**Subject:** Marine emergency/spill - Fraser River

---

---

Good evening Mayor and Council,

We have just received notification that a tug boat has overturned in the north arm of the Fraser River in the vicinity of Deering Island. It appears that a quantity of diesel fuel has leaked into the water, although the responders on scene are not yet able to determine the amount or the extent of any contamination. The boat is now surrounded with spill boom and efforts are under way to right it.

The BC Ministry of Environment will be convening a conference call in the morning and our Emergency Management staff will be on that call. Musqueam FN have been advised also.

We will keep you apprised as we obtain additional detail regarding the incident and any consequences.

Best,  
Paul
