Subject: [EXT] Grays Park Vancouver

To whom it may concern;

We love our local Grays Park and many kids are having a great time biking through the park. It is fun and dangerous though! A pump track either in the old lawn bowling area or the flat area just east of the parking lot would be a good spot to put a safe and fun pump track.

Right now children and their parents are bringing jumps and building berms which so many are enjoying. A professional installation of a pump track would make the park safer and even more useful and fun. With kids flying through the park and across paths it is getting a little out of control but with a pump track they would have somewhere to go through and enjoy the jumps and challenges in a dedicated area.

Please consider this request made by me and the other parents also requesting the same through vancouver.ca and emails to the commissioners.

Thank you,
