

Shaughnessy Park Info Session (comments from sticky notes)

“

- Need to prioritize waterfront walkway (connection) west of Fraser River Park. We've been fighting 25 years for this.
- Positive, clever idea for Shaughnessy Park and Ebisu Park, but maintenance for city parks is now below level so where does the money come from for maintenance of new parks? Winona Park, for example, great park space but underutilized and maintenance? Feel reserved about these ideas although these would improve the neighbourhoods and balance increased density.
