

the benefits

of improving your home's efficiency

You will:

- ✓ save money on energy costs
- ✓ increase the resale value of your home*
- ✓ provide more comfort
- ✓ create a healthier home
- ✓ reduce greenhouse gas emissions
- ✓ help the City of Vancouver become the greenest city in the world

*Research findings indicate the average home resale value increases \$20 for every \$1 decrease in annual home energy costs.

Remember you can do a lot in

One Day is a City of Vancouver program encouraging residents to make Vancouver the cleanest, greenest, healthiest city in the world by taking small steps to reduce energy use at home and on the move.

Save-a-tree. 100% post consumer recycled.

Thinking of renovating?

Find out how you can earn

up to **\$4,515**
in provincial rebates

for home energy improvements.

the opportunity

The City of Vancouver is encouraging all BC residents to take advantage of the significant rebates offered by the provincial LiveSmart BC program by making energy upgrades to their detached or semi-detached home.

home energy improvement	maximum money back
heat pump, furnace	\$1,420
wall, basement insulation	\$800
heat recovery ventilator	\$500
attic insulation	\$420
air tightness, draft proofing	\$250
solar hot water*	\$125
windows, doors, skylights (each)	\$30
total rebate**	\$4,515

* additional \$2,000 available through SolarBC
 ** assumes installation of 10 qualifying windows and receipt of \$700 LiveSmart Gold Bonus

Incentive details at onedayathome.ca

the steps

Have a certified energy advisor assess your home

Book your \$175 pre-renovation assessment:

AmeriSpec of Canada	866.284.6010
Building Insight Technologies Inc	877.732.9888
City Green	604.255.5734
Energy Wise Solutions	604.777.7741
HomeTech Energy Solutions Inc	778.839.4545
Mr Home Inspector Ltd	604.837.3603
Sage Energy Solutions Inc	604.495.6757
Ridge Energy Consultant	604.678.5746
The EnerGuy	877.636.3748

Your energy advisor will provide:

- a walk through **assessment** of your home
- a **customized report** showing your home's EnerGuide rating, recommended improvements and potential energy savings

Make home energy improvements

Decide which energy upgrades are right for your home and choose how you'll do the work.

Arrange an assessment to verify the improvements

You have up to March 31, 2011 to schedule a post-renovation assessment and qualify for rebates.

the rebates

Receive your LiveSmart BC rebate

After you've completed these three steps, your energy advisor will:

- update your home's EnerGuide rating and provide you with an updated EnerGuide label
- complete and submit the paperwork for the federal and utility rebates on your behalf

You will receive **your cheque** for the LiveSmart BC rebates within 90 days.

other offers

Visit onedayathome.ca for information about other programs available to help you with your energy efficiency upgrades:

- financial institutions - low interest loans
- local utilities - coupons and incentives
- SolarBC.ca - \$2,000 solar hot water incentive
- PST exemptions
