

File No.: 04-1000-20-2022-325

September 8, 2022

s.22(1)

Dear s.22(1)

**Re: Request for Access to Records under the Freedom of Information and Protection of Privacy Act (the "Act")**

I am responding to your request of June 13, 2022 under the *Freedom of Information and Protection of Privacy Act, (the Act)*, for:

**Correspondence with Sentry Marine and its agents and representatives, regarding the barge stranded at Sunset Beach, for the period of November 21, 2021 to December 13, 2021.**

All responsive records are attached. Some information in the records has been severed (blacked out) under s.15(1)(l) of the Act. You can read or download this section here: [http://www.bclaws.ca/EPLibraries/bclaws\\_new/document/ID/freeside/96165\\_00](http://www.bclaws.ca/EPLibraries/bclaws_new/document/ID/freeside/96165_00)

Under section 52 of the Act, and within 30 business days of receipt of this letter, you may ask the Information & Privacy Commissioner to review any matter related to the City's response to your FOI request by writing to: Office of the Information & Privacy Commissioner, [info@oipc.bc.ca](mailto:info@oipc.bc.ca) or by phoning 250-387-5629.

If you request a review, please provide the Commissioner's office with: 1) the request number (#04-1000-20-2022-325); 2) a copy of this letter; 3) a copy of your original request; and 4) detailed reasons why you are seeking the review.

Yours truly,

*[Signed by Cobi Falconer]*

**Cobi Falconer, MAS, MLIS, CIPP/C**  
**Director, Access to Information & Privacy**  
[cobi.falconer@vancouver.ca](mailto:cobi.falconer@vancouver.ca)  
453 W. 12th Avenue Vancouver BC V5Y 1V4

If you have any questions, please email us at [foi@vancouver.ca](mailto:foi@vancouver.ca) and we will respond to you as soon as possible. Or you can call the FOI Case Manager at 604-871-6584.

**Subject:** SMT - Barge 5000 - Recovery - Communications / Media

Hi Todd & Shane thanks for the call this morning.

The City is receiving multiple media requests as media is seeing that work is being conducted on the barge and have a number of questions / assumptions. Can I ask that if any work is planning to take place that you let us know so we are able to stay ahead of the game and prepare any media updates. Simply providing as small statement mentioning the type of work that is being conducted, days and times I think would suffice.

I know its in the plan but as mentioned this morning its fluid and dependant on a number of factors. When you do provide an update can you reply all to this communication so everyone is aware.

That would be greatly appreciated.

**Subject:** SMT - Barge 5000 - Recovery - Communications / Media

Hi Todd & Shane thanks for the call this morning.

The City is receiving multiple media requests as media is seeing that work is being conducted on the

barge and have a number of questions / assumptions. Can I ask that if any work is planning to take place that you let us know so we are able to stay ahead of the game and prepare any media updates. Simply providing as small statement mentioning the type of work that is being conducted, days and times I think would suffice.

I know its in the plan but as mentioned this morning its fluid and dependant on a number of factors. When you do provide an update can you reply all to this communication so everyone is aware.

That would be greatly appreciated.

Good afternoon all

As you know the weather/seas have not cooperated as planned since 0600 this morning. I have been in contact with the rig and tug at the buoy and they are about to attempt to move along

side the SMT-5000 in ten minutes. They will be deploying equipment and possible working until 1900, pumping designated voids, then rig moved the rig 100' offshore for the evening in deeper water.

All will be returning and back along side at 0700 in the morning.

Be prepared with calls soon.

Regards,

Todd

Hi there,  
Some media are following up with more questions as to what the work actually is. Can we say a bit more on that front? Repairs and pumping out excess water?

Good afternoon all

As you know the weather/seas have not cooperated as planned since 0600 this morning. I have been in contact with the rig and tug at the buoy and they are about to attempt to move along side the SMT-5000 in ten minutes. They will be deploying equipment and possible working until 1900, pumping designated voids, then rig moved the rig 100' offshore for the evening in deeper water.

All will be returning and back along side at 0700 in the morning.

Be prepared with calls soon.

Regards,

Todd

**Subject:** SMT - Barge 5000 - Recovery - Communications / Media

Hi Todd & Shane thanks for the call this morning.

The City is receiving multiple media requests as media is seeing that work is being conducted on the barge and have a number of questions / assumptions. Can I ask that if any work is planning to take place that you let us know so we are able to stay ahead of the game and prepare any media updates. Simply providing as small statement mentioning the type of work that is being conducted, days and times I think would suffice.

I know its in the plan but as mentioned this morning its fluid and dependant on a number of factors. When you do provide an update can you reply all to this communication so everyone is aware.

That would be greatly appreciated.

UNCLASSIFIED / NON CLASSIFIÉ

Hi Kris,

Thanks for sending that message out. I would caution though about using any firm dates/times in any messaging going to the media or social messages simply because as we see this morning, weather can change the timing of activities by a day or two. I think saying what's going on "in the next few days" or "coming days" is safer.

And we are also receiving a significant volume of calls; Krystyna, Godfrey and I are all staying looped in with each other's responses ☺

Thanks,  
Cat

---

Kris

I will revert shortly, currently on-site and weather/waves unsafe. Have Derrick on stby. I plan to provide a daily event timesheet for all to be kept informed moving forward.

**Subject:** SMT - Barge 5000 - Recovery - Communications / Media

\~

Hi Todd & Shane thanks for the call this morning.

\~

The City is receiving multiple media requests as media is seeing that work is being conducted on the barge and have a number of questions / assumptions. Can I ask that if any work is planning to take place that you let us know so we are able to stay ahead of the game and prepare any media updates. Simply providing as small statement \~mentioning the type of work that is being conducted, days and times I think would suffice.

\~

I know its in the plan but as mentioned this morning its fluid and dependant on a number of factors. When you do provide an update can you reply all to this communication so everyone is aware.

\~

That would be greatly appreciated.

\~
