	¥	ф., ₆
Dear s.22(1)		

Re: Request for Access to Records under the Freedom of Information and Protection of Privacy Act (the "Act")

I am responding to your request of August 7, 2018 for:

In regards to the laneway adjacent to 1975 East 38th Avenue, or to a laneway near the intersection of East 38th Avenue and Victoria Drive, or to a laneway located on the 1900 block of East 38th Avenue, from January 1, 2013 to August 7, 2018:

- 1. All records of reports made to the City regarding street repairs requested or required; and
- 2. All records of street repairs made or maintenance conducted.

All responsive records are attached. Some information in the records has been severed, (blacked out), under s.22(1) of the Act. You can read or download this section here: http://www.bclaws.ca/EPLibraries/bclaws_new/document/ID/freeside/96165_00

Under section 52 of the Act you may ask the Information & Privacy Commissioner to review any matter related to the City's response to your request. The Act allows you 30 business days from the date you receive this notice to request a review by writing to: Office of the Information & Privacy Commissioner, info@oipc.bc.ca or by phoning 250-387-5629.

If you request a review, please provide the Commissioner's office with: 1) the request number assigned to your request (#04-1000-20-2018-424); 2) a copy of this letter; 3) a copy of your original request for information sent to the City of Vancouver; and 4) detailed reasons or grounds on which you are seeking the review.

Please do not hesitate to contact the Freedom of Information Office at <u>foi@vancouver.ca</u> if you have any questions.

Yours truly,

Barbara J. Van Fraassen, BA Director, Access to Information & Privacy

Barbara.vanfraassen@vancouver.ca 453 W. 12th Avenue Vancouver BC V5Y 1V4 Phone: 604 .873.7999 Fax: 604.873.7419

			dip (i.e. drop off)	due to the disp	lacement of the asphalt.
	3. Location: S	treet			
				1 1 01 00	18, at approximately

closest intersection East 38th Avenue and Victoria Drive, when my front, right wheel lost contact with the ground and I veered downhill to the right and ended up on the curb. damaging my vehicle on the passenger side. The entrance to the lane is on a decline and paved with asphalt. The concrete curb itself does not stretch down the length of the lane but ends at the corner. The right edge of the lane poses a road, safety hazard because there is a dip (i.e. drop off) due to the displacement of the asphalt. This displacement caused the broken lane to be not level, resulting in my right, front wheel losing contact with the ground and me losing control of my vehicle. The BCAA driver who helped me off the curb advised me that last month he was at the same location helping another driver off the same curb. Two residents of the neighbourhood told me that this sort of incident is a regular occurrence. One said he has seen it happen (10) times and the other said it is a monthly occurrence. I am requesting that the City of Vancouver immediately rectify this road, safety hazard to prevent damage to other vehicles and possible injuries to the next unsuspecting driver. Given the local residents insistence that the road, safety hazard has been previously reported to the City of Vancouver, I would also like to know: 1) If this road, safety hazard has been previously reported to the City of Vancouver and 2) If so, the dates that the road, safety hazard was reported to the City of Vancouver". Finally, I would like the City of Vancouver to follow up on my report to advise me when this road, safety hazard will be rectified and if corrective action will not be taken, a written explanation as to why. Regards, s.22(1) s.22(1) 5. What direction were you travelling?North Is this request due to Motor Vehicle Accident?No

7. If Yes, provide details on license plate number or other details (if known):

8. (Don't ask just record - Did caller indicate they want a call back?)Yes
