Riot

270 incidents so far

Each incident can contain 1 to 300
suspects

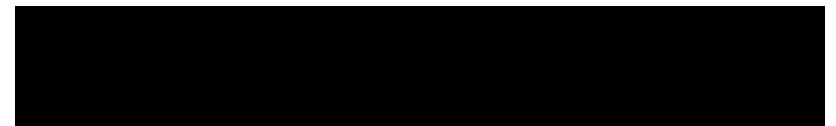

Integrated Riot Investigation Team

We will need to prove and source

- that there was a riot
- when and where was it
- how do we know who are suspects
- when and where were the suspects
- how did they participate
 - is that all they did
- all other offences

Integrated Riot Investigation Team

We can't assume anything

LEVA

LEVA

- LEVA lab will process 1600 hours of video from Sept 25th to Oct 10th
- Conventional methods would have taken IRIT nearly two years with existing resources

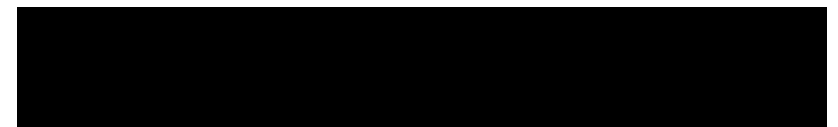

Law Enforcement & Emergency
Services Video Association
LEVA

LEVA

- Once video is processed by LEVA, additional offences involving the same suspect can be identified
- This will assist in proving the essential elements of rioting
- Video evidence will provide a full picture of all alleged offences committed by suspected rioters.

LEVA

- Securing LEVA video evidence for turn-ins will be a priority so charges can be forwarded to Crown
- IRIT investigators are anxiously awaiting an opportunity to view the video once processed at the lab before completing the recommended charges to Crown

Integrated Riot Investigation Team

Goal

Goal

To provide Crown Prosecutors with the best case and disclosure packages which maximizes guilty pleas and successful prosecutions while minimizing mega-trials
