**Subject:** COVID-19 Public Dashboard Go Live

---

Dear Mayor and Council,

I am writing to let you know that today the City has launched a public version of the COVID-19 dashboard (you earlier saw a preview of the more detailed internal COVID dashboard) available here:

<https://covid19dashboard.vancouver.ca/> (please note the dashboard is currently best viewed through iOS and Google Chrome - some older versions of Internet Explorer have loading issues). A news release will be going out later today.

The dashboard provides a snapshot of the City's challenges in dealing with the pandemic, as well as our key response activities and our progress. The data will be updated daily, Monday to Friday at 3 pm, and we expect this dashboard to be live for the duration of the EOC activation.

This is version one and we will be including additional metrics and functionality as well as technical improvements (loading time and older browser support) in the weeks to come.

If you have any suggested additions, please let me know.

Best,  
Sadhu
