May 30, 2017

s.22(1)

Dear s.22(1)

Re: Request for Access to Records under the Freedom of Information and Protection of Privacy Act (the "Act")

I am responding to your request of May 16, 2017 for:

All internal notes from the Prism system regarding 1795 Beach Avenue, specifically parking and licensing requirements, from as far back as possible until May 16, 2017.

All responsive records are attached.

Under section 52 of the Act you may ask the Information & Privacy Commissioner to review any matter related to the City's response to your request. The Act allows you 30 business days from the date you receive this notice to request a review by writing to: Office of the Information & Privacy Commissioner, info@oipc.bc.ca or by phoning 250-387-5629.

If you request a review, please provide the Commissioner's office with: 1) the request number assigned to your request (#04-1000-20-2017-194); 2) a copy of this letter; 3) a copy of your original request for information sent to the City of Vancouver; and 4) detailed reasons or grounds on which you are seeking the review.

Please do not hesitate to contact the Freedom of Information Office at foi@vancouver.ca if you have any questions.

Yours truly,

Barbara J. Van Fraassen, BA
Director, Access to Information

Barbara.vanfraassen@vancouver.ca
453 W. 12th Avenue Vancouver BC V5Y 1V4
Phone: 604 .873.7999
Fax: 604.873.7419

Jan 23/03: Re: DB415185:- Received an operational letters from the K P Engineering (B.C.) Ltd., dated January 21, 2003 and January 23, 2003 informing us that: (1) a pot sink, a pre-rinse sink and a hand sink in the second floor kitchen is connected to a 50 GPM Watts grease trap (GT) which is located on the ground floor and (2) the three compartment sink in the ground floor kitchen is used mainly as vegetable preparation sink and is connected to a 15 GPM grease trap. DB415185 is approved on a performance basis based on the above noted operational letters.					
Sept 22/03:- Re: BU426415:- This application is for exterior alterations to provide a fixed canopy. Since the prior application (DB415185) was approved for the Boathouse Restaurant, our approval is not required for BU426415.

Note

Enquiry to expand the existing outdoor seating over the parking area,
in conjunction with the existing restaurant class 1 (English Bay Cafe).
DE 207182 was issued for the existing outdoor seating. No major
concerns for the existing outlined in the DP file. Advised architect
Linda Baker that a DE will be required and that any proposal indicating
a covered deck with a retractable awning or otherwise would need to be
reviewed by the Planning Department as well.

Note

Cellular Antenna proposal (Telus)

Req'd prior clearing for DB submission:

- Photos from roof to adj. blgs, showing impacts;
- Info re: Ht & Diam of proposed permanent AND temporary eqmt.

Note: DoP "may" consider temp. poles for summer months (req' more info)

Permit would be 3 mos only, with NO option to extend. Appl't should submit letter stating that they understand that temp. poles are req'd to be removed prior to permit expiry.

Proposed canopy extension & 3 antennas will encroach on CoV property.

Applicant MUST clear w/ Eng Serv; provide written confirmation w/ subm.

meet with Paul Leong Architect and Terry Chiu, restaurant designer, re:
plan to NOT build time limit approved deck under DE405159 and instead
do a cover over existing permanent deck. Took previous de plans and
photos to Design Review.

DOP's initial comments:

* cover should be light/ metalas opposed to heavier , permanent
structure. Should be light and well designed, not too high.

* need site section showing view issue from building to east. May need
to do a notification depending on concerns. I may do site visit at some
point

* may require some acoustical analysis to see whether there is
opportunity to mitigate any additional noise created by the possibility
that the deck will become LESS seasonal do the improvements such as
heating, etc.

* the cover is to be time limited to allow time to see if there is an
increase in impact resulting from increased use of deck.

Thus main concerns are increase in use of deck (less seasonal) & impact both on neighbours and parking. Parking is non-conforming (see history in DE). The new deck approved under DE405159 was seen as "seasonal" and therefore we looked at the parking as existing non-conforming.

2002/02/15

for clarity: intent was not to have a retractable roof- Building Code won't approve in any event re: snow load. Intent was to have a light metal structure with glass roof ideally; side should be open. Took to desing review on 14th in this regard

002 Entered by: R ADAIR On: 20021213 Updated by: On:

Note

Told Paul Leong that I would clear for DB external alterations to the existing ground floor restaurant windows facing Beach Ave to change the existing 2-pane fixed windows to 3 pane sliding windows (in same rough openings). Bob Adair 021213

003 Entered by: G ROBERTS. On: 20030904 Updated by: G ROBERTS. On: 20030904

Note

DE407457 approved a covered deck area of approximately 1335 sq.ft. Existing 2nd floor deck was previously counted in floor area so this is

technically not an increase in floor area even though it is now being covered as it was already counted therefore DCL's are not applicable.

BU426415 has been applied for.

 004 Entered by: A WROBLEWSKI On: 20090223 Updated by: A WROBLEWSKI On: 20090223

Note

Enquiry about changing the lower floor to a pub. The boathouse had gotten council approval for this in 2002, however a DE wasn't applied for. Went over change of use checklist and informed them they need 5 sets for change of use and to clearly indicate area of pub on the first floor and show parking layout.

 005 Entered by: L CLARKE.. On: 20090507 Updated by: On:

Note

Man was in to apply for neighborhood pub - they got approval from Council but never applied. He had drawing that was wrong scale. I advised him to have 5 copies at correct scale made and we can accept.

talked to Masai Matamoto 805-4040 on phone re: comments she heard from someone that this site may be heritage, was built in 1800's, and might be protected (?). The building on the site (Boathouse rest.) is not heritage and there have not been discussions about it being heritage, and it appears to have been built in 1931 according to Vanmap. There are only two heritage resources in 1700 block Beach which are Bathhouse and bandstand and she is aware of these. She also didn't think this was about 1215 Baidwell. So I think there must have been discussion of another site?? I said that as far as I knew, from a heritage perspective, the existing building could be demolished and site redeveloped under zoning (issue is view from a unit in 1750 Davie (new)). She is a realtor and represents potential buyer. If there are any other enquiries received in this regard, this info (no record of site being heritage or having heritage value) can be conveyed.

Note

Telus Cellular Antenna application:

- Planning OK to approve 2 new TEMPORARY cellular antennas, time limited

to 3 months (summer 2012)

- Applicant has been advised that permit will NOT be extended.

- App't will apply for permanent install'n before expiry of time ltd

permit.

See DW's paper file.

008 Entered by: A PATTERSON.

On: 20120711

Updated by: A PATTERSON.

On: 20120711

Note

Update from Danielle's previous note:

DB440066 is being issued for the TEMPORARY installation of Telus

antennas and a small equipment cabinet against the east elevation of the

building. NO extensions will be granted to this permit. The installation

MUST be fully removed.

A separate application may be coming in for a permanent installation. A FULL architectural site plan CLEARLY indicating the parking layout will be required for this future application. It is unlikely that we will support any further reduction in parking. The approved 11 spaces must be retained.

Further, if the permanent application (from Telus) affects the Rogers equipment cabinet, we will require a letter from Rogers indicating knowledge of the work affecting their equipment.

NOTE: The parking was approved to be reduced by 1 space under the Rogers application (DB436770), but for an unknown reason, the approved site plan did not get attached to the approved plans and is now missing! I had looked at that application with Bob Adair. It was approved for the reduction of 1 parking space to accomodate the permanant equipment cabinet for "Rogers". Please ensure all future applications have a clear site plan showing an approvable layout with 11 parking spaces.
