Hello everyone,

I hope you are all well. As I reflect on the last few weeks, I wanted to extend a heartfelt thank you and congratulations on the major milestones accomplished and express my gratitude again for the invitation to be part of this journey together. The public announcement of the Games Hosting Concept on Tues. June 14th was historic. The Greater Vancouver Board of Trade event the following day kicked off the first larger-scale event with the broader public, which included a very engaging, diverse panel of leaders who spoke on the possibility and opportunities of a 2030 Games. There is a lot still to do and working together I know we will get there, lifting us all up.

Subject: Fwd: Jericho OAV

going to be in service by 2030, creating transit/transportation challenges for this site.

Also, more importantly, it is our strong view that a public announcement next week will likely have serious ramifications regarding the long-term success of the development, in particular, with respect to implications for the ongoing and sensitive community dialogue around the Jericho development project. There has been no public discourse on the Jericho Lands development since December 2021, and we anticipate that an unexpected announcement will cause substantial public reaction.

\~

Given the above and subject to the agreement of the First Nations decision-makers involved, we suggest that the COC announcement next week, makes reference that the OAV will be sited on First Nations lands in Vancouver, however, with the specific location to be determined.

The bid proposal currently involves four First Nations – Musqueam, Tsleil-Waututh, Squamish and Lil'wat – and two cities, Vancouver and Whistler, as formal partners, with two other cities, Sun Peaks and Richmond, and four Kamloops-area First Nations as partners. The Canadian Olympic Committee is co-ordinating the proposal and its president Tricia Smith said it will take the lead on drafting an agreement.

Hi all,

~

As requested by Khelsilem, here is a brief analysis of the COC's proposed timeline undertaken by City of Vancouver staff.

~

In short, we struggle to see how there is sufficient time to negotiate the Multi-Party Agreement among at least ten parties before December 2022/January 2023.

~

This presentation has been prepared for the Leadership Assembly member Nations using the best available information we have at this time.

~

We ask that you keep this confidential and don't share beyond just the Assembly members.

~

Feel free to reach out to me if you have any follow-up questions.

Subject: RE: Timeline Analysis

Hi Khelsilem,

~

The Mayor mentioned that you may want me to make a short presentation on the 2030 Winter Games timeline/risks/benefits to you or your Council or some members of the Leadership Assembly. I'm happy to do so, any way that would be helpful to you.

~

If you want me to do this, please reach out to my assistant Katie, copied here, to set something up.

~

Alternatively, I can share a doc that lays this information out, if you'd prefer.

~

Thanks,

~

Karen

(Neil I've moved you to bcc.)
