CALLER PHONE:			Citizen reporting that there are falling trees(that are caught on each other and hung up and hanging over patios) in the City right of way between 3450 SE Marine Drive and 3402 Amberly Place. They are in the right of way that goes in the N/S direction between these two complexes, approximately midway between SE Marine Drive and Marine Way. Citizen expressed that the trees can be clearly identified if you enter in to the right of way and walk down. As the trees were previously dead(and now are broken) they are concerned that they will fall on the houses at 3450 SE Marine Drive (and they are currently leaning towards their buildings on the SW Corner of the complex).
