Subject: Snow update

Greetings Mayor and Council

Our Engineering DOC remains in full swing tonight. We have virtually every snow fighting resource out tonight. Our crews are trying trying to get ahead of the rapidly falling snow. We'll likely be out all night. Here's the resources we currently have deployed:

Sanitation Equipment Line Up

- 14 Salter/plows dispatched on 14 beat map
- 1 Salter/Plow on emergency calls and 311
- 1 Kubota on priority bike routes
- 1 dedicated loader operator

Streets Equipment

- 6 Salter/Plows on 5 beat map

Sewers Equipment

- 9 Salter/Plows on a 9 beat map

Sanitation Equipment

- 6 Salter/Plows floating, providing break relief, and emergency calls
- 2 Jitney Salter/Plows on priority hills, priority bike routes, and 311s
- 1 2 person crew on hand salting and emergency calls

At this point, we're hoping the snow slows down so we can get ahead of it to get the roads cleared for tomorrow. Salt supplies remain strong.

Best

Sadhu
