Subject: Robson Street 1100 Blk

Hello Mayor and council

Starting Wednesday July 15, 2020, we will be removing 24-trees on Robson Street between Thurlow St and Bute St (the 1100Blk)..

These trees are all dead or almost dead, primarily as a result of ornamental lighting that has girdled (choked) the trees.

We are working with the Robson BIA and CoV Engineering to ensure that lighting efforts are done in a more sustainable manner moving forward.

This work will continue until the afternoon of Thursday July 15th 2020.

After the time noted, we will be grinding the stumps in preparation for this falls planting season with a suitable species to be installed at that time.

Robson will have the crews working from 8am to 3:30pm both days and traffic will be disrupted in a minor way throughout the process, all efforts will be made to not be too impactful to the business in the surrounding area.

Thanks

Sadhu
