Dear s.22(1)

Re: **Request for Access to Records under the Freedom of Information and Protection of Privacy Act (the "Act")**

I am responding to your request of November 30, 2021 under the ***Freedom of Information and Protection of Privacy Act, (the Act)***, for:

1. **List of active licenses for Pit Bull and Rottweiler dogs.**
2. **List of reported incidents and corresponding details involving Pit Bull and Rottweiler dogs from January 1, 2020 to November 30, 2021.**

All responsive records are attached. Some information in the records has been severed, (blacked out), under s.15(1), s.15(1)(l), and s.22(1) of the Act. You can read or download these sections here: http://www.bclaws.ca/EPLibraries/bclaws_new/document/ID/freeside/96165_00

Under section 52 of the Act, and within 30 business days of receipt of this letter, you may ask the Information & Privacy Commissioner to review any matter related to the City's response to your FOI request by writing to: Office of the Information & Privacy Commissioner, info@oipc.bc.ca or by phoning 250-387-5629.

If you request a review, please provide the Commissioner's office with: 1) the request number (#04-1000-20-2021-613); 2) a copy of this letter; 3) a copy of your original request; and 4) detailed reasons why you are seeking the review.

Yours truly,

[Signed by Cobi Falconer]

2020 176126 000 00 DG	Human Attack	INTERSECTION: Hamilton ST & Robson ST	Jan 3, 2020 14:52:00	Human Attack - DOG OWNER UNKNOWN - Both were grey, Two Pitbulls - Citizen reporting that they were waiting to cross the street at the above intersection(corner next to 345 Robson) and a man with two pitbulls walked by them. One of the pitbulls bit them through their clothes on their right leg. The bite marks are also there still. Citizen did not get the information of the dog owner at the time. INCIDENT Date/Time: Jan 01 @ 1:30-2pm CLERKS NOTES: Advised ACO 11 of call but put in Supervisors name for reassignment - DB Human Attack - CASE CLOSED PENDING CONTACT FROM ACTUAL VICTIM - Caller works at s.22(1) . . The other day this black pit bull type dog bit one of our tenants. The Police where called and we where given a file #VA19-264-398. Police did attend at the time and moved them away. A notice was put up for tenants to call Staff if the owner and dog are seen around the building again. Staff received a call today (Jan 4/20) that owner and Dog are back. They are on the S/W side of Seymour and Helmcken St. Dog also barks a lot. Dog belongs to a non transient person with no fixed address - EL At Large - White Pitbull - Concerned that dog could strangle himself, and looks to be abused. * NOTES - ACO11 believe to be s.22(1) that belongs to s.22(1)

2020 180721 000 00 DG	Human Attack	s.22(1)	Jan 10, 2020 14:39:31	Human Attack - CASE CLOSED DUE TO LACK OF DOG OWNER ID - Grey/silver Pitbull - PS Description: Dog attack, union street approximately 12:50pm. s.22(1) Was walking my dog s.22(1) down Union Street. A man walked out of the house located at s.22(1) s.22(1) Our dogs barked at each other but we kept walking toward Jackson street. They did not engage further. I crossed the road to loop back toward home s.22(1) I saw the owner putting something into his car. Car is a s.22(1) Maybe a Toyota or Ford? I couldn't see his pit bull so we just walked down the actual road. After passing the owner (who was on the side walk) and a few cars in front of him we crossed bt two cars to get out of the road bc I didn't see him with his dog. When we walked by the cars I saw his dog unleashed on the sidewalk. His pitbull was unleashed, started growling then ran toward my dog and me between cars. The dog latched on to my dogs neck and face. I pulled my dog away and tried to reach down to help. The pitbull scratched my leg, tearing my leggings and I have scratches that broke the skin on my legs. It's my left leg inner thigh area by knee, The owner kept yelling out holy fuck over and over and did nothing to assist until I told him to get his dog as the situation was escalating quickly. Luckily my dog had on a raincoat which I think helped him to not get injured. It's a miracle. I did not get the owners info but I think he lives at s.22(1) I did see him come out of the house with another male friend. We are ok but shaken up. This pitbull was extremely strong and is a danger to the community. Kids live around here and at the residence building the pitbull was unleashed in front of. I wasn't sure how to classify this as my dog is not physically injured. I do have a bad scratch but I'm ok. A small hole was torn in my leggings. Thank you s.22(1) Photo attached CLERKS NOTES: Un-truncation requested. No dogs currently associated with address provided. Advised ACS 12 of call by radio for assignment - DB UPDATE: Jan 11/20 - Lagan 101013666920 received from complainant advising address s.22(1) provided in complaint was incorrect, updated to s.22(1) there is a dog associated with new address with a current valid licence but it does not match the breed in the complaint and there is no aggression history so did not associated people ID's - DB
2020 181901 000 00 DG	Human Attack	2300 BLK Cambridge Street	Jan 14, 2020 14:02:29	Human Attack - Black Pitbull. Citizen got bit at the 2300 block on Cambridge (mid block) while he was heading home. He says the dog came around him and bit the citizen in the right hamstring and punctured the citizen. He says it was a bite and release that went through jeans/ long johns and flesh. Aggressive dog and citizen is concerned because he has heard this dog has attacked before. *A neighbor nearby who assisted s.22(1)says the dog has attacked before and the citizen helped s.22(1) into the lobby etc. He is concerned for safety of children etc. in the area. Dog had a collar and leash but leash was tucked up into the collar. At first the owner was behind the citizen and after the bite the citizen was concerned about the dog as it was standing in front of s.22(1) nd then owner called out to the dog and then the dog moved away and then she went up the street to get the dog. He says then she said sorry, i am sorry as she was further away and walked away (not sure if dog is in good care as she seemed to be talking to herself). Called 9-1-1 got an ambulance there and went to the hospital got patched up and shots. He says he is s.22(1) thinks there might be a white spot on the body of the dog but not sure. 2020 186295 000 00 DG	At Large/Aggression	s.22(1)	Jan 23, 2020 10:04:38	<p>At Large/Aggression - NO STATEMENT - Unknown colour, Pitt Bull - The dog, s.22(1) has had attacked in the past and is required to wear a muzzle when in the public but the dog has free rein in the building and is currently roaming around the 4th floor freely, without an owner and without a muzzle. This is an ongoing issue. The owner has no control over either of the pitbulls in his possession. She is also concerned about the well being of the dogs and will be contacting SPCA. CLERKS NOTES: Dispatched to ACO's on duty for assignment - DB</p> <p>ACS37: I searched Amanda and found the DO, s.22(1) so I added him to the call, he lives in s.22(1) is Considered Aggressive ...long history</p>
2020 189129 000 00 DG	Holding Stray	s.22(1)	Jan 25, 2020 15:03:40	<p>Holding Stray - Bully Mix - Dark brown with white spots. lease pick up the dog before 4:30, citizen will have to leave at that time.</p>
2020 190567 000 00 DG	At Large/Aggression	s.22(1)	Jan 27, 2020 16:19:04	<p>At Large/Aggression - NO STATEMENT - The front door of the house is open and the dog is running on the road and approached citizen in a form of attack and citizen was walking her s.22(1) dog and went inside and the dog was going around cars and citizen has a video footage of the dog and also there has been other complaints of the dog being off leash and was informed by officer to keep a log and citizen has recordings of that as well. This dog is running around attacking other dogs. She has video of it shaking her neighbour's s.22(1) around. Dog lives at s.22(1) - in the same s.22(1) as the COMP. Dog's name is s.22(1) a large tan coloured Pitbull.</p> <p>Note ACS37: 16:54: I phoned the COMP to get an update and she said the owner had called his dog inside. Dog owner's name is s.22(1) and he lives at s.22(1) in the same building but as the COMP. She says his dog probably not licensed. As of 19:00 there had been no reports of a dog attack in the area.</p>
2020 190885 000 00 DG	Animal Attack	s.22(1)	Jan 28, 2020 14:05:07	<p>Animal Attack - ***ANONYMOUS***</p> <p>Caramel coloured - Pitbull/Chow. Dog attacked a small white Pekingese and it required 26 stitches on her stomach, 3 surgeries and also just had a litter of puppies. This happened Jan 18th. The Pitbull X Chow is very aggressive. It mauls other dogs The caller said it is not the dogs fault. He think she is frustrated and it causes aggressive tendencies because it is not trained properly. This dog lives the same floor and the caller has two dogs of his own and is scared for their safety and this a dog friendly building and lots of dogs. The owner lets him run off leash. The owner of the Pekingese told him that the vet bills totalled \$1,500 and he just laughed at her, used derogatory terms and told her to F off, that he is an s.22(1) and to try and get the money from him. Its a big joke to him. The owner of the Pitbull is s.22(1) and dog's name is s.22(1) The Pitbull is not healthy, has sores and scratches. He call SPCA regarding the welfare of the dog.</p> <p>Clerk notes: I ran the owner name and nothing came up in our system.</p> <p>Note ACS37: anonymous, no way to contact COMP or DO, closed</p>
2020 192267 000 00 DG	Holding Stray	s.22(1)	Jan 31, 2020 19:20:33	<p>Holding Stray - s.22(1) In their back yard crying. The dog is not contained. They had him in the house but cannot keep him there.</p> <p>ACO11 called and they cannot bring the dog in the house and also cannot drive to any Veterinary Hospital. COMP will secure the dog on the patio.</p>
2020 192554 000 00 DG	Containment/Aggression	s.22(1)	Feb 1, 2020 15:59:09	<p>Containment/Aggression - white and brown, and also brindle, Pitbulls, Citizen s.22(1) is calling on behalf of a friend s.22(1) that lives in s.22(1) Citizen walks his friend's husky dog for him 3 times a day. He is reporting that there are two separate owners living within s.22(1) called s.22(1) at both s.22(1) that let their pitbulls run free in the common hallways of the building and also in the outside area for residents off of s.22(1) Citizen said that this morning at approx. 9:00 AM on February 1, 2019, he was coming back from a walk with his friend's Husky dog, when he saw 2 pitbulls, one named s.22(1) (white and brown) and one named s.22(1) (brindle) off leash in the front yard of the building. The owner's name of these two pitbulls is s.22(1) They're not sure if he lives in the s.22(1) s.22(1) But both buildings share a common outdoor space. Citizen yelled at the owner of the pitbulls to put them on a leash. The owner of the pitbulls yelled back but eventually took them inside the building. Citizen is very concerned for safety since the husky dog has been attacked in the past by the pitbull named s.22(1) (back in September, 2019). Citizen mentioned that there is also another resident living in the building that has one small white and brown male pitbull that is also often off leash in the hallways and outside. They have spoken to the management of the facility, but nothing seems to ever change. They are supposed to be on leash, even within the facility, at all times. Citizen said staff at s.22(1) would know exactly who these pitbulls are, and who their owners are. Citizen said all 3 pitbulls are aggressive, and they are having to check the hallways and outdoor space to make sure it's safe before exiting to go for walks. CLERKS NOTES: Dispatched to ACS 12 by radio for assignment. Dog complainant references as walking for his friend is currently licenced with no history, there are only two dogs currently licenced at the address's provided, neither fitting description or details provided for alleged offending dogs - DB</p>

2020 193692 000 00 DG	Animal Attack	101 E WATERFRONT ROAD	Feb 4, 2020 12:38:24	<p>Animal Attack - CASE CLOSED PENDING IDENTIFICATION OF DOG AND DOG OWNER - CRAB PARK - Grey Pitbull - Punctured wound in citizen's dog's neck. Citizen was attacked directly. Citizen was running in Crab Park with his dog at 8am on February 4, 2020. Out of nowhere, an off-leash grey 100 pound pitbull came up to them and attacked his dog by biting his neck. His dog now has a punctured wound, but no blood or anything. Citizen is not injured. The grey pitbull was wearing a human t-shirt and the owner appears to be a s.22(1) who may not speak English. Citizen says he frequents the neighbourhood and park. Citizen had to separate the two dogs by grabbing the pitbull by the hind legs and that's when the pitbull's owner was able to take control of his dog. Citizen is concerned because the dog weighs just as much as his owner and does not seem to be able to physically handle his dog. The owner started cussing in s.22(1) afterwards. CLERKS NOTES: There is a DL associated with complainant but it was cancelled, current DL associated with different person is in renewal status, complainant isn't on the current DL. Dispatched to ACS's on duty for assignment - DB</p>

				Human Attack - NO STATEMENT - Blonde pitbull. It was around 11:20pm on Friday April 24th. I was standing in the elevator going down to the lobby in my building. When the elevator doors opened to the lobby. A large blonde pitbull came sprinting towards me. It came inside the elevator and bit into my pelvis and wouldn't let go until one of the owner's grabbed her leash. From my understanding, security footage was recovered from the building at the time of the incident. According to the security footage, upon entering the building, the two owners did not have the dog on a leash. After the dog bit me, I was in the lobby with the female owner trying to deal with the pain. The owner apologized and offered me a bandaid. We did not exchange any contact information. The owner did tell me that they are aware that the dog has a fear of people coming out of elevators yet they did not keep the dog on a leash when they entered the building near the elevators. According to the building maintenance man, the footage shows the dog is over 30 lbs which is against building policy as the limit of size for a dog in the building is less than 30 lbs. The maintenance man also confirmed that the couple living in the building do not own that dog as the dog is one of their parent's dog that they are watching. The dog left two marks on my pelvis area as well as a hole in my vape. I have attached photos of the marks on my body as well as the device.I can be contacted either through phone or email: s.22(1)

				Human Attack - grey and white. pitbull terrier. A staff member was attacked at approximately 4AM when taking a tenants dog out for a walk.
				Staff was going to help the tenant by taking the dog for a walk(as the dog was whimpering). When walking the dog the dogs leg was caught up on their leash and when the staff was untangling the leg and kneeling down in front of the dog the dog lunged at their right forearm. The dog bit the back of the forearm and chewed a large piece of flesh out exposing the muscle.
				Citizen said that the dog is yelled at and mistreated(not taken for walks and defecates/urinates in hallways or tenants suite). Suite is also not large enough to accomodate the dog. Dog is in room s.22(1) in the building.

				Containment/Aggression - Black/Red Rottweiler - PS Description: At 3.30 this afternoon I wanted to go outside to do some groceries. So when I opened my door, I saw the owner of the dog and two more ladies outside their house along with their dog. From previous experience, I knew the dog was violent towards me so I stopped in front of my door and waited for them to take their dog inside their house. The dog wasn't on the leash so I didn't dare to move. The guy then held the dog and they asked me to go. I then asked them are you sure and they said. After that, I locked my house and went out. After crossing one house through the footpath, I heard a scream and saw the dog running after me. There was no leash what so ever and as soon I realized the dog is after me, I couldn't do anything other than standing. The dog tried to bite me and push me with its furious barking. I fell on the road and twisted my ankle. This thing continued for almost 20 seconds which felt like one hour to me. Then the owner came running and took the dog and since then I haven't been able to walk and I have to do an X-Ray tomorrow of my right leg. For this dog, I have been psychologically ill and I am scared whenever I come back home. I have contacted you guys before regarding this and I don't know how long I have to suffer for this. Please I request you guys to do something about it. 				Animal Attack - The incident took place at an off-leash gravel park at 1st Avenue and Scotia St. directly adjacent to Red Truck Brewery at approximately 1:16pm on Tuesday, May 26th, 2020. I entered the park with my s.22(1) where I saw 3 women and several dogs, all of whom were there together. The woman and owner of the Rottweiler, who was later identified as s.22(1) informed me that her "puppy didn't know their own strength". s.22(1) I have frequented this park since adopting my puppy and know my puppy is comfortable around larger dogs and rough play so acknowledged her statement and entered. As my puppy went over to introduce herself, without ever making contact, the Rottweiler lunged in an unplayful, predatory manner and started to give chase as s.22(1) yelped incessantly and ran until she was cornered at the entrance of the park. I attempted to separate the two but was unable to as the Rottweiler had latched on to my puppy's leg. Luckily, a good samaritan ran over from across the street and assisted me, distracting the Rottweiler and giving me enough time to get my puppy out of the park. The incident happened over the course of a few minutes. My puppy defecated in the process, sustained several punctures, and after giving a few painful steps, refused to walk. The good samaritan gave me his number, I carried my puppy back to my apartment, got my car keys, and got her to the vet immediately (Vancouver BCSPCA Hospital) where they were able to tend to her promptly. As she was not putting any weight on her front leg, they suspected she may have sustained a broken leg and sedated her for x-rays. Thankfully, she didn't have a broken leg but was put on antibiotics and pain killers for a week with a follow-up exam to check her progress. As per the suggestion of my vet, I am filing this report as the dog engaged in predatory behaviour and not rough play. Had it not been for the good samaritan, I don't think that s.22(1) would have been able to assist me in getting her dog off of my puppy as she is s.22(1) and her dog was unresponsive to her commands. I feel obligated to file a complaint as I feel fortunate that I was able to separate them within a minute of the altercation and that s.22(1) will make a full recovery, but in a large park with a smaller dog or child, the outcome may be different. CLERK NOTES: s.22(1) is d/o of alleged attacking dog licenced under tag# s.22(1) History on DL. Yesterday afternoon (Sunday June 21), my family was having a picnic near the playground in the ON-LEASH area of Burrardview park. At about 5:30 p.m. a large black Rottweiler (or perhaps a Rottweiler mix) came bounding up the hill (from the off-leash area and into the on-leash area). He ran onto our picnic blanket to try to get our pizza. He then knocked over our s.22(1) daughter who was standing up with a slice of pizza in her hand and tried to grab the pizza out of her hand, but the dog bit her hand instead, leaving a red bite mark. Our daughter began screaming and my husband immediately picked her up while I sheltered our other daughter. The dog remained near us eating the pizza until another person nearby grabbed him and led him away. At no point did the dog's owner attempt to retrieve or control the dog. Furthermore, he threatened to physically assault my husband when my husband asked him to leash his dog or leave the park. He also refused to give us his name or contact information, but we took a photo of the owner and the dog, which is attached. Last night at approximately 10:15, my dog (on leash) and I were chased by a large pit bull type dog as we rounded the corner of 12th and Kingsway past the Biltmore. The dog was with a group of people (possibly residents or guests of residents) at the Biltmore Hotel. The group of people were hanging out around the front door of the residence there. The dog was off leash and charged about 50 feet at us as we came around the corner before its owner was able to catch up to it, grab it and pull it back. This is the second time my dog and I have been chased by this dog in approximately the same location. The first time was approximately 1 week ago about half way down the block towards the garbage area of the Biltmore. The dog was also off leash on that occasion. There are many children and dogs in this neighborhood - I certainly expect that something can be done about this dog before an injury occurs. In the interim, I am fearful of walking on the sidewalk s.22(1) due to this terrorizing dog.
				Containment/Aggression - NO VICTIM STATEMENT - (Changed from Aggressive Not Muzzled) - s.22(1) here. The incident happened over the course of a few minutes. My puppy defecated in the process, sustained several punctures, and after giving a few painful steps, refused to walk. The good samaritan gave me his number, I carried my puppy back to my apartment, got my car keys, and got her to the vet immediately (Vancouver BCSPCA Hospital) where they were able to tend to her promptly. As she was not putting any weight on her front leg, they suspected she may have sustained a broken leg and sedated her for x-rays. Thankfully, she didn't have a broken leg but was put on antibiotics and pain killers for a week with a follow-up exam to check her progress. As per the suggestion of my vet, I am filing this report as the dog engaged in predatory behaviour and not rough play. Had it not been for the good samaritan, I don't think that s.22(1) would have been able to assist me in getting her dog off of my puppy as she is s.22(1) and her dog was unresponsive to her commands. I feel obligated to file a complaint as I feel fortunate that I was able to separate them within a minute of the altercation and that Lemon will make a full recovery, but in a large park with a smaller dog or child, the outcome may be different.</p> <p>CLERK NOTES: s.22(1) is d/o of alleged attacking dog licenced under tag# s.22(1) History on DL. Unable to find licence for complainant with phone number or email given - SK</p>

The dog bit through her slacks and were soaked with blood. The hospital stitched her up, gave her a tetanus shot and antibiotics. She was walking on the bike path by the Concession Stand at Sunset Beach. She stopped to take a picture of the flowers and out of nowhere she felt a pain in her leg. The dog with no warning came up and bit her. The owner was lying the grass and was not holding the leash. He got up and said "why does she always do that?" He said he was going to the washroom and then took off. There was a witness who saw and helped her call 911 waited for her. There happened to be a fire truck nearby and they attended to her while they waited for the ambulance. The dog bit through her slacks and were soaked with blood. The hospital stitched her up, gave her a tetanus shot and antibiotics. The witness has seen the dog before and thinks the owner is s.22(1)</p> <p>ACS37: phoned the complainant and advised a call had been assigned.</p> <p>At Large - Citizen advises that the a medium white pitbull type dog was wandering loose. They tried knocking on the door but there was no answer. Then after the dog was on the deck at the house so it appears like the owners just let it out to wander and then brought back in. There is a day care right across the street so that adds to the concern.</p>

				<p>Animal Attack - NO STATEMENT - light grey pitbull. The address and phone number I provided are mine not the dog owner who attached my dog. I also live s.22(1) from where the attack happened. The attacked happened on Thursday September 24th at about 9:30 am on Abbott street, between west Hastings and West pender on the west side of the street on the sidewalk right at the opening to the alley there next to the Pint. I was walking down Abbott street with my two small dogs on their leashes, just as we began to pass the alley it so happened that at the same time a grey pitt bull was leaving the alley with their owner. That is when the dog attacked, it appear that just the proximity between this dog and walking close to my dogs is what initiated the attacked. As In nothing happened other than us walking by the dog which we had no way of knowing was there. It was very vicious attacked that happened super fast the pitbull broke free from the owner, they were on leash but the owner obviously did not have control and let go of the leash. My dog is small half pug was picked by the neck by the pitbull. My dog was pulled out of his collar. The dog was very angrily just biting my dog hard to explain as I it was happening so fast and I was trying to grab the dogs. I managed to grab the pitbull and pull the two dogs apart. I could feel that the pitbull had a tight gripped on my dog as I felt it as I ripped them apart quickly. I've had my dogs for 11 years between the two of them and this was no dog park brawl. I was worried this dog was doing to kill my dog as the attack was happening. I did not at first see the wound as my dog as thick black fur and I was in shock. I found the wound about an hr later and took my dog to the vet. See pictures attached. Since my dog is half pug he has a lot of extra loose skin around his neck, we think that's what saved him as the dog had him in his mouth off the ground, by his neck and was probably mainly biting his loose skin and not his body. So we think the damage isn't to severe under wound. But if he did not have that loose skin the damage would of been much worse to his muscles and arteries. He's on medication and bandaged up, if he heels well the vet is hoping he will not need surgery. I would never want to be part of getting a dog put down. I've lived in s.22(1) for a several years now I've seen this dog before many times. This dog growls and gets very aggressive anytime someone walks by with another dog. I am very worried that this could happen again to either one of my dogs or that it could happen to someone else who lives in this area with a dog. And it could be worse next time it happens. This dog's owner was female, I did not get their information at the time unfortunately. First because was in shock and didnt see a wound and second because this is the type of person I do not feel could afford to pay for a vet bill. s.22(1)</p> <p>s.22(1) Please let me know if you need any other information. I noticed some movement out of the corner of my right eye and turned to see an open gate and a large pitbull charging towards me. This is one of my worst nightmares. I ran west looking for a yard with a gate where I could go but there wasn't one. The dog was coming fast so I just ran into a yard and was screaming at the top of my lungs since seeing the dog coming. The pitbull and my dog tussled for a bit but there was no injury. The owner must've heard my screams and came running across the sidewalk to get her dog (which didn't appear to be wearing a collar). The dog seemed older and appeared the right eye was missing. He was easily obtained by the owner. I've seen this owner walking her 2 blue pitbulls in my neighbourhood before although I don't know the dogs. My dog was attacked a couple of summers ago by 2 pitbulls so I'm extremely fearful. It was distressing to have this dog charge out of its yard and not sure why the gate was open and the dog loose. I was lucky that my dog was not injured. CLERKS NOTES: No dogs currently associated with address provided or on the s.22(1) that fit description of alleged offending dog. 2020 313364 000 00 DG	Animal Attack	s.22(1)	Nov 3, 2020 14:04:03	Animal Attack - Brown unsure. I was at Nelson dog park. My dog was playing with another dog, then a third dog got in the middle. The third dog (attacker) bit my dogs neck, and hind leg. When the attacker became involved, the one that my dog was playing with immediately backed off. The attacker wrestled my dog to the ground and latched on to my dogs hind leg while she was trying to escape the attack. The owner of the attacker dog had to pull her dog off my dog's leg. This incident resulted in emergency vet services. At the time of the incident, the attacker dog's owner admitted responsibility for the incident & provided me with her contact information and is now claiming that her dog is innocent and she's "sorry that happened and dogs are dogs". It was clear that this dog is aggressive towards other dogs and should not be at the dog park in the first place.

CLERKS NOTES: Victim dog in renewal status since Oct/20, dispatched to ACS 37 by jabber for assignment - DB UPDATE: Lagan 101014751825 received with updated info from Victim's owner - white, short hair, with spots/markings that were other light grey or light brown, pitbull looking - PS Description: owner: s.22(1) s.22(1) have a havanese/poodle mix, 11lbs. We were walking towards the Queen Elizabeth Park/Bloedel Conservatory parking lot, along the right side of the water fountain (on the side where the Chapel is). My s.22(1) was leashed. The bigger white dog approached us, off-leash. Almost right away, the dog was aggressive and tried to dominate my dog by putting its mouth around s.22(1) Then when I saw that the bigger dog kept trying to bite, I pulled on the leash to get s.22(1) close to me so I could pick him up. My leash is 4' long. I hugged s.22(1) to my chest, with my arms crossed in an "x" in front of him. The bigger dog still tried to lunge at my dog by jumping on my body. I kept turning to my left to shield my dog. I was trying to walk away but the bigger dog did not stop jumping up at us. When the bigger dog managed to bite s.22(1) again, this time, from his left hip to bum, I used my body to come between them and eventually the dog released its grip of my dog. We then rushed towards the car. That's when I heard a voice saying something along the lines of, "hey, what are you doing?". I thought he was talking to his dog, but he meant the question for me. I told him that his dog has bitten my dog but the man denied it. He insisted I was attacking his dog. He uttered some more aggressive phrases but I kept my focus on getting my bleeding dog to the car. He made sexist comments, like "you're just a woman, what are you gonna do about it". It was as if he was purposely agitating me to get a rise or to create conflict. I did not feel safe in his presence and continued to get into my car as he yelled. - Updated ACS 37 by jabber that I added more info - DB

2021 190688 000 00 DG	Holding Stray	INTERSECTION - Wall St and Trinity St	Feb 10, 2021 09:11:12	<p>Holding Stray updated from At Large - Brown and white Pit Bull. In front of property but not contained. Caller advised that a few folks have gathered around the stray but are unable to contain or put a leash on it. The stray is taking a treat from one of the bystanders but they don't know if it will take off. Most folks are on their daily morning walks and cannot stay for extended period of time with stray. 0852 hrs Update: Citizen is currently at Trinity and Wall st and called to get an ETA as she is not dressed for the weather and is outside. Spoke to animal control at 604.871.6861 who noted an officer is on the way and eta would depend on traffic, possibly 5 to 10 mins.</p>

				Human Attack - DOG OWNER UNKNOWN - brown and black Rottweiler. s.22(1) was bitten in the middle of her left thigh. She says it was very painful and has already sought out medical attention. s.22(1) was doing her exercises in the park when suddenly the rottweiler came up to her and bit her left thigh. She is unsure if the dog was leashed or not and says she wasn't paying attention until she was bit. She says she has seen the owner in the park before always at the same time. She says his name is s.22(1) and she's been told he is the dog walker. He comes with two rottweilers. The one that bit her is named s.22(1) At first the man came to apologize but when s.22(1) asked for his phone number and s.22(1) could see her injuries he then refused to give his information and fled. s.22(1) said it was very painful but she followed s.22(1) She said he eventually went in the back yard of s.22(1) but when she knocked on the door no one came. She is not sure if he actually lives there or if he was trying to hide out and lose her from following him. s.22(1) later talked to two friends from the park and they told her that this dog has attacked others before. s.22(1) says many people in the park would recognize him as he comes same time everytime. She hopes we will investigate further. She filed a report with VPD, VA21-25520.

				Human Attack - Black pitbull. I was walking on the sidewalk outside the Beaumont Studios at 316 W. 5th. A woman was headed inside, and trying to get her dog, who was off leash, to come to her, but he wouldn't. As I walked by, he (she?) jumped up and bit me on the arm. He jumped up a couple more times, and I fended him off until the woman got ahold of him. I didn't think I was injured, and I just left. I got back to my office, and saw I had two small puncture wounds. I've made an appointment at a clinic tomorrow to get it looked at. I didn't really think of it at the time, but if it were someone smaller, or older, they could have easily been knocked down - it's a big dog and it bit quite hard (I had a big coat on). So I'm not sure what to do - I just don't want anyone else to get hurt. You can absolutely contact me for more information. Clerk notes: the original address on the Lagan was 316 W 5th AV but was updated to 2111 Alberta ST, no DL found at either location - SK

				Human Attack - NO STATEMENT - Only VIDEO RECORDINGS - On the night of Friday February, 19th approximately 11 pm outside my apartment building I was attacked by the dog of a former resident. My boyfriend and I were walking along s.22(1) s.22(1) I noticed the owner and the dog coming around the corner from the entrance of the building, and the dog was jumping up and biting her arms. She let the leash go and the dog walked ahead of her a bit, I don't know if the dog bit her again, but as we were passing, the dog came up and started biting my forearms too. The owner had tried to get the dog away from me but I was left with eight lacerations (calling it that because by my own observation, the skin is torn and jagged where the dog had bitten) around my wrists and elbow. A staff member of the s.22(1) apartments saw to my wounds right after the incident when she just arrived to work at 11 pm. I don't know her name either, but she cleaned off the blood. The police arrived and they talked to the first aid attendant and reviewed the footage with her afterwards. I was told to wait for the paramedics so I did. Unfortunately I didn't go to the hospital or to see a doctor afterwards as it took quite a while for the paramedics to arrive. Being someone who wouldn't have known what to do after that and the first aid attendant at the building saying there weren't any puncture wounds, I questioned whether a hospital visit was necessary, and I wasn't able to think about what I would need to do to report the incident. I do not know the owner's name or contact info, but the police were contacted right after the incident took place, and arrived pretty quickly after they were called. The police file number is VA21-29761 The police reviewed the video footage with a first aid attendant I believe after they were done talking to me. I was pretty panicked right after the incident happened, so I only did what I was told, rather than thinking about what I should do like taking pictures of the injuries. I believe the dog attacking me was an accident, meaning I don't think the owner meant for that to happen to me, but I have seen the same dog get aggressive on another occasion towards her. I don't remember when it happened about a month or so ago, but I got on the elevator on the third floor in the same building, and she was on the elevator already with her dog, I believe they were going to the fourth floor, but the dog was confused, walked off the elevator and she called the dog back onto the elevator. The dog came back but was visibly frustrated, as it jumped up and started biting on her arms. I apologize for not having photos from the night it happened, or medical records that would have been helpful for investigation. I was unsure of whether I felt an investigation from animal control should happen, I didn't feel confident that I had the support of my immediate circle to report the incident as soon as I should have, or to get medical attention straight afterwards.

While it is understandable s.22(1) dog would try to defend her in this situation, the fact that the dog still managed to injure s.22(1) despite having a muzzle on adds to the growing safety concerns the dog has presented within the building recently. - s.22(1) s.22(1) manager s.22(1) notified ACO 41 directly of incident.
2021 215462 000 00 DG	Off Leash/Aggression	s.22(1)	Apr 2, 2021 12:23:50	Off Leash/Aggression - NO STATEMENT - Brown Medium Pittbull. Citizen was waiting for elevator. Dog was in elevator, off leash, coming up with owner. Owner never had control of the dog and when citizen went to get in to the elevator, the dog started growling at him and charged citizen up against the wall. The owner was able to intervene. Citizen said that this dog is known amongst residents as being aggressive and police have dealt with the owner on other occasions. There is video footage of this incident that the citizen is going to email to Animal Services and is also available through the concierge of the building, if needed. Citizen believes that the pitbull could possibly have a litter of pups in the suite as well, since they can hear whining from inside the unit. Citizen didn't know if there were welfare issues, but was aware that SPCA is the one to contact if that is a concern. Citizen is more concerned about the aggressive behaviour of this pitbull. He said there are children and other dogs in the building. Dog that lives in s.22(1) charged citizen up against a wall and was aggressive. The dog did not bite citizen as owner was able to intervene, but he's concerned that it could potentially injure a child or other dog, in the future. Incident date: 04/02/2021 11:40am. 				Animal Attack - NO STATEMENT - Injured. White Pitbull x PS Description: I was in our lobby waiting for the elevator at @ 8:15 this morning. When the door opened up this dog came flying out not on a leash and attacked my little 5lb dog who was on leash. The two people with the dog tried to get their dog under control but it took a while. He got ahold of my dog twice in the process. I didn't notice any problem with my dog at first but an hour later i noticed blood all over his right rear leg. I took him to Atlas Vet and he is having surgery this afternoon to repair a ligament and close the very deep wound. s.22(1) is contacting the owner of the dog on my behalf.

				Animal Attack - Black Pitbull type dog - 6 puncture wounds and bruised neck to his husky. Incident Location: McGill and Slocan Street Incident Date: 9:30pm on April 16th 2021 VPD file number: 21-63187 Attacking Dog: Black pitt-bull style. White splashes. There is a blue collar on him. 90 lbs. Dog's name is s.22(1) Owner of Attacking Dog: Still trying to find it out. TBD. They are about 9 houses away from citizen apparently. Two people there with attacking Dog. Man gave business card and his name is s.22(1) Citizen left message for s.22(1) Apparently this guy knows the owner (woman at the scene) but hasn't responded to citizen's phone call or email yet. s.22(1) tried to pay off citizen \$150 and the other incident that took place earlier - the same guy tried to pay off previous incident by trying to pay \$300 to the woman. Incident Details: s.22(1) had just gone to the corner store with his 2 dogs. Attacking dog ran across the street and directly attacked his 80 lbs Husky. s.22(1) was able to get the dog off his dog but it was quite a fight. Meanwhile another fellow had come to help and went and got the attacking dog off their dog. That person was s.22(1) He gave his business card to citizen and tried to pay him \$150. He said he would get s.22(1) in touch with the owner's information. Neighbour who is a nurse patched up the Husky last night. Husky went to the urgent care centre today and had 6 puncture wounds. The neck was shaved and the dog looks very unpleasant and has antibiotics and pain pills. Coincidentally today s.22(1) ran into a woman who had a similar incident with the same attacking dog yesterday at 4pm. 				Animal Attack - NO STATEMENT - Not injured. Large tan and white pitbull. There was a dog scuffle as the caller walked through the common lobby with his dogs. Caller will check his dog for injuries after the call as the dog is crying. Dog was on leash at time of attack, no cruelty concern. Caller believes this dog is dangerous because the owner can not control it. Caller was walking into the lobby of the building with his dogs but did not see the attacking dog and it's owner sitting in the corner. The dog slipped out of it's leash and came towards the caller's dogs. The female owner of the attacking dog came up and was kicking the caller in the head as he was trying to break up the scuffle. The incident should be on video from the building's security footage. Caller has had previous incidents with this dog/owner as related to court file 73488.

2021 247402 000 00 DG	Off Leash/Aggression	s.22(1)	Jun 9, 2021 11:41:57	Off Leash/Aggression - Over the past year, owners have walked this large dog, named s.22(1) unleashed around s.22(1) and the neighbourhood. Our family feels uncomfortable with this and we avoid going near the dog if we see the dog. For the past few weejs, we have noticed that the dog is walked unleashed between 7am-8am on the northside of our street s.22(1) and traverses through our front lawns. On one occasion recently, as I was setting out the water sprinkler at around 715am, the dog came very close to me on our property. It was not aggressive but it startled me and the dog was unleashed with the owner somewhere further behind on the street. If my young children were outside with me then I would be concerned that something would happen. Please advise as we would request that the dog be walked leashed. Thank you. dark brown/black pitbull (not confirmed, just based on appearance)

2021 257968 000 00 DG	Animal Attack	s.22(1)	Jul 6, 2021 09:16:55	Animal Attack - tan/brown dog. I was outside of Purebread coffee shop at 159 W Hastings St. Vancouver with my s.22(1) waiting to pick up a coffee on Sunday July 4th around 10:00am. A man and his pit bull walked past us and the pit bull attacked s.22(1) unprovoked. He bit s.22(1) on the neck and face, lifting him fully off the ground and pressing him up against the side of the building s.22(1) was screaming in pain and myself and bystanders were extremely shaken by the incident. The man just walked away with his dog, never stopping to ask if we were ok despite bystanders yelling at him to stay put. One of the bystanders was able to capture him on video as he walked away. The police were called and luckily they were already nearby as they had received another call about a man abusing his dog in the same area (I am unsure if it was the same man but they suspected it was). I took s.22(1) to the emergency vet for testing and to receive antibiotics and pain medication. He has injuries to his neck and mouth and is emotionally very traumatized but luckily he was not fatally wounded. The police followed up with me and said they found the man and talked to him but there is nothing they can do as it is not a crime. They said they talked to the staff at the s.22(1) s.22(1) where he lives and they said this is not the first incident with this man and his dog. The police filed a report with the SPCA as well however I am not sure if the SPCA investigates dog attacks or just animal cruelty? I am very worried this dog will attack again, it was very aggressive and I was shocked that it would go after such a small dog that obviously cannot defend itself. The police said the man tried to deny it was him but they had video evidence of him. So obviously this man has no remorse and will likely not do anything to prevent future incidents. I believe this is a matter of public safety as this man will be roaming the streets of the downtown east side and the dog could do serious harm to other animals and humans.

The elevator door opened and my neighbour's dog lunged in towards my small senior dog. I put myself between the dog and my dog and hoisted my dog up by the leash to get him out of harms way. The owner pulled the dog back and proceeds to smack the dog on the nose as he was unable to control the dog. I told the person to stop hitting their dog and they noted that they were discipling the dog. I proceeded to the lobby and reported the incident to the building front dest and was informed that the dog was in other altercations which have been captured by lobby video cameras. The owner came to the lobby and proceeds to berate me for standing by the elevators and refused to acknowledge that his dog reactive dog should be wearing a mussel for their own and others protection.Luckily my dog was not injured in this incident but I am afraid as the owner does not have the necessary tools to control their dog, or the willingness to accept responsibility for this situation a repeat of a similar incident with more detrimental outcomes maybe inevitable.

The owner of the dog ran away. At the beginning of the situation the owner of attacking dog was very calm. He gave the citizen s.22(1) his name and number BUT then advised them to go home and take care of the dog. Attacking dog owner said if you go to the vet they will charge you a lot of money. The attacking dog owner says he was going through some issues and he was broke not sure if this is true or not s.22(1) not sure if true or not. Citizen s.22(1) says it appeared he was trying to make himself vulnerable but no idea. After this he went to check if his dog was okay but she was bleeding from the mouth not much but there was some blood and punctured holes on her face (dogs face). He told the attacking dog owner this that he would be responsible for the associated vet costs and then he pretty much went to the other side of the spectrum from behind calm to being aggressive. The owner of the attacking dog stood about an inch away from s.22(1) face and said something like this was not his problem and he had two options take care of his dog at home or just go away and then he left. And at one point he thought the attacking dog owner was going to punch citizen in the face (but never did). Also advised to tell VPD and citizen s.22(1) has reported it to VPD. VPD called citizen back an hour after advising to call the City. Aggressive dog - may attack more dogs or people. Citizen s.22(1) is concerned about his dog as well but her face was wounded. Citizen is worried dog and dog owner are aggressive and it seems like dog owner of attacking is creating stories to get sympathy (but not sure). Exact location was in the lane behind the property which is s.22(1) (this was not found in VanMap). Medium to large in size mostly medium. Unsure if animal cruelty issue the owner of the attacking dog says he was trying to rescue his dog (not sure what this meant though). Approx. at 1230 PM today was when the attack occurred. *The attacking dog owner's name is s.22(1)(not sure how to spell) and phone number for him is: s.22(1) (not sure if fake number). This dog is an extremely aggressive dog and well it was wearing a basket muzzle it is capable of pulling that it off with its paw. The owner is really irresponsible. The dog was seized last year as a result of an attack on my dog. Scheduled to be put down. The dog was assessed and deemed okay to be in public. The reality is the owner is unfit to own a dog like this and enjoys it when the dog engages in attacks on other dogs. When I returned on the elevator to attempt to get home I stuck my head out of the elevator and demanded that they close their door so that I felt safe and the dog was secured. At this point in time they refused. Then when I stepped out of the elevator the person standing at the door insisting on the remaining it open the door further and gave the dog a command get her. Better known as sick her or attacked her. They would have enjoyed watching that dog attack me and my dog. These individuals need to be dealt with and this dog needs to be seized and put down once and for all before another attack happens. This incident was witnessed by a neighbour and I can get a sign verification from her acknowledging it. I'm in number s.22(1) and the person that owns the dog, s.22(1) That's s.22(1) Vancouver. I require acknowledgement of receipt of this when this is dealt with

My beloved corgi was fenced in and was no threat to any other dog. He could only fit his snout passed the fence. An irresponsible owner let his dog walk up the 4.5 wide foot, 2.5 foot high embankment towards the fence and ripped half my dog's face off. My mother was a witness and asked the owner to stop. She said, "Your dog bit my dog, stop!" but the owner said,"No" and left. My baby had to go straight to Emergency surgery to get his face re-constructed. He did not deserve this and we are in tears. I went to the Chevron gas station today to ask if I could look at the footage and we found the dogs and the owner. We are desperately looking for him. That dog is vicious and should not be allowed in public. What if this was a kid reaching his hand out to pet them and was attacked? No one or pet should be in danger especially in an enclosed fence. s.22(1) no D/L coming up for victim dog based on info provided, updated ACO34 SL - DB</p>

The dog attack occurred on Sunday, October 10, 2021 near the curb-side patio on the north side of the 1100-block Davie Street (approximately 1161 Davie) at about 3:00 in the afternoon. A man was standing near the patio. He had two dogs with him, one larger and one smaller. The larger one was leashed but the smaller one was not. The smaller dog was a pit bull or similar. It was barking aggressively. I walked past on my way to the drug store. I did nothing whatsoever to provoke the dog. Suddenly, it jumped at me and clamped onto my leg, continuing to bark. It took some effort on my part and the part of the man to pull the dog off me. The man muttered that he was sorry. I was shaken and did not attempt to get his name or any contact information. There were numerous witnesses, but no one offered me any support. When I got home, I checked for physical injuries. My clothes were not torn, but there were several scratches and bruises on my leg. 2021 303207 000 00 DG	Human Attack	400 BLK E 5TH	Oct 19, 2021 17:26:36	Human Attack - NO STATEMENT - Witness Report. Medium dark beige pitbull. Citizen witnessed a dog bite while driving along E 5th Avenue, between Guelph Street and St. George Street on October 19, 2021 at approx. 4:35PM. Citizen pulled over to try to help. There was a pitbull pulling on the arm of a small child on the boulevard. Citizen said that the dog's jaw just seemed to be locked and both the owners of the dog and the family of the young girl couldn't seem to get the dog to release it's jaw. They realized that the dog just had ahold of the girl's shirt, so they took the girl's shirt off. The girl did have some scratch marks on her. The owners of the dog tried pinching the dogs jaw and pushing on the pressure point of the jaw to release, but it wasn't helping. Citizen tried reaching and grabbing the groin area of the dog to try to make it release it's bite. The dog did end up biting the woman that was with the owner of the dog on the hand and it drew blood. Citizen said that the dog seemed to be in a shocked state and everyone was screaming. It almost looked like the dog was pulling as opposed to attacking. The owners of the dog were extremely upset and said that the dog is a nice dog and nothing like this had happened before. Citizen just wanted to file this as a witness report in case anyone else reports this incident. She didn't have any contact information for the owner of the dog, or the victim of the dog bite. Dog was on leash at time of attack. Dog had ahold of the t-shirt or arm of a young girl and was dragging her.

Human Attack - CLOSED WITH LA FOR 4.14 - black rottweiler (I think) I’m making this complaint on behalf of one of my s.22(1) who encountered the dog at s.22(1) Vancouver, on Wednesday, October 27th, 2021, when walking to her lesson. He was on a 5-6 foot leash, on the opposite side of the sidewalk from the owner’s house. The dog jumped up on her roughly and left a large bruise on her arm, requiring a tetanus shot and antibiotics. (The attached picture below was taken on the day of the incident; it became larger/puffier in the days afterwards.)

The dog’s owner apologized but said “he doesn’t like people”. My student received his name and phone number (which was given as s.22(1) s.22(1) and agreed to pay for my student’s antibiotics. However, he has not returned her phone calls since that time and we aren’t sure if it’s a fake number (or name).

This isn’t the first time there have been problems with this dog on the street. It has on numerous occasions jumped over the wire fence of the house’s backyard and wandered off-leash. I had a roommate some years back who was cornered by the dog while trying to get into our house; my roommate eventually had to retreat to his car.

Neither myself nor my student wish any harm done to the dog (we truly believe it isn’t the dog’s fault), and hopefully it will not need to be rehomed - but I also want to ensure that my s.22(1) are safe. We’re hoping that the dog owner can be educated about proper monitoring/training, including wearing a red and/or “do not pet” collar to advise others to stay well away, and ensuring that the dog isn’t able to jump over any fencing or is otherwise able to roam off-leash at all.

Please feel free to contact me at the above phone number if you’d like me to connect you with my student (I’m intentionally leaving her name/phone number out of this report for privacy reasons.)

Thanks for your assistance in advance!

Containment/Aggression - WITNESS ONLY - Ryan is a CoV employee for Sewer Ops. Witnessed today at around 8:30am, female s.22(1) owner walking pitbull on the 200blk Abbott. Owner did not have any control over her dog. The dog was lunging at people and other dogs that walked by. Ryan was across the street and believes the dog may have nipped at a black poodle that was passing by them. Saw the owner and dog who he belives may live at the s.22(1) Similar issue witnessed last week as well.
