Dear s.22(1)

Re: **Request for Access to Records under the Freedom of Information and Protection of Privacy Act (the "Act")**

I am responding to your request of June 5, 2018 for:

Any documents pertaining to or related to an above ground or below ground heating oil tank at 1207 Devonshire Crescent, Vancouver, from January 1, 2000 to June 5, 2018.

All responsive records are attached. Some information in the records has been severed, (blacked out), under s.22(1) of the Act. You can read or download this section here: http://www.bclaws.ca/EPLibraries/bclaws_new/document/ID/freeside/96165_00

Under section 52 of the Act you may ask the Information & Privacy Commissioner to review any matter related to the City's response to your request. The Act allows you 30 business days from the date you receive this notice to request a review by writing to: Office of the Information & Privacy Commissioner, info@oipc.bc.ca or by phoning 250-387-5629.

If you request a review, please provide the Commissioner's office with: 1) the request number assigned to your request (#04-1000-20-2018-317); 2) a copy of this letter; 3) a copy of your original request for information sent to the City of Vancouver; and 4) detailed reasons or grounds on which you are seeking the review.

Please do not hesitate to contact the Freedom of Information Office at foi@vancouver.ca if you have any questions.

Yours truly,

Barbara J. Van Fraassen, BA
Director, Access to Information & Privacy

Barbara.vanfraassen@vancouver.ca
453 W. 12th Avenue Vancouver BC V5Y 1V4

*If you have any questions, please email us at foi@vancouver.ca and we will respond to you as soon as possible. Or you can call the FOI Case Manager at 604.871.6584.

Re: Oil tank removal
COPY TO: CITY FIRE PREVENTION PERMIT # FI 402203

Oil tank decommission (removal) is complete; the tank had previously been cut open and filled with dirt. Because the tank had not been pumped dry prior to being filled it contained contaminated soil. This oily soil had leaked from the cut hole in the tank into surrounding soil. The soil sample the Fire inspector tested was contaminated and he requested the tank be removed and soil around the tank be removed. The tank was pumped dry and scraped clean of contaminants then trucked to a recycling facility. A total of ten to eleven yards of contaminated soil (one full dump truck load) was removed from the ground where the tank sat. Alara Environmental tested the soil for contaminants, after the excavation, and found the site to be clean except for a small area at the east side of the addition where the soil under the drain system and adjacent to the foundation had a contamination reading. Because of the proximity of this soil to the foundation it was not removed for fear of damage to the building structure. Based on site conditions and a discussion with City Environmental officer the site was backfilled.

The site was backfilled with a sand/road base mix and graded to original condition. Please call Craig if you have any questions.

Thank You,

Craig Fleck

3. AREAS OF POTENTIAL ENVIRONMENTAL CONCERN

Answer the following questions to the best of your knowledge using the property owner as a reference.

- Was this property present or previously use for commercial or industrial purposes?
Yes ☐ No ☒
- Has this property previously been used for a controlled substance operation (e.g. marijuana grow operation or clandestine drug lab)?
Yes ☐ No ☒
- Has a notification of likely or actual migration been issued for this property or suspected contamination by migration of substances from an offsite source?
Yes ☐ No ☒

If you answered yes to any of the above questions complete and attach a site profile:
http://www.env.gov.bc.ca/epd/remediation/forms/pdf/electronic_forms_v2/csr_site_profile.pdf

- To the best of your knowledge is there an underground storage tank (UST) used for residential heating oil present or previously removed from this property?

If you **checked present or abandoned**, the UST must be removed at the demolition stage. A separate fire permit is required from the Fire Prevention Office located at Suite 201, 456 West Broadway (telephone 604-873-7595).

- If removed was there residual contamination remaining after removal?
Yes ☐ No ☒

If you **checked yes**, the residual contamination must be remediated at the demolition stage. An environmental report confirming the site meets the Contaminated Sites Regulation applicable land use standards (e.g. commercial, residential) must be submitted to Environmental Protection prior to construction. Refer to Bulletin 2015-007-EV *Residential Underground Storage Tank Removal* for reporting requirements.
