Dear s.22(1)

RE: Request for Access to Records under the Freedom of Information and Protection of Privacy Act (the "Act")

I am responding to your request of May 9, 2019 under the *Freedom of Information and Protection of Privacy Act* for:

Water demand calculations provided to the City as part of the rezoning enquiry, revisions to the rezoning enquiry, and rezoning application at 1296 West Broadway (2538 Birch Street), from October 1, 2018 to May 9, 2019.

The City does not request water demand calculations during the enquiry stage; therefore there are also no revised water demand calculations.

The water demand calculations submitted at the rezoning application submission stage are now publically available on the Rezoning webpage at the following link:
