Mitsubishi Motors Mizushima Plant
1-1 Kaigan-dori, Mizushima, Kurashiki, Okayama-pref.

Dear Mitsubishi i-MiEV Factory Workers,

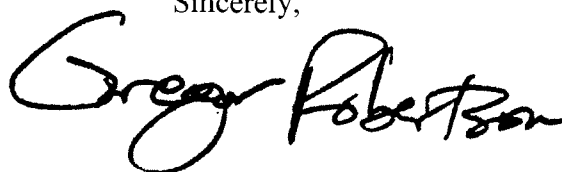

Thank-you for building this production version of the Mitsubishi Innovative Electric Vehicle (i-MiEV) and delivering it to the streets of Vancouver for testing and demonstration for the first time in North America.

As I have said before in our community, the City of Vancouver sees electric vehicles as an important way to dramatically reduce greenhouse gas emissions along with improvements to transit, biking and walking. We have moved quickly to bring new vehicle charging infrastructure to Vancouver and this infrastructure will need electric vehicles. This i-MiEV clean vehicle is symbolic of our move to zero-emission mobility.

I understand that the letter 'I' in the car name stands for 'innovative'. I can certainly appreciate the innovation and years of dedication required by all of you to build a car that creates zero greenhouse gas emissions.

Thank you again for your efforts and I look forward to seeing many more i-MiEVs on streets around the world!

Sincerely,

Gregor Robertson
Mayor
