Hello,

The Apartment located in xxxx xxx xxxx is still available. It has 2 bedrooms and 1 bathroom. The company I work for has won the auction for a project, in construction, for a building that will rise up in London, United Kingdom. I am a civil engineer, so my accommodation period in England will be about 4 years. I don't want to make a business or a profit with the apartment. Just want to find a good and trust person to take good care of the place because I really love it. I`m the owner of the apt and it's like in the pics. The apartment is unfurnished but if you want you can use my furniture from the storage unit. The rent for 1 month is 885CAD\$ (for the whole apartment) including all utilities (water, electricity, Internet, cable, 2 parking spots indoor, air conditioning, dishwasher, garbage disposal, microwave, refrigerator, stove, laundry in-suite, washer and dryer). Everything in this apt is functional because is recently renovated. If you need to do some reparations (the worst case that could happen) in the apartment, I will cover the reparations cost, or I will deduct those from monthly payment. You can move in the apt in the same day when you receive the keys. The only problem is that I`m the only person who has the keys because it is a private property but I hope that we will find a compromise. If you have any other questions please contact me back by e-mail.

Thank you for your interest and i`m waiting for your answer
