

The Norquay Village Neighbourhood Centre Plan was approved by Council in 2010, following an extensive public planning process. The Plan helps to guide growth and development throughout the neighbourhood in the coming years.

This bulletin provides an update on development taking place in the neighbourhood and on community amenities being delivered.

Recap on the Plan

Key objectives of the Plan include:

1. Focus on the revitalization of Kingsway as a local high street
2. Support the development of new community spaces and public amenities
3. Enable residential neighbourhoods to evolve incrementally and organically
4. Create more affordable entry-level home ownership opportunities, particularly for families, while retaining the ability to include rental housing
5. Improve safe and enjoyable pedestrian and bicycle connections while minimizing impact on local traffic

Implementation

Since 2010, implementation of the Neighbourhood Centre Plan has included improvements to Kingsway, new residential zones, a Public Benefits Strategy and a Public Realm Plan.

The timeline opposite gives an overview of key milestones in the process and public realm improvements to date.

172 development permit applications submitted since the RM-7, RT-11 and RM-9A zones were approved by Council in 2013 and 2016 (Summary generated Feb 2017)

Number of DP applications by housing type

Total 172 Applications

* Including laneway house or secondary suite as part of new development

**Multiple dwelling - Including stacked townhouses and apartment units

Number of DP applications by zone

District Schedule overview

RM-7 - Encourage development of ground-oriented stacked townhouses or rowhouses, while continuing to permit lower intensity development.

RT-11 - Encourage development of multiple small houses and duplexes on larger lots and assembled sites, while continuing to permit lower intensity development on smaller sites.

RM-9 - Permit medium density residential development*

*Refer to the Zoning and Development By-law for a definitive statement of district schedule intent and regulations.

Public Realm Plan

The Norquay Village Public Realm Plan is the last of the implementing policies associated with the Norquay Village Neighbourhood Centre Plan. The Plan (2010) and the Public Benefits Strategy (2013) were duly adopted by City Council and direction was given at those times to complete the final implementation documents.

Guiding principles in the Public Realm Plan include:

Local Identity

Create pedestrian friendly streetscapes, protect mature trees and strengthen neighbourhood identity

Connectivity and Mobility

Provide safe, comfortable routes connecting community places

Public Space

Improve existing parks and public spaces, and create flexible new public spaces

Sustainability

Provide support for walking, cycling, and use of public transit and encourage water use efficiency
