Mayor L. Campbell and Members of Council

It is my pleasure to submit the Consolidated Financial Statements for the City of Vancouver for the year ended December 31, 2004. These financial statements include the financial position and results of operations of the City including its boards and City-owned/controlled corporations. Effective January 1, 2004 the Province of British Columbia transferred the ownership and management of Pacific National Exhibition (PNE) to the City.

Reporting Changes for 2004

As noted in the 2003 Annual Report Director of Finance Highlights, commencing with the 2004 financial year, Public Sector Accounting Board (PSAB) standards require that the City recognize a liability and report an expense for all benefits earned by employees and expected to be provided to them by the City when they no longer provide active service to the City, either on a temporary or permanent basis. The City previously recognized \$25.3 million as a liability and expense for deferred vacation and sick leave gratuities which are future payroll obligations that could be taken in cash by employees on termination or retirement. Effective 2004, obligations for other future employee benefits including long term disability income continuation plans, non-vesting accumulated sick leave, health care continuation provisions, statutory holiday banks, full vacation entitlement at retirement and past service pension buy backs have been recorded. The change in accounting policy for the liabilities and expenses not previously reported has been applied retroactively to 2003.

The total liability at the end of 2004 is estimated to be \$68.9 million, \$39.7 million of which is due to the requirement to recognize all the additional future employee benefits. The City manages the payment of the future payroll obligations as they come due in the annual Operating Budget. The City has also provided \$14.3 million in reserves to reduce the impact on future budgets that may result from an anticipated increase in the number of employees retiring over the next 5 to 10 years.

2004 Financial Highlights

The City continued to maintain a strong financial position in 2004:

- The cash position of the City, including temporary investments, increased to \$622.6 million from \$473.5 million at the end of 2003. The increase of \$149.1 million (31.5%) was mainly due to the issuance of a \$100 million City of Vancouver debenture in early 2004, an increase in reserves for specific purposes by \$38.5 million and improved tax collections of \$10.5 million.
- Through tight fiscal control, the City was able to manage expenditures within the Operating Budget envelope ending the year with a surplus of \$1.2 million.
- Expenditures on capital works totalled \$127.2 million, compared to \$147.0 million in 2003, a 13.5% decrease due to one-time expenditures in 2003 including the purchase of the Woodward's building (\$6.2 million) and construction of the Stanley Park S-curve (\$9.1 million).
- Reserves set aside for specific purposes by Council increased during 2004 by \$38.5 million to \$243.8 million. Major increases included Community Amenities of \$11.4 million, Future Revenue Fund Budgets of \$13.2 million, Water and Sewer Utility Rate Stabilization of \$4.0 million and Solid Waste Capital of \$5.8 million.
- Funding of \$7.6 million was provided for future payroll benefit obligations. To date, total funding of \$14.3 million has been provided in reserves to meet increased employment related payments due to anticipated retirement of long term staff over the next 5 to 10 years.
- In March 2004, the City issued a \$100 million 10-year serial debenture to finance the capital expenditure program. At the time of the issue, the debenture represented the largest municipal serial issue in Canadian history. The cost to the City was 4.2%, the lowest financing cost completed by the City in over 20 years.
- Total debt outstanding at December 31, 2004 was \$552.5 million (2003 \$477.5 million), of which \$472.3 million was held externally; the balance of \$80.2 million was held by the Sinking Fund. Of this internally held debt, \$19.1 million is to be recovered from individual property owners through local improvement charges. All debt of the City is payable in Canadian dollars.
- Solid waste landfill closure and post-closure costs increased by \$7.5 million in 2004 compared to \$1.2 million in 2003. The increase was due to three factors: a change in the discount rate from 7% to 5% due to lower interest rates (\$3.8 million), increased costs due to technological changes (\$2.1 million) and the amount of landfill capacity used in 2004 (\$1.6 million).

Property Tax Receivable

Property tax collection remained strong. As the chart shows, over the last five years, although tax levies have increased, the total tax arrears have continued to decline from over \$38 million in 2000 to \$25.3 million in 2004.

The collection of 2004 property taxes, including those amounts raised for other taxing authorities, amounted to \$871.4 million, or 98.3% of the total 2004 property taxes levied. During the year, the City also collected \$23.9 million (67.6%) of the \$34.4 million property tax in arrears at the beginning of 2004.

At year end, preauthorized tax payments were \$30.2 million compared to \$23.3 million at the end of 2003, an increase of 29.6%.

The growth in tax prepayments is indicative of the increasing participation of property owners in the Tax Installment Prepayment Program. Participation in the program continues to increase as more taxpayers find it a convenient way to budget and pay their property taxes.

The program allows taxpayers to pay in 10 equal installments, receive 1.25% interest on prepayments, and have an automatic withdrawal made from their bank accounts for any final balances due.

Revenue Fund

The Revenue Fund accounts for the general operations for the City. Spending authority and control for the fund are provided by Council through the annual Operating Budget.

Revenues for the year totalled \$805.7 million and expenditures, debt repayments and transfers amounted to \$804.5 million, resulting in a revenue fund surplus of \$1.2 million. The total fund balance of the Revenue Fund currently stands at \$9.2 million, compared to \$8.0 million in 2003.

Total operating revenues increased \$26.9 million from 2003 mainly due to:

- An increase in taxation revenue of \$9.1 million or 2.0% from \$456.3 million to \$465.4 million. City Council approved a 2.93% increase in the property tax levy in 2004 generating \$12.3 million in net tax revenues. Taxes from new construction added another \$3.4 million to the property tax revenue. Offsetting the increase in property tax revenue was a decrease of \$6.5 million in hotel tax revenue which is now paid directly to Tourism Vancouver.
- An increase in water utility user fees of \$3.1 million (5.2%) following Council approval of a 6.1% increase to
 water rates reflecting an increase in regional water costs. Offsetting the rate increase was a reduction in
 water consumption due to water restrictions imposed in 2004.
- An increase in solid waste utility user fees of \$1.4 million (3.9%) due mainly to the higher volume of demolition material and general waste tonnage received at the transfer station and landfill site.
- An increase in sewer utility user fees of \$1.2 million (3.8%) mainly related to a 2.4% increase to sewer rates that reflect increased regional cost of sewer services, as well as increased metered usage and an increase in the number of flat rated dwelling units due to growth.
- An increase in other fees, rates and cost recoveries of \$4.2 million due to a combination of: increased revenues from the on-street parking program due to a rate increase and improved compliance (\$1.3 million), increased permit fees due to extended hours of liquor establishments (\$0.6 million) and service and inspection fees (\$4.1 million). Offsetting the increases were \$1.7 million in lower recoveries in Police (Missing Women and Counterattack) and Fire (due to interior forest fires in 2003).
- An increase in Revenue sharing grants and contributions of \$7.7 million due to municipalities now receiving 100% rather than 25% of the Traffic Fines revenue from the Provincial Government.

Tax Levy and Arrears

Total operating expenditures amounted to \$696.7 million, an increase of \$22.5 million. This increase was primarily related to the wage and fringe benefit adjustments for employees which added approximately \$6.7 million to the 2004 expenditures.

Other major areas of change in expenditures are:

- Increase in costs of \$14.2 million due to provision for obligations to be funded from future revenues. This is
 comprised of \$7.5 million increase in the accrual for the solid waste landfill site closure and post closure
 costs, \$6.1 million increase in the accrual for future payroll benefit obligations and \$0.7 million increase in
 accrued interest on long-term debt due to the debenture issue in 2004.
- Police expenditures increased by \$3.8 million over 2003 which included a \$2.3 million increase in accrual for future payroll benefits. As well, \$2.1 million in higher overtime was incurred by sworn officers. This was partially offset by lower separation costs of \$1.3 million incurred in 2004 versus 2003.
- An increase of \$3.1 million in the cost of water charged by the Greater Vancouver Water District which increased rates by 12%.
- A \$2.2 million increase in the requisition from E-Comm for the provision of emergency radio and communication services.
- The review of the City's electoral system and subsequent plebiscite on the Ward Electoral System increased expenditures in 2004 by \$0.9 million.
- Increased Vancouver Agreement and National Criminal Prevention Council (NCPC) activities for the Downtown Eastside of \$1.5 million.
- An increase of \$1.5 million for planning projects such as the PNE, Downtown Transportation Plan, East Fraser Lands Planning Study, and Vancouver Convention Centre II.
- An increase in the provision for uncollectible accounts of \$1.1 million for trade, rental and sundry receivables.
- Costs of \$0.9 million related to Sustainability and RAV related initiatives added in 2004.
- An increase in Recreation and Parks costs of \$1.4 million is due to \$0.7 million increase in accrual for future payroll benefits and \$1.5 million in inflation for wages and fringe benefits. Offsetting these incremental costs was a decrease of \$0.8 million related to the closure of two pools for renovations.
- Lower expenditures by \$6.5 million due to the hotel tax being directly remitted to Tourism Vancouver instead of being received and remitted by the City.
- Lower expenditures in 2004 due to one time costs of \$1.0 million incurred in 2003 for a plebiscite to assess the public's opinion on hosting the Olympic Games.

Capital Fund

The Capital Fund accounts for the City's capital expenditures and programs supporting civic infrastructure as well as the related financing. It also holds all properties required for civic use and the related long term debt. Spending authority and control are provided through the annual Capital Budget and the Three Year Capital Plan approved by Council.

The Capital Fund ended the year with a fund surplus of \$13.5 million compared to a fund shortfall of \$41.7 million in 2003, a change of \$55.2 million. This change reflects the timing difference between the capital expenditures and debenture issuance and the fact that the City issued a \$100 million debenture in early 2004.

The Property Endowment Fund and the Capital Financing Fund have provided \$16.8 million and \$59.5 million, respectively, for a total of \$76.3 million interim financing to the Capital Fund for several capital projects approved by Council outside the three year capital program. The interim financing will be repaid with interest from future operating savings or additional fees and service charges without impacting on existing property taxation levels provided in the Operating Budget. Debenture financing will not be required for these capital expenditures.

When the interim financing from the Property Endowment Fund and the Capital Financing Fund are included, the closing fund balance is \$89.8 million.

In November 2002, the electorate approved borrowing authority of \$116.8 million to finance the maintenance and replacement of existing and construction of new streets, parks and facilities infrastructure as part of the 2003 – 2005 Capital Plan. At the year end, approximately \$89.1 million of general borrowing authority and \$36.8 million of sewer and water borrowing authority from the 2003-2005 and prior Capital Plans had not been exercised by Council through issuance of debentures. Council has also indicated that it will approve an additional \$13.6 million in borrowing authority for sewer and water expenditures to complete the 2003-2005 Capital Plan.

During 2004, the City spent \$127.2 million on capital works. Capital expenditures range from maintenance and improvements to roads, streets, sewers and water distribution systems to fire protection and parks and recreation facilities. Some of the major spending in 2004 included:

	\$ Million
Streets, traffic and safety	30.3
Main sewer construction and sewer abatement	24.5
Water works distribution system	19.0
Construction of Engineering works yard	6.3
Vehicle and equipment purchases	18.4
Parks, community centres, playing fields, ice rinks	12.5
Daycare, social housing and community services facilities	5.3
Technology infrastructure	5.7
Construction and capital maintenance of City buildings and systems	5.2

Capital Financing Fund

The Capital Financing Fund (CFF) provides funds for the internal financing of capital works and holds the City's Solid Waste Capital Reserve which accumulates funds to meet closure and post closure costs at the City's landfill site. Spending authority and control are provided by Council through specific approvals.

By the end of the year, the CFF had advanced \$59.5 million to the Capital Fund to finance specific capital projects. The interim financing will be repaid with interest from future operating savings or additional fees and service charges without impacting on the existing property taxation levels provided in the Operating Budget.

Sinking Fund

The Sinking Fund is a statutory requirement of the Vancouver Charter and provides for the retirement of the City's sinking fund debentures. The accumulation of annual principal installments collected through tax levies, together with interest earned, provide for retirement of principal at maturity. The Sinking Fund reserve for debt retirement at December 31, 2004 was \$163.4 million. Approximately \$27.3 million relates to internally held debt.

Surplus funds over and above those required to meet future debt maturities are transferred to the Revenue Fund. During 2004, the transfer was only \$0.1 million due to the trend of declining interest rates on temporary investments. The amount of the annual principal installments from the operating budget will have to be increased to meet future principal repayments that come due on sinking fund debenture maturities if interest rates persist at their current low levels or fall lower.

At the year end, the Sinking Fund held as investments \$80.2 million of City of Vancouver debentures.

Property Endowment Fund

The Property Endowment Fund (PEF) accounts for real estate properties not required for civic purposes including non-market housing sites, other residential and commercial properties and parking garages. The Fund is also a source of internal financing for civic projects. Specific Council approval is required for all property sales and purchases.

In 2004, the PEF spent \$30.9 million on capital assets compared to \$26.3 million in 2003. Of this amount, \$17.3 million was spent on the Gastown Parkade (Water Street and Cordova Street Parkades) with funding from the Parking Sites Reserve. \$7.5 million was spent on acquisition and renovations for non-market housing including the Granville Hotel and 1134 Burrard, funded partially by Development Cost Levies from the Capital Fund. Another \$6.1 million in properties were acquired for future strategic purposes such as assembly or development.

During the year, the PEF sold 6 properties including 2 parking sites to replenish the Parking Sites Reserve (\$13.3 million) and 3 sites surplus to the City's needs (\$4.1 million).

On an annual basis, \$7.0 million of the net revenue from operations is transferred to the Revenue Fund to support general operations. The PEF also financed \$1.9 million of administrative expenses in the Operating Budget. By the end of the year, the PEF had advanced \$16.8 million to the Capital Fund as financing for specific capital projects approved by Council outside the 2003-2005 Capital Plan. The interim financing will be repaid with interest from future operating savings, additional fees and service charges and within the existing property taxation level provided in the Operating Budget.

Reserves

Under legislative or Council authority, the City has established a number of specific purpose reserves. At the end of 2004, these reserves totalled \$383.4 million comprised of \$139.6 million of Sinking Fund reserve for external debt retirement and \$243.8 million of reserves set aside for other purposes.

The \$243.8 million of reserves represents an increase of \$38.5 million over 2004 or a 18.7% increase. The most significant changes were:

- The Solid Waste Capital Reserve increased by \$5.8 million to \$57.9 million as a result of surpluses from solid waste operations. This reserve is being accumulated to fund closure and post-closure costs at the City's landfill. Funds from the reserve will also be used to implement an automated garbage collection system over 2005 to 2007.
- The Plant and Equipment Reserve which funds the long term equipment replacement plan decreased by \$1.1 million to \$28.9 million. The reserve is funded by internal equipment rates and fixed provisions in the Operating Budget. The 2004 transfer to the reserve totalled \$15.8 million. Actual expenditures drawn on the reserve were \$16.9 million.

- The Community Amenities Reserve increased by \$11.4 million to \$30.8 million due mainly to a \$10.6 million payment by the Vancouver Convention Centre Expansion Project for the Arts Complex site.
- The Sewer and Water Utility Rate Stabilization Reserves increased by \$4.0 million to \$23.6 million as a result of surpluses from operations.
- The Parking Sites Reserve increased by \$2.1 million resulting from proceeds of sale of a downtown parking site (700 block Richards) for \$13.3 million and net parking revenues of \$3.8 million. The increase was offset by funding the redevelopment of the Gastown Parkade on Cordova and Water Streets (\$14.1 million) and other parking structures capital expenditures (\$0.9 million).
- Capital Facilities Reserve decreased by \$1.6 million to provide funding of \$0.5 million for each of Four Corners Bank, Mount Pleasant Neighbourhood House and property purchase for the Rapid Transit Station at VCC.
- Future Revenue Budgets Reserve increased by \$13.2 million to provide funding mainly for future payroll benefit obligations (\$7.6 million), future debt charges (\$2.5 million), Workers Compensation costs (\$1.0 million) and provision for reduction in rent in lieu payment pending sale of property (\$2.0 million).

Future Accounting and Reporting Changes

PSAB is developing new standards for the accounting and reporting of capital assets and in December 2004, released a Statement of Principles. The principles that will represent a departure from the current accounting policies of the City include:

- capital assets should be reported on the statement of financial position at amortized historical cost
- capital assets should be depreciated on the statement of operations.

The impact to the City will be a reduction in the carrying value of land from BC Assessment values to historical cost and the recording of depreciation of capital assets. Finalization of the accounting standards and their implementation is expected to take several years.

Conclusion

The City of Vancouver has continued to maintain a strong financial position going into 2005. The financial strength of the City reflects the careful attention to prudent financial management provided by Council and staff.

Respectfully submitted,

stellef

AUDITORS' REPORT TO THE MAYOR AND COUNCILLORS OF THE CITY OF VANCOUVER

We have audited the consolidated statement of financial position of the City of Vancouver (the "City") as at December 31, 2004 and the consolidated statements of financial activities and cash flows for the year then ended. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the City as at December 31, 2004 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles. As required by the Vancouver Charter, we report that, in our opinion, these principles have been applied, to the consolidated financial statements, on a basis consistent with that of the preceding year.

The City of Vancouver was incorporated in 1886 and is governed by the Vancouver Charter, a private bill consented to by the Legislative Assembly of the Province of British Columbia.

1. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Presentation

The consolidated financial statements of the City have been prepared, in all material respects, in accordance with Canadian generally accepted accounting principles for local governments as recommended by the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Accountants (CICA).

(b) Reporting Entity

The consolidated financial statements reflect the assets, liabilities, Revenue, expenditures, and changes in fund balances of all funds of the reporting entity. The reporting entity is comprised of all the organizations that are accountable for the administration of their financial affairs and resources to Council and that are owned or controlled by the City. Inter-fund and inter-corporate balances and transactions have been eliminated. The entities included are as follows:

Outside Boards Parks & Recreation Vancouver Public Library

Owned/Controlled Entities Hastings Institute Inc. Harbour Park Development Ltd. Parking Corporation of Vancouver Vancouver Police Vancouver Civic Theatres

Vancouver Civic Development Corporation City of Vancouver Public Housing Corporation Pacific National Exhibition

On January 1, 2004 the Province of British Columbia transferred the ownership and management of the Pacific National Exhibition (PNE) to the City.

Also included in these statements are certain assets owned by the City that are managed by the following organizations:

Vancouver Art Gallery Society Vancouver Museum H.R. MacMillan Space Centre Vancouver Maritime Museum

(c) Fund Accounting

The resources and operations of the City are comprised of the funds listed below. Supporting schedules to the consolidated financial statements are included to show the financial activities and balance of each fund.

Capital

Accounts for capital expenditures supporting civic infrastructure and holds all properties required for civic use and the related long term debt.

Revenue

Accounts for revenue and expenditures for the general operations of the City including sewer, solid waste and water utilities.

Property Endowment

Accounts for properties not required for civic use which are leased to third parties, or held for, or are being developed for resale or lease.

Sinking

Accounts for the accumulation of installments generated from tax levies in accordance with the actuarial requirements for the retirement of sinking fund debt at maturity.

Capital Financing

Accounts for funds designated for the financing of capital works, for the acquisition of the City's debentures and for funds set aside for the City's solid waste disposal program.

1. SIGNIFICANT ACCOUNTING POLICIES - continued

(d) Basis of Accounting

- (i) Revenue is recorded in the period in which the transactions or events that gave rise to the revenue occur. Amounts that have been received in advance of services being rendered are recorded as deferred revenue until the City discharges the obligations that led to the collection of funds.
- (ii) Expenditures are recorded in the period in which the goods or services are acquired and a liability is incurred.
- (iii) Inventory of supplies and materials are valued at cost with allowances made for obsolete stock. Cost is determined on a moving average basis.
- (iv) The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported amounts of revenue and expenditures during the reporting period. Actual results will depend on future economic events and could differ from the estimates. Adjustments, if any, will be reflected in the period of settlement or upon a change in the estimate.

(e) Capital Assets

(i) Capital Fund (for civic use)

Capital assets purchased or constructed and work-in-progress are reported as capital expenditures in the period the expenditures are incurred. Government contributions for the acquisition of capital assets are reported as capital revenue and do not reduce the related capital costs.

Capital assets are recorded in the Capital Fund on the following basis:

Land - At 'actual' value for assessment purposes as determined annually by the B.C. Assessment Authority. Crown land properties beneficially owned by the City are recorded at assessed value.

Waterworks and engineering assets – At cost less accumulated depreciation. Depreciation is provided at varying rates determined by the City Engineer and is reflected as a reduction in the City's equity in capital assets.

Buildings - at cost.

Plant and equipment - at cost.

Artworks and artifacts - at estimated and/or insured values.

(ii) Property Endowment Fund (for sale or lease)

Capital assets are recorded in the Property Endowment Fund on the following basis:

Land - At 'actual' value for assessment purposes as determined annually by the B.C. Assessment Authority. The development costs incurred are charged against equity to reflect their contribution to the increases in the 'actual' value of land.

Buildings - At cost less accumulated depreciation of \$37.7 million (2003 - \$34.5 million). Depreciation is charged against Equity in Capital Assets on a 5% straight-line basis on the buildings on parking sites, and on a 5% declining balance basis on leased buildings.

Equipment - At cost less accumulated depreciation of \$2.4 million (2003 - \$1.9 million). Depreciation is calculated on a 30% declining balance basis and is charged to Equity in Capital Assets.

Property subject to sale option - At option price. The land parcel is subject to purchase by the lessee at a minimum value of \$8.4 million (with an expiry date of July 31, 2005).

(f) Reserves for Future Expenditures

Reserves are established at the discretion of Council to set aside funds for future operating and capital expenditures. Transfers to and from reserves are reflected as an adjustment to the respective fund.

(g) Comparative Figures

Certain of the 2003 figures have been reclassified to conform to current year presentation.

2. CASH AND TEMPORARY INVESTMENTS

Cash includes short-term investments with maturity dates within 90 days of acquisition. Temporary investments are comprised of money market instruments, term deposits, bankers acceptances and federal and provincial bonds with maturity dates greater than 90 days after acquisition. Investments are recorded at cost, adjusted for amortization of premiums or discounts.

	2004		 2003
Cash	\$	8,858	\$ 15,217
Short-term investments (Maturity date within 90 days)		57,780	21,602

Debenture debt is shown at its face amount. The City does not carry debt issued by other organizations.

* General including Waterworks

The rates of interest payable on the principal amount of the debentures range from 2.25% to 10.50% per annum. The average rate on interest on total debt to maturity is 5.47%. Total interest paid in 2004 on externally held debt amounted to \$26.2 million (2003 - \$25.6 million). All debentures are payable in Canadian funds.

Reserve for debt retirement at December 31, 2004 amounted to \$139.6 million (2003 - \$112.7 million).

7. RESERVES

These amounts are set aside by Council resolution for specific purposes:

	 Change 2003 During Year			2004

	\$	169,045	\$	63,842	\$	232,887

9. OBLIGATIONS TO BE FUNDED FROM FUTURE REVENUE

The following amounts are included in Accounts payable and accrued liabilities:

		2003		2003	
Deferred payroll costs	\$	68,883		\$	62,800
Accrued interest on long term debt		12,407			11,678
Landfill closure and post-closure		19,507			12,027
	\$	100,797		\$	86,505

(a) Deferred Payroll Costs

Effective January 1, 2004, the City adopted the recommendations under Section PS 3255 of the CICA Public Sector Accounting Board Handbook for post-employment benefits.

Employees are entitled to earned benefits related to non-vested accumulating sick leave, sick leave gratuity and full vacation entitlement at retirement. Employees may also defer current vacation entitlements. The liability and expense for these post-employment benefits and compensated absences is recognized in the financial statements in the period in which employees render services and on the basis that the benefits are expected to be provided when the employees are no longer providing active service.

As well, certain employees are entitled to income continuation benefits under long term disability plans. The City recognizes a liability and expense for these post-employment benefits in the period when the event occurs that obligates the City to provide the benefit.

The City had previously reported a liability and expense for sick leave gratuity and deferred vacation valued at management's best estimates which was based on the vested benefits at year end, past experience and assumptions about retirements, wage and salary increases, employee turnover and rates of return. In 2004, the City has accrued future benefit obligations for all post-employment benefits using the projected benefits method prorated on service.

The liabilities reported in 2004 are based on an actuarial valuation as at December 31, 2003 using the following valuation assumptions:

	2003	2004
Discount rate	5.25%	5.00%
Inflation rate	2.00%	2.00%
Rate of compensation increase	3.08% to 5.00%	3.08% to 5.00%

9. OBLIGATIONS TO BE FUNDED FROM FUTURE REVENUE - continued

(a) Deferred Payroll Costs - continued

Employee benefit liabilities as at December 31 are as follows:

	2004		2003	
Sick leave gratuity	\$	17,712	\$	14,247
Deferred vacation		12,136		11,092
Non-vested accumulating sick leave		18,040		17,324
Long term disability		9,981		9,828
Other post-employment benefits		10,895		10,309
		68,764		62,800
Unamortized actuarial gain		119		-
	\$	68,883	\$	62,800
The continuity of the City's employee benefit liabilities are as follows:		2004		2003
		2004		2003
Beginning of year	\$	62,800	\$	61,860
Current service cost		8,003		2,120
Interest cost		3,463		1,983
Actual benefits paid		(5,383)		(3,163)
End of year	\$	68,883	\$	62,800

The change in accounting policy as it relates to non-vested accumulating sick leave, income continuation, statutory holiday banks, full vacation at retirement and non-contributory pension service buyback has been applied retroactively and has increased amounts previously reported for accounts payable and accrued liabilities and decreased amounts previously reported for municipal equity as follows:

		Adjustm Opening	
	_	2004	 2003
Municipal equity as previously reported	\$	6,737,162	\$ 6,373,398
Decrease to reflect change in accounting for future benefit obligations		(37,461)	(35,916)
Municipal equity as restated	\$	6,699,701	\$ 6,337,482

The change in accounting policy resulted in an increase of \$1.5 million over expenditures previously reported for 2003 and an additional \$2.5 million of expenditures in 2004 over the amount that would have been reported under the policy previously in place.

The impact on the previously reported future benefit obligation liability for sick leave gratuity and deferred vacation entitlement as a result of the change in the method used to estimate the liability has been treated as a change in accounting estimate and accounted for in the financial results of 2004.

The City manages the payment of these future payroll obligations as they come due in the current Operating Budget. The City has also provided funding of \$14.3 million (\$6.7 million in 2003) in a reserve.

9. OBLIGATIONS TO BE FUNDED FROM FUTURE REVENUE

(b) Landfill Closure and Post-Closure Costs

The City has agreed with the Ministry of Environment Lands and Parks to assume certain obligations in order to obtain the Operating Certificate for its landfill site. Those obligations include closure and post-closure liability. The present value of the City's estimated future liability for these expenditures is recognized as the landfill site's capacity is used and the reported liability of \$19.5 million (2002 - \$12.0 million) represents the portion of the estimated total expenditure recognized as at December 31, 2004. This liability and annual expenditure is calculated based on the ratio of utilization to total capacity of the site and the discounted estimated future cash flows associated with closure and post-closure activities. The discount rate used in 2004 was 5% compared to 7% in 2003 which resulted in an increase in the liability of \$3.8 million.

The reported liability is based on estimates and assumptions with respect to events extending over the remaining life of the landfill. The remaining capacity of the landfill site is estimated at 17.3 million tonnes, which is 56% of the site's total capacity. The landfill site is expected to reach its capacity in 2042. At December 31, 2004, the discounted future cash flows for closure and post-closure cost is estimated at \$51.2 million and includes \$8.5 million increased costs for the closure of the western 40 hectares of the landfill.

In accordance with an agreement between the City and the Greater Vancouver Sewerage and Drainage District, the City is responsible for 87% of the overall liability for closure and post-closure costs. The City has provided a reserve to fund future landfill capital expenditure and waste diversion programs with a balance as at December 31, 2004 of \$57.9 million (2003 - \$52.1 million).

10. CONTINGENCIES AND COMMITMENTS

(a) Contingent Liability for Debentures Issued by Others

The City is contingently liable in respect of debentures of the Greater Vancouver Water District, the Greater Vancouver Sewerage and Drainage District and the Greater Vancouver Regional District.

(b) Collection of Taxes on Behalf of Other Taxing Authorities

The City is obligated to collect and transmit the tax levies of the following bodies. Such levies are not included in the revenue of the City.

Provincial Government – Schools Greater Vancouver Regional District Greater Vancouver Transportation Authority British Columbia Assessment Authority Municipal Finance Authority

(c) Municipal Pension Plan

The City and its employees contribute to the Municipal Pension Plan (the Plan), a jointly trusted pension plan. The Board of Trustees, representing plan members and employers, is responsible for overseeing the management of the Plan, including investment of the assets and administration of the Plan. The Plan is a multi-employer contributory defined benefit pension plan with about 130,000 active members and approximately 45,000 retired members. Active members include approximately 29,000 contributors from local governments.

Every three years an actuarial valuation is performed to assess the financial position of the Plan and the adequacy of plan funding. The most recent valuation as at December 31, 2003 indicated an unfunded liability of \$789 million. The next valuation will be as at December 31, 2006 with results available in 2007. The actuary does not attribute portions of the surplus to individual employers. The City paid \$34.3 million during 2004 (2003 - \$31.7 million) for employer contributions to the Plan. The employees' contributions during 2004 amounted to \$25.5 million (2003 - \$23.1 million).

(d) Contingent Legal Liabilities

As at December 31, 2004, there were various legal claims pending against the City arising in the ordinary course of its operations. The City has made provision for certain uninsured claims in its self-insurance liability reserve, but has made no specific provision for those where the outcome is presently indeterminable.

(e) Property Assessment Appeals

As at December 31, 2004, there were various assessment appeals pending with respect to properties. The outcome of those appeals may result in adjustments to property taxes receivable for the current and prior years. The City makes an annual provision against property taxes receivable for the impact of appeals including specific provision where the results of an appeal are reasonably determinable, and general provision for those where the outcome is presently indeterminable.

10. CONTINGENCIES AND COMMITMENTS - Continued

(f) Mortgage and Lease Agreements

Principal payments on mortgages over the next five years and thereafter are as follows:

2005	\$ 4,013
2006	3,331
2007	2,510
2008	8,996
2009	2,333
Thereafter	47,310
	\$ 68,493

Outstanding mortgages include \$54.2 million on the Library Square Project due on January 14, 2021. Interest at 9.875% per annum is compounded semi-annually with monthly repayments of principal and interest. The debentures are secured by a first charge on the land and any proceeds from the sale of the land on which the office building is situated, the office building and any improvements to it including machinery, plant and equipment, and any proceeds of the lease of the office building.

The City has executed a 25-year lease of the Library Square office building with the Federal Government which commenced April 30, 1995. Annual lease payments of \$6.7 million will fully offset debenture principal and interest payments. The lease provides options to purchase the office building at the end of the 10th and 20th years and at the end of the lease term. The balance of the lease receivable is \$53.2 million (2003 - \$54.6 million).

The City has \$10.8 million (2003 - \$11.2 million) in mortgages payable to Canada Mortgage and Housing Corporation for 5 non-market housing projects. Interest rates range from 4.24 % to 8.0% with maturity dates from February 1, 2006 to December 1, 2027.

(g) Loan Guarantee

The City has guaranteed a \$12.0 million line of credit for the Pacific National Exhibition effective January 1, 2005 for a period of one year.

(h) Property Acquisition

On March 9, 2004, Council approved a 4-year agreement for the City to act as a backup to a property acquisition. The agreement commits the City to purchase the property from the original purchaser at the original purchase price of \$24.5 million plus up to \$5.0 million for site development and remediation costs, if for any reason the original purchaser is unable to proceed with their proposed development.

11. TRUST FUNDS

Certain assets have been conveyed or assigned to the City to be administered as directed by agreement or statute. The City holds the assets for the benefit of, and stands in fiduciary relationship to, the beneficiary. The following trust funds and assets are excluded from the City's financial statements:

	 2004	 2003
Vancouver Agreement	\$9,296	\$10,244
Cemetery Perpetual Care	3,050	2,977
Atrium	285	294
General	325	315
	\$ 12,956	\$ 13,830

The Vancouver Agreement is an urban development agreement between the Governments of Canada, British Columbia and the City to facilitate sustainable economic, social and community development in the City. The Province of British Columbia contributed \$10 million in 2003 and \$3.3 million in 2004 for the implementation of a number of social strategies under the direction of the Vancouver Agreement Policy Committee.

12. EXPENDITURES BY OBJECT

AUDITORS' REPORT TO THE MAYOR AND COUNCILLORS OF THE CITY OF VANCOUVER

We have audited and reported separately herein on the consolidated financial statements of the City of Vancouver as at and for the year ended December 31, 2004.

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements of the City taken as a whole. The current year's supplementary information included in the following Schedules of Financial Activities of the Revenue Fund, Capital Fund, Capital Financing Fund, Sinking Fund, Property Endowment Fund and Utilities is presented for the purposes of additional analysis and is not a required part of the consolidated financial statements. Such supplementary information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the consolidated financial statements taken as a whole.
