**Subject:** Memo - BC's New Climate Plan (CleanBC)

Greetings Mayor and Council,

Please find attached a memo from Gil Kelley, GM of Planning, Urban Design and Sustainability, regarding BC's new CleanBC climate plan. In summary –

- On December 5, 2018, BC released its new climate plan, CleanBC.
- In launching the plan, Premier Horgan emphasized the need to work together to transition away from fossil fuels to renewable energy.
- CleanBC is ambitious and comprehensive, and aligns well with many of Vancouver's goals.
- The work Vancouver is doing on buildings, transportation and waste positions us to play a leading role in the success of CleanBC.
- Phase 1 of the plan is designed to put the province on track for 75% of the reductions it needs to meet its 2030 target. Phase 2 will be developed over the next 18 months.
- Staff will actively engage with the province on the implementation of key Phase 1 commitments and on the identification of Phase 2 actions.

Should you have any questions, please contact Doug Smith, Director of Sustainability at [Doug.Smith@vancouver.ca](mailto:Doug.Smith@vancouver.ca) or 604.829.4308.

Best,  
Sadhu
