

# A CONCLUSION & A BEGINNING

---

When you imagine yourself in the year 2020, what do you see? What do you hope for? What are the opportunities? These are the kinds of questions we asked as we set out to create the *Greenest City 2020 Action Plan*.

Along the way, we talked with as many people as possible from experts who teach and research in universities to business owners and students, industry leaders and concerned citizens. Through public consultation more than 35,000 people contributed in some way to the document you now hold in your hands.

Together we created not just a vision, but also a realistic and measurable path to get there. City staff are working on implementing actions in the plan that fall within the City's jurisdiction. As citizens, we all play a role in ensuring the 10 goals are achieved.

Indeed, the *Greenest City 2020 Action Plan* has a role for everyone in Vancouver. Whether you're involved in the local business community, active in your neighbourhood, or interested in greening your own home, your efforts are essential to our shared success. If you're not already involved, we hope you will join us.

## ACKNOWLEDGEMENTS

The *Greenest City 2020 Action Plan* is the culmination of countless hours of work, as well as invaluable expertise, leadership and creativity offered by hundreds of organizations and thousands of individuals.

It is with great appreciation that we recognize all who are playing a role in building a bright green future for our city and our planet.
