1. Executive Summary

1.1 Background

The Vancouver Park Board is developing a comprehensive strategy to guide the planning and design of beautiful, safe and engaging parks for people with and without dogs. *People, Parks & Dogs: A strategy for sharing Vancouver's parks* will provide an evidence-based plan for sharing Vancouver parks and beaches by people and dogs.

The first round of consultation will inform recommendations for planning, designing and managing Vancouver's parks, beaches and dog off-leash areas. The Vancouver Park Board wants to develop a comprehensive strategy for dogs and people to guide well-planned parks that are designed to accommodate all park users, including those with and without dogs.

See pages 14-16 for an overview of consultation activities.

1.2 Participation

There were a total of **4373** public and stakeholder interactions during the *People, Parks & Dogs* Round 1 consultation period:

- **4057¹** completed surveys were received (3952 online, 105 hard copy)
- **135** people attended four public open houses
- **117** people attended four small group meetings
- **50** written submissions were received through email or mail
- **14** members attended an Advisory Committee meeting

How Input Will Be Used

The planning team will consider feedback from this round of consultation, along with technical information, to develop recommendations for the planning, design and management of Vancouver's parks, beaches and dog off-leash areas for Park Board review and approval.

1.3 Summary of Input – Survey

Please see below for a high-level summary of survey feedback. This summary reflects the top quantitative results and the most frequent recurring themes for qualitative comments. **Detailed results, including cross-tabulated data for dog owners and non-dog owners, start on page 17 of this report.**

Note: Some totals may not add up to 100% due to rounding. The number of mentions may exceed the total number of respondents as participants may have commented on more than one topic.

¹ Of the 4057 completed surveys, 2188 (54%) of respondents identified as dog owners and 1867 (46%) respondents identified as non-dog owners.

Surveys translated in Chinese and Punjabi were available to consultation participants. Of the 4057 completed surveys, 52 (1%) were Chinese language surveys.

Question 1: What is most important to you about people and dogs sharing Vancouver's parks and beaches?

4055 Respondents

- Safety for people
- Safety for dogs
- Waste management
- Bylaw education and enforcement
- Education of dog owners and dogs
- Environmental protection
- Location of off-leash areas within parks
- Location and distribution of off-leash areas within neighbourhoods
- Noise
- Off-leash area boundaries (e.g. signage, vegetation, wood posts, fencing or other methods where appropriate)
- Amenities for people and dogs (e.g. seating)
- Partnership opportunities (e.g. volunteers and sponsors)
- Other: _____

Most Important:

- **98%** of respondents selected **waste management** as very important or somewhat important
- **95%** of respondents selected **safety for people** as very important or somewhat important
- **91%** of respondents selected **education of dog owners and dogs** as very important or somewhat important

Least Important:

- **60%** of respondents selected **partnership opportunities** as not very important or not important at all
- **53%** of respondents selected **noise** as not very important or not important at all
- **34%** of respondents selected **amenities for people and dogs** as not very important or not important at all

Of the **1052** responses to "other", the three most frequently recurring themes were:

1. Dog owners have the responsibility to ensure that their dogs behave properly, as well as respect bylaws and other park users.
178 mentions
2. There are not currently enough dog off-leash areas in Vancouver, including suggestions for how to increase the number of off-leash areas (e.g. make all parks off-leash or reduce time restrictions).
169 mentions
3. Enforcement of waste pick-up is currently inadequate/there is a need for more enforcement of dog waste pick-up.
167 mentions

Note: Due to a programming error, the "Safety for people" option was not available for part of the TalkVancouver online survey.

Question 2: What do you think are the top three BENEFITS of having designated dog off-leash areas?

4055 Respondents

Please check up to three.

- Building community
- Providing places for dogs to exercise and socialize
- Encouraging owners to keep off-leash activity to off-leash areas
- Making parks and neighbourhoods safer
- Discouraging conflict in shared park spaces
- Promoting responsible dog ownership
- Other: _____

Top Three Benefits:

- **70%** of respondents selected **providing places for dogs to exercise and socialize** as a benefit
- **62%** of respondents selected **encouraging owners to keep off-leash activity to off-leash areas** as a benefit
- **49%** of respondents selected **discouraging conflict in shared park spaces** as a benefit

Of the **164** responses to “other”, the three most frequently recurring themes were:

1. There are no benefits to having designated dog off-leash areas.
77 mentions
2. Importance of providing places for dogs to exercise and socialize.
26 mentions
3. Enforcement of waste pick-up is currently inadequate/there is a need for more enforcement of dog-waste pick-up.
24 mentions

Question 3: What are the top three CHALLENGES of having designated dog off-leash areas?

4055 Respondents

Please check up to three.

- Managing dog waste
- Safety concerns (people)
- Safety concerns (dogs)
- Sharing limited park space
- Managing noise
- Increased maintenance and enforcement costs
- Keeping off-leash activity to designated off-leash areas
- Potential environmental impacts
- Other: _____

Top Three Challenges:

- **54%** of respondents selected **managing dog waste** as a challenge
- **51%** of respondents selected **sharing limited park space** as a challenge
- **51%** of respondents selected **keeping off-leash activity to designated off-leash areas** as a challenge

Of the **381** responses to “other”, the three most frequently recurring themes were:

1. There is a lack of suitable dog off-leash areas in Vancouver (e.g. they are too far away, unattractive and don't offer beach access).
105 mentions
2. Concern regarding dog owner behaviour in regards to respecting bylaws and other park users.
75 mentions
3. There are no challenges of having designated dog off-leash areas.
72 mentions

Question 4: To what extent do you agree with the following statements: 4055 Respondents

- Dog off-leash areas are an acceptable use of public parks
- There are enough places for dogs to be off leash in Vancouver parks
- Dog off-leash areas in Vancouver are of good quality overall
- The distribution of off-leash areas meets my needs
- Dog off-leash areas help reduce conflicts between off leash dogs and other park users
- Dog off-leash areas should have clear boundaries
- Dog off-leash areas should be separated from other park activities
- Dog owners and walkers do an adequate job of picking up dog waste from Vancouver parks
- There are enough waste bins in Vancouver parks
- There is enough enforcement of dog activity in Vancouver parks

Highest Agreement:

- **83%** of respondents strongly agreed or agreed that **dog off-leash areas should have clear boundaries**
- **82%** of respondents strongly agreed or agreed that **dog off-leash areas are an acceptable use of public parks**
- **79%** of respondents strongly agreed or agreed that **dog off-leash areas help reduce conflicts between off leash dogs and other park users**

Highest Disagreement:

- **53%** of respondents strongly disagreed or disagreed that **there are enough places for dogs to be off leash in Vancouver parks**
- **46%** of respondents strongly disagreed or disagreed that **there are enough waste bins in Vancouver parks**
- **43%** of respondents strongly disagreed or disagreed that **there is enough enforcement of dog activity in Vancouver parks**

Question 5: What amenities would you like to see in Vancouver's off-leash areas?

4055 Respondents

Please check up to three.

- More waste bins
- Drinking water for dogs
- Drinking water for people
- Shade
- Separated large and small/shy dog areas
- Open areas for running and fetch
- Secure fencing
- Seating
- Walking paths
- Dog bag dispensers
- Play features for dogs
- Other: _____

Top Three Amenities:

- **41%** of respondents selected **drinking water for dogs** as an amenity
- **40%** of respondents selected **open areas for running and fetch** as an amenity
- **37%** of respondents selected **secure fencing** as an amenity

Of the **273** responses to "other", the three most frequently recurring themes were:

1. Off-leash areas should be attractive for use by dogs and dog owners, including increased vegetation, trails and beach access.
54 mentions
2. Suggestions for modification to ground surface in off-leash areas, in particular a preference for grass and not gravel.
40 mentions
3. Clearer delineation of off-leash areas such as fencing and signage.
32 mentions

Question 6: If you are a dog owner or handler, where do you currently let your dog(s) off leash?

2189 Respondents

Please select all that apply.

- Dog off-leash areas
- City park or beach without a designated dog off-leash area
- School grounds
- Other: _____

Top Three Areas:

- **81%** of respondents selected **dog off-leash areas** as where they let their dog(s) off leash
- **43%** of respondents selected **city park or beach without a designated dog off-leash area** as where they let their dog(s) off leash
- **30%** of respondents selected **school grounds** as where they let their dog(s) off leash

Of the **408** responses to “other”, the three most frequently recurring themes were:

1. Areas outside of the City of Vancouver, such as North Vancouver hiking trails, parks in Burnaby.
97 mentions
2. Areas where there are not many people.
70 mentions
3. City park or beach without a designated dog off-leash area.
56 mentions

If you let your dog(s) off leash outside of dog off-leash areas, why?

2189 Respondents

Please select all that apply.

- It's more convenient
- Non off-leash areas have a nicer atmosphere/better amenities
- Have had problems or anticipate problems at dog off-leash areas
- Off-leash areas are too crowded
- Other: _____

Top Three Reasons:

- **35%** of respondents selected **don't let my dog off-leash/outside of dog off-leash areas**
- **33%** of respondents selected **it's more convenient**
- **22%** of respondents selected **non off-leash areas have a nicer atmosphere/better amenities**

Of the **702** responses to "other", the three most frequently recurring themes were:

1. There is a lack of off-leash areas within close walking or driving distance.
310 mentions
2. That their dog deserves to be off-leash because they are well-trained, friendly or old.
140 mentions
3. Need a larger area for dog to exercise.
110 mentions

If you let your dog(s) off leash outside of dog off-leash areas, which parks or public spaces in Vancouver do you use?

1108 Respondents

Of the **1108** responses, the three most frequently recurring themes were:

1. Identification of specific parks.
632 mentions
2. Dog off-leash areas outside of designated area or time restrictions.
339 mentions
3. Vancouver School Board properties.
199 mentions

Question 7: How far are you willing to regularly walk and/or drive to get to a dog off-leash area?

2189 Respondents

Please select the most applicable for **walking**.

- Under 10 minutes
- 10 – 20 minutes
- 20 – 30 minutes
- 30 minutes +

Please select the most applicable for **driving**.

- Under 10 minutes
- 10 – 20 minutes
- 20 – 30 minutes
- 30 minutes +

Walking:

- **44%** of respondents selected **under 10 minutes**
- **42%** of respondents selected **10 – 20 minutes**
- **8%** of respondents selected **20 – 30 minutes**

Driving:

- **35%** of respondents selected **10 – 20 minutes**
- **26%** of respondents selected **under 10 minutes**
- **19%** of respondents selected **not applicable**

Question 8: Which of the following types of off-leash areas do you think should be a priority?

4056 Respondents

Please select the most applicable.

- Neighbourhood off-leash areas (i.e. small off-leash areas within neighbourhood parks that are typically accessed by walking)
- Destination off-leash areas (i.e. large off-leash areas in key parts of the city that are typically accessed by walking or driving, and may have more amenities such as a dog wash station and agility features)
- Neighbourhood and destination off-leash areas should be of equal priority
- No preference

Top Priorities:

- **39%** of respondents selected **neighbourhood and destination off-leash areas should be of equal priority**
- **33%** of respondents selected **neighbourhood off-leash areas**
- **14%** of respondents selected **no preference**
- **14%** of respondents selected **destination off-leash areas**

Question 9: If you have a dog, is your dog licensed?

824 Respondents

Please select the most applicable.

- Yes
- No

- **89%** of respondents selected **yes**
- **11%** of respondents selected **no**

If no, why not?

824 Respondents

Please select all that apply.

- Didn't know it's legally required
- Don't see the benefit
- Other: _____

Top Three Reasons:

- **88%** of respondents selected **have a dog license**
- **6%** of respondents selected **don't see the benefit**
- **3%** of respondents selected **didn't know it's legally required**

Of the **48** responses to "other", the three most frequently recurring themes were:

1. Don't see the need or benefit of having a licensed dog.
12 mentions
2. Plan on licensing dog but haven't gotten around to it.
5 mentions
3. Dog is already licensed.
5 mentions

Note: Due to a programming error, this question was only available on the TalkVancouver online survey as of Wednesday, September 21, 2016.

Question 10: Do you have any additional comments?

1917 Respondents

Of the **1917** responses, the three most frequently recurring themes were:

1. Enforcement of dog off-leash activity is currently inadequate/there is a need for more enforcement of off-leash activity.
376 mentions
2. Dog owners need to be educated on how to manage their dogs and educated on respecting bylaws and other park users.
372 mentions
3. There is a need for clearer delineation of off-leash areas.
330 mentions

2. Background

Vancouver's urban dog population is growing. With population growth and people living in smaller spaces, it's now more important than ever to balance different uses of parks and public spaces. Vancouver residents and visitors regularly use parks and beaches for picnicking and sports, and with more people living in apartment buildings and condos, local parks and beaches have become neighbourhood "backyards" where people meet to socialize, exercise and play.

The Vancouver Park Board is developing a comprehensive strategy to guide the planning and design of beautiful, safe and engaging parks for people with and without dogs. *People, Parks & Dogs: A strategy for sharing Vancouver's parks* will provide an evidence-based plan for sharing Vancouver parks and beaches by people and dogs. Through evaluating 36 existing dog off-leash areas in combination with data and consultation feedback, the planning team will develop recommendations and strategies for making all parks, including off-leash areas, successful for a broad range of park users.

How Input Will Be Used

The planning team will consider feedback from this round of consultation, along with technical information, to develop recommendations for the planning, design and management of Vancouver's parks, beaches and dog off-leash areas for Park Board review and approval.

3. Work to Date

In addition to Round 1 consultation, work to date has included:

- Studying Vancouver’s existing off-leash areas to identify opportunities and challenges in individual parks and within the larger parks system.
- Doing field surveys at eight off-leash parks to better understand how these parks are used. This includes observations of parks during weekdays and weekends, and surveys of park users.
- Studying dog parks in other cities, including interviews with parks department staff.
- Conducting a workshop with City of Vancouver and Park Board staff to identify opportunities and challenges in existing off-leash areas.

4. *People, Parks & Dogs* Advisory Committee

In June 2016, the Park Board created an Advisory Committee for *People, Parks & Dogs* to provide focused feedback into the consultation process from a range of stakeholder perspectives. Advisory Committee members represent a broad range of interests, including sports, the environment, animal health and behaviour, persons with disabilities, families with children, tourism and others.

The Advisory Committee is a valuable resource for information sharing between the Park Board and stakeholder groups. Advisory committee members provided feedback during pre-consultation about how they would like to be consulted, and on which topics. This information was considered in the development of the Round 1 consultation program. The Advisory Committee will continue to meet regularly throughout the planning process.

As part of Round 1 consultation, 14 members of the Advisory Committee met on September 7, 2016. The following are key themes from that meeting:

1. Participants observed that many existing off-leash facilities are over-used, particularly in densely populated parts of the city (e.g. downtown, the West End) and that is contributing to challenges for sharing parks, including the use of non-designated areas as off-leash facilities and park maintenance problems.
2. Participants reinforced that off-leash areas need to consider the needs of the people who use them, and identified opportunities for improved amenities (e.g. water, lighting, toilet facilities) and accessibility for persons with disabilities.
3. Participants suggested improved signage for off-leash areas to increase bylaw compliance and reduce conflict.

5. Round 1 Public and Stakeholder Consultation: September 8 – October 14, 2016

5.1 Purpose

The first round of consultation will inform recommendations for planning, designing and managing Vancouver's parks, beaches and dog off-leash areas. The Vancouver Park Board wants to develop a comprehensive strategy for dogs and people to guide well-planned parks that are designed to accommodate all park users, including those with and without dogs.

Further consultation opportunities are planned for early 2017. During the second round of consultation we will ask for feedback on preliminary recommendations about the planning, design and management of Vancouver's parks, beaches and dog off-leash areas.

5.2 Consultation Participation

There were a total of **4373** public and stakeholder interactions during the *People, Parks & Dogs* Round 1 consultation period:

- **4057²** completed surveys were received (3952 online, 105 hard copy)
- **135** people attended four public open houses
- **117** people attended four small group meetings
- **50** written submissions were received through email or mail
- **14** members attended an Advisory Committee meeting

² Of the 4057 completed surveys, 2188 (54%) of respondents identified as dog owners and 1867 (46%) respondents identified as non-dog owners.

Surveys translated in Chinese and Punjabi were available to consultation participants. Of the 4057 completed surveys, 52 (1%) were Chinese language surveys.

5.3 Consultation Topics

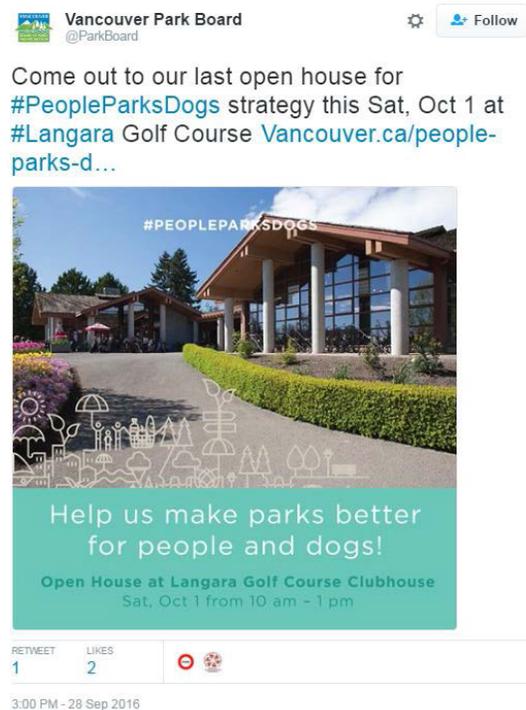

During this round of consultation, stakeholders and the public were invited to provide feedback regarding topics related to shared park space by people with and without dogs and benefits and challenges associated with dog off-leash areas, including:

- Why a *People, Parks & Dogs* Strategy is needed
- Location of dog off-leash areas in Vancouver
- Benefits and challenges of off-leash areas
- What is important for people with and without dogs sharing parks

5.4 Notification

The public was notified about consultation opportunities via the following methods:

- **Newspaper Advertising:**
Advertisements ran in the following publications:
 - *Vancouver Courier*: Thursday, September 8 and Thursday, September 15, 2016
 - *Ming Pao*: Saturday, September 10, 2016
- **Social Media:** Various Park Board social media accounts were used to inform the public about the consultation period
 - Free posts:
 - Tweets: 70 (842 865 impressions)
 - Facebook: 10 (reached 8041 users)
 - Instagram: 5 posts
 - Paid posts: 4 (viewed by 90 629 people)
- **Stakeholder Emails:** Five emails were sent to notify stakeholders about consultation opportunities and materials (1493 total recipients)
- **Consultation Website:** All stakeholder consultation materials were available on the project website at vancouver.ca/people-parks-dogs.

A copy of the notification materials can be found in Appendix 1.

5.5 Consultation Methods

5.5.1 Discussion Guide and Survey

The discussion guide provided information on: why the *People, Parks & Dogs* Strategy is needed in Vancouver; locations of existing dog off-leash areas; examples of best practices in other cities; benefits and challenges of off-leash areas, and how people with and without dogs can share parks.

The survey included questions on what considerations are important for people with and without dogs sharing Vancouver's parks and beaches. It also included questions regarding safety, waste management, bylaw enforcement, education of dog owners and dogs, environmental protection and a variety of other topics regarding dog off-leash areas. The survey was distributed at public open houses, small group meetings and posted online at: vancouver.ca/people-parks-dogs.

A copy of the discussion guide and survey can be found in Appendix 2.

5.5.2 Online Materials

Stakeholder consultation materials (discussion guide and display boards, including parks maps) were available online at: vancouver.ca/people-parks-dogs. The website also provided links to background materials on past engagement by the Park Board regarding off-leash areas. There were 3747 unique website visits during the consultation period, and **3952** of the 4057 completed surveys were received through the online survey.

The screenshot shows the City of Vancouver website interface. At the top left is the City of Vancouver logo. To the right is a navigation menu with 'How to ...' and a search bar. Below the navigation is a breadcrumb trail: Home > Parks, Recreation, and Culture > Parks and recreation > Improving our parks, beaches, and trails > People, Parks, and Dogs strategy. The main content area features a large image of a woman and a man sitting on a bench with a dog. Below the image is the title 'People, Parks, and Dogs: A strategy for sharing Vancouver's parks' and a brief description: 'The Vancouver Park Board wants all residents and visitors to enjoy the outdoors and enjoy their dogs. We are committed to consulting with a diverse range of stakeholders, park users, and the public. This first round of consultation will inform the development of "People, Parks, and Dogs: A strategy for sharing Vancouver's parks". In early 2017, we will ask for feedback on preliminary recommendations about the planning, design and management of Vancouver's parks, beaches and off-leash areas.' A quote box contains the text: 'We're developing a comprehensive strategy to guide the planning and design of parks to create beautiful, safe, and engaging spaces for people with and without dogs.'

5.5.3 Open Houses

Four public open houses were held around Vancouver to provide the public and stakeholders with a chance to speak with the planning team and to learn more about the *People, Parks & Dogs* strategy. Large presentation boards were set up with maps that showed current dog off-leash areas and other geospatial data. In addition to maps, information was presented on the display boards pertaining to dog off-leash areas and how people with and without dogs share parks.

In total, **135** people attended public open houses:

Date	Time	Location	Attendance
Tuesday, September 13	6 pm – 9 pm	Trout Lake Community Centre	47
Saturday, September 17	10 am – 1 pm	Roundhouse Community Centre	41
Wednesday, September 21	6 pm - 9 pm	St. James Community Square	27
Saturday, October 1	10 am – 1 pm	Langara Golf Course Clubhouse	20

5.5.4 Small Group Meetings

Four small groups meetings provided stakeholders with the opportunity to take part in a more in-depth discussion about *People, Parks & Dogs*. Attendees took part in facilitated table discussions with the survey as a framework and discussed their opinions with other stakeholders and the project team.

Total small group meeting attendance was **117**:

Date	Time	Location	Attendance
Thursday, September 15	7 pm – 9 pm	Trout Lake Community Centre	29
Thursday, September 29	7 pm – 9 pm	Roundhouse Community Centre	36
Tuesday, October 4	7 pm - 9 pm	Sunset Community Centre	19
Thursday, October 6	7 pm – 9 pm	Kitsilano Community Centre	33

See page 43 for a summary of small group meeting key themes. Complete meeting notes from each meeting are available in Appendix 3.

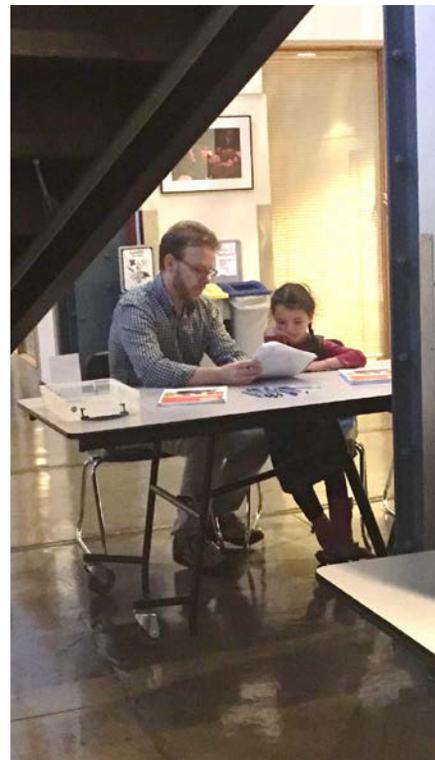

6. Consultation Results

6.1 Survey

Starting on the following page are results from the **4057 completed surveys received** at the open houses, small group meetings, online, and by mail. Out of the 4057 completed surveys, **2188** (54%) respondents identified as dog owners and **1867** (46%) respondents identified as non-dog owners. Please note:

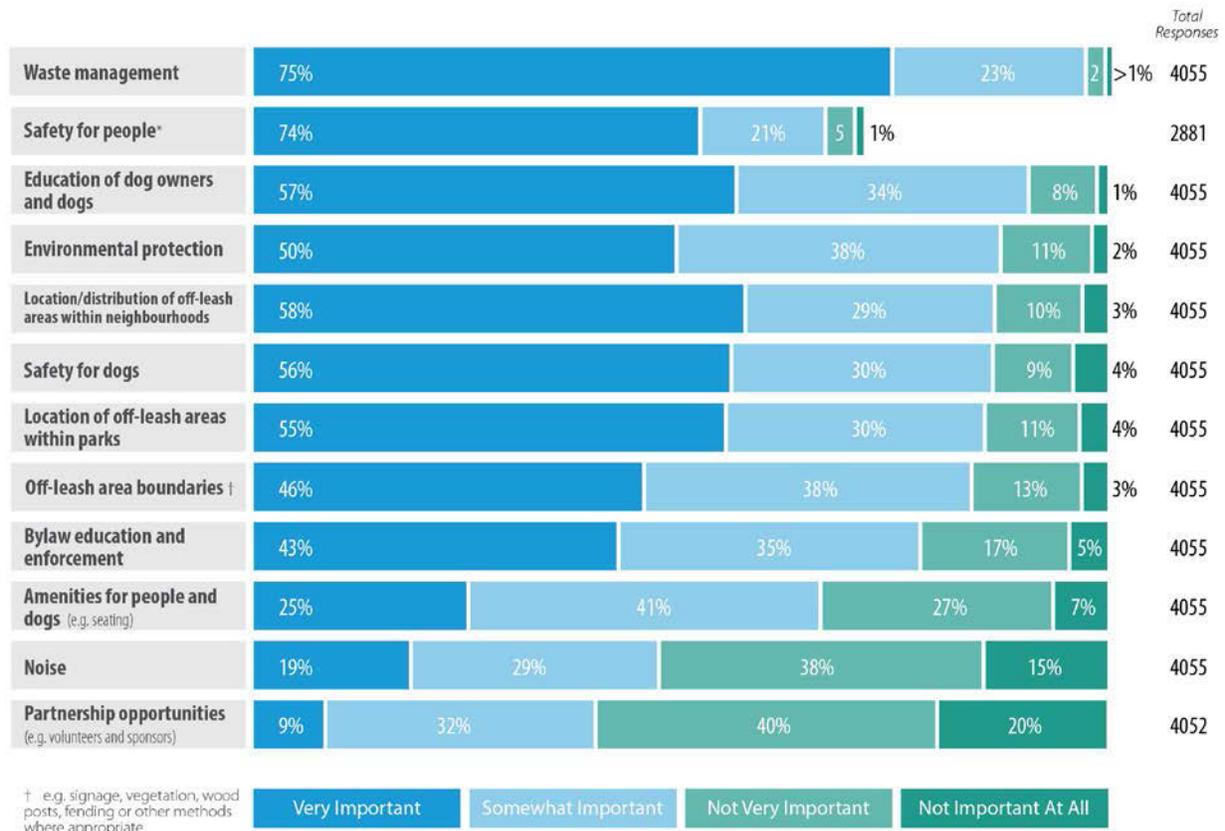

- Some totals may not add up to 100% due to rounding.
- Graphs for questions one and four are displayed in descending order based on the combined total of “Very Important and Somewhat Important”/ “Strongly Agree and Agree”.
- The number of mentions may exceed the total number of respondents, as participants may have commented on more than one topic. Themes with a 5% or lower mention rate have not been included in the qualitative results.
- Percentages for “dog owner” or “non-dog owner” group-specific graphs have been calculated based on number of respondents in each group who responded to that question.

6.2 Small Group Meeting Key Themes

Meeting	Key Themes
<p>Small Group Meeting 1</p> <p>Trout Lake Community Centre Thursday, September 15, 2016 7:00 p.m. – 9:00 p.m.</p> <p>29 attendees</p>	<ol style="list-style-type: none"> 1. Clear boundaries for off-leash areas are important for reducing conflict between park users. Some participants expressed a preference for signage and others expressed a preference for fencing to delineate off-leash area boundaries. 2. Strong support for off-leash areas that are easily accessible on foot, also expressing support for larger, more diverse neighbourhood off-leash areas. 3. Desire for welcoming off-leash areas that consider the needs of people.
<p>Small Group Meeting 2</p> <p>Roundhouse Community Centre Thursday, September 29, 2016 7:00 p.m. – 9:00 p.m.</p> <p>36 attendees</p>	<ol style="list-style-type: none"> 1. Waste management is an issue for existing off-leash areas. There are not enough bins for dog waste and general garbage in parks, and there should be more bins, no matter what the outcome of this consultation. 2. Animal control is poorly handled. Bylaw officers have to know how to relate to people and dogs, and can't just enforce the bylaws without working to build relationships with the residents of Vancouver. 3. Education of all park users is needed to increase the general population's understanding of dogs. 4. Signage can be and needs to be improved. Many parks are already being used as off-leash areas at certain times of the day when they're not designated as such. This creates challenges for animal control and bylaw enforcement, so improved and additional signage is necessary. 5. It's important to look at the density of neighbourhoods when determining where to develop off-leash facilities and how many to build.

Meeting	Key Themes
<p>Small Group Meeting 3</p> <p>Sunset Community Centre Tuesday, October 4, 2016 7:00 p.m. – 9:00 p.m.</p> <p>19 attendees</p>	<ol style="list-style-type: none"> 1. There is a need to increase the number of licensed dogs in Vancouver to improve enforcement and to obtain more accurate statistics to inform strategic decisions regarding dog facilities. 2. There should be more neighbourhood dog off-leash areas easily accessible on foot. 3. Increased education of dog owners and non-dog owners is critical to ensure the safety and overall well-being of all park users. 4. Signage and boundaries of off-leash areas should be creative and effective. Improving off-leash area signage and boundaries will promote more positive interactions between dog owners and non-dog owners. 5. Bylaws are not currently enforced. Increasing enforcement of waste and off-leash bylaws will promote environmentally-sustainable and socially-responsible dog ownership.
<p>Small Group Meeting 4</p> <p>Kitsilano Community Centre Thursday, October 6, 2016 7:00 p.m. – 9:00 p.m.</p> <p>33 attendees</p>	<ol style="list-style-type: none"> 1. Dogs are children for many families in Vancouver, and as such, have to be recognized as a group in the city that needs services. 2. There's a need to make off-leash areas attractive so that dog owners and even non-dog owners will want to go there. 3. There are many potential partnership opportunities for dog off-leash areas throughout the city, for example, with developers. 4. Dog licensing fees should be used to provide education to those who pay the fees. More education is needed for dogs and people/owners. 5. A new, graduated program for well-behaved dogs would create incentive for owners to train dogs. 6. Reducing the price of licenses and explaining the benefits would increase compliance from owners.

Vancouver Matters

Open Houses: A Strategy for Sharing Vancouver's Parks

The Vancouver Park Board wants to hear from you about what's important when it comes to park use by people and dogs, including safety, maintenance, environment, location and design of dog off-leash areas.

The planning process for developing a strategy for sharing Vancouver's parks will involve extensive public consultation: open houses, small group meetings and surveys. When complete, the strategy will be used to create well-planned parks for all people, including dog owners.

Share Your Thoughts on Temporary Path- way Options for the Arbutus Greenway

The Arbutus Greenway is a future north-south transportation corridor that will connect False Creek to the Fraser River.

In the short term, the City of Vancouver is building a temporary pathway that everyone can enjoy. We're looking at several different

types of hard-surface materials, especially those that improve safety and accessibility.

JOIN THE CONVERSATION

Come to a public workshop to learn about the different options and share your thoughts:

Saturday, September 17
1 - 3 pm (presentation at 1:10 pm)
False Creek Community Centre
1318 Cartwright Street

Wednesday, September 21

Public Hearing: September 20, 2016

Tuesday, September 20, 2016, at 6 pm
City Hall, 453 West 12th Avenue
Third Floor, Council Chamber

Vancouver City Council will hold a Public Hearing to consider zoning for these locations:

1. Miscellaneous Text Amendments

Miscellaneous text amendments to four CD-1 (Comprehensive Development) District By-laws. CD-1 (628) By-law No. 11504 for 4162 and 4188 Cambie Street amends permitted height and CD-1 (Comprehensive Development) District By-laws: CD-1 (575) By-law No. 11017 for 2290 Main Street; CD-1 (521) By-law No. 10413 for 7299 Granville Street (Shannon Mews) (formerly known as 7101-7201 Granville Street); and CD-1 (478) By-law No. 9850 for 188 East 1st Avenue (1721 Main Street) amends the permitted uses.

2. 2016 Inflationary Rate Adjustments to Development Cost Levies (DCLs), Density Bonus Contributions and Community Amenity Contribution (CAC) Targets

To amend the Zoning and Development By-law to implement inflationary adjustments to the Density Bonus Contributions by increasing the values of the affordable housing shares and the amenity shares in the RM-8 and RM-8N Districts Schedule and in the RM-9, RM-9A, RM-9N and RM-9AN Districts Schedule.

3. Joyce-Collingwood Station Precinct Plan - Implementation of New Zoning Districts

To amend the Zoning and Development By-law to add two new districts proposed by the Joyce-Collingwood Station Precinct Plan. Accordingly, some properties within the Plan area would be rezoned to RM-7AN to allow for duplexes/townhouses and to RM-9BN to allow for apartments. These zoning changes would help implement the Plan by allowing for more housing in close proximity to rapid transit.

Open Houses: A Strategy for Sharing Vancouver's Parks

The Vancouver Park Board wants to hear from you about what's important when it comes to park use by people and dogs, including safety, maintenance, environment, location and design of dog off-leash areas.

PEOPLE PARKS & DOGS

The planning process for developing a strategy for sharing Vancouver's parks will involve extensive public consultation: open houses, small group meetings and surveys. When complete, the strategy will be used to create well-planned parks for all people, including dog owners.

OPEN HOUSES (drop in anytime):

Saturday, September 17, 2016, 10 am - 1 pm
David Lam Park, 1300 Pacific Boulevard

Wednesday, September 21, 2016, 6 - 9 pm
St. James Community Square, 3214 West 10th Avenue

Saturday, October 1, 2016, 10 am - 1 pm
Langara Golf Course Clubhouse, 6706 Alberta Street

You can also register for small group meetings by October 5 or take the online questionnaire between September 8 and October 14 at:
vancouver.ca/people-parks-dogs

Share Your Thoughts on Temporary Pathway Options for the Arbutus Greenway

The Arbutus Greenway is a future north-south transportation corridor that will connect False Creek to the Fraser River.

In the short term, the City of Vancouver is building a temporary pathway that everyone can enjoy. We're looking at several different types of hard-surface materials, especially those that improve safety and accessibility.

Join the Conversation

Come to a public workshop to learn about the different options and share your thoughts.

Saturday, September 17, 1 - 3 pm (presentation at 1:10 pm)
False Creek Community Centre, 1318 Cartwright Street

Wednesday, September 21, 7 - 9 pm (presentation at 7:10 pm)
Coast Vancouver Airport Hotel, 1041 Southwest Marine Drive

Thursday, September 22, 7 - 9 pm (presentation at 7:10 pm)
Kerrisdale Community Centre, 5851 West Boulevard

Please note that space is limited. Visit vancouver.ca/arbutus-greenway to RSVP, and to sign-up for the Arbutus Greenway newsletter.

In Vancouver, we have 36 off-leash areas. Six sites are fenced and are typically only used by dog owners and their dogs. The remaining 30 sites are unfenced and these park spaces are shared with other users.
How do you think we can best share these spaces with all park users?

WE WANT TO KNOW: HOW CAN PEOPLE AND DOGS BEST SHARE OUR PARKS?

The Vancouver Park Board is developing a comprehensive strategy to guide the planning and design of beautiful, safe and engaging parks for people with and without dogs.

This discussion guide gives you information on park use by people and dogs. It includes an overview of the city's existing off-leash areas, information on how to get involved, as well as a survey so you can share your opinions and ideas.

People, Parks & Dogs: A strategy for sharing Vancouver's parks
Round 1 – Public and Stakeholder Consultation
September 8 – October 14, 2016

The consultation includes:

- Discussion guide
- Survey attached and online at vancouver.ca/people-parks-dogs
- Open houses and small group meetings throughout the city (see schedule on pages 5 and 6)

How feedback will be considered

The planning team will consider feedback from this round of consultation, along with technical information, to develop recommendations for the planning, design and management of Vancouver's parks, beaches and dog off-leash areas for Park Board review and approval.

Consulting with You

The Park Board is committed to consulting with a diverse range of stakeholders, park users and the public about *People, Parks & Dogs: A strategy for sharing Vancouver's parks*.

Further consultation opportunities are planned for early 2017. During the second round of consultation, we will ask for feedback on preliminary recommendations about the planning, design and management of Vancouver's parks, beaches and dog off-leash areas. Please visit vancouver.ca/people-parks-dogs to sign-up for updates.

People, Parks & Dogs Advisory Committee

In June 2016, the Park Board created an Advisory Committee for *People, Parks & Dogs* to provide focused feedback into the consultation process from a range of stakeholder perspectives. Advisory Committee members represent a broad range of interests, including sport, the environment, animal health and behaviour, persons with disabilities, seniors, multicultural, tourism and others.

The Advisory Committee is a valuable resource for information sharing between the Park Board and stakeholder groups. Members provided feedback on consultation topics and methods during pre-consultation. The Advisory Committee will continue to meet regularly throughout the planning process.

Work to Date

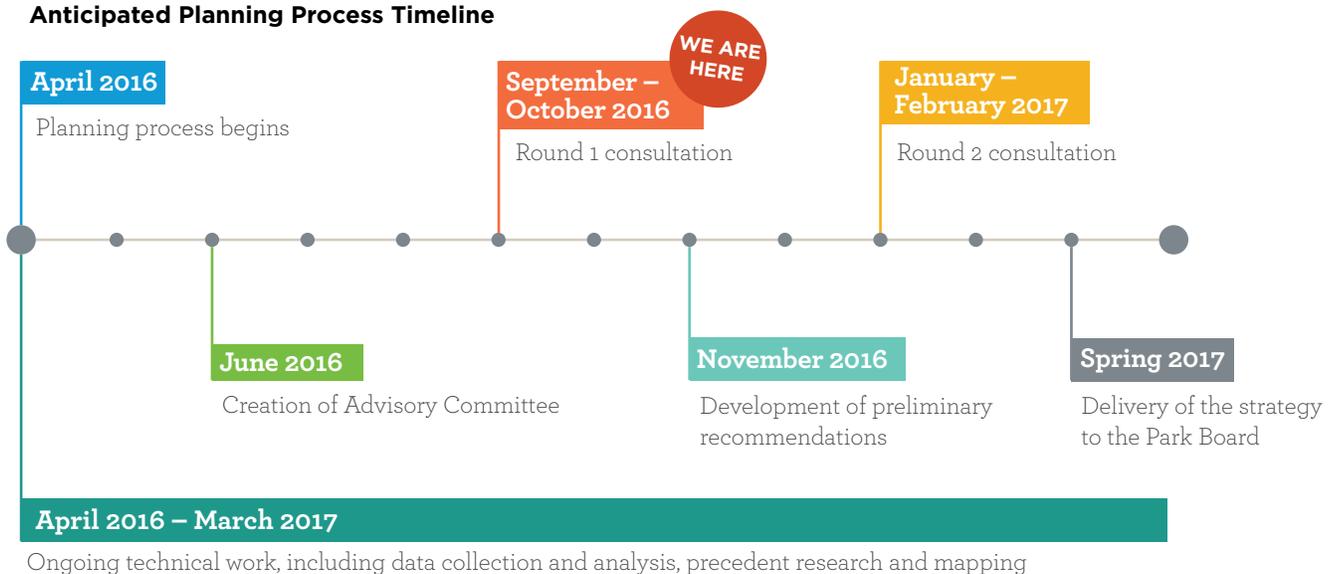

The planning team is working to gain a better understanding of how Vancouver's parks are used by people and their dogs, including opportunities and challenges related to off-leash areas. Work to date includes:

- Studying Vancouver's existing off-leash areas to identify opportunities and challenges in individual parks and within the larger parks system.
- Doing field surveys at eight off-leash parks to better understand how these parks are used. This includes observations of parks during weekdays and weekends, and surveys of park users.
- Studying dog parks in other cities, including interviews with parks department staff.
- Conducting a workshop with City of Vancouver and Park Board staff to identify opportunities and challenges in existing off-leash areas.

Parks and Recreation Master Plan

The Park Board recently began a planning process to develop a bold, accessible and innovative master plan. This plan will guide the planning and provision of Vancouver parks and recreation facilities and services for the next 10 years and beyond. The Park Board and its planning team will consider *People, Parks & Dogs: A strategy for sharing Vancouver's parks* in this master planning process.

Anticipated Planning Process Timeline

This first round of consultation will inform the development of *People, Parks & Dogs: A strategy for sharing Vancouver's parks*. There will be further consultation opportunities in early 2017, when we'll be asking you for feedback on preliminary recommendations about the planning, design and management of Vancouver's parks, beaches and off-leash areas.

History of Dog Parks in Vancouver

WHAT ARE THE BENEFITS AND CHALLENGES OF OFF-LEASH AREAS?

Benefits of off-leash areas include:

Building community: Off-leash areas are popular gathering places in neighbourhoods, both for people walking their dogs and for those who like to watch dogs. They bring people together, allowing neighbours to meet, socialize and build support networks. Off-leash areas can be particularly good for older adults who live alone because this type of park use encourages people to be active and social.

Providing places for dogs to exercise and socialize: Off-leash areas allow dog owners – especially those who live in apartments or condos – to exercise and socialize their dogs. Beyond the obvious benefits to dog health and happiness, this may also help dogs behave better on- and off-leash.

Encouraging owners to keep off-leash activity to off-leash areas: Offering off-leash areas can encourage owners to keep their dogs on-leash in areas where off-leash activity isn't allowed.

Making parks and neighbourhoods safer: Dog owners use parks every day, including in the early morning and late evening. Having these "eyes on the park" can help discourage crime and make parks feel safer for other users. Similarly, off-leash areas can also help increase usage of parks that are under-used. Increased foot traffic close to dog parks also lowers crime rates in these areas.

Discouraging conflict in shared park spaces: Creating separate dog off-leash areas may reduce conflicts from off-leash dogs in shared park spaces, by separating off-leash dogs from areas used for activities such as picnicking, playgrounds and sports.

Promoting responsible dog ownership: Cities can encourage responsible dog ownership and good animal welfare by using off-leash areas to share educational resources and provide locations for dogs to be trained and socialized. Informal education also happens at off-leash areas, since dog owners can share resources and learn from responsible dog owners.

Challenges of off-leash areas include:

Managing dog waste: Dog waste is smelly, unpleasant to look at, and has health risks if not cleaned up and disposed of properly. Owners may not always see their dog defecate in an off-leash area, possibly leaving more uncollected dog waste in these areas.

Safety concerns (people and dogs): Dogs may display bad behaviour if they are not kept under supervision of their owners. Aggressive or poorly trained dogs in off-leash areas may scare or injure people or other dogs. Without play features and places to hide, small fenced dog off-leash areas can also be intimidating for shy and small dogs, and may lead to conflicts between dogs.

Sharing limited park space: With a limited amount of park space available, people who do not use off-leash areas may worry that off-leash areas leave less space for other park uses.

Managing noise: The noise from dog off-leash areas, where many dogs and people meet, may disturb other park users or neighbourhood residents.

Increased maintenance and enforcement costs: Concentrated areas of dogs off leash can wear away turf and lead to more conflicts with other park users, leading to higher maintenance and enforcement costs.

Keeping off-leash activity to designated off-leash areas: At some off-leash sites the boundaries between on-leash and off-leash areas aren't clear, leading to more off-leash activity in surrounding park areas.

Potential environmental impacts: Dogs in general, and dogs off leash in particular, have the potential to disturb wildlife, damage sensitive habitat areas, and negatively impact water quality.

What do you think about off-leash areas in Vancouver's parks?

WOOF! WOOF!

ਸਾਡਾ ਸਰਵੇ ਭਰੋ!

ਲੋਕਾਂ ਨਾਲ ਸਲਾਹ ਮਸ਼ਵਰੇ ਦੇ ਪਹਿਲੇ ਦੌਰ ਦੇ ਹਿੱਸੇ ਵਜੋਂ, ਅਸੀਂ ਇਹ ਜਾਣਨਾ ਚਾਹੁੰਦੇ ਹਾਂ ਕਿ ਤੁਸੀਂ ਪਾਰਕਾਂ ਵਿਚ ਕੁੱਤਿਆਂ ਬਾਰੇ ਕੀ ਸੋਚਦੇ ਹੋ! ਸਾਨੂੰ ਇਹ ਦੱਸਣ ਲਈ ਸਰਵੇ ਭਰੋ ਕਿ ਵੈਨਕੂਵਰ ਦੇ ਪਾਰਕਾਂ ਵਿਚ ਕੁੱਤਿਆਂ ਬਾਰੇ ਤੁਹਾਡੇ ਲਈ ਕਿਹੜੀ ਚੀਜ਼ ਮਹੱਤਵਪੂਰਨ ਹੈ, ਜਿਸ ਵਿਚ ਸ਼ਹਿਰ ਦੀਆਂ ਬਿਨਾਂ ਸੰਗਲੀ ਵਾਲੀਆਂ ਥਾਂਵਾਂ ਅਤੇ ਬਿਨਾਂ ਸੰਗਲੀ ਵਾਲੀਆਂ ਥਾਂਵਾਂ ਤੋਂ ਬਾਹਰ ਲਈ ਮੌਕੇ ਅਤੇ ਚੁਣੌਤੀਆਂ ਵੀ ਸ਼ਾਮਲ ਹਨ। ਕਿਰਪਾ ਕਰਕੇ ਆਪਣੇ ਵਿਚਾਰ 14 ਅਕਤੂਬਰ, 2016 ਤੱਕ ਦੇ ਦਿਉ।

ਤੁਹਾਡੇ ਵਿਚਾਰ ਵੈਨਕੂਵਰ ਦੇ ਪਾਰਕਾਂ, ਬੀਚਾਂ ਅਤੇ ਕੁੱਤਿਆਂ ਲਈ ਬਿਨਾਂ ਸੰਗਲੀ ਵਾਲੀਆਂ ਥਾਂਵਾਂ ਲਈ ਯੋਜਨਾਬੰਦੀ ਕਰਨ, ਜੁਗਤਾਂ ਬਣਾਉਣ ਅਤੇ ਪ੍ਰਬੰਧ ਲਈ ਸਿਫਾਰਸ਼ਾਂ ਕਰਨ ਵਿਚ ਮਦਦ ਕਰਨਗੇ।

ਜਿਵੇਂ ਕਿ ਉੱਤਰੀ ਅਮਰੀਕਾ ਦੇ ਬਹੁਤ ਸਾਰੇ ਹੋਰ ਵੱਡੇ ਸ਼ਹਿਰਾਂ ਵਿਚ ਹੋ ਰਿਹਾ ਹੈ, ਵੈਨਕੂਵਰ ਵਿਚ ਵੀ ਕੁੱਤਿਆਂ ਦੀ ਆਬਾਦੀ ਵਧ ਰਹੀ ਹੈ। ਆਬਾਦੀ ਵਿਚ ਵਾਧੇ ਅਤੇ ਲੋਕਾਂ ਦੇ ਛੋਟੀਆਂ ਥਾਂਵਾਂ ਵਿਚ ਰਹਿਣ ਨਾਲ, ਪਾਰਕਾਂ ਅਤੇ ਪਬਲਿਕ ਥਾਂਵਾਂ ਦੀ ਵੱਖ ਵੱਖ ਵਰਤੋਂ ਵਿਚਕਾਰ ਸੰਤੁਲਨ ਰੱਖਣਾ ਹੁਣ ਪਹਿਲਾਂ ਨਾਲੋਂ ਹੋਰ ਵੀ ਜ਼ਿਆਦਾ ਮਹੱਤਵਪੂਰਨ ਹੋ ਗਿਆ ਹੈ।

ਵੈਨਕੂਵਰ ਪਾਰਕ ਬੋਰਡ ਕੁੱਤਿਆਂ ਅਤੇ ਲੋਕਾਂ ਲਈ ਇਕ ਵਿਆਪਕ ਨੀਤੀ ਵਿਕਸਤ ਕਰਨਾ ਚਾਹੁੰਦਾ ਹੈ ਜਿਸ ਦਾ ਮਕਸਦ ਪਾਰਕ ਦੀ ਵਰਤੋਂ ਕਰਨ ਵਾਲੇ ਸਾਰਿਆਂ ਨੂੰ ਥਾਂ ਦੇਣਾ ਹੈ।

ਸਵਾਲ 1 ਲੋਕਾਂ ਅਤੇ ਕੁੱਤਿਆਂ ਵਲੋਂ ਵੈਨਕੂਵਰ ਦੇ ਪਾਰਕਾਂ ਅਤੇ ਬੀਚਾਂ ਦੀ ਰਲ ਕੇ ਵਰਤੋਂ ਕਰਨ ਬਾਰੇ ਤੁਹਾਡੇ ਲਈ ਕਿਹੜੀ ਚੀਜ਼ ਸਭ ਤੋਂ ਜ਼ਿਆਦਾ ਮਹੱਤਵਪੂਰਨ ਹੈ?

	ਬਹੁਤ ਮਹੱਤਵਪੂਰਨ	ਕੁਝ ਕੁ ਮਹੱਤਵਪੂਰਨ	ਬਹੁਤ ਮਹੱਤਵਪੂਰਨ ਨਹੀਂ	ਬਿਲਕੁਲ ਮਹੱਤਵਪੂਰਨ ਨਹੀਂ

The following summary notes are from the Trout Lake Small Group Meeting for People, Parks & Dogs: A strategy for sharing Vancouver’s parks. This meeting was held as part of the first round of consultation regarding the strategy.

29 people attended the meeting, along with staff from the Vancouver Board of Parks and Recreation (Park Board), and consultants from space2place landscape architects and Kirk & Co. Consulting Ltd. The meeting was facilitated by Judy Kirk, President of Kirk & Co. Consulting.

AGENDA

1. Welcome and team introductions
2. Walkthrough of discussion guide

3. Breakout – table discussions of survey
4. Report back and roundtable discussion

OVERALL KEY THEMES

1. Clear boundaries for off-leash areas are important for reducing conflict between park users. Preference for signage or fencing to delineate off-leash area boundaries.
2. Strong support for off-leash areas that are easily accessible on foot and support for larger, more diverse neighbourhood off-leash areas.
3. Desire for welcoming off-leash areas that consider the needs of people.

KEY THEMES FROM BREAKOUT SMALL GROUP DISCUSSIONS

Each table discussed the survey questions. The discussion was facilitated by a member of the People, Parks & Dogs planning team, who reported back on the key themes from their group discussion. These themes are presented below:

Table 1 (Facilitated by Katy Amon)

- 1) To reduce conflicts there is a need for better, clearer signage delineating off-leash areas.
- 2) Dog off-leash areas provide community benefits by bringing neighbours together.
- 3) Challenges of Vancouver's dog off-leash areas include small size of many areas and a lack of diversity in the types of off-leash area currently available.
- 4) People who use off-leash areas generally pick-up after their dogs.
- 5) One of the barriers to more widespread dog licensing is education about how to get a dog license (i.e. that it does not require going to City Hall).

Table 2 (Facilitated by Jeff Cutler)

- 1) There is a need to educate dog owners about proper dog ownership and behaviour and dog training, but also to educate non-dog owners about dogs.
- 2) Neighbourhood dog parks are important, however there is concern about only having small off-leash areas in neighbourhoods. There should also be larger, more spacious off-leash areas that are easily accessible on foot.

Table 3 (Facilitated by Erin Embley)

- 1) Safety for dogs and education for dogs and dog owners are both of high priority.
- 2) Off-leash boundaries, including fencing, are important elements for reducing conflict between park users.
- 3) Larger off-leash areas are needed for bigger and/or more energetic dogs.
- 4) Benefits of off-leash areas include building community, and providing areas for exercise and socialization.
- 5) Challenges include safety concerns for people and dogs and managing waste. Off-leash areas need to be well maintained to make sure they are safe for the dogs that are using them.
- 6) Dog off-leash areas that are easily accessible on foot should be prioritized, to encourage people to use them.
- 7) There is a need for better amenities in dog off-leash areas, for example more waste bins, fencing and drinking water.

Table 4 (Facilitated by Tate White)

- 1) There are health and safety concerns for dogs in off-leash areas, including injuring themselves on gravel surfaces in off-leash areas.
- 2) There needs to be on-leash and off-leash walking paths, as these are important for training dogs.
- 3) There is a need for more off-leash areas around the city that are easily accessible on foot, which help to promote walking.

Table 5 (Facilitated by Amy Gore)

- 1) It's important that off-leash areas are clearly delineated, though not necessarily with fencing, to reduce conflicts that occur because people aren't aware that they're entering an off-leash area and to educate people with dogs about where they need to put their dogs on a leash.
- 2) Rules need to be followed. If a person is leaving a dog off-leash area, they need to put their dog on a leash.
- 3) The biggest goal for the strategy is to how to reduce conflicts.

Table 6 (Facilitated by Dave Hutch)

- 1) Consideration needs to be given to improving the quality of the experience in off-leash areas for people, as well as for dogs. People need to feel comfortable spending time in off-leash areas with their dogs.
- 2) The dog waste pilot program is a great initiative that should be expanded.

- 3) Dog off-leash areas need to be easily accessible on foot (within 5-10 minutes) if they are going to be used.
- 4) Consideration should be given to the fact that different kinds of dogs need different kinds of off-leash areas.
- 5) If licensing revenues were to go to programs benefiting dogs and dog owners, it would be an incentive for licensing.

The following summary notes are from the Roundhouse Community Centre Small Group Meeting for People, Parks & Dogs: A strategy for sharing Vancouver’s parks. This meeting was held as part of the first round of consultation regarding the strategy.

36 people attended the meeting, along with staff from the Vancouver Board of Parks and Recreation (Park Board), and consultants from space2place landscape architects and Kirk & Co. Consulting Ltd. The meeting was facilitated by Judy Kirk, President of Kirk & Co. Consulting.

AGENDA

1. Welcome and team introductions
2. Walkthrough of discussion guide
3. Breakout – table discussions of survey
4. Report back and roundtable discussion

OVERALL KEY THEMES

1. Waste management is an issue for existing off-leash areas. There are not enough bins for dog waste and general garbage in parks, and there should be more bins, no matter what the outcome of this consultation.
2. Animal control is poorly handled. Bylaw officers have to know how to relate to people and dogs, and can't just enforce the bylaws without working to build relationships with the residents of Vancouver.
3. Education of all park users is needed to increase the general population's understanding of dogs.
4. Signage can be and needs to be improved. Many parks are already being used as off-leash areas at certain times of the day when they're not designated as such. This creates challenges for animal control and bylaw enforcement, so improved and additional signage is necessary.
5. It's important to look at the density of areas when determining where to develop off-leash facilities and how many to build.

KEY THEMES FROM BREAKOUT TABLE DISCUSSIONS

Each table discussed the survey questions. The discussion was facilitated by a member of the People, Parks & Dogs planning team, who reported back on the key themes from their table discussion. These themes are presented below:

Table 1 (Facilitated by Jeff Cutler)

- 1) Waste management is a top issue that needs to be addressed.
- 2) Enforcement of dog activity has been maximized; if anything, less enforcement is needed.
- 3) Good distribution of dog facilities in parks is needed, within 10 minutes (walking or driving) from homes. Neighbourhood and destination off-leash areas are equal in importance.

- 4) Parks help build communities.
- 5) Wide range of opinions on the quality of current off-leash areas in the city.
- 6) Don't see benefits of having dogs licensed.

Table 2 (Facilitated by Erin Embley)

- 1) Safety for dogs is very important; aggressive dogs need to be controlled in some fashion.
- 2) Location and distribution of off-leash areas is key. The downtown core is underserved and those areas that allow off-leash are not well-maintained. Further, limited hours for off-leash activity causes issues across the city.
- 3) A variety of amenities in off-leash areas is important, as is the need for safe, comfortable and clean off-leash facilities. Too many current facilities are dusty, small and unsafe, largely due to gravel surfaces.
- 4) Closer proximity factors into using on-leash parks as off-leash facilities; if a park that's close to home doesn't allow off-leash activity, dog owners will use it anyway because of convenience. Dogs need to run.
- 5) Off-leash facilities should have clear boundaries and could be separated from other areas of parks.

Table 3 (Facilitated by Sarah Primeau)

- 1) Support for off-leash areas, generally.
- 2) Off-leash areas need to be designed so they're safe for dogs, including separate areas for large and small dogs. Further, attention needs to be paid to the design of the spaces (e.g. no gravel).
- 3) Noise is an issue, especially downtown. Off-leash areas need to be well-signed, with proper enforcement.
- 4) Keeping off-leash activity in off-leash areas is a challenge due to unclear boundaries (e.g. Sunset Beach).

Table 4 (Facilitated by Katy Amon)

- 1) Education of bylaws and park use is important and needed for all Vancouver residents, including kids in school. The more people know, the safer and more enjoyable parks will be for all users.
- 2) Partnership opportunities are an interesting idea and more should be shared about this.
- 3) More maintenance would be required for off-leash areas, and currently, not enough is done by dog walkers and owners who use these facilities year-round.

- 4) If contained, dogs tend to not get along. Walking paths or circuits would be a good alternative for exercise and socializing.
- 5) Dogs and people need more of a variety of off-leash facilities, whether that's in neighbourhood or destination areas.

Table 5 (Facilitated by Dave Hutch)

- 1) Waste management is a major issue; dog waste on fields doesn't properly allow for the various uses of parks.
- 2) Fencing is important and necessary for the safety of all park users, including children. Proper lighting should also be a priority.
- 3) Enforcement is key. There are different levels of enforcement that could happen based on the situation, and bylaw officers' attitudes should be more education-based than the heavy-handed approach that they currently use. Officers should be more invested in their relationship with dog owners and park users.
- 4) Signage in parks is ambiguous and needs to be clearer, and more waste bins are needed.
- 5) Longer park paths in parks would provide significant benefits for dog exercise while on-leash.

Table 6 (Facilitated by Tate White)

- 1) Waste management is important. There are repeat offenders who don't pick up, while some dog owners/walkers pick up but leave the bag behind for various reasons. More bins are necessary.
- 2) More education is needed and perhaps having experts at off-leash areas is a solution. Further, park users need to be able to efficiently report where there is a problem at an off-leash area, park or beach, and see the follow up.
- 3) A high quality off-leash area is needed for every neighbourhood, especially downtown due to higher density.
- 4) If more time restrictions lead to more off-leash areas, that's fine. Having the necessary infrastructure is the key.
- 5) Signage needs to be improved at existing off-leash areas. Landscaping could work as a more natural boundary, as opposed to fencing. Current off-leash facilities are too small and need better design, including more shade.

Additional Comments – Group Discussion

- Dogs that are on-leash behave differently than when they're off-leash. Dogs need to be socialized and be comfortable without being constrained by a leash.
- Off-leash area time restrictions are a bad idea, except for in the middle of the night, when dogs can be loud.
- Pet-friendly restaurants should be available in Vancouver.
- Rules should be site-specific; some areas should have no restrictions, other should have some restrictions based on the layout and landscape of the park/off-leash area.
- Public service announcements could be used in the public education about dealing with dogs, like was the case in the United Kingdom.
- Off-leash areas are poorly located in some cases (e.g. next to cycling paths and daycares).
- Universal coloured leashes could be an idea to quickly identify which dogs are licensed and which dogs aren't licensed by the city.
- One idea to allow for dogs to have free run at parks is to put fencing around playgrounds and the like, instead of around off-leash areas.

The following summary notes are from the Sunset Community Centre Small Group Meeting for People, Parks & Dogs: A strategy for sharing Vancouver’s parks. This meeting was held as part of the first round of consultation regarding the strategy.

19 people attended the meeting, along with staff from the Vancouver Board of Parks and Recreation (Park Board), and consultants from space2place landscape architects and Kirk & Co. Consulting Ltd. The meeting was facilitated by Judy Kirk, President of Kirk & Co. Consulting.

AGENDA

1. Welcome and team introductions
2. Walkthrough of discussion guide
3. Breakout – table discussions of survey
4. Report back and roundtable discussion

OVERALL KEY THEMES

1. There is a need to increase the number of licensed dogs in Vancouver to improve enforcement and to obtain more accurate statistics to inform strategic decisions regarding dog facilities.
2. There should be more neighbourhood dog off-leash areas easily accessible on foot.
3. Increased education of dog owners and non-dog owners is critical to ensure the safety and overall well-being of all park users.
4. Signage and boundaries of off-leash areas should be creative and effective. Improving off-leash area signage and boundaries will promote more positive interactions between dog owners and non-dog owners.
5. Bylaws are not currently enforced. Increasing enforcement of waste and off-leash bylaws will promote environmentally-sustainable and socially-responsible dog ownership.

KEY THEMES FROM BREAKOUT TABLE DISCUSSIONS

Each table discussed the survey questions. The discussion was facilitated by a member of the People, Parks & Dogs planning team, who reported back on the key themes from their table discussion. These themes are presented below:

Table 1 (Facilitated by Erin Embley)

- 1) There is a need for more dog off-leash areas. This will help dog owners to comply with off-leash bylaws, benefitting both other dog owners and non-dog owners.
- 2) Education of dog owners would be very valuable. For example, programs to train prospective dog owners on what they need to know and what they should expect as dog owners.
- 3) There needs to be more consistency in bylaw enforcement related to dog activity
- 4) Efforts should be made to improve relationships between dog owners and non-dog owners.

Table 2 (Facilitated by Tate White)

- 1) Education of dog owners and non-dog owners will promote responsible ownership and positive park interactions.
- 2) There needs to be improved distribution of off-leash areas across all neighbourhoods, to ensure that more dog owners can walk to off-leash parks instead of driving. (Note: one non-dog owner believed dog owners should be willing to drive to off-leash areas).
- 3) Implement clearer signage to delineate where dog off-leash areas are located.

- 4) Boundaries and signage can include a range of options. Fencing will reduce conflict and improve dog safety. Fencing of dog off-leash dog areas does not always have to be complete, but should be used to delineate areas that are off-leash, materials for fencing could be natural bushes, rocks and vegetation instead of using wood or wire.
- 5) Improve dog waste programs, including by expanding ecologically-efficient disposal that has been implemented as part of the dog waste pilot program at Charleson Park, Grimmatt Park and John Hendry Park.

Table 3 (Facilitated by Jeff Cutler)

- 1) Dog off-leash parks should be within 10 minutes or less (walking or driving distance).
- 2) Dog owner education will improve behavior of dogs and will solve many off-leash area issues, including increasing compliance with bylaws related to dog off-leash activity.
- 3) There is a need for clear off-leash area boundaries to increase safety for people and dogs.
- 4) Dogs can have a negative impact on sensitive environments; proper waste management helps to protect the environment.
- 5) There is a need for more off-leash areas.

Additional Comments – Group Discussion

- Discussion regarding the low number of licensed dogs in Vancouver, including: concerns regarding the effect of poor statistical information on strategy development; ideas for how to improve the number of licensed dogs; and recommendations that revenues from dog licensing be directed toward dog-related amenities.
- Recommendation that off-leash parks should include more agility features for dogs.
- Discussion regarding need for increased and more creative/effective signage around off-leash dog areas, including the need for multilingual signage.
- Need to maintain a variety of park styles.

The following summary notes are from the Kitsilano Community Centre Small Group Meeting for People, Parks & Dogs: A strategy for sharing Vancouver’s parks. This meeting was held as part of the first round of consultation regarding the strategy.

33 people attended the meeting, along with staff from the Vancouver Board of Parks and Recreation (Park Board), and consultants from space2place landscape architects and Kirk & Co. Consulting Ltd. The meeting was facilitated by Judy Kirk, President of Kirk & Co. Consulting.

AGENDA

1. Welcome and team introductions
2. Walkthrough of discussion guide
3. Breakout – table discussions of survey
4. Report back and roundtable discussion

OVERALL KEY THEMES

1. Dogs are children for many families in Vancouver, and as such, have to be recognized as a group in the city that needs services.
2. There's a need to make off-leash areas attractive so that dog owners and even non-dog owners will want to go there.
3. There are many potential partnership opportunities for dog off-leash areas throughout the city, for example, with developers.
4. Dog licensing fees should be used to provide education to those who pay the fees. More education is needed for dogs and people/owners.
5. A new, graduated program for well-behaved dogs would create incentive for owners to train dogs.
6. Reducing the price of licenses and explaining the benefits would increase compliance from owners.

KEY THEMES FROM BREAKOUT TABLE DISCUSSIONS

Each table discussed the survey questions. The discussion was facilitated by a member of the People, Parks & Dogs planning team, who reported back on the key themes from their table discussion. These themes are presented below:

Table 1 (Facilitated by Sarah Primeau)

- 1) The location and distribution of off-leash areas within neighbourhoods is key to the proper use of off-leash facilities. Off-leash areas should be accessible on foot.
- 2) Not enough enforcement is happening now to ensure parks are safe for all users. Everyone should feel comfortable in all parks – off-leash areas or not.
- 3) What's the value for dogs of off-leash vs on-leash activity, according to an animal behaviorists? This must be considered when determining if and where to build more off-leash facilities.

- 4) Agility features for dogs would have more value at small off-leash areas, more so than in large parks.
- 5) This strategy should focus on park use and put more consideration into designated times over designated areas. The current process is skewed to separation of parks instead of designation of parks.

Table 2 (Facilitated by Judy Kirk)

- 1) All off-leash areas should have more activities for dogs.
- 2) Education is very important and dog-related educational material should be available in all parks for dog owners and general park users.
- 3) Vancouver school yards should officially be made available as off-leash areas and should have the appropriate number of waste bins for dog waste, which isn't currently the case.
- 4) Enforcement currently seems like it's limited to low-use areas in winter months, for example, instead of high-use parks during the busy summer months. This has to change.
- 5) Fencing should be used for off-leash areas but only where appropriate. If fences will cause an unnatural divide in a park, find another way to delineate the off-leash part.
- 6) Signage is a key challenge and needs to be improved everywhere – all parks, beaches, etc. This is for the safety of all park users, not just dogs and dog owners.

Table 3 (Facilitated by Erin Embley)

- 1) Currently, there are not enough quality off-leash areas in Vancouver. Some parks provide good options for dog owners, while many others don't.
- 2) Conflict amongst dogs and between owners will be reduced only when off-leash areas are clearly marked, and available at the appropriate times of day, based on the individual park.
- 3) People should be able to go to certain areas with their dogs all the time, but never other areas (e.g. playgrounds).
- 4) There aren't enough waste bins in Vancouver parks, and generally, amenities for dogs and dog owners need to be improved in off-leash areas.
- 5) Enforcement is sufficient now but animal control and bylaw officers need to be better trained to deal with dogs, or hire ambassadors to visit parks to educate dog owners.
- 6) Increase licensing amongst dog owners but be clear on what these owners get for paying licensing fees; show the value. Perhaps there's an app or another way for owners to prove their dog is licensed without wearing a tag on their leash. Currently, the cost of licensing is too high.

Table 4 (Facilitated by Dana McDonald)

1. Signage at all parks needs to be better and clearly communicate why some areas are off-leash, while others aren't.
2. Education for dog owners needs to be improved; licensing fees can be used to fund this.
3. Beaches can and should be opened up to off-leash dogs when foot traffic is low (i.e. in the colder months).
4. One idea is to introduce a tiered licensing system that rewards controlled and well-behaved dogs, and allows them (with their owners) more access to off-leash areas and on transit in the city.
5. Create designated off-leash space for dogs along the new Arbutus corridor.
6. The problem of out-of-control dogs needs to be fixed in order to avoid conflict and to appease the dog owner community, which has many more positive interactions than negative.

Table 5 (Facilitated by Katy Amon)

- 1) More access to the ocean and beaches for dogs off-leash – on a seasonal basis – is a must.
- 2) Dog waste is a health issue and an enforcement issue. More needs to be done to reduce dog waste left behind by owners, whether it's self-policing or official enforcement. Further, bylaw officers should focus on bigger issues, not petty ticketing.
- 3) Specific to Kitsilano, there are few off-leash areas, so many unofficial parks have developed. In some cases, this has had a negative impact on playing fields. One option should be to create off-leash facilities along the new Arbutus corridor.
- 4) As the city focuses more on car share programs, more walkable off-leash areas should be available to dog owners.
- 5) Fencing off-leash is good but can have negative effects regarding safety (e.g. people walking away or not paying attention to their dogs once the pets are fenced in). But fences are beneficial to owners whose dogs may run away.

Table 6 (Facilitated by Tate White)

- 1) Quality of off-leash areas is poor. Better design, better signage and better distribution of off-leash areas will help with issues between dogs and owners.
- 2) Enforcement is necessary but more high-quality enforcement is needed across the board. Further education about the applicable bylaws would also help.
- 3) Better signage helps communicate where dogs can be off-leash, reducing confusion and ad-hoc park usage by dog owners. Improved signage would lead to improved etiquette and acceptance of the rules.

- 4) Off-leash areas need more amenities for dogs and have to be situated in the right area. All dogs need off-leash areas to run, and there's no need to separate small and large dogs within these off-leash areas.

Additional Comments – Group Discussion

- Improved access to waste bins in all areas of the city – on boulevards, for example – will help with the issue of dog owners who do not pick up after their dogs.
