

EYE WATCH

VANCOUVER POLICE DEPARTMENT

EYEWATCH

VANCOUVER POLICE DEPARTMENT

vpd.ca

WHY WE WATCH:

- We are all safer when more eyes are spotting and reporting suspicious activities.
- Your eyes have the advantage because you work in all areas of the city and at times when there are fewer people to witness suspicious activities, and you know the neighborhoods.

WHAT WE WATCH AND REPORT:

- emergency situations, such as assaults or crimes in progress
- suspicious people or circumstances, including property crime
- traffic or dangerous driving situations
- potential terrorist activities

WHAT WE DON'T DO:

- receive a fee for information
- detain or arrest anyone
- stop crime

EMERGENCY SITUATIONS – CALL 9-1-1- WHEN:

You need police, fire or an ambulance when an immediate response is required, such as:

- if life or property are in danger or if a crime is in progress
- a serious crime that has just happened
- a suspect is still at the scene

Before you call 9-1-1, it is very important that you are in a position of safety. Pull over & make the call or call dispatch to relay your information.

Make some notes and stay on scene if possible to continue relaying information or to talk to the police.

Do not get involved in what's going on, but be the best witness you can be by observing and reporting.
