

2021-2022 Work Plan

Transportation Advisory Committee

Mandate

Policy advice

The Committee:

- Provides feedback on transportation planning and projects such as Broadway Corridor Transportation Planning, Citywide Plan, and more detailed projects like Gastown Complete Streets and the Granville Bridge Connector;
- Considers any matters which may be referred to the Advisory Committee by Council or staff;
- May take positions on policy initiatives from other levels of government within the mandate of the Advisory Committee; and
- Advises Council and staff on Transportation 2040 and Active Transportation Master Plan as they are developed, implemented and updated.

Collaboration

The Committee:

- Works co-operatively with other agencies whose activities affect constituent communities, including initiating and developing relevant projects; and
- Acts as a resource for staff coordinating public involvement processes and civic events.

Awareness and outreach

The Committee:

- Exchanges information with constituent communities and the general public about relevant programs and issues of interest; and
- Engages in outreach to disseminate information and encourage participation from constituent communities.

2021-2022 Objectives

Identify 3 – 5 objectives for the committee below, aligning with the committee's mandate / terms of reference. Explain the objective and how it relates to the mandate of the committee. Remove unused text headings.

Objective 1: Resolving gaps in the bike network

As per our mandate to provide feedback on transportation projects, by identifying and prioritizing gaps in our bike network, TRAC is looking at the City of Vancouver’s bike lane network as an entire transportation project and recommending the best ways to improve upon the network, ultimately encouraging more people to cycle around the city.

Objective 2: Bus Improvements

As per our mandate to provide feedback on transportation projects, we will identify and prioritize bus improvements that are important to our community and to the overall functioning of the bus network in Vancouver.

Objective 3: Climate Emergency Plan

An integral part of the Climate Emergency Plan is how the plan deals with transportation. As per our mandate to provide feedback on transportation projects, we will be reviewing the Climate Emergency Plan through that lens and providing feedback on sections of the plan, as well as identifying future opportunities to advance the transportation goals in the Climate Emergency Plan.

Action Plan

Timeline	Action Items	Committee Resources	Expected Outcomes	Partners/Stakeholders
Identify target start and completion dates.	Identify specific action items integral to accomplish the stated objective.	Identify working groups, subcommittees, and/or committee member(s) responsible to lead the objective, as appropriate.	Outline expected achievements and deliverables from each action item. Ideally, these are measurable indicators of success which can be reported through annual reports.	Identify opportunities or needs to collaborate with groups / organizations within or outside of the City (e.g., City staff).
