Transit Infrastructure Fund program that will allow TransLink to begin work on a sub-set of the priorities outlined in the first 2-3 years of the capital projects in the 10-Year Vision, including:

- Investing \$345 million to modernize and expand existing rapid transit lines by adding 28 SkyTrain, 22 Canada Line, 5 West Coast Express cars, and a third SeaBus, as well as overhaul stations along the Expo Line and Canada Line, and bike parkades on Evergreen.
- Allocating \$157 million towards planning and pre-construction work on the Broadway and South of Fraser Rapid Transit projects to keep these projects on track for full funding, procurement and ground-breaking within 18 months.
- Investing \$94 million to modernize and prepare the bus and rail network for subsequent phases of the 10-Year Vision by upgrading key transit exchanges including Lonsdale Quay, Phibbs Exchange, 22nd Avenue Station, Guildford and Newton.

“I applaud the Prime Minister's leadership in building better transit. After years of talking about the need for modernized and new transit service, with this Phase 1 funding, we are finally shifting into action,” said Surrey Mayor Linda Hepner, Vice-Chair of the Mayors' Council. “I am also proud that we are the first jurisdiction in Canada to sign this agreement, which will help us stay at the front of the process to secure Phase 2 funding. As we move forward, we need to continue to work diligently with all our partners to ensure that the remaining projects in our Vision stay on track.”

On April 26, 2016, the Mayors' Council [proposed a Funding Strategy](#) to the BC government for the 10-Year Vision. The Mayors' Council will continue to work with the Province of BC to finalize this Funding Strategy to ensure there are clear commitments to the entire 10-Year Vision, including moving immediately on Phase 1 projects and other “Early Roll-out” priority projects, which includes bus service improvements, in the first 2-3 years of the 10-Year Vision. The Minister Responsible for TransLink and the Mayors' Council have agreed that finalizing this Funding Strategy, including improving governance, over the next several months is a key next step in enabling regional funding for Phase 1 and other Early Roll-out plan related projects

TransLink Mayors' Council Welcomes \$616 Million in Federal and Provincial Transit Funding

New dollars a promising first step to action the 10-Year Vision, including Broadway and South of Fraser Rapid Transit planning, SkyTrain station upgrades, new rapid transit cars, and a third SeaBus

June 16, 2016 (Vancouver, BC) – Today, the Mayors' Council welcomed \$616 million in new investment from the Government of Canada and the Province of BC towards 14 capital projects from the first 2-3 years of the *10-Year Vision for Metro Vancouver Transit and Transportation*.

"The Mayors' Council welcomes the federal government as a partner in improving transit and mobility options in Metro Vancouver," says Mayor Gregor Robertson, Chair of the Mayors' Council. "This new investment is a good first step in turning the Mayors' Council's 10-Year Vision into real projects on the ground that will benefit hundreds of thousands of transit riders and commuters in Metro Vancouver."

TransLink will match federal and provincial contributions with a \$125 million regional capital investment, towards the total \$740 million of projects submitted to the federal government's "Phase 1" Public Transit Infrastructure Fund program, allowing TransLink to begin work on a sub-set of the priorities outlined in the first 2-3 years of the capital projects in the 10-Year Vision, including:

Investing \$345 million to modernize and expand existing rapid transit lines by adding 28 SkyTrain, 22 Canada Line, 5 West Coast Express cars, and a third SeaBus, as well as overhaul stations along the Expo and Canada Lines, and bike parkades on the Evergreen Line.

Allocating \$157 million towards planning and pre-construction work on the Broadway and South of Fraser Rapid Transit projects to keep these projects on track for full funding, procurement and ground-breaking within 18 months.

Investing \$94 million to modernize and prepare the bus and rail network for subsequent phases of the 10-Year Vision by upgrading key transit exchanges including Lonsdale Quay, Phibbs Exchange, 22nd Avenue Station, Commercial-Broadway, Guildford and Newton.

Continuing state-of-good-repair work to modernize and improve transit reliability.

"I applaud the Prime Minister's leadership in building better transit in Metro Vancouver. After years of talking about the need for modernized and new transit service, this Phase 1 funding will finally transition us into action," said Surrey Mayor Linda Hepner, Vice-Chair of the Mayors' Council. "I am also proud that we are the first jurisdiction in Canada to sign this agreement, which will help us stay at the front of the process to secure Phase 2 funding."

Earlier this year, the Mayors' Council [put forward a comprehensive proposal](#) to the BC government to fund the entire 10-Year Vision. The Mayors' Council will continue to work with the Province of BC to finalize an agreement on a funding strategy to [ensure there are clear commitments to the entire 10-Year Vision](#), including moving immediately on Phase 1 projects and other "Early Roll-out" priority projects in the first two to three years of the 10-Year Vision.

A provincial commitment to this funding strategy is an essential step in enabling regional funding for Phase 1 and other Early Roll-out plan related projects over the next several months. The Minister Responsible for TransLink and the Mayors' Council have agreed that committing to this funding strategy over the next several months is a key next step in enabling regional funding for Phase 1 and other Early Roll-out plan related projects.

Subject: June 16 PM visit

Hi folks,

PMO advance met with Marc Riddel (VP of Comms at TL) this morning to look at possible venues for the presser on Thursday with the PM. Here are the details so far:

- **Likely location:** Skytrain Ops and Maintenance Centre at Edmonds Station (they also want to look at the bus depot but I am going to nix that, mostly because this money isn't for buses, but also because the union local is in contract talks and in a legal strike position; Marc also proposed the Seabus or at Lonsdale Quay, at Waterfront or Main St. stations, all which were rejected by the RCMP for security)
- **Time:** bilateral mtg with CC at 9am; presser at 10:30am; he needs to leave for downtown for another meeting at 11:15am
- **Scenario:** just after 10, JT, CC, GR, LH and likely a few others will board a new Mark III train to do a loop around the OMC and then roll into the maintenance barn just before 1030; descend and do the presser in front of the train

I am going to check in with Sohi's office now on a few things:

- We need to confirm specific role of GR and LH, as well as other MC members at the event. The advance team was a little vague on that.
- It feels like a bilat with the PM and key MC members before or after his mtg with CC would be helpful in terms of our messaging around the GoC being a partner of cities, etc.
- The RCMP refuses to allow the PM to ride Skytrain to or from the event. Altho not a huge deal, this feels like a bit of a wasted opportunity – would be good to prod this a little more.
- Need to start agreeing on some messaging.

I am working on some draft messaging, etc. now. Will send over shortly and then we should probably plan some time tomorrow to discuss.

Subject: Re: Key messaging for Phase 1 announcement

Probably would be good to draft our own to begin with. The official release will almost certainly be a fed-prov release. This is a fed-prov announcement. But that may be ok - will give us some space to shape our messaging without endless negotiation with other govts. But we will want a PM quote in there somehow. Will need to coordinate this with PMo and Sohi's office.

Subject: Run of show

PMO isn't sharing a run of show with us so I asked Marc and team at TL to do one up based on what we know.

Here is a link to the PMO MA: <http://pm.gc.ca/eng/news/2016/06/15/itinerary-thursday-june-16-2016>

7 a.m.<x-apple-data-detectors://1> Set-up, PMO's office will take care of the set-up of chairs, podium, sound system etc. (BCRTC to provide power).

8:30 a.m.<x-apple-data-detectors://2> Media start to arrive and set-up, PMO will corral them

9:15 a.m.<x-apple-data-detectors://3> Security sweep of media in media pen

9:15 a.m.<x-apple-data-detectors://4> (approx.) VIPs arrive; CC to be escorted to Mike Richard's office; PM to be escorted to conference room 1; Mayors to Conference 2

TransLink comms staff to guide VIPs up to appropriate meeting rooms

9:40 a.m.<x-apple-data-detectors://5> Media cameras to be escorted up by PMO media team up to conference room 1 (BCRTC staff – request to Adrian Yee)

9:45 a.m.<x-apple-data-detectors://6> Bilateral meeting

10:00 a.m.<x-apple-data-detectors://7> PM/CC continue meeting in conference room 2 (no media)

10:00 a.m.<x-apple-data-detectors://8> Invited guests arrive. (Request: employees for the photo op to arrive so PMO can position them)

10:20 a.m.<x-apple-data-detectors://9> VIPS walk down to Mark III train (Marc Riddell to guide them to train)

10:25 a.m.<x-apple-data-detectors://10> MC Chair/Vice Chair, BCRTC President/ TL CEO, and Board Chair positioned in reception to greet VIPs

10:30 a.m.<x-apple-data-detectors://11> VIPs board the Mark III Train

10:35 a.m.<x-apple-data-detectors://12> Arrive at event space. VIPs disembark the train and move to podium

10:36 AM<x-apple-data-detectors://13> Prime Minister delivers remarks

10:40 AM<x-apple-data-detectors://14> Premier Clark delivers remarks

10:45 AM<x-apple-data-detectors://15> GR remarks

10:50 AM<x-apple-data-detectors://16> Prime Minister answers questions from the media

11:10 AM<x-apple-data-detectors://17> Event concludes - VIPs exit and depart

Subject: Arrival for GR and LH tomorrow

The PM and CC will be arriving at the OMC at 9:15. They are doing a bilat mtg at 945. I would recommend your two mayors arrive just before 915 so they can welcome them to the OMC and then we can work on grabbing some time to talk to the PM before the PM-CC mtg at 945.

We have a room set up for us on the second floor of the OMC in Conference Room 2 for us to

use. This is right beside where the bilat will be.

See attached. Any final comments please send asap.

We are still waiting for a run of show for the event. We assume GR will have a 3-4 minute statement to deliver after PM and CC. Katie, are you working on that? We will need to really emphasize that Phase 1 projects do NOT include buses - the prov is already telling reporters that Phase 1 includes buses - and that within the next 6 weeks, we need to reach a deal with the prov on their commitment to the rest of the vision, to enable us to activate funding for Phase 1, as well as the other, currently unfunded "early roll-out" projects in the Vision, esp. bus service improvements.

Mike

Thank you Prime Minister Trudeau and Premier Clark. It is a pleasure to join you both here today on the unceded territories of the Musqueam, Squamish, and Tsleil-Waututh First Nations to celebrate partnership across all levels of government, taking the next tangible steps in making the Mayors' Council's 10-Year Vision for Metro Vancouver Transit and Transportation a reality.

Today marks the largest investment to expand regional transit in at least six years. \$616M in federal and provincial funds, matched with an additional \$125M from Translink is truly remarkable.

The Mayors' Council welcomes the federal government as a dedicated and willing partner in improving transit and mobility options in Metro Vancouver, and this new investment is a promising first step in turning the Mayors' Council's 10-Year Vision into real projects on the ground that will benefit hundreds of thousands of transit riders and commuters in Metro Vancouver.

As Chair of the Mayors' Council, I am proud that Metro Vancouver could be the first jurisdiction in Canada to sign a major Phase 1 infrastructure agreement with Prime Minister Trudeau and his government, which will help the region stay at the forefront in securing Phase 2 funding and fully realizing our 10-Year Vision.

Phase 1 funding for the 10-Year vision is a good first step that gives Translink the green light to start working on a sub-set of the priorities outlined in the first 2-3 years of the capital projects in the Mayors' Council's 10-Year Vision.

Projects like the Broadway Subway and South of Fraser Rapid Transit projects – which will receive \$157 million – are on track to be fully funded and breaking ground within 18 months.

\$345 million will modernize and expand existing rapid transit lines by adding 28 SkyTrain, 22 Canada Line, 5 West Coast Express cars, and a third SeaBus, as well as overhaul stations along the Expo Line and Canada Line, and bike parkades on the Evergreen line.

And \$94 million will modernize and prepare our bus and rail network for the future by upgrading high traffic transit exchanges.

But there is the potential to do so much more.

Earlier this year, the Mayors' Council put forward a comprehensive funding plan to our provincial partners to fully fund the region's 10-Year, \$7.5 billion transit and transportation plan, putting fair options on the table to consider that would allow us to immediately get moving on transportation projects. Once that plan is accepted, we are ready and willing to put shovels to the ground in partnership with the BC government for these urgently needed transportation improvements in the region.

As we move forward, we need to continue to work diligently with all our partners to ensure that the remaining projects in our Vision stay on track. We will work

with the BC government to finalize a funding strategy making sure there are clear commitments to the entire 10-Year Vision, including moving immediately on Phase 1 projects and other “Early Roll-out” priority projects, especially bus service improvements, in the first 2-3 years of the 10-Year Vision.

I look forward to working in close partnership with the provincial and federal governments to get projects in Metro Vancouver moving. Finalizing the funding strategy for the 10-Year Vision in the coming weeks is a critical step in enabling regional funding for both short and long term projects. Thank you.
