Subject: Memo: 2019 Annual Report on Development Cost Levies

Attachments: 2019 Annual Report on DCLs - Memo to Council - 2020-07-24 (3).pdf

Dear Mayor and Council,

The attached memo to Council is the annual report on DCLs. This report is submitted to Council for information in accordance with Section 523D (18.1) of the Vancouver Charter which provides that each year the Director of Finance must submit a report that includes:

- the amount of DCLs received;
- the expenditures from the DCL reserve funds;
- the balance of DCLs at the start and at the end of the applicable year; and
- any waivers and reductions granted by Council.

Development Cost Levies (DCLs) are one of the City's primary 'financing growth' tools within its long-term financial and capital planning framework. This memo, in addition to fulfilling the requirements of the Vancouver Charter, is part of a broader initiative to enhance the accountability and transparency for Council, developers and residents with regard to strategic investment of development contributions in public amenities and infrastructure to address population and employment growth.

Summary:

2019 DCL Receipts

In 2019, \$96 million was collected from all DCL districts and \$8 million of interest was accrued on the DCL balance, totaling \$104 million (2018 - \$98 million). Of this amount, 98% came from the two City-wide DCL Districts, and 2% came from the Layered DCL Districts and interest accruing on DCLs obtained in the Area-specific DCL Districts.

2019 DCL Exemptions, Waivers & Reductions

In 2019, DCL exemptions/waivers/reductions totaled \$8.7 million (8% of total DCL receipts), almost all of which was to support secured market rental and social housing. DCL exemptions of \$3.2 million were approved for 273 units of social housing and DCL waivers/reductions of \$5.5 million were granted for 414 units of secured market rental housing.

2019 DCL Allocation for Expenditure

Allocation of DCLs to eligible public amenities and infrastructure requires Council approval as part of the City's capital planning and budgeting processes. In 2019, a total of \$105 million was allocated by Council, of which \$25 million was allocated to social and supportive housing, \$46 million to parks, and \$34 million to engineering infrastructure.

Unallocated DCL Balance

At the start of 2019, the balance of unallocated DCLs was \$246 million. Including the DCL receipts of \$104 million and DCL allocations of \$105 million in 2019, the ending balance for 2019 was \$245 million. It is anticipated that the unallocated balance will decrease by the end of the 2019-2022 Capital Plan.

The report also provides 10 year trends and further details on the collection and usage of DCL's.

Should you have any questions please feel free to contact me or Patrice Impey at (604) 873-7610 or patrice.impey@vancouver.ca.

Best,

Sadhu

Supply Chain Management

SUBJECT: 2019 Annual Report on Development Cost Levies

Dear Mayor and Council,

The following report is submitted to Council for information in accordance with Section 523D (18.1) of the Vancouver Charter, which provides that each year the Director of Finance must submit a report that includes:

- the amount of DCLs received;
- the expenditures from the DCL reserve funds;
- the balance of DCLs at the start and at the end of the applicable year; and
- any waivers and reductions granted by Council.

SUMMARY

Development Cost Levies (DCLs) are one of the City's primary 'financing growth' tools within its long-term financial and capital planning framework. This memo, in addition to fulfilling the requirements of the Vancouver Charter, is part of a broader initiative to enhance the accountability and transparency for Council, developers and residents with regard to strategic investment of development contributions in public amenities and infrastructure to address population and employment growth.

DCLs help advance Council's key public policy objectives in the areas of affordable/replacement housing, childcare, parks, transportation and utilities (water, sewer and drainage) infrastructure. Since the creation of the first Development Cost Levy (DCL) district, close to \$750 million of DCLs have been invested, leading to the creation of notable amenities and infrastructure in recent years such as:

- affordable housing, including 90 units in West Fraser Lands (2910 East Kent Ave.) under the Community Land Trust program, 46 units in the Cambie Corridor (Oakridge Lutheran Church on 41st Ave.), and 31 units in Killarney in partnership with the YWCA as part of the renewal of Firehall #5 (Kerr St. and 54th Ave.);
- childcare facilities, including the recently completed childcare at Nelson Elementary School Childcare (69 new spaces) in Grandview-Woodland, and the soon-to-be completed childcare at Fleming Elementary School (69 new spaces) in Victoria-Fraserview;
- new parks and enhancements to existing parks, including the new Neighbourhood Park South in East Fraser Lands (0.13 hectares), and upgrades at China Creek North Park in Mount Pleasant and Memorial South Park in Sunset neighbourhood;
- continuing growth and enhancement of Vancouver's bikeway-greenway network, including Burrard Bridge improvements (2017), False Creek South seawall improvements (2018), and Cambie Bridge improvements (2018).

2019 was a strong year for real estate development in Vancouver. Approved permits for new construction totaled 9.2 million sq. ft. across all DCL districts (2018 - 10.3 million sq. ft.) resulting in total DCL receipts of \$104 million (2018 - \$98 million).

As a result of the COVID-19 pandemic, it is anticipated that the pace of development is going to slow down in the near future. Staff will continue to monitor the situation that will inform the Capital Plan recalibration work that is underway.

The DCL system is gradually being modernized and streamlined to address the City's growth needs more effectively at both the city-wide level and community level. Recent examples include:

- Between 2013 and 2017, Council approved incorporating all seven of the Area-Specific DCL districts and most excluded policy areas into the City-wide DCL district helping the City to deliver priority DCL-eligible projects across the city more expediently and equitably.
- In 2017, following a comprehensive review of the City-wide DCL system, Council
 approved amendments to the DCL bylaw to update the rates and allocation of DCLs.
- In 2018, Council approved a new City-wide Utilities Development Cost Levy (Utilities DCL) to address the need for upgraded water, sewer, and drainage infrastructure to support growth.

The City-wide DCL and City-wide Utilities DCL will be reviewed and recalibrated as necessary in tandem with the City's 10-year Capital Strategic Outlook update. The results from this process will feed into the 2023-2026 Capital Plan.

BACKGROUND

Population growth and the need to enable and support local economic development results in increased demands for public amenities and infrastructure such as affordable housing, childcare, community facilities, parks, transportation, water, sewer and drainage systems. To balance community livability and affordability, a basic principle embedded in the City's Financing Growth Policy is that new development should contribute a share of its growth costs primarily through DCLs, voluntary CACs (for projects involving rezoning) and Density Bonus Zoning contributions. Development contributions are a significant source of funding for growth-related infrastructure and amenities; otherwise, the City will have to rely entirely on property taxes and other City funding to support growth.

DCLs are applied on a per-square-foot basis and payable at Building Permit issuance. DCL rates vary by type of development and by DCL district. DCLs collected are set aside in designated DCL accounts. DCLs are allocated for investments through the City's capital planning process, via the 10-year Capital Strategy, 4-year Capital Plan and annual Capital Budget processes.

Pursuant to the *Vancouver Charter* and applicable DCL By-laws, DCLs may be applied towards the following growth-related capital projects:

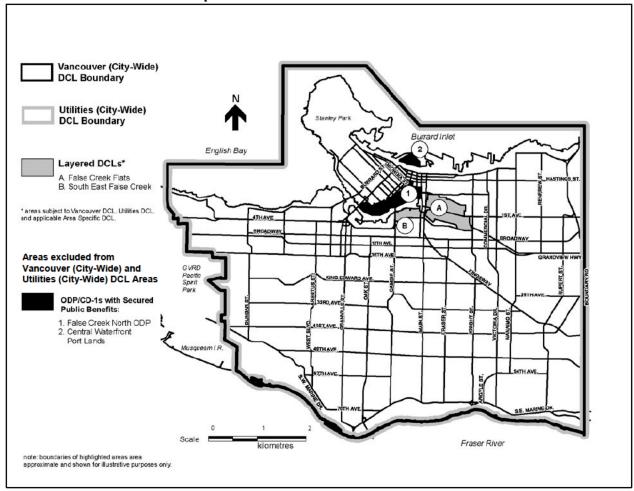

- Affordable/Replacement Housing: replacing all types of housing that Council
 determines to be necessary to house persons displaced as a result of new development
 and unable to afford comparable accommodation, as well as acquiring land for new
 housing.
- **Childcare**: delivering facilities in premises leased or owned, including acquisition and construction.
- Parks: upgrading existing parks and acquiring/developing new park land.
- Engineering Infrastructure:
 - Transportation: constructing, replacing, altering or expanding facilities for transportation (including active transportation and safety improvements).
 - Utilities: constructing, replacing, altering or expanding facilities for water, sewer and drainage.

There are currently two types of DCL charges encompassing four DCL districts (see Map 1). Each DCL district has its own specific public benefits strategy and DCL rates. There are:

- City-wide DCL Districts: two districts have been created and include all land in Vancouver except the two policy areas noted below (Central Waterfront Port Lands and False Creek North):
 - The first City-wide district includes affordable/replacement housing, childcare, parks and transportation; created in 2001 and updated in 2017.
 - The second City-wide district includes utilities (water, sewer and drainage infrastructure);
 created in 2018 (referred to as the "Utilities DCL").
- Layered DCL Districts: developments in these districts (shaded in grey on Map 1) are subject to both the City-wide DCL and the Utilities DCL, plus a Layered DCL for each of:

- False Creek Flats; created in 2001.
- Southeast False Creek districts; created in 2007.

There are two **policy areas**, the Central Waterfront Port Lands and False Creek North (shaded in black on Map 1), that are currently exempt from DCLs because alternative public benefits strategies and funding mechanisms were established prior to the creation of the City-wide DCL District.

Map 1 — DCL Districts as of Dec. 2019

Appendix A contains additional information on the DCL system.

ANALYSIS

2019 DCL Receipts

In 2019, \$96 million was collected from all DCL districts and \$8 million of interest was accrued on the DCL balance, totaling \$104 million (2018 - \$98 million). Of this amount, 98% came from the two City-wide DCL Districts, and 2% came from the Layered DCL Districts and interest accruing on DCLs obtained in the Area-specific DCL Districts.

Figure 1 shows the historical development activities and DCL receipts (collection and interest) from all districts over the last 10 years (2010-2019), representing an average of 8.5 million sq. ft.

of development per year (approximately 80% residential and 20% non-residential), resulting in an average of \$75 million of DCL receipts per year. Over the lifetime of the City's DCL program thus far (1993-2019), a total of \$987 million has been collected (including interest accrued on the DCL balance).

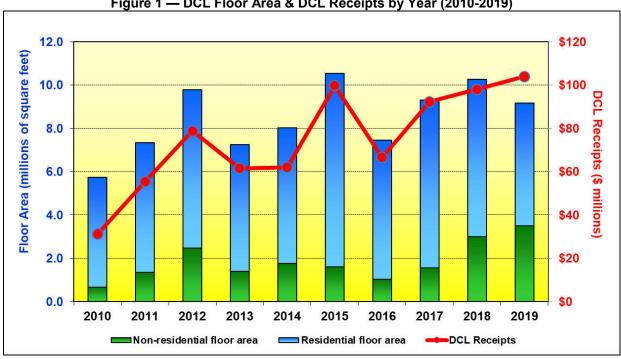

Figure 1 — DCL Floor Area & DCL Receipts by Year (2010-2019)

The DCL rate per sq. ft. of development is adjusted annually as necessary by Council to reflect land and construction cost inflation. The amount of DCLs collected per sq. ft. varies depending on the use and the location of where development happens as noted above. Appendices B, C and D contain further details on DCL receipts (by year, DCL district and spending category).

2019 DCL Exemptions, Waivers & Reductions

Section 523D (10) of the Vancouver Charter provides for exemptions and allows waiver/ reduction of DCLs in a limited number of circumstances. Two key areas are the delivery of secured market rental and social housing, and the preservation of heritage buildings. Because exemptions/waivers/reductions are recognized at the building permit stage when DCLs are payable, this memo includes only projects that have reached the building permit stage in 2019.

In 2019, DCL exemptions/waivers/reductions totaled \$8.7 million (8% of total DCL receipts), almost all of which was to support secured market rental and social housing. DCL exemptions of \$3.2 million were approved for 273 units of social housing and DCL waivers/reductions of \$5.5 million were granted for 414 units of secured market rental housing.

Figure 2 shows DCL exemptions/waivers/reductions by category for the last 10 years (2010-2019). DCL exemption/waiver/reduction activity has picked up over the past 5 years, including \$27 million in exemptions to support social housing and \$21 million in waivers/reductions to support secured market rental housing.

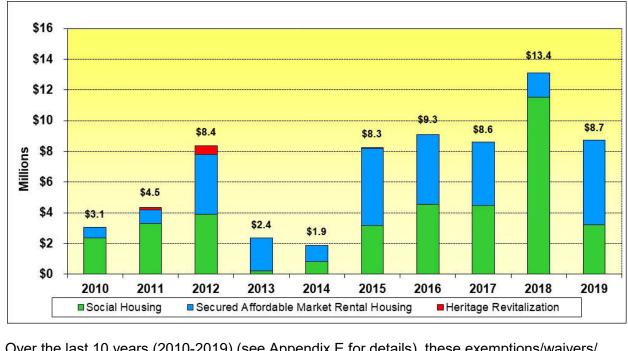

Figure 2 – DCL Exemptions/Waivers/Reductions by Category (2010-2019)

Over the last 10 years (2010-2019) (see Appendix E for details), these exemptions/waivers/ reductions helped create 4,414 units of social housing (\$38 million) and 3,150 units of secured market rental housing (\$29 million), and preserve four heritage buildings (\$0.8 million). (Note: unit counts exclude Secured Market Rental Housing projects that did not qualify for DCL waiver/reduction).

Figure 3 shows DCL receipts versus DCL exemptions/waivers/reductions for the last 10 years (2010-2019). Total DCLs exempted/waived/reduced was \$67 million, or 9% of DCLs collected on average over this 10-year period.

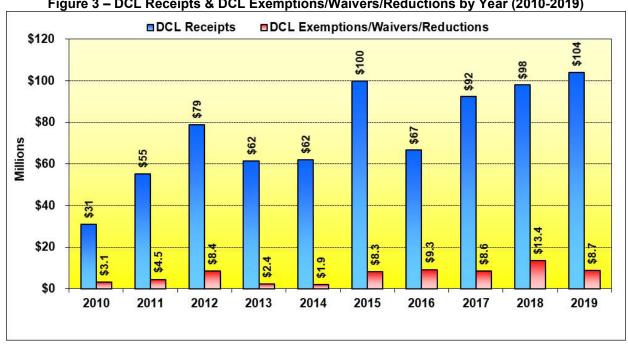

Figure 3 - DCL Receipts & DCL Exemptions/Waivers/Reductions by Year (2010-2019)

Appendix E contains further details on DCL exemptions/waivers/reductions.

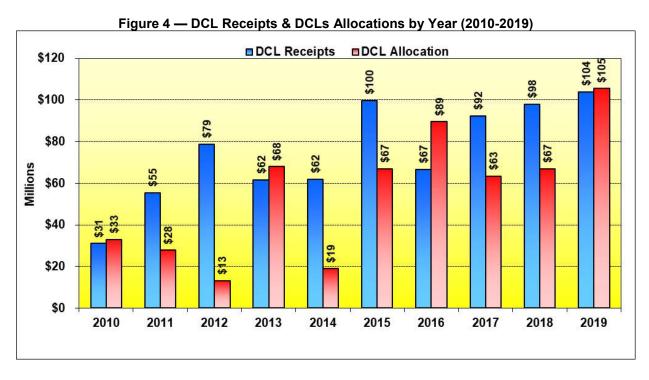

On November 26, 2019, Council approved in principle two changes to DCL waivers related to secured market rental housing:

- Utilities DCL waiver is to be removed for secured market rental housing effective September 30, 2020. Projects with submitted applications will qualify for in-stream rate protection for another year. Details are contained in the <u>Rental Incentive Programs</u> <u>Bulletin</u>, available on the City's website.
- DCL waiver is now offered to Moderate Income Rental Housing Pilot Program (MIRHPP) projects provided they meet the requirements of the DCL by-laws. To qualify for a waiver of City-wide and Area-specific DCLs, projects must provide 100% of the residential floor area secured for rental and at least 20% of the residential floor area that is counted in the calculation of the floor space ratio secured with starting rents applicable to moderate income rental housing.

2019 DCL Allocation for Expenditure

Allocation of DCLs to eligible public amenities and infrastructure requires Council approval as part of the City's capital planning and budgeting processes. For capital planning purposes, DCL allocations are based on available funding at the time, historical DCL receipts and future year projections. This ensures that DCL allocations do not exceed what may reasonably be expected to be collected, and retains a balance of uncommitted DCLs to address emerging priorities as well as cyclical development activities.

Figure 4 shows DCL receipts versus allocation for the last 10 years (2010-2019). Of the \$749 million of DCL receipts generated during that period, Council allocated \$553 million (74%) to fund specific eligible capital projects. DCL allocation varies from year to year due in part to the timing of individual capital projects.

In 2019, a total of \$105 million was allocated by Council, of which \$25 million was allocated to social and supportive housing, \$46 million to parks, and \$34 million to engineering infrastructure.

Appendices C, D and E contain further details on DCL allocations for expenditure (by year, DCL district and spending category). Appendix F contains details on land acquisitions using DCLs as a funding source. Appendix G presents a map of selected capital projects completed since 2009 that used DCL funding.

Unallocated DCL Balance

At the start of 2019, the balance of unallocated DCLs was \$246 million. Including the DCL receipts of \$104 million and DCL allocations of \$105 million in 2019, the ending balance for 2019 was \$245 million. It is anticipated that the unallocated balance will decrease by the end of the 2019-2022 Capital Plan. Appendices C, D and E contain further details on DCL balance (by year, DCL district and spending category).

Please feel free to contact me at (604) 873-7610 or patrice.impey@vancouver.ca should you have any questions.

APPENDIX A ADDITIONAL BACKGROUND ON DEVELOPMENT COST LEVIES

Vancouver Charter

- In 1990, the Province amended the *Vancouver Charter* (<u>Section 523D</u>), giving Council the authority to use DCLs to help fund eligible public amenities needed for growth in the city.
- In 2008, the Province amended the *Vancouver Charter* and *the Local Government Act*, requiring that each municipality in B.C. submit to Council a report on DCLs for the previous year.
- In 2008, the Province amended the *Vancouver Charter* and the *Local Government Act*, allowing municipalities to waive DCLs for eligible 'for-profit affordable rental housing'.
- In 2014, the Province amended the *Vancouver Charter* to extend in-stream DCL rate protection to rezoning and development permit applications.

City By-Laws & Policies

- Between 1993 and 2007, Council approved 11 DCL Districts City-wide DCL, seven Areaspecific DCL and three Layered DCL - and applied varying DCL rates to offset the anticipated growth-related costs.
- In <u>2004</u>, Council adopted the Financing Growth Policy that sets the framework for the collection and allocation of DCLs to help fund eligible public amenities needed for growth.
- In <u>2008</u>, Council approved adjustment of the City-wide DCL rates to reflect land and construction cost inflation and implementation of new rates to be effective in January 2010.
- In <u>2009</u>, Council adopted the annual inflationary adjustment system for the City-wide and Area-specific DCL rates, and further directed staff to adjust these rates annually with the new rates effective on September 30 of each year.
- In 2009, Council approved the Short Term Incentives for Rental Program (STIR) (2009 to 2011) and in 2012, the Secured Market Rental Housing Policy (Rental 100) Program, including waivers of DCLs for eligible affordable rental housing projects. In 2013, Council amended the definition of 'for-profit affordable rental housing' in the DCL by-laws.
- In <u>2013</u>, Council approved replacement of the Oakridge-Langara DCL rates with City-Wide DCL rates effective March 12, 2014, reducing the number of DCL Districts from 11 to 10.
- In <u>2015</u>, Council approved replacement of five Area-Specific DCL rates with City-Wide DCL rates_(Arbutus, Burrard Slopes, Cedar Cottage/Welwyn, Dundas/Wall and Triangle West), effective July 21, 2016, which reduced the number of DCL Districts from 10 to 5.
- In <u>2015</u>, Council approved a review of the City-wide DCL, including growth costs, rates and allocations. Work is well underway and will conclude with a report to Council later in 2017.
- In 2017, Council approved amendments to the DCL bylaw to update the rates and allocation
 of DCLs following a review of the City-wide DCL, to introduce Utilities as a new eligible DCL
 service category with its own allocation, and to replace the Downtown South DCL rates with
 City-wide DCL rates effective September 30, 2017, reducing the number of DCL Districts
 from 5 to 4.
- In 2018, Council adopted a new City-wide Utilities DCL to help address the need for upgraded water, sewer and drainage infrastructure as the City grows. This bylaw came into effect on September 30, 2018. Council also approved the replacement of the Grandview Boundary layered area-specific DCL rates with City-Wide DCL rates effective in July 2018.
 - In November <u>2019</u>, Council approved two changes related to DCL waivers related to secured market rental housing:

- the removal of the Utilities DCL waiver for secured market rental housing effective September 30, 2020. Projects with submitted applications will be provided in-stream rate protection for another year. Visit the Rental Incentive Programs Bulletin for more details
- DCL waiver offered to Moderate Income Rental Housing Pilot Program (MIRHPP) projects provided they meet the requirements of the DCL by-laws. The MIRHPP waiver applies to projects where 100% of the residential floor area is secured rental and at least 20% of the residential floor area that is counted in the calculation of the floor space ratio must be secured at the starting rents applicable to moderate income rental housing to qualify for a waiver of City-wide and Area-specific Development Cost Levies.

DCL Rates

The DCL by-laws approved by Council establish the boundaries, set the rates, and describe how to calculate and pay the levy. DCL rates are determined based on a number of factors including development forecasts, zoned capacity, growth-related amenity requirements and cost estimates for each DCL district. Generally, DCLs are not expected to cover all of the costs and the City is expected to provide a "municipal assist" portion to make up the difference. This portion could be funded from traditional capital funding sources such as property tax, utility fees and other City funding, or contributions from senior governments or other funding partners.

DCLs are assessed based on the floor area of the development and rates vary by type of development - single or multi-family residential, commercial, and industrial - and by DCL district. The levy will not be more than 10% of the value of the development as determined by the Building By-law. Payment is due at Building Permit issuance and the levy is calculated at the rate in effect on the date of issuance.

In 2009, Council adopted the annual inflationary DCL rate adjustment system for all future rate adjustments to the City-wide, Area Specific and Layered DCL districts, with the new rates to be adopted by Council no later than July and effective on September 30 of each year. When a DCL By-law with higher rates is introduced, a number of rezoning, development permit and building permit applications may be at various stages of the approval process. An application may qualify as an in-stream application and be exempt from DCL rate increases for a period of 12 months from the date of DCL by-law rate amendment, provided that:

- the applicant has submitted an application in a form satisfactory to the City prior to the adoption of annual DCL By-law rate adjustments; and
- the applicant has paid the applicable application fee to the City.

If a related building permit application is not issued within the 12-month period, the rate protection expires and new DCL rates will apply.

DCL Allocations for Capital Expenditure

Allocation of DCLs to eligible capital projects requires Council approval. Pursuant to the Financing Growth Policy, allocations should not exceed the amount of funding available on hand and that, without restricting the ability to achieve needed amenities in a timely fashion, funding should be allocated based on the long-term distribution percentages to the spending categories as set out in the applicable DCL by-laws. This approach ensures that the needed amenities are

provided over the public benefits period (typically 25-30 years) but that, except in unusual circumstances, the provision of amenities matches the flow of DCL receipts.

City-wide DCLs can be applied towards growth-related capital projects that are part of city-wide amenity system used by residents across the city. Levies collected within each DCL district must be spent within the area boundary, except housing projects which can be located city-wide.

APPENDIX B CONSOLIDATED HISTORICAL DCL SUMMARY

YEAR	APPROVED FLOOR AREA ALL DISTRICTS	DCLs COLLECTED ALL DISTRICTS	INTEREST & ADJUSTMENTS ALL DISTRICTS		DCL RECEIPTS ALL DISTRICTS		DCL ALLOCATION ALL DISTRICTS		UNALLOCATED BALANCE ALL DISTRICTS
