---

Mayor and Council

In anticipation of the Public Hearing reconvening on Thursday, July 14, 2022 relating to the CD-1 Rezoning application at 2086-2098 West 7th Avenue, and 2091 West 8th Avenue, I am providing this update as it relates to the timing and protocol for responses to questions raised by Council during the Public Hearing.

As with other rezoning cases with a high level of community interest and Council questions, staff respond periodically both verbally and in writing during Council's consideration of the application. The benefit of responding prior to the close of the public hearing is that Staff have an opportunity to clarify information and concerns raised based by speakers. It also gives staff an opportunity to address questions periodically and avoid trying to fit all the responses in at once after close of the speakers list. Staff will be prepared to provide verbal responses to questions at the start of Thursday's hearing, and should there be a need for further written responses, we will prepare a memo to Council for public information prior to debate and decision.

If you have any questions on this protocol, please don't hesitate to contact me. If you have questions relating to the application, it would be best to raise those on the floor of Council during the Public Hearing.

Thank you.

Paul
