

File No.: 04-1000-20-2018-174

August 29, 2018

s.22(1)

Dear s.22(1)

Re: Request for Access to Records under the Freedom of Information and Protection of Privacy Act (the "Act")

I am responding to your request of March 20, 2018 for:

1. Copies of any completed questionnaires, applications, presentations and proposals sent by City of Vancouver, its agents or representatives, to FIFA, United Bid 2026, Canadian Soccer Association and CONCACAF regarding the 2026 FIFA World Cup; and
2. Copies of any responses from the named parties to City of Vancouver.

Date Range: January 1, 2018 to March 16, 2018

All responsive records are attached. Some information in the records has been severed, (blacked out), under s.15(1)(l), s. 17(1), and s.21(1) of the Act. You can read or download this section here:

http://www.bclaws.ca/EPLibraries/bclaws_new/document/ID/freeside/96165_00

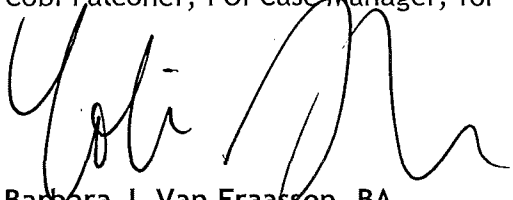

Under section 52 of the Act you may ask the Information & Privacy Commissioner to review any matter related to the City's response to your request. The Act allows you 30 business days from the date you receive this notice to request a review by writing to: Office of the Information & Privacy Commissioner, info@oipc.bc.ca or by phoning 250-387-5629.

If you request a review, please provide the Commissioner's office with: 1) the request number assigned to your request (#04-1000-20-2018-174); 2) a copy of this letter; 3) a copy of your original request for information sent to the City of Vancouver; and 4) detailed reasons or grounds on which you are seeking the review.

Please do not hesitate to contact the Freedom of Information Office at foi@vancouver.ca if you have any questions.

Yours truly,

Cobi Falconer, FOI Case Manager, for

Bid Information Template No.4: Overview of Stadiums

Part B: Stadium Maps

**Stadium Orientation and
Spaces around Stadium**

Please provide:

1. A general stadium map - (showing the stadium with its surroundings, including the outer security perimeter, to a distance of at least 1km around the stadium)

Please also indicate on map the following areas indicating the available space dimensions

- Parking areas
- Outside Hospitality area
- Stadium Media Centre
- Volunteer Centre
- Accreditation Centre
- Logistics Compound
- TV Compound

2. A general stadium photography map - (an aerial photography map)

These maps (both 1 and 2 above) should provide an indication of the stadium orientation (North, South, East, West)

Function	Attached
Cross-Section	Attached

Guidance

Please complete this template in respect of each proposed stadium.

Please note that the maps can be provided separately to this worksheet (i.e. they need not be placed inside the cells above).

Please ensure that all maps represent the current conditions of the proposed stadium. To the extent that the stadiums are planned or to be renovated, please ensure they represent the conditions for the tournament.

As per the Bidding Agreement, all maps must respect the FIFA approved colour coding and bid icons to be provided by FIFA, where necessary.

Please also provide all relevant details to the maps, such as scale of the drawing, author, etc.

2026 FIFA World Cup™: Bid Book of [Insert Country or Countries]
Chapter C: Technical Information
Bid Information Template No.4: Overview of Stadiums
Part F: IT&T Infrastructure

Who are the telecommunications infrastructure providers for the Stadium? Please list them and their respective area	TELUS, Bell, Rogers, Freedom - Mobility (full building LTE coverage) TELUS - WiFi TELUS - Optik cable TV TELUS - 1,110+ digital display screens
Who is the mobile network provider at the Stadium?	All the big carriers have a large presence at BC Place. TELUS, Bell, Rogers and Freedom Mobile have in house independent cellular networks providing full building coverage
What is the quality of the current cell/mobile network coverage in and around the Stadium?	Full coverage when stadium is at capacity. All carriers have best-in-class high-capacity LTE networks.
Who is the Wi-Fi solution provider at the Stadium?	TELUS and on-site WiFi team. TELUS maintains the in-house Cisco high-density WiFi
What is the WI-FI density/coverage for the public at the Stadium?	Full building coverage via 700+ A/P's. Most areas have excellent coverage with the exception of the field edge, and inner bowl to concourse concrete passageways. System performance is variable depending on location and demand density; back-of-house performance is excellent, and bowl performance fair to good depending on load. Work is ongoing to improve bowl performance
Please indicate the providers of the following IT infrastructure and services: 1. Audio and video service 2. CATV / Connected stadium service 3. Electronic access control system	1. Mix of in-house and contractors/consultants 2. TELUS 3. In-house

s. 15(1)(l)

What is the current level of redundancy of services and infrastructure at the Stadium?

Guidance

Information Required for Hosting Agreements

Instructions

General: In order to prepare executable copies of the Hosting Agreements (Host City Agreement, Stadium Agreement, Training Site Agreement and Airport Agreement), each Candidate Host City must complete and return to the United Bid Committee the attached form providing necessary information regarding the name and address of the signing party, notice information and name and title of the signatory or signatories for each Hosting Agreement.

Multiple Parties: Note that, to the extent there are multiple stadiums, training sites or airports, you should provide separate information for each stadium, training site or airport, as applicable, so that we may provide you with the appropriate number of executable Hosting Agreements.

Multiple Signatories: Only one signatory is required for each Hosting Agreement. However, in certain situations, a single Hosting Agreement may have more than one signatory. For example, perhaps the applicable signing authorization may require two signatories or perhaps multiple entities have agreed to jointly be obligated under an agreement. We have therefore provided space to list an additional signatory, if desired. If you need more than two signatories on a single Hosting Agreement, please advise us.

Deadline: Please return your completed form on/before December 15, 2017. You may send the completed forms to hostcities@unitedbid2026.com. Upon receipt of the information, the United Bid Committee will customize the agreements and deliver them for execution.

Annexes: The Stadium Agreement, Training Site Agreement and Airport Agreement each include one or more Annexes to be completed by the applicable party. We are providing these Annexes to you in Word form to be distributed to the applicable parties for completion. To the extent that there are multiple stadiums, training sites or airports in your Candidate Host City that will be executing an agreement, each one should complete all applicable Annexes. Please return all completed Annexes on/before January 19, 2018, when the underlying Hosting Agreements are due back to the United Bid Committee.

Subject: Annexes 2 + 3: Training Site Agreement - for Signing - 2026

Hi again both,

Attached are Annexes 2 and 3 that need to be included with each agreement.

To summarize - for EACH training site (4 total) we will require:

- 2 copies of the Training Sites Agreements signed
- 2 copies of Annex 2
- 2 copies of Annex 3

I have done the annexes for you so they are all separated and ready for printing and signature here.

s.13(1), s.17(1)

s.13(1)

Give me a call if you guys have questions.

Cc: Oehlschlager, Kelly; Collens, Michelle

Subject: Training Site Agreement - for Signing - 2026

Hi Octavio and Malcom,

Attached is the executable Training Site Agreement from the United Bid team. EACH training site requires a separate agreement (initialed on each page and signed on the signature page) - so we will require 8 agreements total completed from the Park Board - two for each site.

Reminder:

As you prepare to submit the various Hosting Agreements, we would like to remind you that each agreement must be executed on the signature page and every page must be initialed where indicated. We understand that initialing each page is not customary or typically required, but FIFA has been clear that such formality must be observed.

FIFA requires that we submit originals of each agreement in the following numbers:

- Two (2) originally executed versions of each Training Site Agreement

In addition to emailing scanned copies of these agreements to hostcites@unitedbid2026.com, we advise that you send these originals using a service that permits you to track these documents, in case documents are delayed or go missing.

We will work together to package everything including sending the scanned copies once you have signed.

Thanks,
Taunya

HOST CITY VISION VANCOUVER

OUR SHARED VISION

Together with our city partners from Canada, Mexico, and the United States, we are ready to host the 2026 FIFA World Cup™ - UNITED, AS ONE.

Together we recognize this as a once-in-a-generation opportunity to create a lasting and immensely positive legacy for our citizens, through the universal love of the global game.

Host Cities are central to the United Bid. They are the stage on which the FIFA World Cup™ takes place. Cities are a fusion of the public, private, and civic institutions that power economies and shape urban life. Together, it is the synergy created by our Host Cities that can transform this great event for future generations, through leadership, innovation, and example.

Together we are pledged to embrace equality, encourage accessibility, and celebrate diversity. We will use the new technologies at our disposal to accelerate progress and encourage fresh thinking - harnessing the momentum of this extraordinary event to bring about rapid advances in key areas such as health and fitness, education, human rights, and the environment.

OUR HOST CITY VISION

As a Host City, we undertake to provide the highest standards of support to organizers, players, and fans. We guarantee the complete readiness of our city and all its facilities and we commit to total co-operation with all those organizations and individuals responsible for ensuring the seamless and efficient systems and logistics needed for the success of the event.

Further, in fulfilling our vision, it is our ultimate goal to contribute towards the prosperity, growth, and enthusiasm of the entire global soccer community and beyond, through staging an incredibly successful 2026 FIFA World Cup™.

VANCOUVER

Vancouver is recognized as one of the most accessible, welcoming and naturally beautiful destinations on the planet, a city whose close-knit communities rally to support and celebrate the world's biggest and most diverse sporting events. Our vision is to unite with our North

American neighbours to elevate the game in our region, and build a World Cup experience every community member can be a part of.

LEGACY

The initial phase of this bid and all discussions to date with Provincial and Federal Governments focus on operational obligations as they relate to the Agreements. Should the United Bid Committee be successful in winning the bid to host in 2026, further discussions with the Provincial and Federal Governments will continue in the next phase of the strategic planning process that will focus on investments for a sustainable legacy.

We will use the next eight-years to initiate exciting legacies in the pre-World Cup period but more importantly we must take measures to sustain these changes long after the Games are over; this will be the success in hosting the World Cup.

Our priorities include:

1. ENHANCING THE GAME:

An eight-year runway to the 2026 kick-off offers an extraordinary opportunity to inspire the next generation of soccer players and ambassadors. The world's largest participation sport is thriving in Vancouver thanks to a focused, inclusive strategy that allows for a powerful platform to increase capacity from grassroots to high performance. Now, and continuing into the future, we intend to develop more facilities, train more coaches and officials, and put more balls at the feet of our active community.

Vancouver's mild West Coast weather allows for year-round participation, which sees local fields and facilities utilized for games, practices and meet-ups every day. The demand is clear, with clubs at full capacity and parks divided into multiple sessions to allow for a rate of play unsurpassed by many other communities across Canada.

With our diverse population and the influx of immigrants and refugees coming to the West Coast, building a development pathway for our Men's National team to shine will offer our worldwide population the opportunity to rally behind and cheer for the Canadian Team. We welcome the opportunity to highlight our diversity within and outside our local soccer cultures - celebrating the world's game.

2. ENGAGING FANS:

Fans will be amazed by Vancouver's hospitality and ability to service groups from all corners of the planet. As a diverse and multi-cultural city, Vancouver can make anyone feel at home. The pinnacle of our fan engagement in 2026 will be the FIFA Fan Fest. The Fan Fest will highlight local arts and cultural initiatives and provide a stage for the world to enjoy all that Vancouver has to offer, while of course tuning in to watch the matches of the competition.

Vancouver is comprised of 23 communities from which more than 70 different languages have been recorded. The official languages of Canada are English and French but in Vancouver the most common mother tongues of the non-English speaking are Chinese, Cantonese, Mandarin, Punjabi, Tagalog and Korean. This blend of so many cultures is why

Vancouver is acclaimed as such as multicultural city ensuring access to an unprecedented range of culinary adventures, cultural attractions and shopping experiences.

3. SUSTAINABLE EVENT MANAGEMENT AND ENVIRONMENTAL PROTECTION:

Hosting the 2026 FIFA World Cup™ will offer Vancouver another international platform to put its lofty sustainability goals and green operations to the test. During the 2010 Winter Olympics, the world recognized Vancouver as a global sustainability leader, and we are poised to take our ambitious standards to the world stage once again in 2026. Every event we host in advance of 2026 will drive us to become better and more experienced hosts, leveraging our learning opportunities and discovering solutions to new challenges to ensure unequivocal success.

While our greenest city goals stretch to 2020, many other new opportunities have surfaced due to our passion and desire to be the best. Vancouver is on track to reduce all emissions by 2040, including emissions from community festivals and international events. As a City of Reconciliation, Vancouver has zero tolerance for hatred, racism and discrimination. These abhorrent attitudes have no place in our city, and we expect any protests to be conducted in a peaceful, safe and non-violent manner. We will host and plan FIFA World Cup™ with the same commitment.

To ensure planning and delivery of FIFA World Cup™ lessens the negative and enhances the positive impact of the event on people, the economy and the environment, city officials will develop a comprehensive event-based Sustainability Plan. Past experiences, commitments, international standards and exchanges with stakeholders have provided the framework for evaluating and defining priorities that will be adapted to the specificities of FIFA World Cup™.

Implementation

Selections of key activities from our Greenest City Action Plan, Renewable Energy Strategy and Transportation 2040 will help to shape the event's Sustainability Strategy.

- Social development - utilize soccer as a tool to address social challenges in our communities of need
- Anti-discrimination - commit to hosting a discrimination-free event
- Smoke-free - Smoking is strictly prohibited in BC Place Stadium, as well as in city parks, beaches, the seawall and other public areas. Vancouver is committed to the promotion of a healthy urban environment and support for active living and wellness
- Climate change - continue to drive our Greenest City agenda as outlined
- Sustainable stadium operations - commit to sustainable operations and waste diversion
- Waste management - commit to Zero Waste Vancouver as part of Greenest City agenda

4. HUMAN RIGHTS:

Consistently ranked among the world's most livable cities by the Economist Intelligence Unit - and contributing to Canada's number-one world ranking for Quality of Life - Vancouver is a model for strong healthcare and educational initiatives, environmental conservation, and diverse and welcoming communities.

Citywide, people of all ages, backgrounds and abilities feel welcome and inclusive, and government as well as private and public organizations stand proudly alongside each of them. Vancouver boasts a strong LGBTQ2+ community that partners with officials and citizens to fight for full equality worldwide by engaging in ground-breaking initiatives such as leading the national charge in painting crosswalks rainbow-coloured to symbolize solidarity; designating the annual Vancouver Pride Parade with civic status; and implementing policies that strengthen protection for transgender residents.

As a City of Reconciliation, Vancouver is ensuring that our City plans respect Indigenous communities and that culture, language, and art are meaningfully respected and included. Our long term goal is that Vancouver become a place that visibly demonstrates that it is a City located on unceded Musqueam, Squamish, and Tsleil-Waututh homelands.

Vancouver is also respectful and compassionate towards individuals with immigration status, enforcing policies that ensure service providers no longer collect or report immigration status when unnecessary.

5. ECONOMIC OPPORTUNITY AND INNOVATION:

Vancouver has established itself as one of the world's leading tech ecosystems. Multi-faceted and dynamic, the tech sector in Vancouver is rapidly evolving while drawing global attention and the world's top talent. With a hub of talent and resources, Vancouver is primed to lead innovation around the FIFA World Cup™ and utilize our local community to leverage opportunities and develop new ideas that will reshape the competition for many years to come.

Vancouver is the most Asian city outside of Asia and is North America's gateway to the Asia-Pacific Region. With this local market and opportunity to build further effective support networks in destination markets targeted for the competition, Vancouver is primed to foster economic opportunity locally and abroad.

6. HEALTH AND FITNESS:

For the City of Vancouver, hosting the 2026 FIFA World Cup™ must be much more than what is hosted inside the stadium or what the score of the match is. The FIFA World Cup represents an opportunity to inspire and engage our citizens, reaching people who have no interest in soccer otherwise.

Locally, we will integrate our programming and recreation initiatives at the grassroots to ensure the full community is involved with the FIFA World Cup™ on some level. Opportunities for youth and the young people in Vancouver will be integrated and weaved into the fabric of all programming and initiatives in Vancouver.

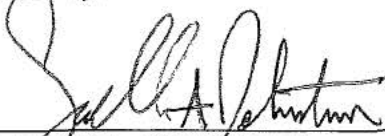

Working with our Fit City and Park Board teams, Vancouver will be able to leverage the competition and inspire the community to get active and set new fitness goals. Events are typically woven into the Park Board of Parks and Recreation schedules, allowing for community impact and engagement before, during and long after the event takes place.

Staging the 2026 FIFA World Cup™ in North America - which is a dynamic, outward-looking region - would offer an unprecedented platform from which to promote these ideas and values. By helping to host this event, Vancouver will be empowered to promote the growth of the game, fairness and opportunity for all, contribute to the environment, and help connect communities, nations, and the world.

The contributions we make as a Host City will be measured locally; the effects of our actions will lead to engagement across our nations, and our achievements will inspire opportunities throughout North America, the CONCACAF region, and around the world.

Through all this and more, we will show just how ready Vancouver is to host the FIFA World Cup™ UNITED, AS ONE.

Subject: Latest Stadium Rent Number Calculations
Attachments: Copy of VAN Stadium Rent Working Draft 1 Feb BCP - tg edits.xlsx
Copy of VAN Stadium Rent Working Draft 1 Feb CoV backup tg.xlsx

Hi Don, latest version attached, with some edits from Taunya and explanations below. As discussed we need to address the staffing for contract security in the compounds and the servicing numbers.

From Taunya based on the General Assumptions in the Stadium Rent Calculation Guide:

Notes:

- I have added back in the Translink estimations under "Transport Marshalling" based on the *Stadium Assumptions items to consider*:
 - o *Cost to provide free public transit to all credential holders throughout EUP*
 - o *Cost to provide free public transit to all ticket holders*
- I have added the Sanitation and Electrical Staff costs for the NEFC space under "Stadium Surrounding Rental Fee" based on the *Stadium Assumptions items to consider*:
 - o *Provision of utilities, including power and water to above rental spaces*
- We have kept in the wayfinding provision under "Transport Marshalling" based on the Stadium Assumptions and discussion with the road closures team understanding.

Hey Don,

Can I ask you a question about Template No 6 – I have attached it here for your review.

Under – ‘proposed renovation/construction’ – PB has listed the response as ‘Y – all fields will require conversion to natural turf and then back to synthetic again.’

Would you like us to keep that in or to remove that statement as it is assumed and we are disclosing the field surface in the previous required column? Or keep it.

Thanks.

Taunya –

Further news on Template No 7.....

This went out to USA markets in the fall, but somehow didn't get to our 4 cities. It's a one line summary of property, room counts (current and planned) for 3*, 4* 5* hotels.

Would you be able to track this info down? I've looked at TVan online, and the Bid submission, and neither had anything in this format.

Thanks for your help. Apologies on the mix up.

Subject: United 2026 - Ancillary event opportunity (FIFA Draw - VCC West)
Attachments: Ancillary Event FIFA Draw - Vancouver Convention Centre West_VAN_FNL.docx

Hi Don,

As discussed last week, attached is the updated detail on the Vancouver Convention Centre West as an inclusion for the FIFA Draw in 2025.

You can access the map files from the collection [here](#). There are seven files — high-res photos, the PDF and the .dwg files.

Also — the other photos are in my Dropbox collection with all Vancouver photos as mentioned.

Let us know what else you require.

Taunya

Vancouver Convention Centre – FIFA Draw (V2 update – Feb 14, 2018)

General:

Located on Vancouver's waterfront with a dramatic mountain backdrop, the award-winning Vancouver Convention Centre offers one of the most beautiful settings in the world and convenient access to all the major visitor amenities in the downtown core. As British Columbia's flagship convention centre, the facility hosts more than 550 events and welcomes hundreds of thousands of attendees each year, while generating significant economic activity for the province.

The Vancouver Convention Centre consists of two uniquely designed buildings, the iconic East building and connected West building, the world's first double LEED® Platinum certified convention facility. With 466,500 square feet (43,340 square meters) of pre-function, meeting, exhibition and ballroom space, the facility is able to host multiple, simultaneous events as well as large single events with upwards of 16,000 delegates.

The Convention Centre is designed with the latest environmentally sustainable features and technology, including a six-acre "living roof" and an on-site blackwater treatment plant. The Centre also features Canada's largest waterfront ballroom with five-story high ceilings, open terraces, and floor-to-ceiling windows that offer breathtaking mountain and harbour vistas. The facility is committed to environmental sustainability as well as unparalleled service, technology offerings and culinary excellence.

The Convention Centre is the first ever repeat winner of the International Association of Congress Centres (AIPC) Apex award for World's Best Convention Centre. Vancouver has consistently been named North America's top destination for international meetings by the International Congress and Convention Association (ICCA).

The Vancouver Convention Centre is a part of BC Pavilion Corporation (PavCo), a Provincial Crown Corporation of the Ministry of Tourism, Arts & Culture, which includes BC Place Stadium.

TELECOMMUNICATIONS/BROADCAST CAPABILITIES

The Vancouver Convention Centre is heavily outfitted with fibre optic cable for broadcast video transmission. The West Building's infrastructure was designed not only to meet the needs of a convention centre but also to host the International Broadcast Centre for the Vancouver 2010 Olympic Winter Games. The distribution system within the building can make broadcast fibre ready in any of our Meeting Rooms, Ballrooms, Exhibit Halls and pre-function spaces. In addition to broadcast fibre, the West Ballrooms have pre-installed SMPTE cables to manage 8 cameras from a production truck that can be setup in the Loading Bays.

1. Name of the proposed location to host the Draw:

Vancouver Convention Center West

2. Owner of that location:

BC Pavilion Corporation

3. Available sqm (pls provide square meter - not feet) at that location:

Exhibit Hall: 20,485m2

Ballrooms: 4893 m2

Pre-function: 12,018 m2

Meeting Rooms: 5,510 m2

TOTAL: 42,906 m2 over 4 levels

4. Events of a similar nature that have previously been hosted at that location:

2010 Olympic and Paralympic Games – Main Media Centre

2014 Canadian Football League (CFL) Grey Cup "Roar on the Shore" Fan Festival

2015 World Dermatology Congress (11,000 delegates from 116 countries)

2003 World Weightlifting Championships

Vancouver International Auto Show (annual) – over 16,000 attendees

Pacific Dental Conference (annual) – over 12,000 attendees

Other high-profile convention groups meeting in Vancouver in 2018 include:

- American Bar Association in February (estimated 4,000 out-of-town/total attendees);
- TED Conference, celebrating its 5th anniversary in Vancouver in April (estimated 1,800 out-of-town/total attendees);
- SIGGRAPH, returning to Vancouver for the 3rd time in August (estimated 13,000 out-of-town attendees and 14,000 total)

5. 2 pictures of the location:

Photos have been uploaded into the Vancouver photo Dropbox (folder VCC West) – [click here](#)

6. A general floor plan of the location (if easily available) :

You can access the files from the collection [here](#). There are seven files — high-res photos, the PDF and the .dwg files

Subject: Latest Stadium Rent Number Calculations

Hi Don, latest version attached, with some edits from Taunya and explanations below. As discussed we need to address the staffing for contract security in the compounds and the servicing numbers.

From Taunya based on the General Assumptions in the Stadium Rent Calculation Guide:

Notes:

- I have added back in the Translink estimations under "Transport Marshalling" based on the *Stadium Assumptions items to consider*:
 - Cost to provide free public transit to all credential holders throughout EUP
 - Cost to provide free public transit to all ticket holders
- I have added the Sanitation and Electrical Staff costs for the NEFC space under "Stadium Surrounding Rental Fee" based on the *Stadium Assumptions items to consider*:
 - Provision of utilities, including power and water to above rental spaces
- We have kept in the wayfinding provision under "Transport Marshalling" based on the Stadium Assumptions and discussion with the road closures team understanding.

Chapter C: Technical Information

Bid Information Template No.9: Overview of Airport Infrastructure & Facilities

Part E: Airport Maps/Plans

Security Perimeter	<i>Please provide relevant maps/plans relating to the security perimeter (boundaries of restricted access territory)</i>
Passenger Commercial Terminals	<i>Please provide relevant maps/plans relating to passenger commercial terminals (Internal passenger transit to/from Immigration, Customs, Check-in Halls, Boarding Gates, Baggage Claim Areas, etc.)</i>
Airport Movement and Manoeuvring Areas	<i>Please provide relevant maps/plans relating to airport movement and manoeuvring areas (Including Stands, Aprons, Taxiways, Runways and Rapid Exitways).</i>
Airport Ground Transport Infrastructure	<i>Please provide relevant maps/plans relating to airport ground transport infrastructure (including Parking Lots, Load Zones, Waiting Areas, Access Roads, etc.)</i>
General Aviation Terminals	<i>Please provide relevant maps/plans relating to general aviation terminals (same as above for commercial terminals).</i>

Double click on image to see all maps

Guidance

Please complete this Part of the template in respect of each proposed airport.

Please note that the maps can be provided separately to this worksheet (i.e. they need not be placed inside the cells above).

As per the Bidding Agreement, all maps must respect the FIFA approved colour coding and bid icons to be provided by FIFA, where necessary.

Please also provide all relevant details to the maps, such as scale of the drawing, author, etc.

VANCOUVER – INNOVATION CONCEPTS REVIEW SUBMISSION
UNITED 2026

VANCOUVER – PLACE OF IDEAS – A hub where entrepreneurs, innovation and creativity intersect.

“Progressive” and “forward-thinking” are words typically used to describe Vancouver. Local scientists, engineers, researchers and designers are dreaming up new ideas and concepts that are crossing industry lines. Entrepreneurs are transforming discoveries into valuable products and services. Meanwhile, new approaches are fuelling high-tech industries and bolstering the productivity of traditional industries. So it’s easy to understand why the TED organizing committee chose Vancouver when they decided to look beyond California, or that UN Habitat was conceived at a Vancouver-based conference.

1) Which of the concepts would your city want to be involved with and/or help lead? Why?

Virtual World Cup Village
Innovation Centers
Unified Digital Infrastructure

Technology in Vancouver

Multi-faceted and dynamic, Vancouver’s Tech & ICT sector is rapidly evolving while drawing global attention and the world’s top talent. The city of Vancouver has been home to a number of enterprising start-ups and path-breaking innovators in recent years. In fact, it’s one of the most sort-after destinations for tech companies.

Working with the industry, Vancouver would see a real uptake in partnering and leading innovation concepts that link to digital infrastructure, virtual technologies and unifying the digital landscape through partnering across North America and the World.

United 2026 Partner Cities Program
Community Integrations
FIFA Fan Fests without boundaries

Partnering and Community Integrations

The City cultivates strong intergovernmental relationships and seeks opportunities to leverage benefits from strategic partnerships and collaborations. Vancouver would be interested in leveraging our interests in partnership and community integration to support the execution and innovation of the 2026 FIFA World Cup.

United 2026 Social Soccer Cup
Fitness and Social Behaviour Challenge

Sport Development and Healthy City

Three pillars of the City of Vancouver Corporate Plan include:

- People
 - o Cultivate and sustain vibrant, creative, safe and caring communities for the wide diversity of individuals and families who live in, work in and visit Vancouver
- Prosperity
 - o Provide and enhance the services, infrastructure and conditions that sustain a healthy, diverse and resilient local economy
- Environment
 - o Protect and enhance Vancouver’s climate, ecology, natural resources and connections to the city’s remarkable natural resources and connections to city’s remarkable natural setting for future

generations

Working with BC Soccer and the Whitecaps FC, we can develop and support sport specific innovative programs and initiatives around the hosting of the World Cup in 2026.

Please list in order of priority/interest.

Concept Name	Innovation
United 2026 Partner Cities Program	Participation well beyond primary host cities
Community Integrations	Growing new fan base via long-term integrations through partner city networks
FIFA Fan Fests without boundaries	FIFA Fan Fest experience extended well beyond host cities
Virtual World Cup Village	Using advanced AR/VR/MR technologies to extend fan experiences globally
Innovation Centers	Investing directly into innovation for soccer and the FWC
Unified Digital Infrastructure	Ubiquitous cutting-edge technology platform
United 2026 Social Soccer Cup	Increasing playing participation among women, disadvantaged and adults who left the game
Fitness and Social Behaviour Challenge	Soccer-based behavioral programs for positive social impact across a massive network of Partner Cities
Field Technologies – Grass 2.0	New Field Technologies for grass pitches
Soccer Focused Educational Development	Integrating soccer into school curriculum to help education and grow awareness of the game
United 2026 Sister Cities Program	Directly extending the FWC globally through established city partnerships
The Box/Soccer for Success	Leveraging United 2026 to turbo-charge proven models of soccer for social change
Sports/Happiness Index	Leveraging advances in behavioral research to develop data-driven understandings of fandom and the social benefits for soccer
Fandom and Behavior	Leveraging advances in behavioural research to develop data-drive understandings of fandom and the social benefits for soccer
Museum Partnerships	Partnering with leading technology cultural organizations to grow awareness of the game

- 2) What, if any, existing initiatives in your city – public or private – could be integrated into one of the concepts? [250-300 words max.]

Greenest City

The Greenest City Action Plan is a strategy for staying on the leading edge of urban sustainability. There are many facets to the Greenest City Action Plan, but integration with hosting this world-class event would lead to learnings and sharing for all the cities involved. In 2010, Vancouver hosted the greenest Olympic Games ever, and we believe we can do the same in 2026 with the FIFA World Cup.

Priorities include:

- Zero Emissions Building Policy for city-owned buildings
- Civic water use reduction
- Vancouver landfill gas capture
- Biodiversity strategy
- Zero waste strategy

All or parts of the Greenest City Action Plan can be integrated into the 2026 Innovation strategy to leverage the sustainability of hosting in 2026.

- 3) In what ways could your city help to support the development and/or execution of these concepts? Which ones? How? Be specific. [250-300 words max.]

Through best practices from the 2010 Olympic Games, Vancouver could support the development of the Partner Cities Program by using the corporate business community to strike partnerships that meet the needs of cities outside the hosting of the competition. This can be leveraged through conventions in Vancouver and other Host Cities, as well as exchange programs for cities not hosting matches.

- 4) Based on the concepts outlined below, do you have any additional ideas or recommendations for innovation that would benefit the United Bid or the plans for hosting the 2026 FIFA World Cup™ [250-300 words max.]

Renewable City 2050

To improve the standard of living for everyone in our city, we must transform so that our city gets 100% of our energy from renewable sources.

Zero Waste Strategy

The City of Vancouver is working to complete the development of the Zero Waste 2040 Strategy, a solid waste management plan with a long-term objective of eliminating Vancouver's solid waste disposal via landfills and incinerators.

100 Resilient Cities (100 RC)

Through the support of 100RC, Vancouver is in beginning of the development of the citywide Resilience Strategy to ensure our residents, communities, institutions, businesses, and systems can persist, adapt, and grow no matter what kinds of chronic stresses and acute shocks Vancouver may experience.

Vancouver was named part of the 100RC network in 2016, joining cities such as London, New York, Bangkok, and Buenos Aires – and was selected from more than 1,000 applicants from around the world. Other Canadian member cities include Calgary, Toronto, and Montreal.

- 5) Are there any additional resources – reports, research, etc. – that you would like to provide to help the United Bid Committee pursue these concepts as part of the United Bid?

STADIUM

BC Place Stadium is located in the heart of downtown Vancouver, cradled between the Pacific Ocean and the Coast Mountain Range just minutes away from some of the most stunning natural landscapes on the continent. The stadium is a landmark venue, and architecturally the most prominent feature of the city skyline.

As the largest multipurpose facility of its kind in Western Canada, BC Place plays BIG - regularly hosting globally-attended sporting events including the Opening and Closing Ceremonies for the 2010 Olympic Winter Games, the FIFA Women's World Cup Canada 2015 the Canada Sevens, part of the World Rugby Sevens Series, plus the year-round home of the Vancouver Whitecaps FC of the MLS, and the BC Lions Football Club of the CFL.

The stadium's retractable roof – the largest of its kind in the world – opens to reveal glorious sunshine, or stars at night. Every seat in the stadium offers exceptional sight lines with home-theatre style viewing thanks to a four-sided high-definition centrehung video board – the second-largest in North America. At night, the venue's spectacular 4-storey façade known as "The Northern Lights Display" can be animated with stunning effect to create national flags, symbols and unique displays on a grand scale.

BC Place's state-of-the-art technology, paired with a host of initiatives to delight every guest, generates an energy among players and fans that makes for an unforgettable experience for everyone in the stadium. FIFA World Cup 2026 will be the venue's most exciting and successful sporting event to date; a life-changing adventure that extends beyond the stadium walls and touches every part of the city and the global soccer community.

Address: 777 Pacific Boulevard, Vancouver, British Columbia, Canada. V6B 4Y8

Owner/operator: B.C. Pavilion Corporation (PavCo), a Crown Corporation of the Province of British Columbia

Capacity: 54,500

Year of construction: Original opening – 1983 / Post-revitalization opening – 2011

Field of play: 117yds. x 75 yds.

LOOKING TO 2026

A number of infrastructure improvements are planned prior to 2026, including:

- Suite and hospitality improvements
- Upgrades to Stadiumvision – the venue's 1,100-screen digital display network – and other digital assets
- New configurations to the exterior plazas
- Improved street access
- Sustainability upgrades
- Food and Beverage Concession upgrades
- General upgrades to fit and finish
- General upgrades to technology
- Improvements to public safety and stadium perimeter

SUSTAINABILITY

BC Place operates a sustainability program that significantly improves landfill diversion rates. The stadium and its partners have reduced the use of landfill products at concessions, and source from suppliers that adhere to sustainable environmental practices. The stadium does not hold a sustainable building certification. The stadium's operations and purchasing program, as well as other supply chain exchanges, operate in compliance with labor/social standards and environmental sustainability at all times.

48% of spectators usually arrive by public transport for soccer matches

Distance from city center to stadium:

Distance: 800 metres

Walking time: 10 minutes

Biking time: 4 minutes

Skytrain time (light rapid transit system): 2 minutes

Driving time: 2 minutes

Distance from the Stadium to a hospital the stadium normally works with:

- St. Paul's Hospital: 1.4 kilometres
- Vancouver General Hospital: 2.6 kilometres

Subject: follow up
Attachments: VAN Stadium Rent Working Draft 30 Jan.xlsx

Thanks everyone for yesterday's meeting. A good discussion that helped to clarify things.

I've worked up a draft template for our next round of discussion, based on the FIFA template. I've added comments in cells where I've revised numbers.

A couple of notes:

- Please see bottom of sheet for calculation of Stadium Surroundings rental fee. This total s.17(1), s.21(1) is then divided by 45 = s.17(1), s.21(1)
- Items assumed to fall under Security, outside of MD, NMD costing:
 - Venue Search (initial)
 - Police Escorts
 - Public Safety Unit
 - Remote Vehicle Search
 - BC Place lock down sweep
 - EOC staff
 - CCTV system
- Sanitation, Transit passes have been removed. Let's review again
- Assume temp facilities, staff for spaces inside OSP but off BC Place footprint handled as event overlay cost
- Have added USD column, converting CAD at \$.75

Hope this makes sense. Let me know if you want to get on a call to discuss.

Thanks
Don

Subject: Hotel allocations
Attachments: Vancouver - Template No. 8 - List of Existing and Planned Hotel Capacities.xlsx

Taunya –

Could I get your help with some edits to the Template No 8 for accommodations?

In column Q on the attached spreadsheet, we would like you to identify which hotels you would propose to specific user groups. The attached graphic labeled Hotel Info outlines the constituencies, hotel rating and room quantity to help complete this.

For clarity

- please assume 'FIFA Venue Hotel' is the FIFA Staff hotel
- the Member Association Hotel is the Team Hotel
- Please use the room quantity req'd for Group Match/Round 32/Round 16 as shown
- FIFA VIP – 1 property
- FIFA Venue – 1 property
- Member Association – Minimum 2 properties
- Commercial Affiliates, Hospitality, Host Broadcaster, Media/MRL – multiple properties per group OK to reach req'd quantity

If you could edit the attached and return to me, I will re-post to our UBC file.

Thanks for your help. Let me know if there are any questions

Don

Subject: Latest Stadium Rent Number Calculations

Hi Don, latest version attached, with some edits from Taunya and explanations below. As discussed we need to address the staffing for contract security in the compounds and the servicing numbers.

From Taunya based on the General Assumptions in the Stadium Rent Calculation Guide:

Notes:

- I have added back in the Translink estimations under "Transport Marshalling" based on the *Stadium Assumptions items to consider*:
 - *Cost to provide free public transit to all credential holders throughout EUP*
 - *Cost to provide free public transit to all ticket holders*
- I have added the Sanitation and Electrical Staff costs for the NEFC space under "Stadium Surrounding Rental Fee" based on the *Stadium Assumptions items to consider*:
 - *Provision of utilities, including power and water to above rental spaces*
- We have kept in the wayfinding provision under "Transport Marshalling" based on the Stadium Assumptions and discussion with the road closures team understanding.

Great – here is the final completed template. Should I send the host cities email also?

Thx.

Subject: Template No 6 - VSTS

Hey Don,

Can I ask you a question about Template No 6 – I have attached it here for your review.

Under – 'proposed renovation/construction' – PB has listed the response as 'Y – all fields will require conversion to natural turf and then back to synthetic again.'

Would you like us to keep that in or to remove that statement as it is assumed and we are disclosing the field surface in the previous required column? Or keep it.

Thanks.

No problem – see attached.

We do not have confirmed planned hotels that we can reference at this time.

Thanks,
Taunya

Taunya –

Further news on Template No 7.....

This went out to USA markets in the fall, but somehow didn't get to our 4 cities. It's a one line summary of property, room counts (current and planned) for 3*, 4* 5* hotels.

Would you be able to track this info down? I've looked at TVan online, and the Bid submission, and neither had anything in this format.

Thanks for your help. Apologies on the mix up.

Michelle, Taunya –

Further to our call this morning, and the update information sent out from the Office of the General Secretariat, I wanted to schedule a brief call this week to review the status of the remaining UBC documents.

Here is a link to the latest Vancouver document tracker summary:

[s.15\(1\)\(l\)](#)

Additionally, I have attached a .pdf version to this email.

Please let me know when your schedule may permit a 30 minute call this week for us to review.

Look forward to catching up soon,
Don
