Subject: FW: Hastings St

Dear Mayor and Council,

Counsellor Swanson has requested an update on the garbage collection and washroom facility status at the 100 Block Hastings encampment. Our teams on the ground have also prepared a [more](#) general update as well, please see below;

1. In speaking with ACCS staff my understanding is that there are alternative arrangements for garbage pick up that have been put in place: the OPS street team is charged with picking up the bins and leaving them at a designated place where COV crews are to pick them up on Columbia and Cordova
2. ENG worked quickly to provide a storage space @ Cordova St along with storage totes for individuals willing to store their belongings and a contract was secured with CleanStart for pick up of larger belongings (chairs, couches, ect).
3. Staff met with PHS yesterday morning with OPS to identify a solution for laundry @ PHS (unclean clothing will not be stored)
4. The washroom at Pigeon Park is expected to open shortly with 7 day/week peer monitoring (staff have experienced delays with current contractor); comfort station hours have been extended; and a mobile washroom trailer is underway. Staff were not successful in locating space for an additional washroom trailer. A mobile trailer will be located on the street in 3-4 different locations. Staff will have more to report after Monday regarding timing
5. Additional storage and drop in space is expected to come online this week

Please do not hesitate to contact me should you need any additional information.

Thanks, Armin
