Please increase the FSR to 5.00 at the minimum. This is a once in a lifetime opportunity to set the cornerstone for adequate health servicing in BC. We need more capacity. I would even suggest 6.75 FSR is satisfactory especially since we must factor in future population growth and immigration from both inside and outside the country.

Are you serious? It's mind-boggling how inefficient this city is. Get with it! We've been talking about the new St. Paul's for a decade. Time to start building. Quit diddling around with interminable hearings.

3/30/2021 08:36 PM

Seriously! Why does the City have to analyze everything over and over. We elected you to make decisions and you are hopeless at doing that. Just build the hospital, construction costs keep going up. This project has been around for years now, just get on with it.

3/31/2021 11:19 AM

Very supportive! It will be great for the community to have such an advanced and modern health care facility located in an area of high need for health care services. Such a great project.

Screen Name Redacted

4/14/2021 04:08 PM

sounds good.

Screen Name Redacted

A suitable hub for a barren piece of land.
