Subject: Upcoming NR - City's own diesel fleet transitioning to 100% renewable fuel

Greetings Mayor and Council,

The City of Vancouver has taken a significant step towards achieving its goal of using 100% renewable energy sources by entering into a new fuel contract with Suncor. With this new contract, all of the City's diesel vehicles will transition to 100% renewable diesel, reducing emissions to 50% below 2007 levels by the end of next year. We plan to make this announcement on Monday.

Best,
Sadhu
