Subject: Upcoming IB - Rain Paint

Greetings Mayor and Council,

Today, we will be launching a public space design contest to encourage residents to submit ideas for how to "make our city sing in the rain" using rain paint that will be applied to three public areas, each with a different topic focus – water quality, green infrastructure, and public space. The contest will run in to August, with the designs to be put together by a professional designer and the rain paint applied using stencils in September. The designs are expected to last for three months, and will show up only when it rains. Information Bulletin is forthcoming.

Best,
Sadhu
