Subject: Cost Estimates for several premises in Vancouver

This memo was prepared at the request of the VPD Problem Premises Coordinator and presents cost estimates for the calls for service to several locations in Vancouver.

Background

On September 29, 2008, the VPD Problem Premises Coordinator (Constable Jodyne Keller) requested the cost estimate for the calls to the following seven locations for the stated time periods¹:

- 307 W Hastings St: January 1, 1997 to May 12, 2009
- S. W Hastings St: June 1, 1994 to November 9, 1998
- S. 15 Water St: January 1, 1995 to December 31, 1997
- S. 15 Water St: April 24, 1997 to April 30, 1998
- S. Commercial St: January 1, 2008 to October 15, 2008
- S. 15 W Cordova St: January 1, 1998 to December 31, 1998
- S. W Hastings St: October 1, 2007 to August 11

Information on calls for service prior to December 2002 was obtained from Web CAD and information on calls for service after this period was obtained from Altaris CAD and Police CAD. The following is a short summary of the data extractions and manipulations used in this analysis:

- The total amount of time spent by a unit on a call is the difference between the time at which the unit was back in service and the time at which the unit was initially dispatched to the call.
- Calls that were received yet did not involve an officer dispatch were included in the total calls for the location but not the cost estimates
- The total cost is calculated based on the 2008 wage rate paid to a First Class Constable including benefits².

¹ This report was updated on August 12, 2009 to reflect the most recent calls for service.

² Benefits are added to the wage rate by adding 23.9% of the wage rate to the actual wage rate.
