#### **c) Transportation**

##### **i. Uber**

MOVED by Laura Mackenrot  
SECONDED by Tasia Alexis

WHEREAS

1. Persons with disabilities have twice the rate of poverty as other citizens;
2. Many persons with disabilities are not able to operate a private vehicle due to the nature of their disability or due to their insufficient income;
3. Persons with disabilities are therefore much less likely to own or operate private vehicles;

4. Many persons with disabilities must therefore rely on publicly available transit options;
5. Transportation is an important part of a person's ability to function equally in a society;
6. Section 8 of the BC Human Rights Code specifies that a service provider must not discriminate against persons with disabilities in the provision of a service or deny them service without a bona fide and reasonable justification; and
7. The City of Vancouver is committed to a goal of "equal transit outcomes for people of all incomes, ages and abilities".

THEREFORE BE IT RESOLVED THAT the Persons with Disabilities Advisory Committee asks that the City of Vancouver, the Province, and the Passenger Transportation Board ensure that all publicly-licensed transportation systems are designed, organized and monitored to ensure that persons with disabilities have mobility outcomes that are equal to other citizens using these services.

CARRIED UNANIMOUSLY

MOVED by Laura Mackenrot  
SECONDED by Jacques Courteau

WHEREAS

1. Taxi and other vehicle for hire systems are an important part of transportation for persons with disabilities, who are especially reliant on public transportation systems;
2. Ride sourcing systems, such as Uber or equivalent services, are currently being considered in Vancouver and British Columbia, and public input has been requested;
3. It is important that these systems provide equal transportation options to persons with disabilities;
4. Drivers who transport passengers with disabilities without appropriate training can pose a significant risk to the safety of passengers with disabilities;

5. Persons with disabilities are much less likely to have credit cards and smartphones, and many must pay in cash or TaxiSavers to use taxis and other vehicles for hire;
6. Adequate insurance is important to ensure that any person who is injured can receive appropriate coverage for medical, rehabilitation and support costs;
7. Independent inspection of vehicles is important to ensure the safety of passengers with disabilities, who are vulnerable to injury and who already face significant challenges; and
8. An independent method of overseeing proper taxi operation is crucial to ensure that a transportation system is actually operating safely and fairly without discrimination.

THEREFORE BE IT RESOLVED THAT the Persons with Disabilities Advisory Committee asks that the City of Vancouver, the Province, and the Passenger Transportation Board ensure that existing taxi services and any ride sourcing systems being considered, such as Uber or equivalent services, provide the following for persons with disabilities:

- Sufficient numbers of wheelchair- accessible vehicles and appropriate booking processes to ensure equal response and transit times for passengers with disabilities;
- Appropriate booking and payment options to ensure that persons with disabilities are equally able to access transportation services, this specifically includes at least the option of a telephone booking/dispatch system;
- Appropriate driver training, vehicle inspections, insurance and oversight to ensure transportation is safe for persons with disabilities; and
- Coverage by the Taxi Bill of Rights, including right to pay with cash and/or Taxi Savers;

BE IT FURTHER RESOLVED THAT the Persons with Disabilities Advisory Committee expresses its strong concern that the Province and the City of Vancouver should not approve any changes to the taxi industry, including sourced ride systems such as Uber or equivalent services, that would undermine accessibility, safety, inclusion and affordability for persons with disabilities;

BE IT FURTHER RESOVLED THAT the Persons with Disabilities Advisory Committee urges the Province and the City of Vancouver to require that all vehicle for hire systems, including sourced ride systems such as Uber or equivalent services, should have a sufficient amount of accessible vehicles, booking processes that can be used without expensive equipment or computer use, adequate insurance, adequate oversight, proper driver training for transporting persons with disabilities, and be covered by the Taxi Bill of Rights, including the acceptance of cash and TaxiSavers as payment; and

BE IT FURTHER RESOLVED THAT the Persons with Disabilities Advisory Committee authorize the Co-Chairs and Vice-Chair to prepare a letter to Mayor and Council, the Passenger Transportation Board, Premier Christy Clark, and Todd Stone, Minister of Transportation, for approval by the Committee via email, expressing these concerns.

CARRIED UNANIMOUSLY

ii. Provincial Bus Pass

MOVED by Laura Mackenrot

SECONDED by Cathy Browne

WHEREAS

1. Currently, an estimated 100,000 people in British Columbia receive up to \$906.42 per month on the Persons with Disabilities (PWD) Provincial Disability Assistance program. Approximately 50,000 of those receiving Disability Assistance payments also receive a subsidized annual bus pass;
2. The Province has recently announced the cancellation of the subsidized annual bus pass and has also announced a monthly increase of \$77 in the persons with disabilities assistance payments beginning September 1, 2016; and
3. Persons who previously received the annual subsidized bus pass and who want to continue having a bus pass will pay \$52 per month for a monthly bus pass – almost eliminating any increase to their already meager monthly income.

THEREFORE BE IT RESOLVED THAT the Persons with Disabilities Advisory Committee expresses its strong opposition to the elimination of subsidized annual bus passes currently provided under British Columbia's Disability Assistance program.

CARRIED UNANIMOUSLY
