Subject: snow and garbage update

Good Morning Mayor and Council-

The snow clean-up continues... Our sanitation crews have been deployed to support Streets crews with recovery from snow, focusing on bus stops, excavating collecting litter cans from the snow and collecting and clearing catch basins in preparation for potential weekend flooding. My primary concern at this point is working now to avoid flooding as all of this melts and the rains start again.

Locations missed this week for garbage pick-up will be collected during regular hours next week. This also avoids considerable overtime costs... Green bin will be suspended for one additional week so that those crews can be assigned to catch up on garbage. At this time of year green bin quantities are quite low so no problems with an additional week delay in green bin collection are anticipated.

Let me know if you have any questions. As you can imagine, our crews have been working hard this week, so any opportunities that you have to commend them on social media or on mainstream media go a long way.

Thanks

Sadhu
