The Province is leading the delivery of the Broadway Subway Project and staff are working with the Province and their contractor to facilitate construction while minimizing the impacts to businesses and residents. The purpose of this memo is to provide Council with an overview of how best to access up-to-date information about the Broadway Subway Project (BSP) construction activities.

Broadway Subway Project (Province's) website

The Province's website has the most updated information regarding general construction activities, including construction notices to residents and businesses. The following links would be the quickest way to access the most relevant to information you may be asked about or want to look for:

- Construction notices by station:
<https://www.broadwaysubway.ca/construction/current-work/>

- Traffic advisories: <https://www.broadwaysubway.ca/news-information/traffic-advisories/>

Council or community members can also sign up for project email updates through <https://www.broadwaysubway.ca/news-information/newsletters/>.

City of Vancouver website

The City's BSP website provides an overview of the City's role in the BSP. It also has drop-down menus directing the public to more information, depending on the type of questions they may have as a building or business owner, commuter, or resident. This information can be found at: www.vancouver.ca/broadway-subway.

The City also launched a business awareness campaign called "I love Broadway" to encourage people to support businesses throughout construction. As part of that campaign, the City created a website that is accessible by link only (and is not publicly available) to provide resources to businesses on Broadway specifically. If you would like to learn more about the campaign, please visit: www.vancouver.ca/broadway-businesses.

If Council would like further information not found on the above web pages or have any questions about this information, please contact me directly.
