Dear Mayor and Council,

At the Standing Committee on Policy and Strategic Priorities held on October 23 and 24, 2019, Council moved a motion in place of staff's recommendations that included the following language starting on page 3 of the minutes:

C. THAT staff identify options for early release of high profile and lengthy reports.

In following the direction of council, the Climate Emergency Action Plan was identified as a significant large report therefore the report was circulated to and posted on our website to provide council and public time to review. Other reports which were released early included the annual budget report.
