Recommended Design

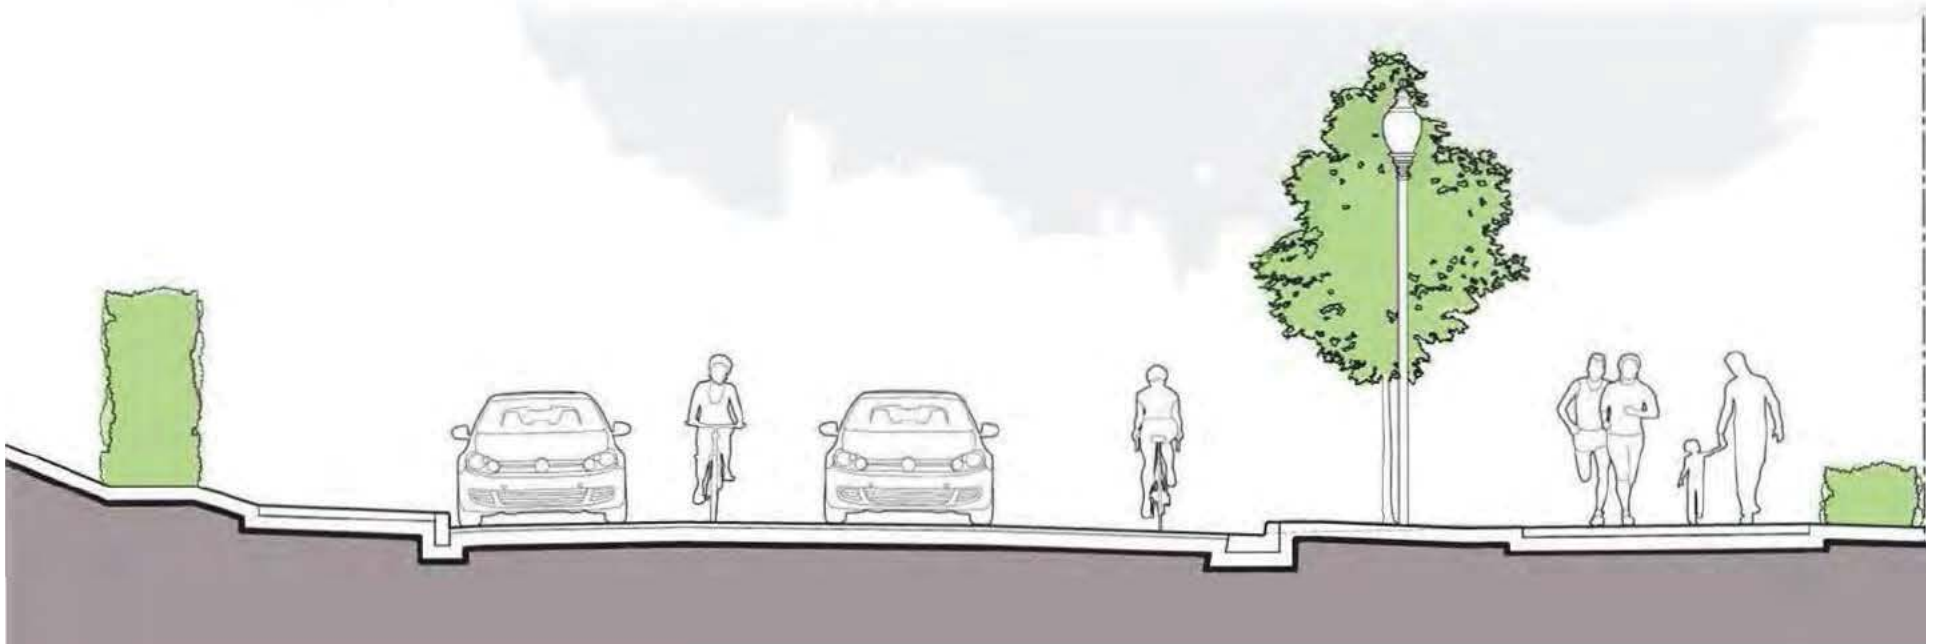

Recommended design will improve the walking environment and public realm on Point Grey Road.

- Wider and fully accessible sidewalk
- Greater separation between pedestrian experience and roadway
- More green and park space
- New or improved treed front boulevard
- Seating and resting opportunities
- New/improved pedestrian street lighting
- Reduced conflicts at driveways due to improved site distance through:
 - Consistent sidewalk, back boulevard and road width

Recommendation

“THAT Council approve a multi-year capital project budget of up to \$6.4 million for public realm improvements to the Seaside Greenway between Alma Street and Macdonald Street . . . to improve safety and comfort for people walking and to increase public green space”

Thank you

⑥ Improved Walking

Existing Sidewalk Conditions

- Sidewalk levels drop at over 70 driveway crossings.
- They are extremely narrow when compared to the rest of the Seaside Greenway.
- Many are in a poor state of repair.
- There are crossing points with no curb ramps.
- In some places, hedges and vegetation hang into the sidewalk.

Walking Toolkit

- Design street and driveway crossings to be safe and convenient with sufficient visibility for all users.
- Provide sufficient sidewalk width, free of obstructions for the full range of anticipated users.
- Use smooth level surfaces to accommodate strollers and wheelchairs.
- Provide pedestrian-scale lighting and street furniture.

Walking on narrow sidewalks with obstructions is challenging, particularly for seniors

Ample, even sidewalks make walking much more pleasant and attractive

Optimal Sidewalk Conditions

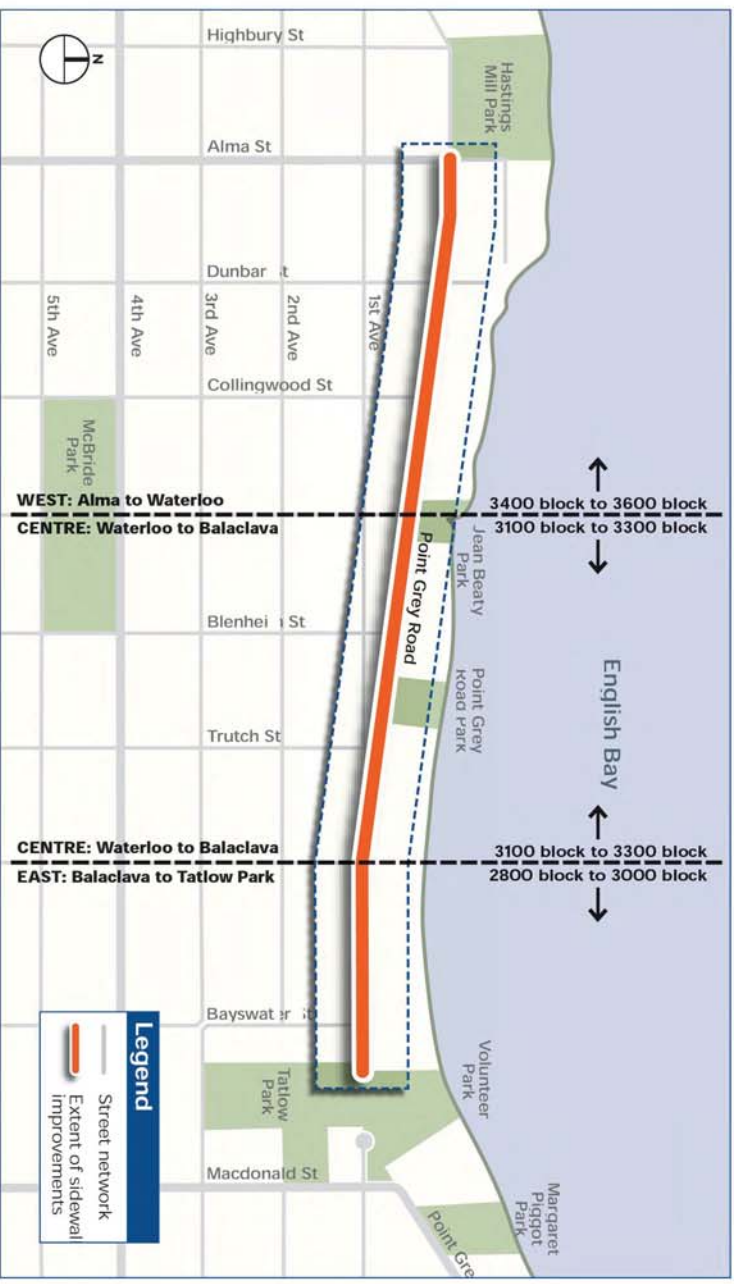

- Maintain an even grade that does not drop down for driveway crossings.
- A sidewalk width comparable to the rest of the Seaside Greenway (2.4 - 3.6m wide).
- Provide a smooth, even surface.
- Provide adequate visibility for all users.

Seaside Greenway Completion Phase 2

We are working to improve the walking connection between Macdonald St and Alma St, and to finalize a neighbourhood traffic management plan for the local area south of Point Grey Road.

In addition to continuing to collect and analyze information, we are seeking input on wider sidewalk designs on the north side of Point Grey Road, and on traffic plan options.

Please take a few moments to review the information presented here and give us your feedback. Your feedback will be combined with technical and cost considerations, and refinements will be made to the designs where appropriate.

1 Background

Overview

Plans for the completion of the Seaside Greenway and improvements to the southern end of Burrard Bridge were approved by Council in July 2013. The plans included:

- Completion of the Seaside Greenway between Jericho Beach and Kitsilano Beach Park
- Creation of the York Ave Bikeway
- Reconfiguration of the intersection at Burrard St and Cornwall Ave

Phased Work

The completion of the Seaside Greenway is being carried out in two phases.

Phase 1: Most of the walking and cycling improvements from Jericho Beach Park to the Burrard Bridge were constructed in 2013 and 2014.

Phase 2: Sidewalk widening on the north side of Point Grey Road between Alma St and Macdonald St, lighting upgrades, pedestrian amenities such as benches and finalized traffic management features will be constructed beginning in 2016.

Phase 1: York Ave Bikeway (completed)

The York Bikeway now connects the southern end of the Burrard Bridge with Point Grey Road at Stephens Street. It has protected bike lanes where traffic is busier near Burrard, and is a quiet shared street further west.

2 Background

SEASIDE GREENWAY
PHASE 2

Phase 1: Point Grey Road (completed)

January 2014: Point Grey Road at Macdonald Street was closed to through traffic for vehicles. Westbound traffic was directed south on Macdonald Street. Point Grey Road is now open primarily to local traffic.

- **Walking** — The number of people walking mid-week rose from 600 per day to 900 per day after the closure of Point Grey Road to through traffic.
- **Cycling** — The number of people cycling rose from 600 per day to 2700 on weekdays and 3300 on weekends.
- **Transit** — Transit services and travel times were unaffected by the changes on Point Grey Road.
- **Motor Vehicles** – Motor vehicle traffic on Point Grey Road has dropped from over 10,000 to under 1000 motor vehicles per day.

Fewer people driving combined with many more people cycling on Point Grey Road has created a cycling route that is safe, convenient, and comfortable for people of all ages and abilities

Families are choosing active modes of transportation to get to parks, beaches, etc

South end of Burrard Bridge (completed)

Designated walking and cycling traffic signals reduce the risk of collision for people crossing Burrard St or Cornwall Ave on foot or on a bike.

In the summer, 10,000 walk and bike trips and over 50,000 motor vehicle trips are made over the Burrard Bridge each day.

3 Phase 2 Work

SEASIDE GREENWAY
PHASE 2

Project Goals

Phase 2 of the Seaside Greenway Completion Project has three key goals:

1. Create an improved walking connection between Macdonald St and Alma St that is safe, convenient, comfortable and accessible for people of all ages and abilities.
2. Finalize a traffic plan for the local area south of Point Grey Road.
3. Coordinate walking improvements such as wider sidewalks and boulevards with needed sewer and water main work on Point Grey Road.

Key Objectives

- Develop Point Grey Road as a comfortable, convenient and accessible walking route.
- Consider upgrades to pedestrian lighting and other amenities such as seating.
- Support all forms of active transportation such as walking (including wheelchairs and strollers), cycling, running and skateboarding.
- Carefully consider impacts to local residents and nearby businesses.
- Encourage non-neighbourhood traffic to use arterial routes to reach its destination.

Challenges

- the location of existing utilities such as power and light poles.
- existing tree conditions and locations.
- changes to on-street parking.
- improving pedestrian crossings at driveways while providing motor vehicle access to local residences.
- coordinating construction with planned major sewer and water utility upgrade work.
- ensuring safety for all street users, especially where visibility is limited due to obstructions such as plants within the street right-of-way.
- cost of street reconstruction.

④ Project Timeline

PHASE 2

Timeline

Council Approval	Plans for the completion of the Seaside Greenway and improvements to the southern end of Burrard Bridge were approved on July 29, 2013. Construction of Phase 1: Most of the walking and cycling improvements from Jericho Beach Park to the Burrard Bridge completed by summer 2014.	July 2013
We Monitor and Research	City staff carry out further analysis to develop Phase 2 of the Seaside Greenway Completion Plan Key areas: Sidewalk widening on the north side of Point Grey Road between Alma St and Macdonald St. Lighting upgrades, pedestrian amenities and additional traffic calming as needed.	2014 to Present
We Listen	Public Meetings/Website and Questionnaire: <ul style="list-style-type: none">• Residents• Businesses• Users of the corridor	June 2015
We Listen, Design and Report Back	Using the input from the public consultation, the sidewalk design and traffic plan will be refined. A Phase 2 consultation summary and recommended design options will be shared in Fall 2015. The recommended sidewalk designs and traffic management options will be presented to City Council in late 2015.	June to Late 2015
Construction	City staff will implement the final traffic plan. The planned sewer and water utility works will be implemented between Waterloo St and Balaclava St, with construction likely to begin in 2016. Improved walking connection from Alma St to Tatlow Park will be coordinated with planned utility work.	2016 to 2017

5 Next Steps

Review

Staff will review all comments and suggestions.

We are continuing a thorough analysis, considering alternatives that meet project goals, and consulting with residents, businesses and other stakeholders.

Revise

Feedback from the public consultation will be considered with technical and cost considerations, and refinements will be made to the design where appropriate. We will bring a single proposed plan back for further input.

Report

Staff will report to City Council on the feedback heard during community consultation, recommended designs, and funding needed to proceed with construction.

Council will decide how the project will proceed.

We want to hear from you!

Please take a few moments to review the information on these boards and give us your feedback.

14 Point Grey Cul-de-sacs

SEASIDE GREENWAY
PHASE 2

Council approved cul-de-sacs on Point Grey Road between Bleheim St and Trutch St in Phase 1 of the Seaside Greenway Completion. The cul-de-sacs will close Point Grey Road to through traffic. Improved sidewalks and a bike path will link the two cul-de-sacs.

Original Conditions

Current Conditions

Proposed Conditions

More greenspace, wider sidewalks, a local street bikeway

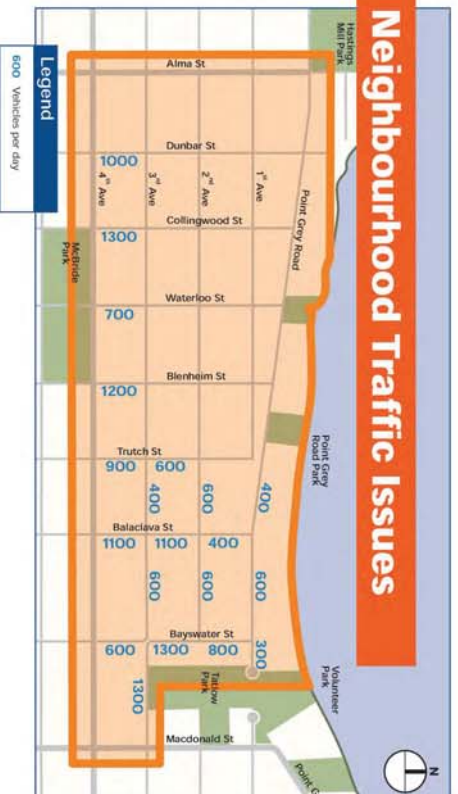

15 Neighbourhood Traffic

SEASIDE GREENWAY
PHASE 2

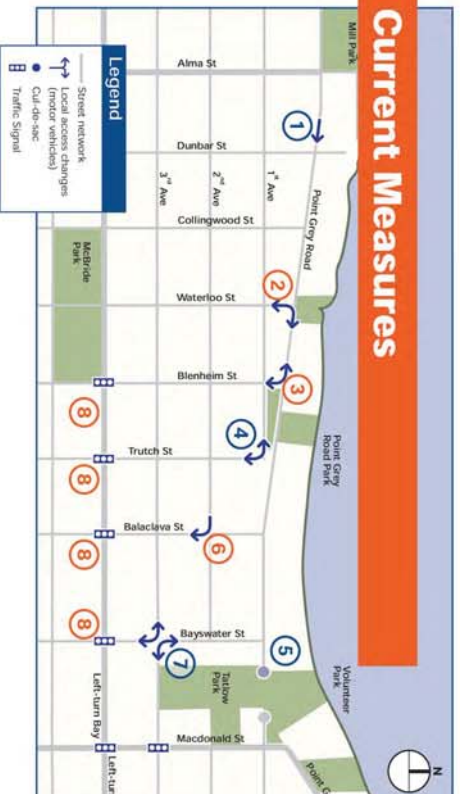

Neighbourhood Traffic Issues

Current Traffic Conditions

- Fewer than 1000 vehicles per day drive on Point Grey Road
- Most other east-west streets have vehicle volumes of 300-600 vehicles per day
- The north-south streets immediately north of 4th Ave have vehicle volumes of up to 1,300 vehicles per day
- The 2800-block of 3rd Ave (bike route and playground zone) and Bayswater St between 2nd Ave and 3rd Ave have vehicle volumes of 1,300 vehicles per day
- Some potential short-cutting in the lanes north of 4th Ave

Current Measures

Point Grey Road

1. One-way, Alma St to Dunbar St
 2. Westbound left-turn-only at Waterloo St and northbound right-turn-only from Waterloo St *
 3. Eastbound right-turn-only at Blenheim St and Northbound left-turn-only from Blenheim St *
 4. No access to Point Grey Road from Trutch
 5. Cul-de-sac at Bayswater St
 6. W 2nd & Balaclava St: Eastbound right-turn-only *
 7. W 3rd Ave & Bayswater St: Diagonal diverter
 8. W 4th Ave intersections: Four pedestrian signals on timer *
- * Currently Temporary

Objectives

- Discourage traffic from traversing the neighbourhood.
- Evenly distribute traffic across local streets
- Encourage traffic to use direct routes to arterial streets (4th Ave, Alma St and Macdonald St).

16 Alternate Options

SEASIDE GREENWAY
PHASE 2

Connecting Point Grey Road Park with green space to the south with two cul-de-sacs was approved by Council in 2013 as part of the Seaside Greenway plan. These cul-de-sacs will be built after the major sewer and water works planned for Point Grey Road are carried out, likely in 2016.

The following changes to the current traffic calming features are planned:

Point Grey Road

Add

- A. Expanded green space and cul-de-sacs between Blenheim St and Trutch St

Remove

- B. Westbound left-turn-only at Waterloo St and northbound right-turn-only from Waterloo St
- C. Eastbound right-turn-only at Blenheim St and Northbound left-turn-only from Blenheim St

Note: These approved measures are part of all preliminary design options A, B and C.

The following diagrams outline three preliminary design options to accommodate traffic patterns that may change as a result of the installation of the planned cul-de-sacs on Point Grey Road, and address the high traffic volume and short-cutting in local lanes.

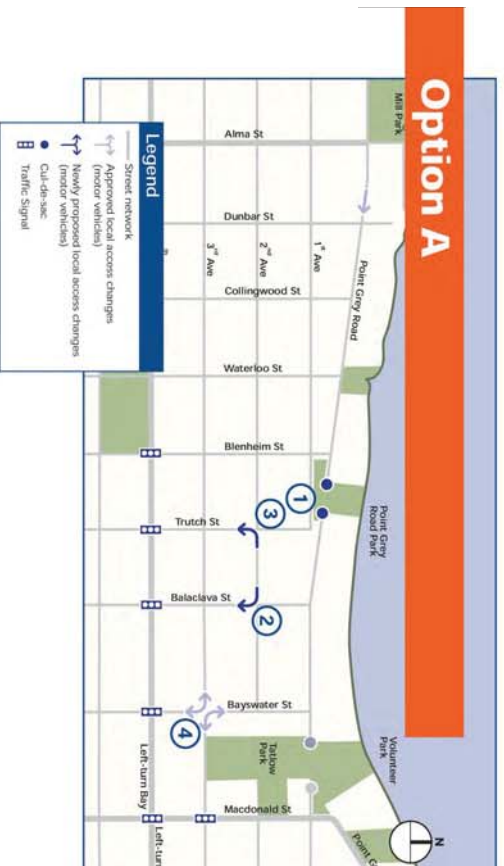

Point Grey Road

Approved in 2013

- 1, 2 cul-de-sacs between Blenheim St and Trutch St

Additional Features

2. W 2nd & Balaclava St: Eastbound right-turn-only to become permanent
3. W 2nd & Trutch St: Add westbound diverter
4. W 3rd Ave & Bayswater St: Existing diagonal diverter remains

This preliminary design option maintains some of the traffic control measures currently in place, including the diagonal diverter at 3rd and Bayswater St and the temporary diverter at 2nd Ave and Balaclava St. It adds a diverter at 2nd Ave and Trutch St.

17 Alternate Options

Point Grey Road

Approved in 2013

1. 2 cul-de-sacs between Blenheim St and Trutch St

Additional Features

2. **W 3rd Ave:** 2 cul-de-sacs between Macdonald St and Bayswater St

Remove

3. **W 3rd Ave and Bayswater:** diagonal diverter

This preliminary design option returns most of the intersections north of 4th Ave to unrestricted left and right turns. New cul-de-sacs on 3rd Ave between Bayswater St and Macdonald St will prevent vehicles from using 3rd Ave as a short-cut between local streets and Macdonald St.

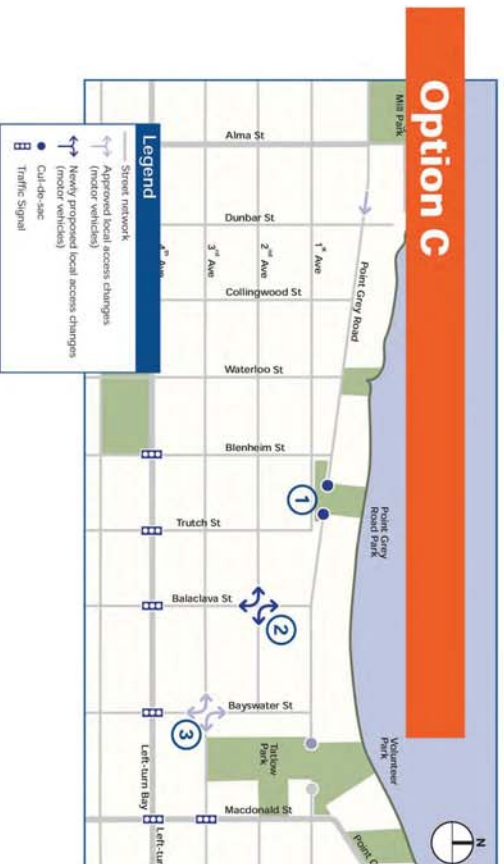

Point Grey Road

Approved in 2013

1. 2 cul-de-sacs between Blenheim St and Trutch St

Additional Features

2. **W 2nd & Balclava St:** Add diagonal diverter
3. **W 3rd Ave & Bayswater St:** Existing diagonal diverter remains

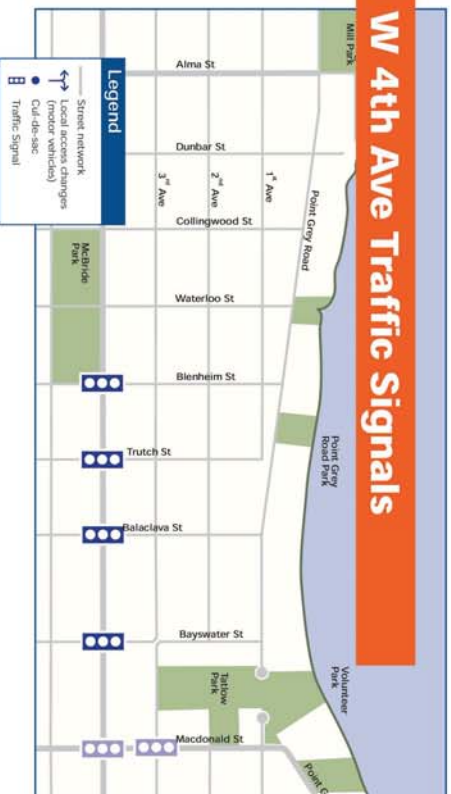

This preliminary design option maintains some of the temporary traffic control measures currently in place, including the diagonal diverter at 3rd Ave and Bayswater St. The eastbound right-turn-only at 2nd Ave and Balclava St would be converted into a diagonal diverter. The traffic signal at Macdonald St and 3rd Ave may need modifications to accommodate east-bound traffic.

18 W 4th Traffic Signals

SEASIDE GREENWAY
PHASE 2

W 4th Ave Traffic Signals

Prior to 2014, the traffic signals on 4th Ave at Blenheim St, Trutch St, Balaclava St and Bayswater St stayed green for traffic travelling on 4th Ave unless a person walking or cycling pushed a button to change the light.

As part of the traffic management implemented in 2014, those four signals were set to operate on 'recall,' meaning that they change from green to red every 70 seconds from 7 am to 7 pm. This allows vehicles to turn left onto 4th Ave from neighbourhood streets more easily. From 7 pm to 7 am, the signals are activated by pushing a button.

What we've heard

The changes to the traffic signals implemented in Phase 1 have been beneficial to traffic leaving the neighbourhoods north of 4th Ave. However:

- Traffic travelling along 4th Ave is experiencing delays due to the increased number of red lights between Blenheim St and Bayswater St.
- We have heard complaints about increased noise from vehicles accelerating when traffic lights change from red to green.

Proposed Solution:

Remove the 'recall' setting and add vehicle detector loops on the north side of the four intersections.

As a result, the signals will stay green for traffic travelling on 4th Ave unless a person walking or cycling presses the button at the intersection, or a person driving southbound towards 4th Ave triggers a signal change from green to red.

Adding detector loops will limit the number of red lights on 4th Ave, thereby reducing vehicle delay and noise while still providing opportunities for a person driving to exit the neighbourhood north of 4th Ave.

These changes will be monitored to assess their effectiveness and safety. Further modifications will be made if needed.

We have also received questions about the possibility of adding a westbound to southbound left turn lane on 4th Ave at Alma, and are currently reviewing this issue. If you would like to receive updates about this intersection, please fill out a comment sheet in person or online at vancouver.ca/pointgreycornwall.

Seaside Greenway Phase II

In June 2015, staff presented three neighbourhood traffic plan options for the neighbourhood north of W 4th Ave, and two public realm and sidewalk options along Point Grey Road. Thank you for providing your input on these preliminary designs.

This newsletter contains information about the final recommended neighbourhood traffic plan and planned improvements to the traffic signals on W 4th Ave between Macdonald St and Bayswater St.

Recommendations for the sidewalk and public realm improvements on Point Grey Road will be finalized in early 2016.

Neighbourhood Traffic Recommendation

Three neighbourhood traffic plans were presented at two public open houses in June 2015. Option B, which closes W 3rd Ave to through traffic between Bayswater St and Macdonald St, received the most favourable public response.

Following additional internal review, staff have determined that a modified version of Option B also best meets the project goals and objectives of discouraging traffic from traversing the neighbourhood, evenly distributing neighbourhood traffic across local streets, and encouraging local traffic to use direct routes to arterial streets.

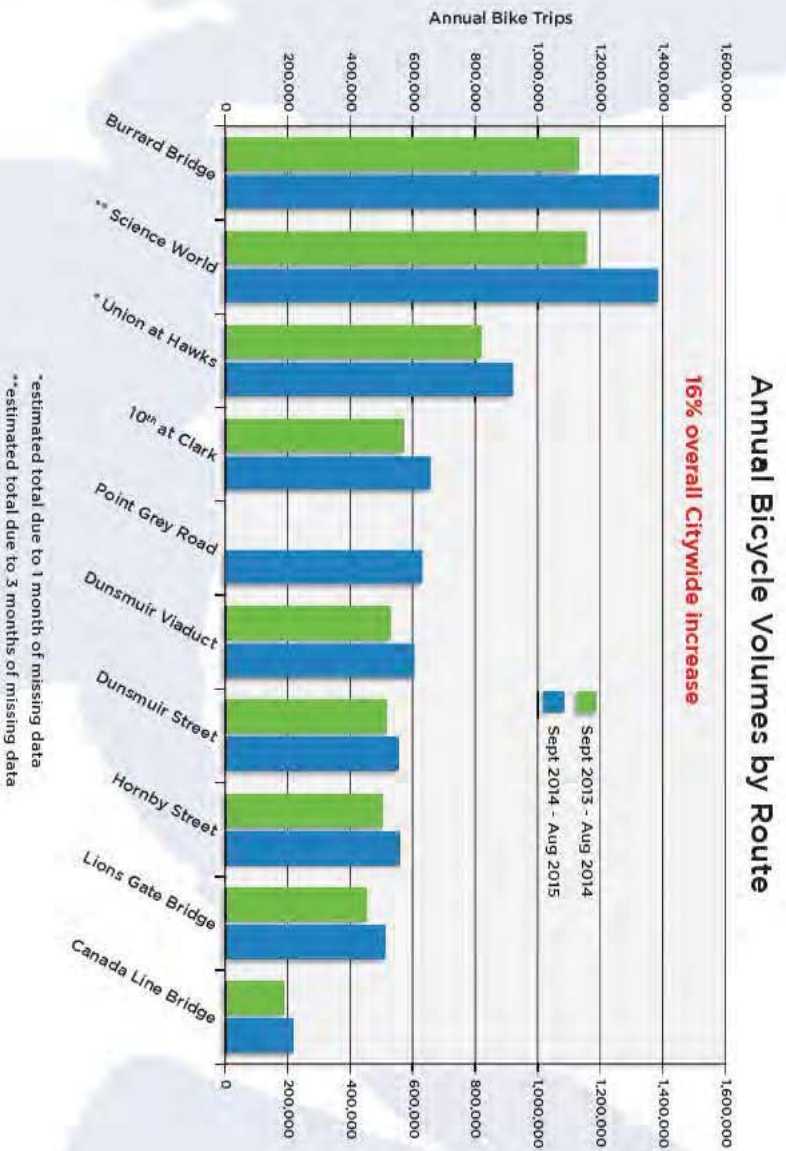

This plan returns most of the intersections north of W 4th Ave back to standard unrestricted intersections. W 3rd Ave between Bayswater St and Macdonald St would be closed to through traffic at Macdonald St.

Approximately 360 people attended the public open houses in June 2015. 189 questionnaire responses were received in addition to email and phone contact. More than 80% of these respondents live or work in the area.

Public Realm Improvements

Phase 1 of the Seaside Greenway was completed in 2014. The project has created a safe, convenient, and comfortable walking and cycling connection between Burrard Bridge and Jericho Beach.

The City has seen steady increases in trips made on foot and by bicycle over the last five years. As of 2015, 50% of all trips in Vancouver are taken on foot, by bike or by transit. This summer, we saw record numbers of cycling on almost all major bike routes. In fact, a 16% increase in cycling traffic throughout Vancouver was recorded over the past year, including on the Burrard Bridge and on Point Grey Road.

Improving safety, comfort and accessibility for people of all ages and abilities walking along the Seaside Greenway will help further increase the number of trips made by walking, supporting the Transportation 2040 direction of ensuring streets and sidewalks support a vibrant public life and encourage a walking culture, healthy lifestyles, and social connectedness.

Staff are continuing to meet with local residents to review site-specific design considerations for the sidewalk widening and public realm improvements on Point Grey Road. Design recommendations will be shared in early 2016.

Thomas McCartney I was wondering about the status of phase 2 of the Point Grey Greenway as stated back in Sept2013, will it begin planning and public consultations this year as well.?

Dear Resident:

RE: Seaside Greenway: Neighbourhood Traffic Plan Recommendations

In June 2015, the City of Vancouver presented and gathered public feedback on three potential traffic plans for the neighbourhood north of W 4th Avenue, and two public realm and sidewalk options along Point Grey Road. Thank you for providing input on these preliminary designs. While a newsletter is being mailed out to residents north of 4th Avenue outlining these recommendations, this letter pertains to the portion of the recommended traffic plan near your home along 3rd Avenue near Macdonald Street.

Staff received hundreds of comments on the preliminary design proposals, have combined this public feedback with financial and technical considerations to arrive at a preferred neighbourhood traffic plan option, and are currently finalizing the design.

Refinements have been made to the recommended traffic plan specifically on 3rd Avenue near Macdonald Street. Staff would like to discuss the recommended neighbourhood traffic plan and specific changes to the street alongside your home. This will give you an opportunity to learn about the recommended design option and the impacts it may have for your property.

Please contact the project team at pointgrey.cornwall@vancouver.ca if you would like to set up a meeting to review the recommended neighbourhood traffic plans for the neighbourhood north of W 4th Avenue and along your street in particular.

Staff are continuing to meet with local residents to review site-specific design considerations for the sidewalk widening and public realm improvements on Point Grey Road. Point Grey Road public realm design recommendations will be shared in early 2016. More information about the Seaside Greenway Completion is available at vancouver.ca/pointgreycornwall.

Dear Resident:

RE: **Point Grey Road - Sidewalk Public Realm Design Recommendations**

Thank you for your ongoing contributions to the development of the Seaside Greenway between Alma and Macdonald Streets. The City would like to share results with residents along the north side of Point Grey of designs for the greenway following public consultation and additional technical analysis before releasing designs to the broader public.

Three separate meetings have been scheduled. Each meeting will focus on one of the three distinct segments along Point Grey Road. This will allow more time for focussed discussion of each segment. Each meeting will focus on one of the segments and will start with a staff presentation of the findings for that segment followed by an opportunity to provide feedback. Staff will be on hand after the presentation to answer questions.

Please join us for one of the discussions of each of the three sections:

West (Alma Street to Waterloo Street)
Thursday, February 18, 2016, 7-9 pm
Oak Room, Aberthau Mansion (4397 W 2nd Avenue)

Centre (Waterloo Street to Balaclava Street)
Monday, February 22, 2016, 7-9 pm
Snowy's Lounge, Kitsilano Community Centre (2690 Larch Street)

East (Balaclava Street to Tatlow Park)
Thursday, February 25, 2016, 7-9 pm
Oak Room, Aberthau Mansion (4397 W 2nd Avenue)

If you cannot attend the meeting for the segment that your property is in or if you want to see the plans for the entire stretch of Point Grey Road between Alma and Macdonald Streets, all of the recommended plans will be available to view on the project website at vancouver.ca/pointgreycornwall after Monday, February 15, 2016.

Consultation and planning to date:

Throughout the fall and winter, refinements have been made to the sidewalk design along Point Grey Road based on additional technical analysis and resident input. During that time staff met with residents on the north side of Point Grey Road to discuss concerns and answer questions on impacts to private properties. Staff also attended a meeting organized by Point Grey Road residents at Aberthau Mansion in mid-August.

Phase II of the Seaside Greenway Project also includes the traffic plan for the neighbourhood north of W 4th Avenue, including adjustments to traffic signals on W 4th Avenue, and a wider sidewalk and enhanced public realm on Point Grey Road.

The neighbourhood traffic plan was finalized in fall 2015 and a newsletter sent out and posted on the project website. The operation of some 4th Avenue traffic signals has been modified and temporary measures outlined in the traffic plan will be installed in coming weeks with final permanent construction planned for summer 2016.

If you have any questions or concerns please e-mail pointgrey.cornwall@vancouver.ca or phone the City's 3-1-1 service.

Thank you to everyone that has shared their thoughts during the Seaside Greenway Project. We appreciate your continued participation as the final phase of recommendation is nearing completion.

Best regards,

David Rawsthorne, P.Eng.

Dear: Resident/Owner

RE: **Surveys on Point Grey Road between Macdonald Street and Alma Street**

In June 2015, the City of Vancouver began public consultation on Phase 2 of the Seaside Greenway project. This phase includes a final traffic plan for the neighbourhood north of W 4th Avenue, adjustments to the traffic signals on W 4th Avenue, and a wider sidewalk and enhanced public realm on Point Grey Road.

During consultation, we received feedback on the preliminary sidewalk and public realm design options and thank everyone that have taken the time to share their thoughts with us so far.

We have identified the need for more detailed technical information to help better understand the current condition on the north and south sides of Point Grey Road, and broader implications of a number of preliminary design ideas for your street. As part of ongoing background and planning work, survey crews will be conducting legal and topographical surveys along Point Grey Road between Macdonald Street and Alma Street in the coming weeks.

The legal survey, to be conducted by licensed legal surveyors, will confirm the location of property lines on Point Grey Road. The topographical survey, to be conducted by City of Vancouver survey crews, will measure physical features in the street right-of-way such as sidewalk and driveway grades, trees, and structures such as fences and gates. This will supplement our existing files, and will document housing built since the most recent surveys were conducted in 2012.

Disruption during this work will be minimal. It is our intent to conduct the survey work within the street right-of-way (i.e. in the roadway, on the sidewalk, or in the back boulevard between the sidewalk and private property line). In some cases, survey crews may need to briefly enter your property to measure gates, fences, hedges, etc. that are on City property. In other cases, surveyors may need to briefly enter your property to measure the locations and elevations of driveways, paths, etc. that must be accommodated in a new street design. Thank you in advance for accommodating these access requirements.

If you have any questions or concerns please feel free to e-mail pointgrey.cornwall@vancouver.ca or phone the City's 3-1-1 service. More information about the Seaside Greenway Public Realm Completion project is available at vancouver.ca/pointgreycornwall.

Thank you to everyone that has shared their thoughts on this phase of the Seaside Greenway project to date. We appreciate your continued interest in this project, and your patience as we conduct these surveys.

Best regards,

David Rawsthorne, P. Eng.

Dear Resident:

RE: Point Grey Road - Council Approved Public Realm Improvements

In the coming weeks, City staff will be conducting survey work within the street right-of-way on the north side of Point Grey Road.

About the Seaside Greenway

On May 4, 2016, Vancouver City Council approved public realm improvements to the Seaside Greenway between Alma and Macdonald Streets. These improvements will enhance the safety and comfort of people walking along this corridor. The approved plan includes a widened fully accessible sidewalk on the north side of Point Grey Road, new or improved tree boulevards, pedestrian lighting, benches and water fountains in the parks.

Please visit vancouver.ca/pointgreycornwall to view the proposed design, report to Council, meeting minutes, staff presentation, and a video clip of the Council meeting.

Improvements to the public realm on Point Grey Road will be coordinated with sewer construction and is expected to begin in the fall of 2016.

Preparing for Upcoming Survey Work

City staff will be conducting survey work along the north side of Point Grey Road. In some cases, survey crews may need to briefly enter your property to mark the back of sidewalk that falls behind gates, fences, hedges, etc. that are on City property.

Starting mid-July and lasting for two to three weeks, Thurber Ltd will be performing geotechnical investigation work to prepare for upcoming sewer construction. Their crews will perform work on Alma (4th to Point Grey Road) and on Point Grey Road (Alma to Balaclava).

In preparation for construction, you may wish to relocate planted landscaping and private structures currently located in the street right-of-way (i.e., between the sidewalk and property line) adjacent to your property. Items remaining within the right-of-way will be removed or modified to accommodate construction of the sidewalk and boulevards.

Staff will provide additional notification of the anticipated construction start date and timeline in advance of the work commencing.

We appreciate your continued participation during these improvements along Point Grey Road. If you have any questions or concerns please feel free to email pointgrey.cornwall@vancouver.ca or phone 604-673-8487.

SEASIDE GREENWAY COMPLETION PHASE II

Consultation Summary Report
July 2015

Consultation Overview

Background:

- The Seaside Greenway is a 28km stretch of walking and cycling paths that began at the Vancouver Convention Centre and ends at Spanish Banks Park.
- Phase 1 of the Seaside Greenway Completion, which included the Point Grey-Cornwall and York Bikeway, was completed in 2014. It created a safe, convenient and comfortable walking and cycling connection between Burrard Bridge and Jericho Beach.
- Phase 2 of this project includes design proposals for improved walking and public realm connections on Point Grey Road between Macdonald Street and Alma Street, a final traffic plan for the neighbourhood north of 4th Avenue, and traffic signal adjustments on 4th Avenue.
- The City sought input on the preliminary walking and public realm improvement options and on the final traffic plan for the local area north of 4th Avenue through an online questionnaire using the City's Talk Vancouver engagement platform.
- The questionnaire ran from June 19 to July 4, 2015.
- A total of **189** respondents completed the questionnaire. The questionnaire was accessed in the following ways:
 - Open invitation to the general public via the Seaside Greenway project page on the City of Vancouver website;
 - A paper version of the questionnaire, made available at an open house event that took place on June 19th, and to a Residents' Association group.
- The majority of the respondents lived in the neighbourhood (80%) around the Seaside Greenway.

Summary of Results

Improved Public Realm and Walking Connection

- Across all dimensions, respondents perceived greater benefits associated with the Recommended Design than the Alternate Design.
 - Respondents thought the Recommended Design compared to the Alternate Design had wider and fully accessible sidewalks (58% vs. 9%), greater separation between the sidewalk and roadway (48% vs. 8%), more green space (47% vs. 10%), and more seating and resting opportunities (34% vs. 8%).
- Overall, respondents thought there were fewer negative impacts/issues than benefits associated with both the Recommended and Alternate Designs (6% to 19% vs. 8% to 58% identifying benefits). But when comparing the designs:
 - For the East location, there was greater concern with the Recommended Design's impact on the existing green space (13%) compared to the Alternate (7%).
 - Similarly, for the Centre location, there was greater concern with the Recommended Design's impact on existing green space (13% vs. 8%).
 - For the West, the Alternate Design was seen as more concerning because of sidewalks being too narrow (14%), compared to the Recommended Design (8%).
- Overall, the Recommended Design was the most preferred, with 45% of respondents willing to support that option.
 - However 40% of those surveyed did not answer this question, and the comments provided suggest that this reflected a dissatisfaction with both designs (respondents did not have an option to select neither design).

Summary of Results

Traffic Plans for Local Area North of 4th Avenue

- Similar benefits were perceived for all three traffic options, but Option B received a somewhat greater reception.
 - Benefits/features associated with Option B were identified by 19%-32% of the respondents. This is compared to 13%-26% perceiving benefits associated with Option A, and 9%-22% perceiving benefits associated with Option C.
 - The specific benefits most commonly identified were reduced vehicle volumes in the neighbourhood, and improved walking and cycling conditions.
- Similarly, respondents identified the least number of concerns with Option B (7%-11%), followed by Option A (8%-26%) and the greatest number of concerns with Option C (7%-25%).
 - The specific issues most concerning were navigation becoming too irregular or confusing for visitors to the neighbourhood, and vehicles rerouting onto nearby laneways.
- The majority of respondents would support at least one of the traffic options (88%). Overall Option B was the most preferred, receiving support from 35% of those surveyed.

Final Comments

- The following are some of the general comments provided by respondents about the improvements:

"This has been a great improvement to the neighbourhood. Thanks for a great job."

"Safety issues - cars backing onto cyclists, mothers with strollers & cyclists - extremely hazardous and stressful to residents - Noise level too high when windows open you hear all the noises from pedestrians/cyclists - cost/expense + disruptive"

"..... Stop signs? Traffic lights? Increased lighting? This is where time and money would be well spent. Existing safety concerns should be resolved before attention is diverted to "beautification".

"Suggest removing powerlines and find ways to allow us to come in/out of own driveway w/o worrying about endangering self/others"

	Feb 25 2016	7:00-9:00 pm	Point Grey Road - EAST resident meeting	Aberthau Mansion		David Rawsthorne, Christine Edward, Lynn Guilbault, Paul Storer, Mathew Slazyk	8	Key concerns:
	Feb 29 2016	8:00-8:30 am	s.22(1)	s.22(1)	s.22(1)	David Rawsthorne, Christine Edward	2	Follow-up from PGR resident meeting, areas of concerns: 1) impact to the driveway which is partially wired (into the RoW), 2) impacts and need to cut back the hedge in front of their wall, 3) concerns on who will maintain the grassed boulevard since they don't own a lawn mower.
	March 9 2016	10:30-11:00 am	s.22(1)		s.22(1)	David Rawsthorne, Christine Edward	1	Questions regarding changes to the RoW and impacts to property.
	March 9 2016	4:00-4:30 pm				David Rawsthorne, Lynn Guilbault	1	Follow-up from PGR resident meeting, areas of concern: 1) chain-link fence along east property line and should not be impacted since it is close to the property line, 2) house to the east has been vacant for 5 yrs, 3) roots remain from a large Mountain Ash that was removed years ago, 4) recommended relocation of sprinkler controls, 5) City will relay pavers up to the new sidewalk with extras hauled away (if not wanted by resident)
	March 9 2016	4:30-5:00 pm	s.22(1)	s.22(1)		David Rawsthorne, Lynn Guilbault	2	Follow-up from PGR resident meeting, areas of concern: 1) loss of on-site parking, 2) discrepancy between 1981 renovation plans approved by City illustrating a 25 ft setback, actual distance is less than 10 ft, 3) potential solution to accommodate 1 parking stall on property parallel to the house/PGR, 4) accommodation of 2nd car in the driveway, 2nd car would park perpendicular behind the 1st vehicle (described above). It would pull up to wall of the house (approx. 4 feet north of the planter wall). Would likely overlap on public ROW. Staff to review possibility. If part of public ROW is needed for 2nd parking stall, an encroachment agreement could be considered.
	March 15 2016	8:30-9:00 am	s.22(1)	s.22(1)		David Rawsthorne, Christine Edward	1	Follow-up from PGR resident meeting, areas of concern/questions: 1) distance back from property line and width of sidewalk, 2) visibility existing driveway, 3) impacts of landscaping (hedges), 4) potential of driveway heating lines within the RoW.
	March 22 2016	3pm	s.22(1)	Crossroads	s.22(1)	Lynn Guilbault, Christine Edward	1	stopped by crossroads to discuss removal of parking on 3100 block of PGR. Offered to set-up meeting to have staff come out and discuss the particulars on-site.

s.22(1)	POINT GREY RD	s.22(1)	2015 Options	(Oct 20 2015) met on-site. interest in project, generally happy. Will trim trees as they're overhanging. Concerned about sewer drainage on the corner of Balaclava and PGR and slope of Balaclava N of PGR as it's previously flooded basement. Can we look at trees in public ROW on Balaclava? They're not in good shape.	
	POINT GREY RD		2015 Options	(Oct 13 2015) Met on-site. generally happy with project; concerned about loss of parking on north side; concerns about access to 4th but happy that new traffic plan will address that	
	POINT GREY RD		2016 Final Rec.	(Feb 22 2016) Email inbox: questions regarding south side parking, who will maintain the new trees	(Feb 2016) Staff response
	POINT GREY RD		2016 Final Rec.	(March 10 2016) Email Inbox: happy with proposed improvements, support widened sidewalks. Lack of park like amenities. Cyclist speeds, recommends speed bumps (March 12 2016) Email Inbox: Happy with the plan and changes, need for more park amenities. Design will slow down cyclists. Tree litter around the bike path, tree species selection and impact to views. Orientation of benches.	
s.22(1)	POINT GREY RD	s.22(1)	2016 Final Rec.	(March 2 2016) Email Inbox: concern with elimination of parking on northside.	
s.22(1)	POINT GREY RD		2016 Final Rec.	(Feb 22 2016) Attended PGR resident meeting (CENTRE) (Feb 26 2016) email request for additional information on impacts to trees and hedges, and if the wall is on their property.	(Feb -- 2016) Staff response
s.22(1)	POINT GREY RD	s.22(1)	2016 Final Rec.	(March --) Follow-up email to outline what impacts to their landscaping. (Feb 22 2016) Attended PGR resident meeting (CENTRE)	
	POINT GREY RD		2016 Final Rec.	(March 7 2016) Email inbox: does not approve next phase, changes will bring cyclists back onto sidewalk. Sidewalk needs to be upgraded, but dangerous for people driving in/out of car ports. Waste of money	
s.22(1)	POINT GREY RD	s.22(1)	2015 Options	(Sept 17 2015) clarifying facts around design plan; confirmed no parking on south side to be removed; generally happy	
s.22(1)	POINT GREY RD	s.22(1)	2015 Options	(July 2 2015) Petition: non-support for project	
	POINT GREY RD		2016 Final Rec.	(March 22 2016) Stopped by Crossroads to find out more information about changes (May 2016) Staff met on site to discuss parking issues on block with removal of parking on north side of Point Grey Road	
s.22(1)	POINT GREY RD	s.22(1)	2015 Options	(Oct 14 2015) met on-site. generally happy with project; concerned about orientation of the new driveway as he + neighbour back into parking spaces; can we reorient culdesac bulb? would be willing to cut hedge for wider driveway;	
s.22(1)	POINT GREY RD	s.22(1)	2015 Options, 2016 Final Rec.	(Sept 22 2015) very excited about next phase, supportive of project. Questions about process and stormwater drainage hook-up to new sewer line; really wants to see hydro poles undergrounded (Feb 28 2016) Letter: support for the final recommendations	
s.22(1)	POINT GREY RD	s.22(1)	2015 Options	(Oct 13 2015) generally supportive of plan; some concerns re. access to 4th Ave as they can only use Bayswater now; would like to consider wideing driveway as part of phase 2 but will think about it; mentioned increased concern around safety and privacy since increase bike and ped traffic on PGR	
s.22(1)	POINT GREY RD		2016 Final Rec.	(March 1 2016) Email inbox: Support of Improvements, concerns about parking (elimination of north side), suggestion to restrict parking to residents only	
s.22(1)	POINT GREY RD	s.22(1)	2015 Options	(Sept 23 2015) just curious about plan; likes the idea; no major concerns	
	POINT GREY RD		2015 Options	(Oct 13 2015) fine with plan; wants to make sure we don't plant a tree right in front of his front gate; some interest in widening driveway / installing lights near driveway to alert peds when car coming; can we let him know if this might work?	
s.22(1)	POINT GREY RD	s.22(1)	2016 Final Rec.	(Feb 26 2016) Email inbox: undergrounding of utilities, potential land for sale (3300 block PGR)	
	POINT GREY RD		2015 Options	(July 2 2015) Petition: non-support for project	
	POINT GREY RD		2015 Options	(Sept 22 2015) concerned about steepness of driveway; say City told him to build it that way (Sept 24 2015) supportive of project, some concern about parking in front of his house; would like to know if he can build a garage at PL; REALLY wants undergrounding	

s.22(1)	POINT GREY RD	s.22(1)	2015 Options	(July 2 2015) Petition: non-support for project (Oct 26 2015) Met with the owner's architects, David Zacharko and David Yustin. They told us that the owner s.22(1) understands that the back boulevard is City land and has no issue with the construction of a wider sidewalk. She is concerned about vehicle access to her underground garage and the effect a new sidewalk location may have on driveway grades and vehicle clearance. they noted that there is a glycol driveway heating sytem that may extend beyond the property line.
	POINT GREY RD	s.22(1)	2015 Options, 2016 Final Rec.	(July 2 2015) Petition: non-support for project (Aug 2015) Met on site. Key concern is their western red cedar hedge, which cannot be cut back only removed. It appears to be entirely on City ROW. They would like at least 6 months notice of final plans before construction to prepare. Their landscape gardener was also on site. (March 9 2016) Follow-up site meeting
	POINT GREY RD	s.22(1)	2015 Options, 2016 Final Rec.	(July 2 2015) Petition: non-support for project (Sept 2015) concerned about sightlines coming out of steep driveway; some clarification about process; note: heated driveway, coils stop at PL; don't want to lose english laurel on property. (Feb 18, 2016) Attended Feb 18, 2016 meeting. (Feb 29, 2016) Follow-up site meeting to discuss concerns, 1) driveway, wires, quality of work, 2) hedge trimming, 3) maintenance of the grass boulevard
	POINT GREY RD	s.22(1)	2015 Options	(July 2 2015) Petition: non-support for project (Sept 21 2015) Met on-site meeting. concerned about sightlines coming out of steep driveway; increased risk of peds being closer to PL (Sept 22 2015) follow-up letter regarding point discussed at meeting. included drawing of sidewalk visibility. (Nov 24 2015) met at Crossroads (w Peter Joyce). would like us to consider larger back boulevard or narrower sidewalk for improved sightlines exiting driveway; sig. grade concerns here. Suggested same treatment for all properties with steep driveways like this to ensure clarity and equity (March 8 2016) Email inbox: concern inadequate provisions for pedestrian safety. Request for specific design details
		s.22(1)	2015 Options	(Nov 24 2015) Met at Crossroads (w John Cassilis) would like us to consider larger back boulevard or narrower sidewalk for improved sightlines exiting driveway; sig. grade concerns here. Suggested same treatment for all properties with steep driveways like this to ensure clarity and equity
