Subject: Council proceedings - video display

Greetings Mayor and Council,

Earlier this month, we received a request from Council to display the video feeds from webex in the Chamber and on the livestream broadcast. As we understand, the concept was that your video images would be broadcast at times when there were no presentation materials displayed.

Upon review by Technology Services, we recommend deferring any further changes to our AV environment until we have resolved the ongoing audio quality issues. Further changes to the technology environment increase the difficulty of isolating the root cause of those issues and, as such, we recommend limiting any changes to critical break/fix tasks.

Thanks for your patience. If you have any further questions at this time, please let me know.

Best,
Paul
