

VANCOUVER PARK BOARD

TRACK+FIELD

STRATEGY

EXISTING TRACK AND FIELD FACILITY LOCATIONS

WHAT ARE WE UP TO?

The Park Board is developing a long-range strategy for track and field sports and facilities in Vancouver. In cooperation with the Vancouver School Board, the Park Board wants to support a bright future for athletes, by increasing participation in track and field sports by both competitive athletes and a range of users with diverse abilities and interests. The strategy will:

- Create a vision and policy document to guide and grow track and field sports in Vancouver, including renewing, expanding and maintaining track and field facilities.
- Assess the current state of track and field opportunities in Vancouver, their condition, attributes, level of use and service gaps.
- Propose optimum services levels for competitive training facilities and more casual use facilities.
- ID potential partners, e.g. existing track and field organizations and local user groups.
- Recommend a preferred location for a competitive track and field facility (to IAAF standards) within the city.
- Summarize best practices for designing, building and operating track and field facilities.
- Provide a 10 year joint implementation strategy for the Park Board and VSB track and field facility development and maintenance.

HELP SHAPE THE FUTURE OF TRACK AND FIELD IN VANCOUVER!

The Vancouver Board of Parks and Recreation wants to hear from you. Whether you are an aspiring Olympian or an evening stroller, we want to know what you think!
